

Stock Market.

In the Montreal Gazette's commercial article of Saturday we find the following report of the stock market:

Transactions of the week have been unusually small in all descriptions of securities. Most Bank Stocks are freely offered at quotations with but few buyers. Bank of Montreal—Is offered at 129 ex dividend with no buyers over 174.

Bank of British North America—No stock in market.
City Bank—Sellers at 98 1/2. Div. No buyers.
Molson's Bank—Is asked for at 104.

Mechanics' Bank—Large amounts are offered at 108, with buyers at 107 1/2. Latest sales were 73 and 8.

Mechanics' Bank—Has been dealt in at 94 to 97. It is now held for 98, with buyers at 96.

La Banque du Peuple—Is asked for at 105. No stock in market.

La Banque du Commerce—Holders ask 105 to 107 ex dividend, with no buyers over 103.

Quebec Bank—Sellers at 99. Buyers offer 98 1/2.

La Banque Nationale—No transactions. Firm at quotations.

Union Bank of Lower Canada—Small sales during the week at 103.

Eastern Townships Bank—Nominal at quotations. No stock in market.

Commercial Bank of Canada—Has advanced five per cent, closing in demand at 20, with no sellers under 25.

Ontario Bank—Small sales during the week at 98 1/2 and 98, closing dull at a decline of one per cent.

Bank of Toronto—Sellers but no buyers at quotations.

Gros Bank—Is quite nominal at quotations there being neither buyers or sellers.

Royal Canadian Bank—Sellers now ask 102 to a considerable extent at 97.

Canadian Bank of Commerce—Is offered at 104 without attracting buyers.

Montreal Telegraph Company—Remains as last quoted.

Richlieu Navigation Company—There has been a reaction in this stock from the low prices of last week. Sellers now ask 105.

Canada Defence—Notwithstanding the advance in the London market, there is but little change to note in this market. There have been sales of Sixes, currency, at 100. Fives are offering at quotations.

Albany Lumber Market.

REVIEW FOR THE WEEK ENDING NOV. 27.

The receipts for the week have been light, but the boats are working through and it is expected that all on the way will reach tide-water. The shipments have been large and have materially decreased the stock on hand, and, in fact, however, still ample and pretty well assorted.

The sales have been active, the threatened interruption of navigation by ice sharpening the demand from late buyers and inducing increased transactions.

Prices remain as given in our last report. Freighters are unchanged. The rates are: To New York \$1.75; to Bridgeport \$1.50; to Hartford and Providence, \$1.25 to \$1.30. Other places there is no change.

The receipts by the Erie and Champlain canal during the 24 week in Nov. in the years named are as follows:

Beards and Shingles, Timber, Slaves, Beards, 1887, 1888, 1889, 1890, 1891, 1892, 1893, 1894, 1895, 1896, 1897, 1898, 1899, 1900, 1901, 1902, 1903, 1904, 1905, 1906, 1907, 1908, 1909, 1910, 1911, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919, 1920, 1921, 1922, 1923, 1924, 1925, 1926, 1927, 1928, 1929, 1930, 1931, 1932, 1933, 1934, 1935, 1936, 1937, 1938, 1939, 1940, 1941, 1942, 1943, 1944, 1945, PROSPECTUS

ROSE MINING COMPANY
OF MADOC

Capital Stock - - - \$25,000.

Divided into - - - 5,000 Shares.

5,000 Shares - - - \$5.00 Each.

Deposit on Subscription Twenty-five per cent.

GEO. D. WYCKOFF, A. L. MCLELLAN, JAS.

CARL RITCHIE, F. E. KILVERDY, ASA

A. BURNHAM, JR., J. E. O'REILLY, H.

HALE, and HUGH FAIRGRIEVE, are the

owners of the property hereinafter mentioned,

and are desirous of forming a Stock Com-

pany, with the capital of \$25,000, and are

to receive and take in payment for the said

property \$1,350 in cash, and 2,350 shares of paid

up Stock of the said company. The said par-

ties are now taking proceedings for its in-

corporation, under cap. 23, 2728 Vic., and

have much pleasure in calling the attention

of the public to the following Prospectus:

This Company is being formed for the pur-

pose of developing the Mineral Resources of

five acres of land, being part of Lot No. 19

in the 8th concession of the Township of

Madoc, in the County of Hastings, situated

on the main road, between three and four

miles from the village of Madoc, upon which

Gold and Silver have been found in paying

quantities, several assays having been made

by Professor Wyckoff, who selected with

great care this locality as being not only rich

in minerals, but possessing facilities for min-

ing which gives this company peculiar ad-

vantages over many others, there being on

the property a high ridge or mountain of

rock, in which numerous veins of gold-bear-

ing quartz crop out; and instead of sinking

shafts, (a most expensive and tedious op-

eration), drifts can be run from the base of

the ridge, crosscutting the different veins,

giving eighty feet of back to work upon,

which will furnish as much ore as could be

taken out for the next twenty years, and a

cost comparatively small, no machinery being

required to free the mine from water.

This Company intend, as soon as a charter

is granted, to erect a mill house, with suit-

able machinery for reducing and separating

the precious metal, thereby saving the cost

of cartage to other mills, and the great ex-

pense and inconvenience incurred in having

the ore reduced and the metal extracted by

custom mills.

Adjoining this property is a lake from

which an abundant supply of water can be

obtained for all purposes.

Another great advantage in this property

is, that immediately the work is commenced

one can be taken out in quantities more than

sufficient to pay the working expenses and

in that respect alone it will equal if not sur-

pass any of the mines in that district, taking

into consideration the richness and abun-

dantness of the ore, and the many advantages

described above, it cannot but prove remu-

nerative to those who may become interested

in this Company.

DIRECTORS, PRO TEM,

GEO. D. WYCKOFF, ASA A. BURNHAM, JR.,

F. E. KILVERDY, A. L. MCLELLAN,

JAS. CARL RITCHIE, JAS. EDWIN O'REILLY,

E. H. HALE.

PROSPECTUS OF THE
EL DORADO MINING COMPANY
OF MADOC.
(LIMITED.)

CAPITAL STOCK - - - \$72,000,

Divided into 2,400 Shares of \$30 Each.

Deposit on Subscription, \$15 Per Share.

THIS COMPANY is formed, and proceedings taken for its incorporation, under Chapter

23, 27, and 28 Vic., for the purpose of developing the mineral resources of three acres

of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 17,

in the 5th Concession of Madoc. It is situated about forty rods from the celebrated Rich-

ardson Mine. At present, there are two shafts sunk on the property about 200 feet apart,

one 40 feet deep, and the other 35 feet deep. There is at the present time about 500 tons

of ore already mined. The owners of the property have had one ton of this quartz crushed

and amalgamated by J. E. Ellis, on King Street.

There is no question whatever but that there is also a large quantity of Silver in the

same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not

known how much Silver there is in the ore.

The projectors have determined only to sell sufficient stock to repay the advances, and to

carry on the work satisfactorily. They have thereupon decided to sell only 823 shares of

the value of \$30 each, payable one-half, or \$15, above, on subscription, and the remaining

\$15 on the 1st of January, 1888. Out of the above sales, \$10,000 is to be retained by the

Secretary for working expenses.

In presenting this Prospectus to the public, the Directors do so with confidence, inasmuch

as there is no doubt (judging from the above test), that the returns on so small a capital

will be excessively remunerative.

The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.

established between the two republics, her resources be speedily developed, and she would grow to be a powerful confederate under the wing of the United States. Her citizens, already seriously dissatisfied with the manner in which a distasteful coalition has been forced upon them, would enjoy the right to self-government, reality and emancipation should eventually follow, so that the waters of the St. Lawrence might no longer divide us into two peoples, it could come of the free accord of both nations.

In these days of eruptions, volcanoes, meteors, earthquakes and tornadoes, and the upheaving of mountains, the public mind is prepared for great and sudden events, and such a catastrophe of policy on the part of Secretary Seward would serve to allay the readiness and feverishness discernible all over the country in business, politics, religious and social life. It would carry the heart of the people with it, and be the crowning feat of the Minister's territorial acquisitions, casting all others into the shade. It would not settle at once the Alabama claims, without a war with England, but it would finally swallow up and dispose of Fenianism, finance, military rule, niggerism, impeachment and all the agitating issues that even so much trouble to the incompetent blockheads who are showing their folly in Congress, and go far towards verifying the predictions of Dr. Cummings regarding the approaching millennium.

A Very Lucky Miner.

The St. Paul Press of the 21st, tells the following story of extraordinary luck on the part of a miner named Yethell, who had been patiently hunting for gold in Montana for about two years. The Press says:

In every effort to find the precious metal he had only met with disappointment, and up to last September he had not made a dollar. He had even failed to get the "colours" which is found in the bottom of the pans, and which has lured so many on from month to month. Last June he commenced to work in gulch level, where he hoped to be rewarded with better success. Here he dug day after day alone in the mountains without the ordinary comforts of life, and with no near neighbors to dispute his squatter sovereignty. He worked nearly four months he pursued this laborious and unremunerative task. He was about to abandon it and return home, having barely enough money to carry him to the States. He decided to spend one more day in the gulch, and if he met with no further encouragement to leave for home the next day. In the afternoon he struck what the miners term a "pocket" which is a small cavity in the rock where the melted gold finds a solid base, and its downward flow. Here to his utter astonishment he found a large quantity of pure metal deposited in "chunks." There was scarcely five dollars worth of dust in the whole pocket, but the quantity of pure metal was very large. He immediately removed all the gold to safe quarters and continued the examination. Seeing no further evidence of gold, he pulled up stakes and started home, coming by way of the Missouri river. He expressed the main body of gold to the mine of Philadelphia. To have it assayed and coined. They have notified him that it will yield him \$60,000 in gold. He has some handsome specimens with him. One of them weighs 13oz., and is almost pure gold. This chunk alone is worth \$240. It is a rough, irregularly-formed fragment, and looks as though it had been in a molten state and had run into a fissure of rock and then cooled.

Australia.

Sir Charles Darling, late Governor of Victoria, Australia, violated the instructions of the British Colonial Office, and was recalled. The colonists thereupon, to show their sympathy with Sir Charles, who loved them, not wisely but too well, determined, under the guise of an appropriation bill, to give Lady Darling £20,000 from the Colonial Treasury. The bill passed the Lower House, but was rejected by the Legislative Council, on the ground that Her Majesty objected to the proposed grant. The Ministry thereupon resigned, but their successors, apparently unable to stem the torrent of public opinion, which ran wholly in favor of the grant, had to give way, and the former Minister by last accounts had returned to power.

The Path to Success.

In his "Recollections of a Busy Life," Mr. Greeley gives the history of the establishment of the Tribune, and his own sayings:

On the intellectual side, my venture was not so rash as it seemed. My own fifteen years' devotion to newspaper making, in all its phases, was worth more than I will be generally supposed; and I had already secured a first assistant in Mr. Henry J. Raymond, who—having for two years, while in college at Burlington, Vt., been a valued contributor to the literary side of the New Yorker—had bled to the city directly upon graduating, late in 1849, and gladly accepted my offer to hire him at \$8 per week until he could do better. I had not much for him to do till the Tribune was started; then I had enough; and I never found another person, barely of age, and just from his studies, who evinced so much and so versatile ability in journalism as he did. After a longer men I may have met; a cleverer, readier, more generally efficient journalist, I never saw. He remained with me eight years, if my memory serves me, and is the only assistant with whom I ever felt required to remunerate for doing more work than any human brain and frame could be expected long to endure. His salary was of course gradually increased from time to time; but his services were more valuable, in proportion to his cost,

than those of any one else who ever worked on the Tribune.

The Utica Herald thus comments upon the above: "Mr. Greeley's own example is full of the lessons of economy and industry to all young men. His mention of the career of his first assistant, deserves to be considered by youth who are seeking the path to success. It is not in quibbling over salary; it is not in shirking work and practising hours, and to the perfection of performance of assigned tasks. Success comes from demonstrating one's ability to accomplish results. Salary follows, when the proof has been given that you are indispensable to your employer. Aside from the question of immediate pay, it is policy for every young man to do all the work he can, and do it as well as he can, for so he best qualifies himself to do work, and fit himself for the demands of the future. Mr. Raymond's self-discipline on the Tribune, has been contributing to the building up of the Times, and of his personal fortune."

The paragraph quoted is also noteworthy as a generous tribute from Mr. Greeley to a former subordinate, now in some sense a rival and adversary.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, DEC. 4.

BLACKWOOD'S MAGAZINE.—The contents of the November number are: Brownlow's, part I; At the Alps again; Conversation; Lind Tresselt, part 2; Reynolds's and the portrait painter of the past century; Cornelius O'Dowd; Women in the middle ages; The impending crisis in America. Re-published by the Scott Publishing Company, New York, at \$3 a year.

THE NEW DOMINION MONTHLY.—The December number opens with a sketch of Father Mathew, by Thos. D'Arcy McGee. There is a large variety of other interesting articles, original and selected. The one which is exhibited in the selections, the high tone which pervades its pages, and the character of practical usefulness which it possesses, make it a matter of public interest, that the magazine should find its way into every household in the Dominion. Published by John Dougal & Son, Montreal.

FIRE AND DROUGHT.—Accounts from the western provinces complain of the enormous damage by the continued drought, and the result of extensive fires. The earth is so dry that the surface burns like peat, reducing fertile tracts to a state of barrenness; the flames swept over the country, destroying everything in their course. When there is no fire, the ground is too hard to plough, and fall wheat has not been sown; streams and wells are dry, and men and beasts suffer for want of water.

The House Yesterday.

The Postal Bill, Members' Indemnity Bill, and Intercolonial Insurance Bill, were read a second time in the Senate.

In the House the Committee on Privileges and Elections, reported with reference to the right of Ministers of the Local Legislature to hold seats in the House of Commons, that in their opinion they had a right.

Mr. Langevin brought down returns relating to the Intercolonial Railway and the Hudson's Bay Co. The Commercial Bill was considered in Committee of the whole. Mr. Morris in moving the first clause of the Bill said that the Commercial Bank was possessed of assets more than sufficient to pay all its liabilities in full, if such assets were properly realized and applied. Since the 19th of Oct. \$3,000,000 of its liabilities had been liquidated. The object of the clause was that the charter should not lapse if the suspension of specie payments were renewed within ninety days from the passing of the Act. Mr. Cartier said the Committee had the fullest evidence of the bank's solvency, and he desired the statement to go to the country so that note holders should not be induced to part with their notes. Mr. Cartwright, the President of the Bank, spoke at considerable length, reading the statement which was published in these columns yesterday, and expressed the opinion that if they were granted an extension of time, they would be able to find five whole liabilities, and that the Bank was able to pay forty shillings to the pound. Dr. Parker said the Bank of Montreal had endeavored to cripple the Banks of Upper Canada, and had unfortunately succeeded in this case. Mr. Gibbs a Director of the Ontario Bank, spoke at some length in favor of the Bill.

"He regretted that the President of the Ontario Bank Mr. John Simpson, was not present at the meeting at Montreal, for had he been, he believed the Commercial Bank would still have been in existence." Could

enable further discussion took place upon the Bill, and it was read a second time and ordered to a third reading to-day.

Sir John A. Macdonald, in introducing the resolutions respecting the Intercolonial Railway, said it was useless discussing whether the road should be built or not, as that was provided for in the terms of the Union act. In reference to the clause asking power to raise a further loan of one million, without the Imperial guarantee, it was reduced nearly one-half by the provision of the guarantee act, which requires that the Canadian Government should raise a loan sufficient to complete the road, and put it into good working order. It was important that the railway should be built as speedily as possible. Therefore in order to avoid any objection which might arise in England to granting the Imperial guarantee, on account of the small amount additional the Canadian Government had raised, the Government thought it fit to ask for an amount fully sufficient to complete the road, and thus prevent any delay in securing the Imperial guarantee. He would like to see the fullest discussion on these resolutions, but he intended to-morrow to introduce a bill respecting the railway, and he would ask the House to postpone discussion on the resolutions till then. Resolutions would be incorporated in the bill, and after it was printed and distributed among members there might be a full discussion on the whole subject.

The resolutions were adopted without opposition. It was announced that the Finance Minister would make his statement to-day, after which the Minister of Public Works would invite the attention of the House to the resolutions respecting the North West.

The House adjourned at half past eight.

St. Andrew's Festival.

The celebration of St. Andrew's Society, which came off last night, was one of the most successful that has ever taken place in this country. Not since Burns' centenary festival has there been such a numerous assemblage at any of its anniversary gatherings. Ontario Hall was crowded throughout, the number present being estimated at between 700 and 800.

The Hall was tastefully decorated with banners and streamers and notices of an appropriate character. At the appointed hour, the President, Alex. Robertson, Esq., in opening the proceedings of the evening, alluded in fitting terms, to the objects for which the Society was formed, and briefly referred to some of the achievements which had made the Scottish character the first among the nations of the earth. He expressed great pleasure in seeing such a large assemblage, not only of Scotchmen, but of those representing other nationalities. He announced that the first part of the proceedings would consist of a concert, under the leadership of Mr. St. George B. Crozier, and a ball would conclude the festivities of the evening.

The concert, which comprised several good selections of songs, duets, choruses, &c., then followed. Some of the pieces were excellently rendered, and were received with rapturous applause. As a leader, Mr. Crozier is surpassed by few, and in the choruses his cleverness was at once perceptible. The "La Crosse Waltz," his own composition, displayed a thorough knowledge of musical science. Altogether, it was rather an agreeable concert. When the pipes of the 78th Highlanders appeared on the stage and "tuned their pipes," which breathed forth the shrill notes which thrill the Scottish hearts wherever heard, there was a general commotion throughout the audience. More than one Highlander rose to his feet and kept time to the music of the pipes, while one old grey-headed Scot, more enthusiastic than the rest, took to one of the aisles and gave a "fling" in real old highland style, much to the amusement of the audience.

The concert terminated about half past ten o'clock, and then the floor was cleared for the dancers, who, by the way, comprised a considerable portion of the audience.

A string band from Frankford and the pipers, made lots of music for the "merry feet," which kept tripping away right joyously until nearly morning. One of the principal attractions of the ball room was the "Gillie Callum" or Sword Dance performed by Corporal Macintosh of the 78th Highlanders, which was done in true highland style, and in a manner which showed that he was "master of the situation."

The whole entertainment was a great success, and the Committee of Management have reason to congratulate themselves upon being enabled to place a handsome sum to the credit of the charitable funds of the Society.

In describing an organ, a country editor says: "The swell died away in a delicious sublimation, like one singing a sweet song under the bed clothes."

A CAUTION TO MILKMAIDS.—A man in Kentucky killed a sick cow a few days since, in whose stomach he found a large brass pin, a hairpin, and a quantity of books and eyes. A jury of the neighbors, formally summoned for the occasion, returned an oral verdict that the unfortunate deceased (cow) had properly answered a milkmaid at some period of its adult life. —American Paper.

Presentation.

We have much pleasure in publishing the following correspondence (which will explain itself) between Miss Ockerman, daughter of our old and esteemed fellow citizen, D. Ockerman, Esq., and the Choir and congregation of Christ Church:—

The Choir and Congregation of Christ Church, Belleville, would beg Miss Ockerman to accept the accompanying silver Catechism, as a slight token of their high appreciation of her valuable and gratuitous services as Organist; and also of the faithful, courteous, amiable and indefatigable manner in which her services have been given.

REPLY.

Miss Ockerman begs the Choir and Congregation of Christ Church, Belleville, to accept her thanks for their very handsome testimonial, and would assure them that their uniform kindness and courtesy have rendered her duties as Organist a labor of love.

Telegraphic News.

BY ATLANTIC CABLE.

LONDON, Dec. 3.—All the cabmen of this metropolis have left their stands and refuse to go to work because of an obnoxious regulation which has been put in force, requiring them to attach lamps to their vehicles. The cabmen hold a meeting to-night at Exeter Hall, to protest against the new law, and to take measures for keeping up the strike.

Despatches from India report that a disastrous cyclone visited Bombay and vicinity. In the city many houses were demolished, and crops in the surrounding country were destroyed. The ground was swept bare, and great damage was done to the shipping. Many vessels were sunk.

The notorious Fenian, General Nagle, has been arrested in Sligo, Ireland.

PARIS, Dec. 3.—In the Corps Legislatif, yesterday, M. Jules Favre delivered a brilliant speech against the policy of the Government on the Roman question. He attacked French intervention in the affairs of Italy, and denounced the sending of the expedition to Rome as a violation of justice, and as injurious to the interests of France. He declared that this interference by force hurt the cause which it was designed to help, and involved the Government in complications to escape from which it was obliged to persist in a policy of error, to the general discontent of the country. Instead of assuming all the responsibility in a grave matter, he said that the Government should have first consulted the Legislature.

The staff officers of the French expedition to Italy have all left Rome.

Second Despatch.

LONDON, Dec. 3, midnight.—The Bill for a tax of one per cent on income, to defray the expenses of the Abyssinian war, passed the House of Commons to-night.

Parliament will adjourn on the 7th inst. No additional particulars of the cyclone at Bombay have been received.

The meeting at Exeter Hall to-night was very large. Another meeting was held at Trafalgar Square at the same time. Many speeches were made, and resolutions were enthusiastically adopted, expressing a determination not to submit to the new regulations, and to persist in the strike until the law is abolished. The movement has created quite a social revolution in this city.

A despatch from Gibraltar announces the arrival at that fortress of Admiral Farragut and the United States squadron under his command.

SOUTHAMPTON, Dec. 4, noon.—The steamer "Hammonia," from New York, has arrived.

LONDON, Dec. 4, noon.—Consols 93 ex div; Bonds 71-1-10; 111 C 89½; Exr 47½.

LONDON, Dec. 4, 3 p. m.—Consols 93; Bonds 71½; Exr 47½.

LIVERPOOL, Dec. 4, noon.—Cotton quiet and steady. Breadstuffs quiet.

LIVERPOOL, December 4, 3 p. m.—Cotton firm and unchanged. Lord 48½. Bacon 43. Common Roast 76½. Spirits Turpentine 27½ 3d.

American Despatches.

SAN FRANCISCO, Dec. 3.—The steamship "Great Republic," which sails to-morrow for Hong Kong and Yokohama, carries a full cargo, including 5,000 barrels of flour.

ST. LOUIS, Dec. 3.—The Fenian Brotherhood here have called a meeting of all naturalized citizens for Saturday night, to express their views upon the duty of the American Government towards its utterance calls for duty or pleasure to places within the jurisdiction of foreign governments. It is expected that the meeting will be participated in by persons of all nations.

NEW YORK, Dec. 4.—The European steamers "Baltic," "Triton" and "Manhattan" were sailed to-day by Marshall Murray and bonded on the ground of carrying an excess of passengers.

The bark "Jupiter," from Bremen, 43 days out, with 124 passengers on board, has arrived in quarantine, having four cases of small-pox on board.

All the well passengers of the "City of Cork" were discharged on Monday. There remain 21 in hospital.

The vote yesterday was 104,193, a reduction of about 6,000 from last month, and 31,000 less than the registered vote of the city.

There were 359 deaths in New York last week and 131 in Brooklyn, or about 90 per thousand.

Miscellaneous Items.

\$16,000 worth of tickets for the Dickens readings were sold at New York on Friday. New Zealand has newly completed a railway tunnel a mile and a half long through an extinct volcano.

The revenue and expenditure statements published in the Canada Gazette, show that the Dominion then had a surplus of \$1,260,000.

"No cards" is the parties to marriage notices because the parties placed all their cards before marriage. This is a new theory, and will be generally accepted.

A Scotch doctor has published a treatise, announcing that he has discovered a reliable remedy for diphtheria, and all diseases of minute fungus growth.

Dickens, by taking his usual daily ten miles constitutional, since his arrival in Boston, has provoked comparison with Weston, the pedestrian celebrity. Dickens would probably beat Weston in a race, *currente calamo*, over white paper.

A Lubec correspondent of the *Macdonald Union* says: "The fishing fleet have all returned from the fishing grounds with good fares. The business has been less lucrative the past year. At one time about 200 hogsheads of herring were taken out of the wires."

It is calculated that British Columbia contains about 280,000 square miles, or 179,500,000 acres, of which, up to October, 1868, only about 60,000 acres were settled by white men. The colony covered more than three times the size of the United Kingdom.

According to French advices the vintage has turned out unfavorably. Eleven hogsheads of wine will not make more brandy than seven hogsheads in 1865. The French cognac merchants will not take orders at any price for the present.

A constable in Kentucky, in publishing some personal property for sale, put up a notice with the following clause: "I will return from the 5 to 15th of Jan. my lytle roun horse, or so much thereof, as may be necessary to satisfy said gument."

A BAD SEASON.—Sportsmen—"I can assure you what with the rent of the moor, and my expenses, and what not, the birds have cost me—ah—a sovereign a piece!" "Keeper." "A well, sir! Did it a mairry you didn't kill mair?" "em!"—"Punch."

HYMNICAL.—An extraordinary matrimonial alliance was consummated in the city this morning, between a pair of gushing lovers, whose united ages amounted to the sum of one hundred and thirty years. The happy bridegroom, Mr. James Hunsay, 93 years of age, is a Prussian by birth, and has pursued the occupation of a huckster on the market about twenty years, and thirty years past. The blushing bride, Sally Cole, was a widow, and the comforts and felicity of married life will not be new to her. She somewhat exceeds her husband in age by the slight matter of four years, being nearly ninety-seven. She was also engaged upon the market in the vocation of a "huckster," and it was probably there that tender glances were first exchanged, and the destined couple repaired to their domicile on King William street, where the wedding festivities were proceeding gall when our reporter withdrew.—*Hamilton Times*.

—Hoffman has been elected Mayor of New York.

Brazil, and recently appointed Ambassador to the United States, arrived here tonight from Rio Janeiro. The steamer by which he arrived brings the report that a formidable revolt had broken out in Paysandu.

Telegraphic communication in India, which had been suspended by the recent cyclone, has been restored.

A telegram from Bombay gives a rumor that Theodore, the King of Abyssinia, had ordered the English prisoners in his custody to be executed. The rumor needs confirmation.

VIENNA, Dec. 4.—Count Cravelli, the envoy of Austria, has notified the Pope that the legislation of the Reichsrath must proceed on its course, even in antagonism to the concordat, should the Holy Father refuse to release the Emperor from the obligations of a treaty made before he became a constitutional monarch.

Baron von Beust, in recent despatches, urges the meeting of the European conference without a proclamation, in order that each power may be free to act.

PARIS, Dec. 4, eve.—In the Corps Legislatif today, the Marquis de Moustier, Minister of Foreign Affairs, said that the meeting of the general conference, which France had invited, was uncertain. Should it not take place, the Government of France would be compelled to exact of Italy a literal observance of the September Convention.

NEW YORK, Dec. 5.—The Herald's correspondence from Rome, of the 10th ult., says: What the victorious ecclesiastical and legitimist party aim at just now is nothing more nor less than a dismemberment of Italy, a scheme openly advocated by their journals both in France and Rome. Upper Italy, from the Alps to the Adriatic, would be assigned to Prince Humbert after the abdication of Victor Emmanuel. Central Italy would revert to the Pope, and Naples, with Sicily, would revert to Francis II. It remains to be seen whether the Menabrea Ministry will be able to defend Italy from this impending stroke.

LONDON, Dec. 5, noon.—Consols 93½ ex div; Bonds 7½; 100 C 99½; Erie 48.

LIVERPOOL, Dec. 5, noon.—Cotton steady and unchanged. Breadstuffs quiet.

American Despatches.

NEW YORK, Dec. 5.—An immense mass meeting held at Cooper Institute last night nominated General Grant for President.

The Tribune says: Candidates for the Austrian Mission may be interested in knowing that Mr. Greeley has received official notice of his appointment thereto, and has given due notice that he unconditionally declines the post.

PROSPECTUS OF THE EL DORADO MINING COMPANY OF MADOC. (LIMITED.)

CAPITAL STOCK \$72,000.
Divided into 2,400 shares of \$30 Each.

Deposit on Subscription, \$15 Per Share.

THIS COMPANY is formed, and proceedings taken for its incorporation, under Chapter 23, 27, and 28 Vic., for the purpose of developing the mineral resources of three acres of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 17, in the 5th Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present, there are two shafts sunk on the property about 200 feet apart, one 40 feet deep, and the other 35 feet deep. There is at the present time about 500 tons of ore already mined. The owners of the property have had one ton of this quartz crushed and amalgamated by Scott & Taylor's Mill, which returned \$63.80 in Gold, which specimen can be seen at J. E. Ellis', on King Street.

There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore. The projectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 833 shares of the value of \$30 each, payable one-half, or \$15, as above, on subscription, and the remaining \$15 on the 1st of January, 1888. Out of the above sales, \$10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be excessively remunerative.

The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.
RICHARD SPARKLING, Managing Director and Superintendent.
T. S. MCGILVER, of Madoc.
MATHSON BURWELL MCGREGOR, of Madoc.
T. A. MITCHELL, of Madoc.
ALDERMAN VICKERS, of Toronto.
J. E. ELLIS, of Toronto.

MCCLELLAN & MCCLELLAN, Solicitors. A. F. WOOD, President.

BANK OF MONTREAL, Bankers. T. A. MITCHELL, Secretary and Treasurer.

227-1228-1229-1230-1231-1232-1233-1234-1235-1236-1237-1238-1239-1240-1241-1242-1243-1244-1245-1246-1247-1248-1249-1250-1251-1252-1253-1254-1255-1256-1257-1258-1259-1260-1261-1262-1263-1264-1265-1266-1267-1268-1269-1270-1271-1272-1273-1274-1275-1276-1277-1278-1279-1280-1281-1282-1283-1284-1285-1286-1287-1288-1289-1290-1291-1292-1293-1294-1295-1296-1297-1298-1299-1300-1301-1302-1303-1304-1305-1306-1307-1308-1309-1310-1311-1312-1313-1314-1315-1316-1317-1318-1319-1320-1321-1322-1323-1324-1325-1326-1327-1328-1329-1330-1331-1332-1333-1334-1335-1336-1337-1338-1339-1340-1341-1342-1343-1344-1345-1346-1347-1348-1349-1350-1351-1352-1353-1354-1355-1356-1357-1358-1359-1360-1361-1362-1363-1364-1365-1366-1367-1368-1369-1370-1371-1372-1373-1374-1375-1376-1377-1378-1379-1380-1381-1382-1383-1384-1385-1386-1387-1388-1389-1390-1391-1392-1393-1394-1395-1396-1397-1398-1399-1400-1401-1402-1403-1404-1405-1406-1407-1408-1409-1410-1411-1412-1413-1414-1415-1416-1417-1418-1419-1420-1421-1422-1423-1424-1425-1426-1427-1428-1429-1430-1431-1432-1433-1434-1435-1436-1437-1438-1439-1440-1441-1442-1443-1444-1445-1446-1447-1448-1449-1450-1451-1452-1453-1454-1455-1456-1457-1458-1459-1460-1461-1462-1463-1464-1465-1466-1467-1468-1469-1470-1471-1472-1473-1474-1475-1476-1477-1478-1479-1480-1481-1482-1483-1484-1485-1486-1487-1488-1489-1490-1491-1492-1493-1494-1495-1496-1497-1498-1499-1500-1501-1502-1503-1504-1505-1506-1507-1508-1509-1510-1511-1512-1513-1514-1515-1516-1517-1518-1519-1520-1521-1522-1523-1524-1525-1526-1527-1528-1529-1530-1531-1532-1533-1534-1535-1536-1537-1538-1539-1540-1541-1542-1543-1544-1545-1546-1547-1548-1549-1550-1551-1552-1553-1554-1555-1556-1557-1558-1559-1560-1561-1562-1563-1564-1565-1566-1567-1568-1569-1570-1571-1572-1573-1574-1575-1576-1577-1578-1579-1580-1581-1582-1583-1584-1585-1586-1587-1588-1589-1590-1591-1592-1593-1594-1595-1596-1597-1598-1599-1600-1601-1602-1603-1604-1605-1606-1607-1608-1609-1610-1611-1612-1613-1614-1615-1616-1617-1618-1619-1620-1621-1622-1623-1624-1625-1626-1627-1628-1629-1630-1631-1632-1633-1634-1635-1636-1637-1638-1639-1640-1641-1642-1643-1644-1645-1646-1647-1648-1649-1650-1651-1652-1653-1654-1655-1656-1657-1658-1659-1660-1661-1662-1663-1664-1665-1666-1667-1668-1669-1670-1671-1672-1673-1674-1675-1676-1677-1678-1679-1680-1681-1682-1683-1684-1685-1686-1687-1688-1689-1690-1691-1692-1693-1694-1695-1696-1697-1698-1699-1700-1701-1702-1703-1704-1705-1706-1707-1708-1709-1710-1711-1712-1713-1714-1715-1716-1717-1718-1719-1720-1721-1722-1723-1724-1725-1726-1727-1728-1729-1730-1731-1732-1733-1734-1735-1736-1737-1738-1739-1740-1741-1742-1743-1744-1745-1746-1747-1748-1749-1750-1751-1752-1753-1754-1755-1756-1757-1758-1759-1760-1761-1762-1763-1764-1765-1766-1767-1768-1769-1770-1771-1772-1773-1774-1775-1776-1777-1778-1779-1780-1781-1782-1783-1784-1785-1786-1787-1788-1789-1790-1791-1792-1793-1794-1795-1796-1797-1798-1799-1800-1801-1802-1803-1804-1805-1806-1807-1808-1809-1810-1811-1812-1813-1814-1815-1816-1817-1818-1819-1820-1821-1822-1823-1824-1825-1826-1827-1828-1829-1830-1831-1832-1833-1834-1835-1836-1837-1838-1839-1840-1841-1842-1843-1844-1845-1846-1847-1848-1849-1850-1851-1852-1853-1854-1855-1856-1857-1858-1859-1860-1861-1862-1863-1864-1865-1866-1867-1868-1869-1870-1871-1872-1873-1874-1875-1876-1877-1878-1879-1880-1881-1882-1883-1884-1885-1886-1887-1888-1889-1890-1891-1892-1893-1894-1895-1896-1897-1898-1899-1900-1901-1902-1903-1904-1905-1906-1907-1908-1909-1910-1911-1912-1913-1914-1915-1916-1917-1918-1919-1920-1921-1922-1923-1924-1925-1926-1927-1928-1929-1930-1931-1932-1933-1934-1935-1936-1937-1938-1939-1940-1941-1942-1943-1944-1945-1946-1947-1948-1949-1950-1951-1952-1953-1954-1955-1956-1957-1958-1959-1960-1961-1962-1963-1964-1965-1966-1967-1968-1969-1970-1971-1972-1973-1974-1975-1976-1977-1978-1979-1980-1981-1982-1983-1984-1985-1986-1987-1988-1989-1990-1991-1992-1993-1994-1995-1996-1997-1998-1999-2000-2001-2002-2003-2004-2005-2006-2007-2008-2009-2010-2011-2012-2013-2014-2015-2016-2017-2018-2019-2020-2021-2022-2023-2024-2025-2026-2027-2028-2029-2030-2031-2032-2033-2034-2035-2036-2037-2038-2039-2040-2041-2042-2043-2044-2045-2046-2047-2048-2049-2050-2051-2052-2053-2054-2055-2056-2057-2058-2059-2060-2061-2062-2063-2064-2065-2066-2067-2068-2069-2070-2071-2072-2073-2074-2075-2076-2077-2078-2079-2080-2081-2082-2083-2084-2085-2086-2087-2088-2089-2090-2091-2092-2093-2094-2095-2096-2097-2098-2099-2100-2101-2102-2103-2104-2105-2106-2107-2108-2109-2110-2111-2112-2113-2114-2115-2116-2117-2118-2119-2120-2121-2122-2123-2124-2125-2126-2127-2128-2129-2130-2131-2132-2133-2134-2135-2136-2137-2138-2139-2140-2141-2142-2143-2144-2145-2146-2147-2148-2149-2150-2151-2152-2153-2154-2155-2156-2157-2158-2159-2160-2161-2162-2163-2164-2165-2166-2167-2168-2169-2170-2171-2172-2173-2174-2175-2176-2177-2178-2179-2180-2181-2182-2183-2184-2185-2186-2187-2188-2189-2190-2191-2192-2193-2194-2195-2196-2197-2198-2199-2200-2201-2202-2203-2204-2205-2206-2207-2208-2209-2210-2211-2212-2213-2214-2215-2216-2217-2218-2219-2220-2221-2222-2223-2224-2225-2226-2227-2228-2229-2230-2231-2232-2233-2234-2235-2236-2237-2238-2239-2240-2241-2242-2243-2244-2245-2246-2247-2248-2249-2250-2251-2252-2253-2254-2255-2256-2257-2258-2259-2260-2261-2262-2263-2264-2265-2266-2267-2268-2269-2270-2271-2272-2273-2274-2275-2276-2277-2278-2279-2280-2281-2282-2283-2284-2285-2286-2287-2288-2289-2290-2291-2292-2293-2294-2295-2296-2297-2298-2299-2300-2301-2302-2303-2304-2305-2306-2307-2308-2309-2310-2311-2312-2313-2314-2315-2316-2317-2318-2319-2320-2321-2322-2323-2324-2325-2326-2327-2328-2329-2330-2331-2332-2333-2334-2335-2336-2337-2338-2339-2340-2341-2342-2343-2344-2345-2346-2347-2348-2349-2350-2351-2352-2353-2354-2355-2356-2357-2358-2359-2360-2361-2362-2363-2364-2365-2366-2367-2368-2369-2370-2371-2372-2373-2374-2375-2376-2377-2378-2379-2380-2381-2382-2383-2384-2385-2386-2387-2388-2389-2390-2391-2392-2393-2394-2395-2396-2397-2398-2399-2400-2401-2402-2403-2404-2405-2406-2407-2408-2409-2410-2411-2412-2413-2414-2415-2416-2417-2418-2419-2420-2421-2422-2423-2424-2425-2426-2427-2428-2429-2430-2431-2432-2433-2434-2435-2436-2437-2438-2439-2440-2441-2442-2443-2444-2445-2446-2447-2448-2449-2450-2451-2452-2453-2454-2455-2456-2457-2458-2459-2460-2461-2462-2463-2464-2465-2466-2467-2468-2469-2470-2471-2472-2473-2474-2475-2476-2477-2478-2479-2480-2481-2482-2483-2484-2485-2486-2487-2488-2489-2490-2491-2492-2493-2494-2495-2496-2497-2498-2499-2500-2501-2502-2503-2504-2505-2506-2507-2508-2509-2510-2511-2512-2513-2514-2515-2516-2517-2518-2519-2520-2521-2522-2523-2524-2525-2526-2527-2528-2529-2530-2531-2532-2533-2534-2535-2536-2537-2538-2539-2540-2541-2542-2543-2544-2545-2546-2547-2548-2549-2550-2551-2552-2553-2554-2555-2556-2557-2558-2559-2560-2561-2562

thin, gray hair, a scanty beard, and eyes
 almost reading on a book; a striking
 contrast to the rosy cheeks and full
 lips of the young man, who, with his
 sensitive feeling, his delicate, almost
 effeminate face, and his long locks of dark
 hair, was a little like the artist, but the
 older man was a quiet, impassive, picture-
 like face full of life and expression, and
 a rare calmness. But while looking at
 him the time and labor and care have
 been given to him, and the radiant
 spirit which lights up the features of the
 artist still makes it beautiful.

HIS RECEPTION.

For a Boston audience, his reception was
 remarkably enthusiastic. Seldom does the
 polished ice of this proper community
 break as loudly, and as cheerily, under the
 gleaming beams of any intellectual sun, as
 when, on the night when Dickens stood before
 the throng, and while they broke
 forth, and cries of welcome and clappings
 of innumerable hands, rose and fell and
 again in a friendly roar, while he tried to
 get to the charge again, but had scarce
 got as far as "Ladies," when he was
 obliged to succumb, and make another
 "Gentlemen," and gave it up, and at last
 saw that one Bostonian was nothing to
 so many hundred Yankees, and waiting
 smiling and bowing until they had their
 will, and were ready to let him have his.

THE READING.

The very first words, "Marley was dead,
 to begin with!" That was certain," set-
 tled the question of success. The way in
 which these words were uttered, showed
 that the reading was to depend for all
 effect on the worth of what was read, and
 upon the sincerity of the reader. From
 first to last there was no trickery in it—no
 affectation, abounding in gesture, with a
 voice for every character in every mood;
 with a face for every man, woman, and
 child, reflecting every feeling. There is no
 straining for stage effect, no attitudinizing
 or affectation. The most effective reading
 was ever listened to—it was the most beau-
 tifully simple, straightforward, hearty
 piece of painting from life. Dear Bob
 Cratchit made twenty-five hundred friends
 before he had spoken two words, and if
 everybody had obeyed the impulse of his
 heart, and sent him a Christmas goose, he
 would have been suffocated in a twinkling,
 under a mountain of poultry. As for the
 delightful Scrooge, no one could resist
 him in the audience but warmed to them at
 once. Probably never was a ball so thor-
 oughly enjoyed as the one given by these
 worthy people to their apprentices. The
 greatest hit of the evening was the point
 where the dance executed by Mr. and
 Mrs. Fizzwigg, to Miss Fizzwigg was de-
 scribed. The pantomime of the audience's
 laughter reached Mr. Dickens himself, who
 with difficulty brought out the inevitable
 droolery "after which Miss Fizzwigg
 positively—cut out a light second to
 shine from his very calves, and he actually
 winked with his legs." This was too much
 for Boston, and I thought the room would
 go off. Next to this, the most effective
 point was Tiny Tim, who, plaining to
 go, with Bob Cratchit's way of speaking of
 him brought out so many pocket hand-
 kerchiefs that it looked as if a snow-storm
 had somehow got into the hall without
 tickets. Scrooge, too, who, as we heard
 as that with which Mr. Dickens
 read the poor father's lament over his little
 lamb child, and great was the genius which
 enabled him to walk so safely on the dan-
 gerous edge that separates nature, pure
 and simple, from mere traua.

The Christmas party at the house of
 Scrooge's nephew, where Turpin plays
 blind man's buff with the plump sister,
 the lace-tucker, was a thing never to be
 forgotten. When Dickens said, "I no
 more believe that man was blindfolded
 than I believe he had eyes in his boots,"
 his facial expression—indignant at the
 man being put upon, and yet with a con-
 sciousness of the absurdity of the state-
 ment that makes him laugh in spite of his
 anger—was inimitable, and it was long
 before the audience would let him get on.
 At last we had it, and the plump sister
 with the lace-tucker to become immortal.
 There was an intermission of about ten
 minutes between the reading of "The
 Christmas Carol" and "The Trial Scene
 from Pickwick," and as he closed the book
 with "Tim's" "God bless us every one,"
 the enthusiasm of the vast assemblage
 broke forth in such expressions, as to those
 who know the impassive nature of Boston
 audiences, showed plainly enough that the
 heart under all their silk and broadcloth
 was fairly stirred and beating with warm
 good will. But Dickens was plainly not
 to be persuaded into a speech. For all the
 uproar, he did not appear again, until the
 court called up the case of Bartley versus
 Pickwick. It was easy to see that the
 reader himself had a peculiar affection for
 the part—a leaf torn from a book that
 he associated with the beginning of his
 career, and that he had not yet got out
 of it. He read it with full force, throwing
 himself into it with all his heart, and I may
 add, with all his body, for he put more
 acting into this part than he did into any
 of the first part. Sergeant Buzfuz's
 speech to the jury was without a flaw, a
 pearl of the art of acting, and no words of
 mine or anybody could express the way in
 which, Nicholas Winkle was before us.
 Not less excellent was the Judge—the
 source, dryest, most cross-grained piece of
 legal stupidity that ever was seen or heard
 of. Talk about facial expression, nothing
 more wonderful was ever seen than the
 change from the Judge, who seemed to
 always be smothering something disagreeable,
 to the frank, cheery face of Samuel Weller,
 as fresh as a rose and as good to look at.
 Here was a scene that made the Court
 raise. "Call up Samuel Weller," that friend
 of near thirty years' standing was recog-
 nized by all Boston at a glance, and his
 mounting the stand was a signal for such

a hand-shaking (speaking in a big way)
 as he will never forget. As he went to
 shake him, jolly to hear him, and jollier
 of all to hear that deep, rich voice of his
 old father, deep and rich as the foam on
 his quart pot of ale, calling out from the
 gallery. "Put it down with a see, my lord,
 put it down with a see."

In reading these works of his, Mr.
 Dickens neither follows the original text,
 nor adheres closely to any means to the
 effect of the pretty and convenient hand-
 books which he has himself condensed and
 prepared. He takes out a good deal,
 changes words, mistakes words sometimes,
 and really much of it seems impromptu.

The great peculiarity of his delivery is
 in its slow deliberate clear cut distinct-
 ness. This is in the descriptive parts—
 which it suits the occasion, his delivery
 takes every shape, and is good for all needs.
 Scrooge's growl—Bob Cratchit's trembling
 appeal—the pompous bluster of Buzfuz—
 Mrs. Clupp's mauling whine, and Sam-
 Weller's manly yoman's shout are all
 echoed by that magical voice, which will
 be recognized wherever it is heard in
 America as the voice of a great author, and
 of the greatest, perhaps (certainly in ver-
 sality of power the greatest), that has ever
 charmed our Western World.

Daily Intelligencer.

BELLEVILLE, FRIDAY, DEC. 6.

NIAGARA ELECTION.—The nomination took
 place yesterday. Solicitor-General Bristow
 and a Captain Gale were nominated. A poll
 was demanded and an election will be held on
 the 12th and 13th inst. There is no doubt of
 the election of Mr. Richards.

PROBABLE LOSS.—The Kingston *Whig* of this
 morning says: "The Schooner 'Hastings,'
 Chalmers master, from Cleveland for Oswego,
 with cargo of lumber, was lost on Lake
 Ontario, and nothing has been heard from her
 since then. It is feared she is lost with all on
 board."

TO AN EXECUTION.—The petition to the
 Executive asking for clemency to Allen, the
 murderer of the late Governor, was presented
 and no effect. The law is to take its
 course; the sentence is to be carried into effect,
 and on Tuesday next, the 10th inst., Allen
 will have paid the penalty of his crime. The
 information that a reprieve could not be granted
 was conveyed to the doomed man on Wed-
 nesday, who received the announcement calmly
 and half expectantly. The *Whig* says: "He
 conversed for a few minutes quietly, and said
 that he would meet his fate as he had intended
 all along, with a smile on his face. His mind,
 he said, was easy, and he had no fear of death.
 He did not question the justice of his sentence,
 and was pleased that his companions were not
 placed in his position, and that he only was to
 be hanged. He had no bad feeling against
 any one; he freely forgave all. Allen could
 hardly express sufficient thanks to Mr. Fergu-
 son for the kindness he had shown. He says
 firmly that his present demeanor is not forced;
 that he feels as he speaks."

The Postal Bill.

"There is one exception, and that is the 'Kingston
 Whig,' which says the 'outcry of the press against the
 payment of newspaper postage is universal. It is
 remembered that the 'Whig' was the first to
 condemn the proposition, and that it was only after
 the prospect of being compelled to shut up its labors
 that it had to have to pay postage. It is a
 question of opinion, and it is not for the *Intelligencer*
 to decide."

"Our contemporary is unjust. What the
 'British Whig' complained of was the imma-
 diate operation of the Act which would shut up
 half the newspaper offices in Canada; but when
 a whole year is afforded to make up the
 change from a credit to a cash business, it must
 be a newspaper publisher's own fault if he be
 caught napping. The benefits arising from a
 cash business will more than compensate for
 any loss he may sustain, even if the whole cost
 of the postage eventually fell upon him. After
 thirty-five years experience, we are fully per-
 suaded that a cash business is the only business
 that can pay at the present day."—*British Whig*,
 Dec. 5.

The record of the *Whig*, unfortunately
 for itself, does not sustain the above
 conclusions. We repeat that the *Whig* was
 amongst the first to denounce the objec-
 tionable clause, and its anticipations of the
 effect of the measure were of the most
 gloomy character. Here is what it said
 when the question of prepayment was first
 whispered:

"The new Post Office Act will materially
 affect Newspaper Publishers. It will compel pre-
 payment on newspapers. It will shut up half
 the weekly newspapers extant. The dollar
 will be the only unit, but the weekly paper
 cannot stand. Subscribers are not prepared to
 pre-pay their newspapers, and will not remit
 the money, no use how much they may be
 pressed to do so. The consequence will be,
 that publishers will be compelled to stop
 newspapers, and not pre-pay for their papers
 themselves, and that few of them are able to
 do so. We are, perhaps, reckoning without the
 fact, that the Bill not having reached us, we
 know not what bounty the Ministers may intend
 for newspaper men."

That's plain enough surely, and shows
 that we did the *Whig* no injustice. Talk

about a "whole year" being sufficient for
 publishers to set their houses in order, and
 change their system of business, is perfect
 boosh. The country is neither old enough
 nor rich enough to establish the cash sys-
 tem in the newspaper business any more
 than in any other business, and until that
 system is adopted, the contemplated
 change in the law is perfectly monstrous.
 We observe that Senator Campbell in mov-
 ing the second reading of the Bill in the
 Senate made a lengthy speech, in which he
 adverted to the opposition of the press,
 and although defending the clause, to
 which objection has been made, with a
 good deal of earnestness, "admitted that
 this particular point left room for argu-
 ment." There are other points in Mr.
 Campbell's speech which are open to ob-
 jection, and to which we may refer in a
 future issue. While we have very little
 faith that the Bill in its present shape will
 pass the Commons, we cannot but repeat
 our regret, that the Government did not
 yield to the almost unanimous wish of the
 newspaper press, and strike out the objec-
 tionable clause. The newspaper interest
 has happily several able champions in the
 House, who will be heard from when the
 question comes before that body, and with
 the influence they will be able to bring, the
 clause must go by the board. But we still
 cling to the belief that the Government
 will not force its friends to take this po-
 sition which, however, unpleasant it may be
 to them, the importance and exigencies of
 the case will compel them to do.

The Commercial Bank.

The rumors afloat for some time past to
 the effect that the Commercial is about to
 amalgamate with some other banking in-
 stitution, appear to be well founded. The
 Commercial article of the *Montreal Gazette*
 yesterday says: "There is very little
 change to note in the position of Bank
 stocks, except in Commercial, which is now
 held at a further advance of 5 per cent.,
 latest quotations being 25 to 30. There is
 no doubt as to the Bank's ability to re-
 sume payments, and this being the case,
 a further advance may be looked for. It
 certainly would be justified under present
 circumstances."

FROM OUR OTTAWA CORRESPONDENT.

OTTAWA, Dec. 5, 1867.

After the close of my letter last night,
 the debate was continued upon the resolutions
 introduced by Mr. McDougall, having
 reference to the incorporation of western
 territory, until twelve o'clock. Mr. Howe
 followed Mr. McDougall, and contended
 that the proposition was premature, and
 although it had been the dream of his boy-
 hood, he had had that dispelled by the
 realities of facts, which had presented
 themselves to his mind upon the examina-
 tion of documents which he had perused
 in the Departments of Washington, from
 which he had learned that the expense of a
 road from the Pacific to the Atlantic
 through the British Territory, would
 never pay, and that the cost could be car-
 ried from China to Liverpool by the
 water communication for \$13 a ton, while
 it would cost a great deal more over a
 railway. This was his more mature judg-
 ment, which he considered it right to give
 to the world, and to undertake any work
 of so much importance with, if report
 speaks correctly, a deficit of between \$3,
 000,000 and \$4,000,000, an outlay of
 \$4,000,000 for the Intercolonial, and prob-
 ably \$6,000,000 to \$8,000,000 for the
 acquisition of this North-west territory, was
 more than he felt inclined to support, for
 a nation without either a navy or an army to
 defend it. He delivered an hour's ora-
 tion, which contained a great amount of
 platitude, though pleasing to listen to, and
 captivating for a time, but it lacked that
 solidity and ponderous argument, so charac-
 teristic of speeches made by English
 statesmen, and of others in our own House
 of Commons, with much less reputation
 or pretensions than Mr. Howe. There is
 one peculiarity about all the speeches of
 the great Nova Scotian orator, which de-
 stroys their force in the House, and I doubt
 whether it will also in the country, and that is his
 constant reference to Washington, and his
 conclusions to which he has come after his
 visits to that capital. Whether it arises
 from an inordinate vanity, which he dis-
 plays upon every occasion, or that he has
 become imbued with the American idea of
 "universal sovereignty" over America, are
 queries which he alone can answer. He
 was answered by Mr. Grey, of New Brun-
 swick, who argued in favor of securing the
 Western Territory, to find a home for the
 young men of this country and the emi-
 grants of the old, and told Mr. Howe that
 this new nationality had the best army
 and navy in the world at its back, should
 any difficulty arise. That the leading
 statesmen of England had told them that
 last man would be given and last shilling
 spent in our defence, so long as Canadians
 were true to themselves. Mr. Bowdler
 followed in favor, provided an amendment
 was made to the sixth resolution, Mr. An-
 glin in opposition, and Mr. Cartier in sup-
 port, when the House adjourned.

To-day, after some preliminary business,
 most of which was confined to the distribu-
 tion of session papers, the debate upon the
 resolutions of Mr. McDougall was resumed
 by Mr. Thompson of North Ontario, who sup-
 ported the theory of securing the territory
 by the Intercolonial, but although the present time inop-
 portune that we should wait until the Intercol-
 onial railway had been built, Mr. McGill of
 Hamilton, replied in a very good speech,
 in which he said that the Reformers of the
 House, it was but a short time since, when
 not a man belonging to that party dared
 present himself in Western Canada,
 without making western extension the
 most important plank in their platform; and
 it was strange to hear them now, expressing
 opinions against it. He referred to the threat
 made by Mr. Howe, in reference to the
 House sending an army sufficiently large
 into British territory at any time
 enough to cut the connection between
 this section of the Dominion and the Red
 River settlement, and asked what it meant.
 Why, said the Speaker, it means that an
 embargo would be laid upon every Ameri-
 can ship on the seas, that every ship
 bearing the Stars and Stripes would be
 driven from the seas—that the South would
 rise in its might and demand independence
 and while the disintegration of the United
 States would take place we should come
 out of the trouble "free and purified." Dr.
 Foster followed in an eloquent speech in
 opposition, in which he argued forcibly
 against incurring the expense, and that
 each section of this northern continent was
 separated by natural barriers which could
 not be overcome, and should therefore
 not be united. This is a strange doctrine
 for one who voted for and supported the
 Confederation. He also argued that the
 Hudson's Bay territory had no rights, and
 that if they had he would not respect them
 that man in his wisdom might give him
 by God was to occupy the earth, and no
 law or charter should be respected, if they
 interfered with that divine right. Reduce
 this argument to its logical sequence and
 we find a man taking possession of his
 neighbor's land, if he, in his wisdom, could
 come to the wise conclusion that he had
 too much. I know of no scheme which
 could be adopted to carry out this princi-
 ple except that recommended by Midship-
 man Essex, who was continually arguing in
 equal rights, and when asked how he
 would do if one man spent his share after a
 general distribution and equal division
 had been made, said he would divide it
 again. So with the Dr.'s argument, and it
 was a pity that an otherwise capable speech
 was marred by a few such absurdities.

Next we had the doctrine propounded by
 Mr. Connell, of New Brunswick, that this
 question should not be taken into consid-
 eration till the Nova Scotians are reconciled
 to their position and become Unionists.
 This doctrine Mr. McMillen, of New
 Brunswick, objected to, and accused the
 last speaker of inconsistency in advocating
 Confederation in New Brunswick and then
 coming forward opposing one of the
 fundamental principles upon which it was
 based. Mr. Joly, a French Protestant
 (Rouge), then took the floor, and spoke for
 about three-quarters of an hour in French,
 declaring that he had been in opposition
 to Confederation, but now saw that he
 could make it work. Still, he objected
 to the resolutions, not believing that the
 good which was expected to arise from the
 incorporation of this territory would be
 realized, and that if the Red River settlers
 wished to annex themselves to the United
 States, let them. Such, I believe, is the
 doctrine of the Rouge party, carrying it
 so far that most of them prefer Republicanism
 to our own form of Government. He
 was followed by Mr. Masson, who is talking
 when I close this letter.

After the House rose last night, the Re-
 porters of the different newspapers attend-
 ing the session, and members of the city
 press, were entertained at a supper by
 Messrs. Chamberlin, of the *Montreal*
Free Press, Simpson, of the *Canadian Press*,
 and Bowell, of *THE INTELLIGENCER*, of
 Belleville, now members of the House of
 Commons. The company did not break
 up until about four in the morning.
 Speeches, toasts and interchanges of kindly
 feeling between those who formerly occu-
 pied seats in the gallery and those who now
 hold them, filled up the time very
 pleasantly. These interchanges of
 kindly greeting between members of a
 party which, from the first, has been
 them to differ, are productive of good.
 The evening was pleasantly spent, and the
 best of feeling prevailed.

—The Welland Canal is still open.
 —An idea for Secretary Seward—How would
 it do to buy Ireland?
 —One of the sensations of Lafayette, Ind., is
 a horse over six feet high, and only four years
 old.
 —An original letter of John Wesley has been
 found in Detroit, and presented to a Methodist
 Church there.
 —A carrier advertised in an English paper
 that he will make "carriage, victuals, &c., for ladies,
 out of their own skins."
 —The importation of Japan tea to New York
 the present season is 10,000,000 pounds greater
 than last year.
 —At last accounts the schooners *D. F. Ferry*
 and *New Dominion* were in the position reported
 of getting them off.
 —A warning is becoming Americanized so fast
 that it has already had a political meeting
 and is aspiring to a masonic lodge. Merchandise
 is scarce and expensive, and rains are
 plenty.

New York, Dec. 5.—The mails from China
 and Japan, which left Yokohama by steamship
 October 25, and San Francisco November 20,
 by Wells, Fargo & Co.'s Express and the Union
 Pacific Railroad, will be delivered in New York
 to-morrow morning. This will be at 41 days
 from Japan, and only 15 days between San
 Francisco and New York.

Telegraphic News.

BY ATLANTIC CABLE.

LONDON, Dec. 4.—In the House of
 Commons this evening, the matter of the Mail
 Contract across the Atlantic came up again for
 consideration. The Government informed the
 House that the National Steam Navigation
 Company was one of the accepted bidders.
 That also offered to carry the American mail
 between New York and Liverpool at the rate
 of one penny per half ounce, but required 15
 days for the trip, without penalties in cases of
 failure. By the present contract one penny
 per letter is to be paid.

PARIS, Dec. 5.—The discussion of the question
 of French occupation of Rome was continued in
 the Corps Legislatif yesterday. M. Tiers,
 in a long speech, defended the policy of the
 Government in preserving the temporal power
 of the Pope. He characterized Garibaldi
 as the falcon with Italy's horns.

All the French troops have left Rome.
 LONDON, Dec. 5, noon.—Copious extracts of
 the message of President Johnson which were
 received per cable are published here to-day.

In commenting the *Times* has the following:
 "The message shows that Mr. Johnson has
 learned nothing. He transcends himself in
 imprudence. He regards his office as absolute
 sovereignty do their prerogative. He forfeits all
 respect. It is hard to say where the hope of
 the people of the United States lies, between
 Johnson on the one side, and Stevens on the
 other."

The reference in the President's message to
 the Alabama claims, coupled with Lord Stan-
 ley's dispatch to Mr. Ford on the same subject
 has created considerable distrust in financial
 circles.

The other journals use similar language on
 the subject.

Second Despatch.

PARIS, Dec. 5, eve.—In the Corps Legislatif
 this evening, the debate on the Italian ques-
 tion was continued. M. Rouher said that without
 France Italy could not have saved Rome from
 revolution.

LONDON, Dec. 5, midnight.—In the House of
 Lords this evening, Earl Derby said that Lord
 Stanley refused to go into the proposed confer-
 ence for the settlement of the Roman question
 until the basis likely to be agreed upon by the
 great powers had been previously submitted.

PARIS, Dec. 6, noon.—The increase of bullion
 in the Bank of France is 18,500,000 francs.

LONDON, Dec. 6, noon.—Consols 93½; Bonds
 71½; 111 C 92½; Erie 47½.

LIVERPOOL, Dec. 6, noon.—Cotton firm, at
 75½d for Uplands and 75d for Orleans; stock
 in port 420,000 bales, of which 78,000 are Ameri-
 can. Breadstuffs quiet. Corn declined to
 47s 3d. Other markets unchanged.

LONDON, Dec. 6, 2 p. m.—Bonds 70½;
 others unchanged.

LIVERPOOL, December 6, 2 p. m.—Cotton
 buoyant; Peas 38s. California Wheat advanced
 8d; red No 2 advanced 1d.

American Despatches.

SOMERSETT, N. Y., Dec. 5.—The rocks at
 the terminus of the level have been working
 slowly during the day at a great disadvantage
 from the forcing level into and around them.

Navigation is suspended at Rome and Utica,
 in consequence of the heavy anchor ice, two
 and three feet in depth in some instances. At
 Schenectady the ice-breakers are in full opera-
 tion, and boats are slowly passing the city.
 Should the weather moderate and continue so
 until Saturday night, all of the boats east of
 the city will reach Liverpool.

UTICA, N. Y., Dec. 5.—The water has been
 raised on this and the Long Level, so that, if
 the ice were away, there would be no trouble.

NEW YORK, Dec. 5.—Mexican advice state
 that the Mexican Congress met on November
 30th. It was rumored that a special messenger
 had arrived, bearing a communication from
 the Emperor Napoleon to President Juarez.
 There were reports of considerable excitement
 having taken place to increase the ranks of the
 Mexican army. The destination of these troops
 was not known but was variously surmised.

SPRINGFIELD, Mass., Dec. 6.—Rodolph
 Sanderson was yesterday run over by a locomotive
 and killed.

NEW YORK, Dec. 6.—The *Herald's* Mexican
 telegrams from Havana state that a demand is
 about being made upon Guatemala for injury
 sustained by the invasion of Chiapas.

Escudedo is reported to have said that 16,000
 men could sail on Cuba.

Ortega is still a prisoner.

The embalmers of Maximilian's body has been
 prosecuted for selling relics of the Prince.

Some members of Congress are in prison.
 Reports from the West India Islands confirm
 the loss of the United States steamers "De
 Soto" and "Monongahela," which were
 totally wrecked in the storm off Santa Cruz.
 It is thought that most of the crew would be
 saved. The "Buenaventura" was also damaged.

More earthquake shocks were reported, and
 everybody was trying to emigrate.

The Danish Commission had arrived at St.
 Thomas, for the purpose of delivering up the
 island to the United States.

The Austrian frigate "Noram," with Max-
 imilian's remains, left Havana yesterday for
 Trieste.

New York, Nov. 6.—The steamer "Celia,"
 from London, has arrived.

The China mails, despatched overland from
 San Francisco, reached this city yesterday, at
 ten days.

War is not the game of 'live and let live'.

There is a man in the moon, and a man and woman in the honeymoon.

What notes interest you most? Those I hear early falls the due.

The barber was asked what he saw at court. "The king was ill-shaven," said he.

Dismissing views.—Prospects of getting married for ladies who are past thirty "aged."

Four hundred women, chosen among the most beautiful in the Empire, are to be the guard of the King of Siam.

Children are so artists.—Baker—"Auntie, be penny, my dear; bread's up to-day."

Girl—"Yes; but mother wants yesterday's bread."

It is said that some mothers in New York have grown so impatient for their children to grow up that they have been known to whip them.

"Boy," said a facetious farmer to his son, "I'm a pretty hard day's work yesterday, now let's have a game of chopping wood."

ford thanked beautifully said, "If man be gracious to strangers, it shows that he is a citizen of the world, and one who is not island-cut off from the other land, but a continent that joins it."

PROSPECTUS

OF THE

ROSE MINING COMPANY

OF MADOC.

Capital Stock, - - - \$25,000.

Divided into - - - 5,000 Shares.

5,000 Shares - - - \$5.00 Each.

Deposit on Subscription Twenty-five per cent.

Geo. D. WYCKOFF, A. L. McLELLAN, JAS. CARR RITCHIE, F. E. KILVERT, ASA A. BURNHAM, JR., J. E. O'REILLY, E. H. HALL, and HUGH FAIRBURN, are the owners of the property hereinafter mentioned, and are desirous of forming a Stock Company, with the capital of \$25,000, and are in corporation, under No. 23, 27-33 Vio, and have much pleasure in calling the attention of the public to the following Prospectus:

This Company is being formed for the purpose of developing the Mineral Resources of five acres of land, being part of Lot No. 10 in the 28th concession of the Township of Madoc, in the County of Hastings, situated on the main road, between three and four miles from the village of Madoc, upon which Gold and Silver have been found in paying quantities, several assays having been made by Professor Wyckoff, who selected with great care the localities being not only rich in minerals, but possessing facilities for mining which gives this Company peculiar advantages over many others, there being on the property a high ridge or mountain which, in which numerous veins of gold-bearing quartz crop out; and instead of sinking shafts, (so expensive and tedious operation), drifts can be run to the base of the ridge, cross-cutting the different veins, and giving eighty feet of backs to work upon, which will furnish as much ore as could be taken out for the next twenty years, and at a cost comparatively small, no machinery being required to free the mine from water.

This Company intend, as soon as a charter is granted, to erect a mill house, with suitable machinery for crushing and separating the precious metal, thereby saving the cost of cartage to other mills, and the great expense and inconvenience incurred in having the ore reduced and the metal extracted at common mills.

Adjusting this property is a lake from which an abundant supply of water can be obtained for all purposes, and in that respect alone it will equal if not surpass any of the mines in that district, taking into consideration the richness and abundance of the ore, and the many advantages described above, it cannot but prove remunerative to those who may become interested in this Company.

DIRECTORS, PRO TEM.

Geo. D. WYCKOFF, ASA A. BURNHAM, JR., F. E. KILVERT, A. L. McLELLAN, JAS. CARR RITCHIE, JAS. EDWIN O'REILLY, E. H. HALL.

PROVINCIAL, BELLEVILLE—Geo. D. WYCKOFF, F. E. KILVERT, ASA A. BURNHAM, JR., JAS. CARR RITCHIE, JAS. EDWIN O'REILLY, E. H. HALL.

Block Book opened at J. W. Murton's Exchange Office, Hamilton. Application for Stock and other Communications may be addressed to any of the Directors, or to JAMES C. RITCHIE, Prov. Sec. & Treas., Hamilton.

December 3d, 1897. 1893-47

LOOK: THE DAILY LONDON ADVERTISER is published every evening, and sent by mail at \$4.00 per annum, payable in advance. It contains all the local and general news, the latest telegrams and market reports. As its daily circulation is the largest in the United Kingdom, outside of the Toronto Press, advertisers who wish to reach the ear of the West should take advantage of its columns. The Globe says of the ADVERTISER:

"This excellent newspaper now appears in new type, and is one of the best papers in the country. The ADVERTISER is well conducted, and though not an old paper has for its daily and weekly editions a very large circulation larger than any other journal published in this neighborhood. It is, therefore, a first-rate advertising medium."

READ: THE WEEKLY ADVERTISER is the best and cheapest paper in the Province. Its terms, \$1.25 per annum, in advance. The publication of the present year GUARANTEES splendid prizes to the advertiser on application. Send for Specimen Circulars sent on application. Send for Specimen Circulars sent on application. Send for Specimen Circulars sent on application.

ADVERTISER Office, London, Ontario.

India and China Tea Company.

HOME DEPOTS—London and Liverpool. CANADA DEPOT—33 Hospital Street, Montreal.

PURE AND GENUINE TEAS of splendid natural flavor, imported direct from the Company's Plantations in ASSAM, and on the slopes of the HIMALAYAS, blended with the finest products of CHINA.

Only two qualities, viz., 70 cts. or \$1.00 per lb., either Black, Green, or Mixed.

Blending strength and flavor, 70 cts. per lb. Finest procurable, \$1.00. Protected by Trade Mark.

Sole agents for Belleville, Messrs. T. W. BARKER, Agent, Trenton. DODLY w27-1y

August 16th, 1897.

Important to Miners and MINING MEN.

JOHN'S Patent Water-Proof Safety Fuse for Wet Ground and Submarine Blasting, is much cheaper than any other, and pronounced by Mining men much better than any imported.

Testimonials received from men well known in the mining and quarrying business of Canada and the United States; from Messrs. Morrill & Colby, Bennett, Wiswell, Macfarland, Adams, Watson, Griffith, Wear, and others.

All orders promptly attended to. Address: JOHN'S & Co., 160-3m, Sherbrooke, Q.

BUY YOUR TEA DIRECT FROM THE IMPORTERS!

Tea, Tea, Tea!

THE MONTREAL TEA COMPANY, 6 Hospital Street, Montreal, having just imported a large quantity of Green and Black Tea, beg to call the attention of the Trade, Hotel Proprietors, and large establishments generally to their list of prices. Buyers of China and Boxes of Tea will save money by getting it direct through the Importers.

All orders for 25 lb. boxes and upwards can be made free of charge to any station, and the carriage will be paid to the nearest station, where there are express offices. Tea will be forwarded immediately on receipt of the bill by mail containing money, or the money can be collected on delivery by express man. Cash collected in Montreal free of charge, and Tea forwarded for the same. Nothing less than 25 lb. boxes sold. Original packages Black Tea weigh 1/2 chests about 50 lbs. Chests do so to 100 lbs. Green Tea from 60 to 80 lbs. Tea not mentioned in advertisement can be had equally cheap. The Company are determined to have standard in the Montreal market, every article may therefore be depended on as to quality and weight.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - \$10,000,000
FIRE AND LIFE.

LIFE DEPARTMENT.

THE principles on which this Company is
founded contain all the elements required
to develop the benefits of Life Assurance, and
afford every facility to intending assureds.—
One of the advantages secured by those who
insure their lives with this Company is that
the outside expenditure for Management is
absolutely restricted by the Deed of Settlement
to Ten per Cent. of the Net Life
Income. This most important restriction
shows that the interests of participating policy
holders are closely watched and carefully at-
tended to by the Company. Attention is on
pedially called to this point, as the proportion
of premiums expended for Management
Most Largely Influence Profits
and Bonuses.

The next division of profits takes place in
1868, and all those who wish to participate in
the profits should insure at once.

M. HOWELL,

AND all other kinds of JOSEPH PRINCE, ex-
ecuted with neatness and despatch at the
INTelligENCER Office, Front Street, Belleville.

Band to Sleep.

We lay them to sleep where the yellow leaves
fall.
And the wild winds make music among the
dark pines—
We lay them to rest till the Master shall call,
And his shining-winged heralds shall come
with the morn.

Which none may refuse.

They were young. They have dropped in the
morn of their day.
Their sun has gone down in the too early
night.

But we weep not: the Master has called them
away.
From the toll of the noon-day, the thick of
the fight,
To the City of Light.

We shall meet them again when the winter is
past.
And the new summer sun lights the way to
that land,
We shall find that the parting kiss was not the
last.

With a look full of welcome our loved ones
will stand
On the fair shining strand.

Why mourn we? Oh! we would have kept them
we say.
From the cold of the winter, the wind and the
rain!

To have looked in their faces each desolate day
When have brought back the sun to its
shining again,
And chased away pain.

But the Father knew best. And since some-
times must be first
In that under some shelter beyond the blue
hills.

We are glad to be chosen to suffer the worst.
While others are quivering with the
When the greatest joy thralles.

And we quiver our footsteps, the sooner to be
At home by the side of them, sharing their
bless.

Look! into dear faces our welcome to see,
And holding loved hands which it hurts us to
miss.
God grant us all this.

And help us in the patience and strength to remain
At the work which He gives us, our weary for-
tune.
Till he says (as to them), come away from the
best.
For the heavenly home is the brightest and
best.
And your heart shall have rest.

What makes a Man Rich.

Riches and poverty are dependent more
on internal dispositions than external cir-
cumstances. There is certainly no given
amount of gold or silver that can be laid
down as constituting wealth. Every one
knows how much his own idea on this
subject have altered within the last ten
years. In Prescott's Conquest of Peru, it
is related how the sudden possession of the
precious metals by the soldiers of Spain
produced such a disturbance of value in
Europe, and especially in America, that a
quire of letter paper was worth several
thousand dollars, and common soldiers
gambled away in a single night fortunes
that some grandees of Europe would have
esteemed quite respectable. It is said one
man possessed an image of the sun, made
of wrought gold, eight feet in diameter
across the face. It was taken from the
front of one of the tents of the natives;
but he gambled it away in a single night,
and the day dawned on him a beggar.

Hence came the Spanish proverb, "To play
away the sun before sunrise." There is
getting to be a reckless sort of gambling
and speculation with many, not indeed so
disturbing in degree, but as absurd and
mad in point of principle, as many of the
speculative transactions of that world-
renowned period. In the oil regions a man
whose wells were netting him three thou-
sand dollars a day, two or three years ago,
has been reduced to poverty.

That man is rich who possesses more
than he requires; and he is poor, no matter
what he possesses, who needs more than he
has the power to procure. The idea of
riches is that of plenty, of dominion, and
rule. He who has control of his own desires
and wants, and can supply them in rich-
ness, who no longer for what he cannot command
is poor, no matter what amount of money
or property he has. Hence riches and pov-
erty are always fluctuating, not only with
the supply of paper or of gold, but with the
demand occasioned by the hopes and fears
of the mercantile faith of the hour and of
the men. When from any cause the de-
mand is in excess of the means of supply
forthcoming, whether it be for one dollar
to purchase a dinner, or one hundred
millions to construct a railway across a
continent, there is poverty.

How a Revival Begins.

As churches are again filled with returned
wanderers, and the routine of religious
labor begun, it may be well for all to
remember how an increased interest in the
cause of Christ manifested itself. Rev. T.
C. Cuyler says:

And as no church has no sorer indication
of feeling than a decision prayer meeting,
so nothing marks the approach of a revival
so unobtrusively as the place of prayer. A
revival begins there generally. The

deserted seats are filled, and so are the hearts. Those who "could not leave their business" manage to close their shops or their warehouses and enter to the attractive spot. About Thomas's hand punctuated. There is a magnet in the prayer-room, and it draws. Those who come have something to say, both to each other and to the prayer-hearing God. The "gift of tongues" has descended. The timid grow bold to ask; the slow of speech become eloquent, the frozen souls melt into penitence; the cowardly multiply, old wounds and quarrels heal up; and the pastor rejoices to see a latent power of faith and activity developed that he hardly dreamed of. The church is kindled to its extremity, and all from the central penetrating heat of the prayer gathering.

Feminine Excitement at Manchester.

PARTICULARS OF THE AFFAIR.

Our cable despatches have already announced the execution of the Fenians at Manchester on the 23rd ultimo. The latest papers received by the China are of that date, and the only particulars given are the following from the Pall Mall Gazette:

"When the hour fixed for the execution had arrived, suddenly the words of military command were heard, and a company of the Seventy-second Highlanders marched round the court-house and took up a position in line at the foot of the staircase. Simultaneously small detachments of the same regiment ascended to the platform, and crouched there with their loaded rifles slightly projecting over the prison walls. At almost the same moment the heads of a line of soldiers arose above the parapet of the railway viaduct.

"A line of wardens was formed in the jail court. The sentries on duty ceased their walk, ungratified and reporters stood aside, and a dead silence prevailed for a few moments as a signal was given from a corner of the Round House. At three minutes past eight o'clock the solemn voice of a priest repeated the Litany of the Roman Catholic Church was heard, and the head of the procession became visible through the thick fog, about thirty yards from the foot of the staircase. The Rev. C. Cantwell walked first, by the side of Allan. The convict was deadly pale; his eyes wandered alternately from the priest to the individuals standing around. He walked with a tolerably steady step, and uttered the responses, 'Lord have mercy on us,' in a firm voice.

"Next to him came Larkin, in whose appearance, countenance and anxiety of mind had wrought a striking change. He walked with difficulty, and required the support of the wardens as he mounted the staircase. He seemed to join mechanically in the responses, and as he approached the head of the stairs he gave one hasty glance at the black benches overhead, and seemed about to faint. Gould was the last, and he met his fate more firmly, joining in the responses with a steady voice.

"About five minutes past eight o'clock the door leading from the jail yard to the scaffold was opened, and the same instant almost every head in the crowd was uncovered. Allen was the first to appear. He was deadly pale, and closely clasped a crucifix. Calmly at the place the white cap over his face and adjusted the rope. Meanwhile the convict continued engaged in prayer. Then followed Gould, who walked with a firm step. On coming to the drop he shook hands with Allen, and kissed his right cheek. He too was forthwith capped and placed in the noose.

"Larkin was the last to mount the scaffold, which he did with firmness, and indeed, with a smile upon his face, and like the others, he submitted unhesitatingly to the preliminaries. They all joined loudly and earnestly in the responses, 'Jesus, have mercy on me; Jesus receive my soul,' when the bolt was drawn and the three bodies dropped. Allen was dead in about a minute, but the last of his fellow-convicts was more painful, both Larkin and Gould appeared to struggle some little time. All the three men showed symptoms of fear; Gould the least. The bodies were cut down at nine o'clock."

"Shore, who had apparently become resigned to meet the capital sentence, received the intimation that a respite had been accorded him in a becoming spirit."

"The execution of Allen takes place at Kingston on Wednesday the 11th inst., instead of Tuesday, as noticed yesterday."

"The steamer Margaret Stevenson is blocked up within the River near River du Loup, and abandoned by the crew."

"The Eastern Chalcid has had enough of Confederation, and wants the Nova Scotia rombers to go home again."

"An eastern sportsman has bought an island in the Ohio river, and stocked it with black cats, to raise the animals for the sake of their fur."

"The Bank of Montreal has denied a statement made by a contemporary that the specie held for the redemption of Provincial Notes is also held as part of the assets of the Bank."

"Ireland is exporting oats to France. Biscuits, vessels, which have lately left Cork for French ports, carried 24,077 barrels of oats; 19 vessels from Waterford, 10,400 barrels; and in all probability 100,000 barrels will be taken."

"The negro who committed the outrage on Mrs. Baker, of Piercetia, Indiana, was caught the same night. He made a full confession of the crime, and was then seized by a mob, and stabbed, beaten and shot until he was dead. His body was then dragged through the streets."

"The low state of the Mississippi River has been turned to good account. The people turn out and dig the bottom of the river for valuable lost by the wreck of steamboats. In one locality large amounts of canned meats, fruits and oysters, as well as many bottles of wine, have been found."

Daily Intelligencer.

BELLEVILLE, SATURDAY, DEC. 7.

TOWN COUNCIL.—A letter from Mr. R. Tanahill, respecting the proceedings of the Town Council, and the duty and privileges of reports, is crowded out.

THE POSTAL BILL.—The country will learn with pleasure that Senator Campbell has graciously yielded to the wishes of the Press, and has so modified the Postal Bill as to make prepayment optional. It is understood that the rates will be on letters 3 cents if prepaid, 5 cents if not; on weekly newspapers 23 cents per annum, and a proportionate reduction on daily issue, prepayment optional.

SEVERE GALE.—The severe gale which commenced yesterday morning and continued until midnight must have been disastrous to any shipping that was on the waters. It was particularly severe late in the evening, almost amounting to a hurricane. There is little doubt that the schooner "Hastings," which was formerly owned in this town, with all her crew, has been lost on the lake. The propeller "Michigan" reports passing the wreck of a vessel, with only her topmast visible, about half way between the Galios and Oswego.

CANADIAN SECURITIES.—A gratifying advance has taken place since the 15th ult., in the value of Canadian Securities in the London Stock market. Prices are quoted at 103 to 105, the highest point attained for three or four years. Referring to the advance, a London paper says: "The chief operations were in Colonial Government Securities, which have obtained great popularity among speculators as well as the investing public. Numerous dealings in these bonds are recorded in the Official List at an average rise of 1 per cent. For months past investors, tempted by the low price to which many of the more sound and promising of these stocks had been permitted to descend, have been gradually buying them up, and the consequence has been a steady advance and comparative scarcity now in the market."

WORK AT THE MARIONA ONE BEDS.—The Cobourg World says: "During the interval of transportation, the work at the mines is progressing in a very favorable manner. About one hundred and fifty men are constantly employed in getting out ore; and already, since the conveyance ceased, as much has been mined as in the same time of the excavation in the spring. Besides this, there is a large quantity of the Narrows, ready for conveyance to Cobourg, as soon as navigation re-opens. We are pleased, also, to learn that the quality of the ore is continually improving as the shaft descends. The prospects of the Company never appeared better than at present—a fact for which all our citizens must be exceedingly thankful, as whatever advances their prosperity affects our interest in a very important way."

U. S. BUDGET.—President Johnson's message contains the following reference to the United States Budget: "On the 30th of June, 1865, the public debt amounted to \$2,753,425,879, on 30th of June last it was \$2,632,192,215, showing a reduction during the fiscal year of \$121,233,664. During the year ending June 30, 1867, the receipts were \$493,634,010, and expenditures \$496,725,129, leaving an available surplus of \$13,908,880. It is estimated that the receipts for the fiscal year ending June 30, 1868, will be \$417,151,928, and that the expenditures will reach the sum of \$303,293,238, leaving in the Treasury a surplus of \$23,858,702. For the fiscal year ending June 30, 1869, it is estimated that the receipts will amount to \$881,000,000, and that the expenditures will be \$877,000,000, showing an excess of \$4,000,000 in favor of the Government."

The Commercial Bank.

Commercial Bank Stock has again advanced. The Montreal Gazette speaking of the extended privileges given to the Bank by the Bill now before Parliament, and the confidence in the Bank which has been greatly enhanced, says: "Not only the solvency, but the large surplus shown by the assets of this Bank, are now so apparent that it is needless to do more than state their existence. Now is the time for the Directors and Shareholders to bestir themselves in their own interest. We have to remind them that hostility to them is still rife, that the same desire to force them into liquidation still exists, and that it is against this course that they have to strive most energetically. From all we have learned, we earnestly warn the Shareholders of the Bank against the total ruin which an assignment for the purpose of liquidation would cause."

"This would necessitate a forced realization, endless law-suits, the creation of an army of Locusts, in the shape of Trustees, Solicitors of *non gratus omnia*, and judging by

the experience of all such arrangements, we can look upon liquidation in no other light than that of financial suicide, or, at least, destruction of sound and available property—in greater part, the bread of the widow and orphan."

In our columns of to-day, we point to either amalgamation or reorganization. Let both calmly and carefully considered, taking care that no sacrifice be made; if the first course be adopted, when assets are undoubtedly good for 80 per cent of the present nominal capital, if the second course be followed, seeing the way clearly to a moderate issue of new stock, to the election of a competent board of Directors and an experienced staff of officers, and above all, to a removal of head quarters to Montreal. We consider these three essential to its success, and if they cannot be secured, with all our strong preference for a re-organization of the Bank, we would consider it only a risking of what is left, if it be determined to adopt this course without them.

"We trust that before the general meeting to be held at Kingston, on the 17th inst., the shareholders may consult together for their mutual benefit, so that unity of action may be secured."

Western Extension.

The question of Western extension is one of vital importance to the Dominion of Canada. "Westward the star of empire takes its way," and westward do the thousands of emigrants who annually land at Quebec, take their way. Few, comparatively, remain in Canada, or in Quebec, or in New Brunswick, or in Nova Scotia. To the great West, with its fertile lands, its vast prairies, its boundless resources, the great tide of emigration sweeps on. What we have lacked has been breadth of territory, and without the acquisition of the North-West Territory we would still lack that great essential to our growth and prosperity. Even with the Maritime Provinces, the Dominion is but a narrow tract of country. We want breadth with our other acquisitions, so that we may have something attractive to offer to the emigrant who seeks a home in the New World. The North-West Territory lies side by side with the most fertile portions of the Western States. The prairie land is as rich and fertile as in Wisconsin or Minnesota; it is equal in fertility and natural facility of cultivation to any in the Western States; it abounds in mineral wealth; the climate is salubrious, and in every other respect it affords advantages to settlers equal to any offered by the United States: beyond all this, there is the protection of British laws, which to the vast majority of emigrants would be an additional inducement to choose Canada as a home in preference to any one of the Western States. With respect to the character of the soil and climate of the North-West Territory, Hon. Mr. McDougall remarked: "There was an opinion, even in this section of the Dominion, where this question had been fully discussed, that the great territory of the North-West was not adapted to civilization or fit for the purposes of civilized life. That, in fact, it was chiefly valuable for the purposes for which it had been used since the establishment of the Hudson's Bay Company in its trade in that part of the world. After examining different authorities on the subject, especially the reports of explorers, he was satisfied that although this territory was situated very far north, yet from its peculiar conformation it was well adapted to the production of all those grains necessary for the support of human life, and that the climate was quite equal to that of Canada."

What we want now is to open communication with this vast western country, and in this respect nature, in its magnificent highway of rivers and lakes, has made the work comparatively easy. One difficulty with which our Government will have to contend, will be in settling the claims of the Hudson Bay Company. The resolution referring to this point admits the legality of certain claims and rights, to adjust which the resolution says, "the same shall be submitted to a judicial decision, or be determined by mutual agreement between the Government of Canada, and the parties interested." The manner in which the whole subject has been met by the House, points to a speedy and satisfactory settlement of the question.

"The shares of the Union Bank of F. E. Island, are at 35 per cent. premium."

"The New Brunswick press makes an unusual stand against newspaper postage."

"Nine French Canadians were burned to death recently by a prairie fire in Decatur."

"There was a heavy fall of snow in Lower Canada yesterday."

"A disastrous fire occurred at Senfort yesterday, which destroyed five stores in the best part of the town."

"A large number of vessels have gone to Port Colborne to lay up for the winter, as that harbor opens much earlier than that of Buffalo."

"Mr. F. H. McDuff, of Toronto, has accepted the office in the exchequer department, offered him a few weeks ago."

FROM OUR OTTAWA CORRESPONDENT.

OTTAWA, Dec. 6, 1867.

The House sat to-day for about an hour with closed doors, debating, it is understood, some complaint made by the reporters that they had been forbidden the use of the Reading Room; and the question of the Refreshment Rooms in the Parliament Buildings. It has not yet transpired what took place, but like things of this kind it will, I suppose, leak out ere long.

On the opening of the doors, the Committee reported in favor of the introduction of your Bank Bill, when Mr. Read moved, seconded by Mr. Bowell, for leave to introduce an "Act to incorporate the Bank of Hastings," which was passed, and the second reading set down for Monday next. Whether it will then be pushed I do not know. It will depend a good deal upon the action of the Government, and what course they intend to pursue in reference to Banks and Banking, and as the Bill will have to be printed and distributed, it may not come up on Monday.

A motion by Mr. McFarlane for leave to introduce a Bill to grant patent rights to somebody, caused some discussion as to the policy of the Government upon this question, when Sir John A. Macdonald said the Government would not oppose the first reading of the Bill, though they intended to introduce a general policy. The motion being carried, the House went into Committee of the Whole on the Report of the Committee. Before giving you any of the proceedings of the Committee, I may mention that after the close of my letter yesterday, the debate upon these resolutions was continued until half-past twelve, when the House went into Committee. Mr. Howe, fancying that this would prevent his again "elaborating" his views, protested vehemently against the action of the Government in thus forcing so important a question upon the people, and that if they persisted in the course he would recommend his friends to leave the House, thus showing a startling disposition unworthy of such a man. Sir John A. Macdonald replied that the object of going into Committee was to enable the question to be more fully considered than they could if discussed with the Speaker in the chair; and that they could, if they would, push the resolutions through, as supposed by the member for Hants (Mr. Howe). After this little episode the House adjourned.

To-day the House has been entertained with two speeches from Mr. Blake, who has an itching for talking, and evidently delights in the sound of his own voice. The appreciation of the House of his harangues, was manifested in allowing him to take his seat without a single "hear" or manifestation of applause. How different was the reception of the speech by the Minister of Public Works, Mr. McDougall. He spoke for about an hour, and handled the chancery lawyer in a masterly manner, particularly when he accused him of arrogating to himself the championship of the "great liberal party," opposing these resolutions, when it was well known that it was that party which had made it a strong point at every election for a number of years, and it was strange now to hear the pretended leaders of this party opposing Western extension. Mr. Jones, of Halifax, is now addressing the House.

The House will meet to-morrow to hear the Finance Minister's statement.

Stock Market.

The Montreal Gazette's commercial article of yesterday says the demand for investment has been more active since the payment of the dividends due on the 2nd inst., but there is still considerable pressure to sell nearly all Bank Stocks.

Bank of Montreal—Has been dealt in to a considerable extent at 128, 127, and 127, closing with buyers at 127, while sellers ask 128.

Bank of British North America—No stock in market would readily command 100.

City Bank—Is heavy with sellers at 97 to 98.

Molson's Bank—Has been inquired for at 110.

Merchants' Bank—Sales during the week at 108 and 107, at which it is still offering. A dividend of four per cent has been declared payable on the 2nd proximo.

Mechanics' Bank—Small sales reported at 97 to 98. There are still sellers at the latter rate.

La Banque du Peuple—There has been a good demand for this stock throughout the week, with limited sales at 104 to 107.

La Banque Nationale—In demand at 104 to 105.

Union Bank of Lower Canada—Large sales during the week at 104 to 104 for all paid, and 103 to 103 for 50 per cent paid. A dividend of four per cent has been declared payable on the 2nd proximo.

Eastern Township's Bank—Buyers offer 98, while sellers ask 100. A dividend of four per cent has been declared payable on the 2nd proximo.

Commercial Bank of Canada—Has again advanced. There being no sellers to-day under 90, with buyers to a considerable extent at 87. The passage of the Bill by the Commons, together with the most satisfactory statements of the collection of arrears and payment of liabilities has caused a large speculative demand for the stock, and there have been considerable sales at 30 to 35.

Ontario Bank—Has been largely dealt in at 97, 97, and 97, closing rather firmer, with buyers at 97 and sellers at 97.

Bank of Toronto—Has declared a dividend of four per cent, payable on the 2nd proximo.

The stock continues to be offered at 115 with out the least demand. The Montreal Gazette says: "The declaration of a dividend of three and half per cent, has caused a rally in this stock, there being buyers but no sellers at 89 to 82."

Royal Canadian Bank—Considerable sales at 27.

Canadian Bank of Commerce—Is offered at 102 to 103 without attracting buyers. A dividend of five per cent, has been declared payable on the 2nd proximo.

Montreal Telegraph Company—There have been only small sales during the week at 123.

Canadian Inland Steam Navigation Co.—A sale reported at 180, at which price it is still proffered.

Richieu Navigation Company—No transactions during the week; sellers ask 108, while buyers will not advance over 105.

Canada Debentures—There has been a large demand for currency bonds, both five and sixes at quotations. Sterling lives have been sold at 87, which would still be paid.

Police Items.

AGGRAVATED ASSAULT.

Robert Baine, accused of causing the death of his wife from brutal assault, and remanded from the 29th ult., was brought before the Police Magistrate yesterday, and after the evidence of the Chief of Police and Doctor Lister was recorded, and a re-examination of Doctors Caniff and Burdett, the prisoner was fully committed for trial.

VAQUANCY.

Andrew McDonald, not having fully recovered from the St. Andrew's celebration, and appearing before the Police Magistrate with his face all bruised and bloody from close proximity to the ice, was committed for 20 days. He pleaded hard with the Clerk to record on the commitment a grant of tobacco and one "wee stop" each day, but Mr. Roy was inexorable, denying the prisoner's nationality and disclaiming his Gleanery origin, which he rather attributed to the North of Ireland. He was warmly received by the worthy Governor of the County Gaol, who recognized him as an old acquaintance.

DRUNK.

Two men named Brown and McGregor were arrested for being drunk, and locked up for the night. They were discharged next morning, having promised the Police Magistrate not to indulge in "Tangle-leg" for some time.

Two old cyprians—though young in years—were committed for 30 days each.

Telegraphic News.

BY ATLANTIC CABLE.

LONDON, Dec. 6.—The London Times has no editorial on the transfer of the Island of St. Thomas to the United States. It is pleased with the transfer, and hopes that the sanitary measures of the Americans will extinguish the contagious fevers which are so prevalent in that city.

Wm. Hagan, supposed to be the one who furnished the arms to the Fenians who rescued Kelly and Dasey, was arrested yesterday in Birmingham.

FLORENCE, Dec. 7.—The Italian Government has granted universal amnesty to the adherents of Garibaldi.

LONDON, Dec. 7.—The present state of political affairs in Italy create anxiety and distrust in monetary circles.

LONDON, Dec. 6.—The Globe says that the present attitude of France renders the conference on the Roman question impossible.

QUEBEC, Dec. 7.—The steamers *Sonia* and *Denmark* have arrived.

LONDON, Dec. 7, eve.—Consols closed at 99; Bonds 97; 110 C 89.

LIVERPOOL, Dec. 7, eve.—Cotton closed at an advance of 3d; 110s 7d; Orleans 91; sales 12,000 bales; Manchester adroit favorable. Market for goods and yarns improving. Provisions and Produce unchanged.

LIVERPOOL, Dec. 7, eve.—The ship "Thornton," from New York on November 2, for Liverpool, went ashore in the Mersey, and it is feared will be a total loss.

American Despatches.

OWEGO, Dec. 6.—A portion of the Welland Canal fleet arrived yesterday afternoon, and this morning.

UTICA, Dec. 6.—Canal matters are quiet; the weeklock is deserted. The ice remains unbroken.

OWEGO, Dec. 7.—There was a great gale on Lake Ontario last night. The schooner "Baltic" sunk by striking the wharf. She had a cargo of wheat, and is nearly a total loss.

ALBANY, Dec. 7.—The canals are filled with ice, and it is said that many of the boat captains have discharged their hands and tied up their boats. Only three of all the boats on the Schoenclady level, on Thursday, were got off up to last night.

WASHINGTON, Dec. 7.—The House of Representatives came to a vote this afternoon on the resolution providing for the impeachment of the President of the United States, and it was rejected by 108 to 87. The House also passed the bill to suspend further reduction of the Constitution.

The Montreal Gazette says:—It is rumored, and we believe correctly, that the Alliance Insurance Company of London, has bought out the Western of England, which company will consequently close its business in Canada. The Western has a deposit in the hands of the Finance Department, which will go towards meeting the losses now due by that Company.

Song for the Times.

From the First Lance
Sing a song of Banking,
E. H. King so sly,
Many hundred shareholders
Baked to a life.

When the pie was opened,
How the air did ring,
With the moon of riot
Caused by E. H. King.

King was in his counting house
Banking on his issue,
Coasting dirty bricks
— And that monstrous tissue.

Time of meadcity,
"Statement of facts," he called it,
Credited until of late,
When Workman overhauled it.

Sing a song of Banking,
E. H. King so sly,
Would you keep your seat?
Better mind your vote!

In a reply to Swift, Pope said:—"I am
rich enough, and can afford to give away
2100 a year. I would not climb upon the
earth without doing a little for truth. I
will enjoy the pleasure of what I give by
giving it alive, and seeing another enjoy
it. When I die I should be ashamed to
leave enough for a monument if there was
wasting a friend above ground." (It
would be well if we had a few more such
Pope's "above ground" at the present day.)

PROSPECTUS

ROSE MINING COMPANY
OF MADOC.

C. D. WYCKOFF, A. L. McLELLAN, JAS.
CARP RITCHIE, F. E. KILVERT, ASA
A. BURNHAM, JR., J. E. O'NEILL, E. H.
HALE, and JOHN FAIRGRIEVE, are the
owners of the property hereinafter mentioned,
and are desirous of organizing a Stock Com-
pany, with the capital of \$25,000, and are to
receive and take in payment for the said pro-
perty \$1000 in cash, and 2500 shares of paid
up stock of the said company. The said prop-
erty is now taking proceedings for its in-
corporation, under cap. 28, 27-38 Vic. and
has much pleasure in calling the attention
of the public to the following Prospectus:

This Company is being formed for the
purpose of developing the Mineral Resources of
five acres of land, being part of Lot No. 10
in the 5th concession of the Township of
Madoc, in the County of Hastings, situated
on the main road, between three and four
miles from the village of Madoc, upon which
Gold and Silver have been found in paying
quantities, several assays having been made
by Professor Wyckoff, who selected with
great care this locality as being not only rich
in minerals, but possessing facilities for min-
ing which gives the company peculiar ad-
vantages over many others, there being on
the property a high ridge or mountain of
rock, in which numerous veins of gold-bearing
quartz crop out, and instead of sinking
shafts, (a most expensive and tedious op-
eration), drifts can be run from the base of
the ridge, cross-cutting the different veins,
and giving eighty feet of rock to work upon,
which will furnish as much ore as could be
taken out for the next twenty years, and at a
cost comparatively small, no machinery being
required to free the mine from water.

This Company intend, as soon as a charter
is granted, to erect a mill house, with suit-
able machinery for reducing and separating
the precious metal, thereby saving the cost
of cartage to other mills, and the great ex-
pense and inconvenience incurred in having
the ore reduced and the metal extracted by
custom mills.

Adjoining this property is a lake from
which an abundant supply of water can be
obtained for all purposes.

Another great advantage in this property
is, that immediately the work is commenced
it can be taken out in quantities more than
sufficient to pay the working expenses and
in that respect alone will equal if not sur-
pass any of the mines in this district, taking
into consideration the richness and abun-
dant of the ore, and the many advantages
described above, it cannot but prove interest-
ing to those who may become interested
in this Company.

THE DAILY INTELLIGENCER

BOOK AND JOB

PRINTING OFFICE.

THE public are informed that in connection
with THE DAILY INTELLIGENCER, we have one of the best
appointed

In the country, and our facilities for turning out all
kinds of Book and Job Printing are such as should
command the attention of every business firm in the
County of Hastings.

By means of multiplying gauges and
microscopes, tests and inspection for the
detection of wear in cutting tools, and for
faults and flaws in steel or stone, are made to
accompany the work in every stage from
beginning to end. As a necessary result, the
Watch goes together a finished machine.
Every part is found to fit properly in its
place. Every pin may be pushed till it
blanches, and every screw turned home
without causing damage, and the action, the
balance, even under the pressure of the
lightest mainspring, vibrates with a wide
and free motion, and the beat has the clear
ringing sound always characteristic of the
Waltham Watch. The machine is a time
keeper from the start.

This system of watchmaking is unknown
in foreign countries, and is entirely original
with the Waltham Company. The Company
claim that by its production Watches that
cannot be equalled for every quality which
make a watch valuable. Simple in plan,
and correct in principle, the movement is not
only beautifully finished, substantial, accurate
and cheap, but is uniform to such an extent
that details, not easily damaged, easily repaired,
and when repaired always as good as new.

There are different grades of "Waltham" in
the different varieties of Watches made by the
Waltham Company, as there are different
sises and shapes to suit all tastes and means;
but every Watch that bears the genuine
trade mark of "WALTHAM" is guaranteed
to be a good one, and nobody need be afraid
to buy it.

EVERY WATCH FULLY WARRANTED.
For sale by all first-class dealers in the
United States and in all the principal cities of
Canada.

American Watches.

THE true value of Machinery applied
Watchmaking is in fact, that by its use
Watches are made rapidly, but they are
made correctly. Very few people know why
a Waltham Watch should be superior to
any other. In the first place, at the factory
the Watch is regarded as only a machine, to
be constructed like any other machine, on
little else than a machine shop, in fact, a
little less than a machine shop, the principal
work in which is not more upon watches than
upon machinery to make watches with. If
the watches are good, it is because the
machinery is good. Of course, there must be
no defect in the principle of plan or the
movement, no mistake in the size or of shape
of the pieces of which it is composed, nothing
wanting in their properties, and no error in
their positions. These points once thoroughly
settled in regard to each part of every variety
of watch, it rests wholly with the machinery
constructed with infinite diversity of form and
function, expressly for the purpose, to produce
the finished piece. The method established in
every department is the reduplication of
parts by mechanical means, and this is carried
out on the system of the most thorough
subdivision.

By means of multiplying gauges and
microscopes, tests and inspection for the
detection of wear in cutting tools, and for
faults and flaws in steel or stone, are made to
accompany the work in every stage from
beginning to end. As a necessary result, the
Watch goes together a finished machine.
Every part is found to fit properly in its
place. Every pin may be pushed till it
blanches, and every screw turned home
without causing damage, and the action, the
balance, even under the pressure of the
lightest mainspring, vibrates with a wide
and free motion, and the beat has the clear
ringing sound always characteristic of the
Waltham Watch. The machine is a time
keeper from the start.

This system of watchmaking is unknown
in foreign countries, and is entirely original
with the Waltham Company. The Company
claim that by its production Watches that
cannot be equalled for every quality which
make a watch valuable. Simple in plan,
and correct in principle, the movement is not
only beautifully finished, substantial, accurate
and cheap, but is uniform to such an extent
that details, not easily damaged, easily repaired,
and when repaired always as good as new.

There are different grades of "Waltham" in
the different varieties of Watches made by the
Waltham Company, as there are different
sises and shapes to suit all tastes and means;
but every Watch that bears the genuine
trade mark of "WALTHAM" is guaranteed
to be a good one, and nobody need be afraid
to buy it.

The Daily Intelligencer

WILL appear about five o'clock every after-
noon (Sundays excepted) and will be
furnished by carrier to every subscriber, or
if paid in advance, \$5.00 otherwise. Mail sub-
scribers \$5 a year. \$2.50 for 6 months; \$1.50
for 3 months.
It will contain the latest telegraphic news-
up to the hour of going to press, including Cable
dispatches and the New York and other
Markets.

Arrangements have been made with BELLEVILLE
COUNTY COURTS, and with the various
municipal and other bodies, who will furnish us with
early and full information respecting the
proceedings of Courts of Law, Corporations,
Public Meetings, etc., etc., and in short, neither
news nor expense will be spared to make the
DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has
been arranged as follows:
Cards, not exceeding six lines, 6
months, \$1.00
Half Square, 6 months, \$1.00
One Square, 6 months, \$2.00
Two Squares, 6 months, \$3.00
Four Squares, 6 months, \$5.00
Notice of Deaths, 50
Do of Marriages, 50
Do of Deaths, 50

"BUSINESS NOTICES"—All matter under this
heading, headed or solid, 10 cents per line,
unheaded or in small type, 7 cents per line.
Advertisers contracting for any space not less
than half a square can have the privilege of
changing their advertisements every two weeks.
Transient advertisements inserted at 7 cents
per line for first insertion, and 5 cents for each
additional insertion.

The Weekly Intelligencer

is published every Friday Morning at \$2 per
annum if called for at the Office, or sent by
mail; and 85¢ if delivered by the Carrier, pay-
able in all cases in advance. When not paid
until the close of the year, 50 cents will be
added to each year's subscription. No paper
discontinued until arrears are paid up, except
at the option of the Publisher.

Within the past three months its circulation
has rapidly increased, and the number now
on our subscription books is over 1,400.
With such a large and increasing circulation
throughout this and adjoining Counties, the
WEEKLY INTELLIGENCER presents unsurpassed
advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion, .00 00
Each subsequent insertion, .00 12 1/2
Above six lines, first insertion, .00 12 1/2
Each subsequent insertion per line, .00 00
"BUSINESS NOTICES"—10 cents per line
each insertion, inserted as solid matter.

A liberal discount will be made to those who ad-
vertise by the year.
Advertisements for insertion must be deliv-
ered before 12 o'clock, noon, on Thursday to in-
sure their appearance.

All advertisements without written directions
inserted until forbid, and charged accordingly.

The Intelligencer Job Office

is supplied with Power Presses, Hand Presses,
and possesses every facility for the rapid and
neat execution of every description of plain and
gilded printing, at prices as low as any other es-
tablishment in the country.
The DAILY and WEEKLY INTELLIGENCER are

"Amplified of the Press."

Perhaps we are treading on forbidden ground in directing public attention to this matter essentially.

but as it was unique, and as we think by any means destitute of real public interest, we make the venture in the doubt that those who are personally concerned will pardon our interference, and that the public will be pleased to learn facts we have to state. It is not of course forgotten that the late general election resulted in the return of three well-known

of Commons: Mr. Chamberlin (Mont
Gazette), for Mississquoi, Mr. Bowell (B
ville *Intelligencer*), for North Hastings,
Mr. Stephenson (Chatham *Blade*).

gent. There are others in the Com who are, or have been, intimately con ed with journalism, but these three in especial manner are *live*, working jour isis, as well as representatives of their respective constituencies. Now, what are going to tell is that these three gentlemen entertained the representa

are in the gallery, at a most sumptuous supper in the dining-room of the Hotel on Wednesday evening. The entertainment was provided by Messrs. L'E

the utmost credit upon their talents as public caterers, and though the twenty gentlemen who sat down at midnight supper all more or less felt the

effects of a long day's work, ample justice was done to the splendid repast which was laid before them. Mr. Chamberlin, the originator of the project of entertaining

bers of the press, appropriately occupied the chair, and the vice chairs filled by Messrs. Bowell and Stephens. The gathering was strictly of a

and friendly character, and we shall therefore pretend to give even a synopsis of what transpired. But the four hours of convivial enjoyment spent by the

showed that pressmen could be eloquent with the tongue as well as with the pen. The press of the four Provinces and shades of politics was fully represented.

the gathering, and the utmost harmony prevailed throughout. The incident does not seem to have much importance to the public, but we, who have toiled for a

who have spent twice the time in the laborious and generally ill required position, felt that the three gentlemen had not merely done a personal kindness.

to their old associates, but laid the relation, or rather commenced a superstratum upon the foundation of personal good-will already existing, which is destined to be a permanent and beneficial

upon the members of the press. The public will certainly lose nothing by any circumstances that will improve the tone and character of public journalism, and

incident calculated to have a better or decided influence in this direction. Mr. Chamberlin, Bowell, and Stephenson

Canadian Press Association, embrace
journalists of the whole Dominion, and

SPECIAL NOTICES.

Dr. P. Meredith, Dentist, office No. 132 West Sixth
Street, states as follows:
CINCINNATI, October 1, 1888.
Messrs. J. N. Harris & Co.—Gents:—About one year
ago I took a cold which settled on my lungs. A violent
cough was the consequence, which increased with fever-
ishness, loss of appetite, and general debility. I was
treated by the best physicians, but to no avail. During the
winter I became so much reduced that I was confined to my bed.
The disease was attended with violent chills and fevers. A
diarrhoea set in. My friends thought I was in the last stages of
Consumption, and could not possibly get well. I was recom-
mended to try
ALLEN'S LUNG BALSAM.
The formula was shown to me, which induced me to
try it, and I am now able to attend to my business
as usual. Yours respectfully,
P. MEREDITH.
Sold by Family Medicine Dealers.
Every Bottle \$1.00, Agents for the Dominion of
Canada, Belleville, Dec. 9, 1887. 179-204-50

TYPHOID FEVER.

This disease is not only cured by Dr. Rodway's Re-
lief Pills, but prevented. It exposed to it, put
cures of Relief in a matter of water. Drink
the before going out in the morning and several times
during the day. Take one of Rodway's Pills one hour
before dinner, and one on going to bed.
I friend with Fever, and one of the Pills every six
hours, until copious discharges from the bowels take
place; also drink the Relief diluted with water, and
take the entire surface of the body with Relief. Soon
a powerful perspiration will take place, and you will
feel a pleasant heat throughout the system. Keep on
taking Relief immediately, every four hours, also the
Pills. A cure will be sure to follow. The Relief is
strengthening, stimulating, soothing, and quiescent; it
is sure to break up the Fever and neutralize the poison.
Let this treatment be followed, and thousands will be
saved. The same treatment in Fever and Ague, Yellow
Fever, Ship Fever, Bilious Fever, will effect a cure in
24 hours. When the patient feels the Relief treating,
or heating the skin, a cure is positive. In all cases
where pain is felt, the Relief should be used.
Relief 50 cts.; Pills 25 cts. Sold by all Druggists.
See Dr. Rodway's Almanac for 1888. 179-204-50

NOTICE.

APPLICATION will be made to the
Legislature of the Dominion of Canada
at its next sitting, for an Act to incorporate
a company under the name of the Bank of
Hastings, for the purpose of carrying on
the business of Banking and Exchange in
Belleville, etc., and for other purposes.

Belleville, Nov. 1, 1887. 160-11

PROSPECTUS OF THE EL DORADO MINING COMPANY OF MADOC. (LIMITED.)

CAPITAL STOCK - - - - - \$73,000.

Divided into 2,100 Shares of \$30 Each.

Deposit on Subscription, \$15 Per Share.

THIS COMPANY is formed, and proceedings taken for its incorporation, under Chapter
23, 27, and 28 Vic. for the purpose of developing the mineral resources of three acres
of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 17,
in the 5th Concession of Madoc. It is situated about forty rods from the celebrated Rich-
ardson Mine. At present, there are two shafts sunk on the property about 200 feet apart,
one 40 feet deep, and the other 35 feet deep. There is at the present time about 500 tons
of ore already mined. The owners of the property have had one ton of this quartz crushed
and amalgamated by Scott & Taylor's Mill, which returned \$38.50 in gold, which specimen
can be seen at J. E. Ellis, on King Street.
There is no question whatever but that there is also a large quantity of Silver in the
same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not
known how much Silver there is in the ore.
The projectors have determined only to sell sufficient stock to repay the advances, and to
carry on the work satisfactorily. They have thereupon decided to sell only 823 shares of
the value of \$30 each, payable one-half, or \$15, as above, on subscription, and the remaining
\$15 on the 1st of January, 1888. Out of the above sales, \$10,000 is to be retained by the
Secretary for working expenses.
In presenting this Company to the public, the Directors do so with confidence, inasmuch
as there is no doubt (judging from the above test), that the returns on so small a capital
will be excessively remunerative.
The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.
RICHARD SPARKLING, Managing Director and Superintendent.
T. S. MCGILVER, of Madoc.
MAYLON BURNELL MCGREGOR, of Madoc.
T. A. MITCHELL, of Madoc.
ALDERMAN VICKERS, of Toronto.
J. E. ELLIS, of Toronto.

MCCLELLAN & MCCLELLAN, Solicitors.
BANK OF MONTREAL, Bankers.

Applications for Shares received by Alderman Vicker, Yonge Street, Toronto; J. E. Ellis,
King Street, Toronto, and at the office of

WILLIAM KERSTEMAN,
62 Church Street, Toronto.

American Invoices—Discounts.

FINANCE DEPARTMENT, CUSTOMS,

QUEBEC, 6th March, 1887.

It is directed by the Hon. The Finance Minister, that hereafter Weekly Notices be published and furnished to Collectors of Customs, as to the rate of discount to be allowed on American Invoices, which is to be in accordance with the price of gold as represented by Exchange, at a rate equal to that of such notices to appear every Saturday in the Canada Gazette.

R. S. M. BOUCHETTE.

FINANCE DEPARTMENT, CUSTOMS,

OTTAWA, June 8, 1887.

In accordance with the above Order, Notice is hereby given that the authorized discount is to be this day 23 per cent, which percentage of deduction is to be continued until next Weekly Notice, and to apply to all purchases made in the United States during that week.

THOMAS WORTHINGTON,

3D11-f Assistant Commissioner of Customs.

GODEY'S LADY'S BOOK

For 1888.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

THE friend of woman, the ardent of fiction, the companion and guide of the best literature of the day, in the pattern from which all others copy.

BEAUTIFUL MARTIN.

In this there will be an improvement. The volume for 1888 will be set up with new-fangled type, and of a size which will be to give an extra page in each number.

BEAUTIFUL STEEL PLATES.

Of these the Lady's Book contains fourteen each year, and reports (two challenges) compared to any published in this country, either in book or periodical.

THE LITERATURE OF THE LADY'S BOOK.

Authors of "Alice" and "Helen" Path, "Miss Side," "Mamma," and "Mamma."

who contributes to our monthly publication, will furnish a new novel for 1888. "Patience Rowland" (the) will run through the year. Her stories are unusually popular, and as they are copyrighted, can be found nowhere but in Godey's. Our future efficient corps of writers has also been retained.

OUR FASHION PLATES.

The original double fashion-plates will be continued. Model CUTTERS—The only magazine in this country gives these designs in the Ladies' Book.

ORIGINS: MRS. Godey's is the only magazine in which music is prepared expressly for it.

We have also a children's, a horticultural, and a health department.

GODEY'S INVALUABLE RECEIPTS.

upon every subject, for the Doctor, Nursery Kitchen, House, and Laundry.

UNITED KNOWLEDGE.—This is a series of engravings that no one has attempted but ourselves.

LADIES' PARTY WORK.—Every number contains some of the designs in this department are printed in colors in a style unequalled.

M. BOWELL, INTELLIGENCER BUILDING, FRONT STREET, BELLEVILLE.

American Watches.

THE true value of Machinery applied

Watchmaking is not that, by its one

Watch are made, but that they are

made correctly. Very few people know why

a Waltham Watch should be superior to

any other. In the first place, Waltham

Watch is regarded as only a machine, to

be constructed, like any other machine, on

mechanical principles. The factory is, in fact,

little else than a machine shop, the principal

work in which is not more upon watches than

upon machinery, to make watches with. If

the watches are good, it is because the

machinery is good. Of course, there must be

no defect in the principle of plan or the

movement, no mistake in the size or shape

of the pieces of which it is composed, nothing

wanting in their properties, and no error in

their positions. These points once thoroughly

settled in regard to each part of every variety

of watch, it rests wholly with the machinery

constructed with infinite diversity of form and

function, expressly for the purpose, to produce

the finished piece. The method established

in every department is the reduplication of

parts by mechanical means, and this is carried

out on the system of the most thorough

subdivision.

By means of multiplying gages and

microscopes, tests and inspection for the

detection of wear in cutting tools, and for

faults and flaws in steel or stone, are made to

accompany the work in every stage from

beginning to end. As a necessary result, the

Watch goes together a simple machine.

Every part is found to fit properly in its

place. Every pin may be pushed into its

holes, and every screw turned home.

Instead of sluggish and feeble action, the

balance, even under the pressure of the

highest mainspring, vibrates with a wide

and free motion, and the beat has the clear

ringing sound always characteristic of the

Waltham Watch. The machine is a time

keeper from the start.

This system of watchmaking is unknown

in foreign countries, and is entirely original

with the Waltham Company. The Company

claim that by it they produce Watches that

cannot be equalled for every quality which

makes a watch valuable. Simple in plan,

correct in principle, the movement is not

only beautifully finished, substantial, accurate

and cheap, but is uniform to the minutest

details, not easily damaged, and easy to repair,

and when repaired always as good as new.

There are different grades of finish in the

different varieties of Watches made by the

Waltham Company, as there are different

sizes and shapes to suit all tastes and means;

but every Watch that bears the genuine

trade mark of WALTHAM is guaranteed

to be a good one, and nobody need be afraid

to buy it.

EVERY WATCH FULLY WARRANTED.

For sale by all first class dealers in the

United States and British Provinces.

ROBBINS & APPLETON,

Toronto, Nov. 2, 1887 183m 40-3m

The Daily Intelligencer

WILL appear about five o'clock every after-noon (Sundays excepted) and will be furnished by Carrier at the rate of \$2.00 a year. If paid in advance, \$6.00 yearly. Mail subscribers \$4.00 a year. \$2.50 for 6 months; \$1.50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including cables, despatches, and the New York Herald.

Arrangements have been made with RELIABLE Correspondents in Madoc, Bridgewater, Mar- more and other points, who will furnish us with early and full information respecting the Gold Regions, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and our contributors please our expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months, \$ 5 00

Half Square, 6 months, 10 00

One Square, 6 months, 20 00

Two Squares, 6 months, 30 00

Four Squares, 6 months, 50 00

Notice of Births, 50

Do of Marriages, 50

Do of Deaths, 50

"BUSINESS NOTICES"—All matter under this heading, headed or sold, per line, measured by a standard solid machine.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements at any time.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

is published every Friday Morning at \$3 per annum (if called for at the Office, or sent by mail); and \$2.50 if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription list is over 1,400. With such a large and general circulation throughout the district and adjoining Counties, the Intelligencer presents unsurpassed advantages to advertisers.

J. C. OVERELL'S,

PROSPECTUS OF THE
EL DORADO MINING COMPANY
OF MADOC.
(LIMITED.)

CAPITAL STOCK \$72,000.

Divided into 2,400 shares of \$30 Each.

Deposit on Subscription, \$15 Per Share.

THIS COMPANY is formed, and proceedings taken for its incorporation, under Chapter 23, 27, and 28 Vic., for the purpose of developing the mineral resources of three acres of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 17, in the 6th Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present, there are two shafts sunk on the property about 200 feet apart, one 40 feet deep, and the other 35 feet deep. There is at the present time about 500 tons of ore already mined. The owners of the property have had one ton of this quartz crushed and amalgamated by Scott & Taylor's Mill, which returned \$30.50 in Gold, which specimen can be seen at J. E. Ellis, on King Street.

There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore.

The projectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 833 shares of the value of \$20 each, payable one-half, or \$15, as above, on subscription, and the remaining \$15 on the 1st of January, 1868. Out of the above sales, \$10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be excessively remunerative.

The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.
RICHARD SPARLING, Managing Director and Superintendent.
T. S. McGLASHAN, of Madoc.
MAHLON BURWELL, McGRIGOR, of Madoc.
T. A. MITCHELL, of Madoc.
ALDERMAN VICKERS, of Toronto.
J. E. ELLIS, of Toronto.

McCLELLAN & McCLELLAN, Solicitors.
BANK OF MONTREAL, Bankers.

QUEEN INSURANCE COMPANY

CAPITAL, - - - \$10,000,000

FIRE AND LIFE

LIFE DEPARTMENT.

THE principles on which this Company is
founded contain all the elements required
to develop the benefits of Life Assurance, and
afford every facility to intending assureds.
One of the advantages secured by those who
insure their lives with this Company is the
absolute security of the Company's funds, which
are absolutely restricted by the Deed of Settle-
ment to Ten per Cent. of the Net Life Li-
abilities. This most important restriction
shows that the interests of participating policy
holders are closely watched and carefully a-
tended to by the Company. Attention is es-
pecially called to this point, as the propriety
of premiums expended for Management of
Must Largely Influence Profit and Bonuses.

The next division of profits takes place in
1868, and all those who wish to participate in
the profits should insure at once.

John Wilson, BAKER and Confectioner, wholesale and Retail,

Ingersoll has shipped \$200,000 worth of cheese to Europe.

An Elora jeweller has been fined \$25 for selling off jewelry by lottery.

A machine to extract the bones from slaid is the latest invention.

About twenty-five miles of the Windsor and Annapolis Railway, in Nova Scotia, are now ready to receive the rails.

It is stated that the Rev. Mr. Cuyler and the Rev. Newman Hall, disguised in monkish habits, recently made a tour of the houses of vice and misery in New York.

Special correspondents for Abyssinia from four of the London daily papers were in Bombay at latest advices, awaiting the dispatch of the main body of the force.

About 600,000 saw logs were taken out of the Ottawa River last winter, and the preparations for manufacturing indicate that during this season the production of saw logs will not be less than one million.

"Ven you are a married man, Sandy, you'll understand a great many things you don't understand now; but yetter it's the vorth vye going through so much to learn a little, as the charity boy said 'ven you get to the end of the alphabet, it's a matter of taste."

TASTES.—We chew tobacco, the Hindoos lime, and the Patagonians guano, or sea fowls dung. Our children delight in candy, the African in rock salt, while the Equimaux leaps for a bite of fatty candle.

us, turtles are a savory dish, the Frenchmen revel on frogs and snails; and other savages, on snakes.

A HARD HEAD.—A negro passing under a scaffolding where some repairs were going on, a brick fell from above on his head, and was broken by the fall. Sumbo went coolly raised his head and exclaimed, "Hallo, you white man up dar, if you don't want your bricks broke, just keep 'em off my head."

EARLY TRAINING.—Accustom a child, as soon as he can speak, to narrate his little experiences, his chapter of accidents, his griefs, his fears, his hopes; to communicate what he has noticed in the world without, and what he feels struggling in the world within. Axious to have something to narrate, he will be induced to give attention to objects around him, and what is passing in the sphere of his instruction; and to observe and note events will become one of his first pleasures; and this is the groundwork of a thoughtful character.

PROSPECTUS OF THE ROSE MINING COMPANY OF MADOC.

Capital Stock, \$25,000.

Divided into 5,000 Shares.

5,000 Shares \$5.00 Each.

Deposit on Subscription Twenty-five per cent.

LEO D. WYCKOFF, A. L. MCLELLAN, JAS. CARR RITCHIE, F. E. KILVERT, ASA A. BURRMAN, JR., J. O'REILLY, E. H. HALL, and H. W. MURPHY, the undersigned, owners of the property hereinafter mentioned, and are desirous of forming a Stock Company, with the capital of \$25,000, and are to receive and take in payment for the same property \$1,250 in cash, and 2,250 shares of paid up Stock of the said company. The said parties are now taking proceedings for its incorporation, under cap. 25, 27-28 Vic., and have much pleasure in calling the attention of the public to the following Prospectus:

This Company is being formed for the purpose of developing the Mineral Resources of five acres of land, being part of Lot No. 10 in the 8th Concession of the Township of Madoc, in the County of Hastings, situated on the main road, between three and four miles from the village of Madoc, upon which Gold and Silver have been found in paying quantities, several assays having been made by Professor Wyckoff, who selected with great care this locality as being not only rich in minerals, but possessing facilities for mining which gives this company peculiar advantages over many others, there being on the property a high ridge or mountain of rock, in which numerous veins of gold-bearing quartz crop out, and instead of sinking shafts, (a most expensive and tedious operation), drifts can be run from the base of the ridge, cross-cutting the different veins, and giving eighty feet of backs to work upon, which will furnish as much ore as could be taken out for the next twenty years, and at a cost comparatively small, no machinery being required to free the mine from water.

This Company intend, as soon as a charter is granted, to erect a mill house, with suitable machinery for reducing and separating the precious metal, thereby saving the cost of cartage to other mills, and the great expense and inconvenience incurred in having the ore reduced and the metal extracted by custom mills.

Adjoining this property is a lake from which an abundant supply of water can be obtained for all purposes.

Another great advantage in this property is, that immediately the work is commenced ore can be taken out in quantities more than sufficient to pay the working expenses, and in that respect it is equal if not superior to any of the mines in that district, taking into consideration the richness and abundance of the ore, and the many advantages described above, it cannot but prove remunerative to those who may become interested in this Company.

DIRECTORS, PRO TEM, GEO. D. WYCKOFF, ASA A. BURRMAN, JR., F. E. KILVERT, A. L. MCLELLAN, JAS. CARR RITCHIE, JAS. EDWIN O'REILLY, E. H. HALL.

PROVIA. PRESIDENT—GEO. D. WYCKOFF. SECRETARY—THOMSON—JAS. C. RITCHIE. SOLICITORS—THOMSON & KILVERT.

Bank Book opened at W. W. MURPHY'S Exchange Office, Hamilton. Application for Stock and other Communications may be addressed to any of the Directors, or to JAMES C. RITCHIE.

Provis. Sec. & Treas., Hamilton, December 24, 1897. D188-17

PROSPECTUS OF THE EL DORADO MINING COMPANY OF MADOC.

(LIMITED.)

CAPITAL STOCK \$72,000.

Divided into 2,400 Shares of \$30 Each.

Deposit on Subscription, \$15 Per Share.

THIS COMPANY is formed, and proceedings taken for its incorporation, under Chapter 33, 37, and 38 Vic., for the purpose of developing the mineral resources of three acres of land, being part of the Moxley Farm, and a portion of the North-east quarter of Lot 17, in the 6th Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present, there are two shafts sunk on the property about 200 feet apart, one 40 feet deep, and the other 35 feet deep. There is at the present time about 500 tons of ore already mined. The owners of the property have had one ton of this quartz crushed and amalgamated by Scott & Taylor's Mill, which returned \$38.80 in Gold, which specimen can be seen at J. E. Ellis', on King Street.

There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore.

The projectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 833 shares of the value of \$25 each, payable one-half, or \$12.50, as above, on subscription, and the remaining \$15 on the 1st of January, 1898. Out of the above sales, \$10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be excessively remunerative.

The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.
RICHARD SPARLING, Managing Director and Superintendent.
T. S. MCGLASHAN, of Madoc.
MILLON BURWELL MCGREGOR, of Madoc.
T. A. MITCHELL, of Madoc.
ALDERMAN VICKERS, of Toronto.
J. E. ELLIS, of Toronto.

MCLELLAN & MCLELLAN, Solicitors. A. F. WOOD, President.
BANK OF MONTREAL, Bankers. T. A. MITCHELL, Secretary and Treasurer.

Applications for Shares received by Alderman Vicker, Yonge Street, Toronto; J. E. Ellis, King Street, Toronto, and at the office of

WILLIAM KERSTEMAN, 63 Church Street, Toronto. 178-17

American Invoices—Discounts.

FINANCE DEPARTMENT, CUSTOMS, QUEBEC, 8th March, 1893.

It is directed by the Hon. The Finance Minister, that hereafter Weekly Notices be published and furnished to Collectors of Customs, as to the rate of discount to be allowed on American Invoices, which is to be in accordance with the price of gold as represented by Exchange, at a rate equal thereto. Such notices to appear every Saturday in the Ottawa Gazette.

R. S. M. BOUCHETTE.

FINANCE DEPARTMENT, CUSTOMS, OTTAWA, June 8, 1897.

In accordance with the above Order, Notice is hereby given that the authorized discount is declared to be the day 27 per cent, which percentage of deduction is to be continued until next Weekly Notice, and to apply to all purchases made in the United States during that week.

American Watches.

THE true value of Machinery applied

Watchmaking is not that by its use

Watches are made rapidly, but that they are

made correctly. Very few people know why

a Waltham Watch should be superior to

any other. In the first place, at Waltham

the Watch is regarded as a machine, to be

constructed, like any other machine, on

mechanical principles. The factory is, indeed,

little else than a machine shop, the principal

work in which is not more upon watches than

upon machinery to make watches with. If

the watches are good, it is because the

machinery is good. Of course, there must be

no defect in the principle of plan or the

movement, no mistake in the sizes or shapes

of the pieces of which it is composed, nothing

wanting in their properties, and no error in

their positions. These points once thoroughly

settled in regard to each part of every variety

of watch, it costs wholly with the machinery

constructed with infinite diversity of form and

function, expressly for the purpose, to produce

the finished pieces. The method established

in every department is the reproduction of

parts by mechanical means, and this is carried

out on the system of the most thorough

subdivision.

By means of multiplying gauges and

microscopes, tests and inspection for the

detection of wear in cutting tools, and for

faults and flaws in steel or stone are made to

accompany the work in every stage from

beginning to end. As a necessary result, the

Watch goes together a finished machine.

Every part is true to its property in its

place. Every pin may be pushed into its

place, and every screw turned home—

instead of sluggish and feeble action, the

balance, even under the pressure of the

lightest mainspring, vibrates with a wide

and free motion, and the beat has the clear

ringing sound always characteristic of the

Waltham Watch. The machine is a true

keeper from the start.

This system of watchmaking is unknown

in foreign countries, and is entirely original

with the Waltham Company. The Company

claim that by it they produce Watches that

cannot be equalled for every quality which

makes a Watch a simple in place,

and correct in principle, the movement is got

only by beautiful finished, substantial, accurate

and cheap, but is uniform to the minutest

detail, and is easily managed, every two

years, and when repaired always as good as new.

There are different grades of finish in the

different varieties of Watches made by the

Waltham Company, as there are different

sizes and shapes to suit all tastes and means,

and every Watch that bears the genuine

trademark of "WALTHAM" is guaranteed to

be a good one, and nobody need be afraid

to buy it.

EVERY WATCH FULLY WARRANTED.

For sale by all first-class dealers in the

United States and British Provinces.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - \$10,000,000
FIRE and LIFE.

LIFE DEPARTMENT.
THE principles on which this Company is
founded contain all the elements required to
develop the benefits of Life Insurance, and
afford every facility to intending assured.—
One of the advantages secured by those who
insure their lives with this Company is that
the outside expenditure for Management is
absolutely restricted by the Deed of Settlement
to ten per cent of the Net Life
Income. This most important restriction
shows that the interests of participating policy
holders are closely watched and carefully
attended to by the Company. Attention is es-
pecially called to this point, as the proportion
of premiums expended for Management
Must Largely Influence Profits
and Bonuses.

The next division of profits takes place in
1868, and all those who wish to participate in
the profits should insure at once.

AND all other kinds of JOB PRINTING, exe-
cuted with neatness and despatch at the
Intelligencer Office, Front Street, Belleville.

North-west Territory.

The following is the speech of Dr. Tupper
per on North-west extension:

Hon. Dr. Tupper said that it appeared to
be the practice of a section of the House
Government, but to condemn altogether
policy he, as a member of the Quebec
Conference, felt bound to support. That
sentiments of every nationality, every re-
gion and every shade of political party,
after mature deliberation, had come
to the conclusion that they owed it to them-
selves and to their children to bring about
the union of all British North America.

The inducements must have been strong
that enabled all these distinctions to be
merged in a common desire for Confedera-
tion. He had listened with the utmost
indignation to the imputation of motives
that could assert boldly that their agreement
had been the result of the lowest patrio-
tism, called out by the common interest and
common danger. The great Republic had
passed from a great commercial community
to a great military power, and had inaugu-
rated a policy of hostility towards ourselves,
and it was under these circumstances that
they had felt that they owed it to them-
selves to set forth a declaration of their
purpose to unite for the preservation of their
land to the latest time. He would
be but a recreant, on the present occasion,
he failed to maintain the principles then
announced, from which resulted the neces-
sity that British America should remain
British America from ocean to ocean. The
hon. member read statements of Mr. Sew-
ard acknowledging the great importance
of the Dominion, and said that they would
be false to themselves and forgetful of what
they owed to the country they governed if
they failed to avail themselves of the most
important element of greatness possible to be
conceived. The North-west country
contained some of the most valuable terri-
tory to be found on the globe, and in
addition to its fur bearing attractions, it
would be central to all experience if it
were not found to produce gold in very
large quantities. A portion of it, 800 miles
long and 80 to 100 broad, containing six-
ty thousand square miles, was known to
be susceptible of high degrees of cultivation.
Explorations of Professor Hind had
disclosed a tract of 23,000,000 acres—
greater than the area of all Ireland—of a
climate infinitely superior to that of any
portion of the Dominion, and abundant in
most valuable minerals, and those who had
listened to the address of Mr. Waddington
would know that this country could be
made available. He went on to describe
the topography of the route to the Rocky
Mountains, and said that it was the time
of all others, to encourage immigration,
which could only be attracted by the offer
of such boundless prairies in the name
of a great and united people. The great
danger to England lay in the disunion
of Ireland, and he was certainly of opin-
ion, that instead of allowing the Irish
disaffected population to emigrate to the
United States—there to remain forever
hostile to Great Britain—it would be wiser
to expend some of the money employed in
repressing insurrection, in promoting emi-
gration to these Provinces, where Irishmen
were among the most loyal subjects of the
Crown. He concluded by saying that he
hoped, in his support of the measure,
renouncing superior to faction, and contemning
Mr. Howe's assertions as to the mode in
which Union had been carried in Nova
Scotia, in his battle for which he had ex-
pected to find at least all the Western
Canadians on his side. Referring to the position
of the Anti-Unionists in Nova Scotia, he
quoted from the Halifax Chronicle, to show
that in July, it had opposed the formation
of a Coalition Government, but when the
news came down that the Hon. George
Brown and his party had been routed,
horse, foot and artillery; then, it said the
Nova Scotia Opposition had not been
so much as to the Committee, and that when
he saw the hon. member for Hants surrounded
by the surging tide of his own insensate
tendencies that he was great danger of being
overwhelmed, and he thought the smallest
aid at all appropriate. What was the
example of the United States to which
the hon. gentleman took such frequent
opportunities to appeal? Why, they were
now engaged in constructing two lines of
railway to the Pacific. The hon. member
for Hants had said that for once he would
forget that he was a Nova Scotian, and

consider himself a Canadian in discussing this great question, but he had forgot he was a Nova Scotian, and forgot he was a Canadian, in going against his twenty-five years of public life in the advocacy of an Intercolonial Railway. He had urged upon the Colonies, and upon the people of England, the importance of the commercial and political union of these Provinces, now occupied a position antagonistic to his former professions. And therefore he had forgot his obligations, but he held that it was not creditable that a body of English gentlemen, such as composed the Hudson's Bay Company, should be denounced in this House as they had been. Then his hon. friend had represented that Nova Scotia's credit had been ruined by Confederation, when as a matter of fact, it had been shown by the statement of the Minister of Finance that the Province had drawn from the Dominion Government a very large amount in excess of what it had paid. The other night the member for Hants had described the Hudson's Bay territory as a country lying God knows where, and bounded by God knows what, but he (Dr. T.) would quote an authority which the hon. member for Hants should at all events respect. No one had described the Hudson's Bay territory in more gloomy terms than he, and he would simply refer to his own testimony as to its character. He had also said that we should walk into that territory and take possession, and he (Dr. T.) would agree that nothing would prevent us from doing so after the passing of these resolutions. When these were passed and acted upon it would be for Canada to walk in and take possession. An attempt had also been made to alarm the prejudices of the French Canadians to induce them to keep this Confederation "cabin, cribbed, confined" within its limits, as a means of defence for their own institutions. But was it not known that the rights and institutions of the French Canadians, whose loyalty had so often saved the rights of the crown on this continent, were protected and guaranteed by the Imperial Parliament? In conclusion he (Dr. T.) felt that he would be false to himself as a British American, false to his duty in this Parliament, and false to the children who would come after him, if he threw any obstacle in the way of carrying out the policy now submitted to the House. (Cheers.)

Daily Intelligencer.

BELLEVEILLE, THURSDAY, DEC. 12.

MR. TAYNABLER'S LETTER.—Another letter has been received from this gentleman, and as "Items" are not "scarce," it has been consigned to the waste basket.

ALBERT COLLIER.—It will be seen by advertisement that the Winter Examinations Exhibition will take place next week. They will be of the usual public interest, and we have no doubt will be largely attended.

PERSONAL.—We are requested by Mr. St. George B. Crozier, to convey his warmest thanks to the Committee of the St. Andrew's Society for their very handsome acknowledgment of his services at their Concert on the 3rd inst.

LACROIX.—A young lad named Jas. Scallion, aged about 16 years, when employed some time since at the Rev. Father Brennan's residence, stole therefrom a box containing about \$40, the property of Mr. Pat. O'Brien. The boy was arrested, and conclusive proof of his guilt having been obtained, he was committed for trial to the present sessions by the Police Magistrate.

SOURCE OF THE JOHN STREET PRESBYTERIAN CHURCH.—The annual Source in connection with the John Street Presbyterian Church, was held in Ontario Hall last evening. About 500 persons were present. After a blessing by the Rev. Septimus Jones, and ample justice done by way of supplying the thirst of the Rev. Mr. McLaren was called to the chair. The audience was treated to the better part of the entertainment by well-timed speeches from the Revs. Messrs. Preston and Jones, of the Town, and Revs. Messrs. Hay, of Scotland, and McMechan, of Pictou. In addition to music by the choir, under the leadership of Mr. J. C. Holden, Miss Mendall sang one of her favorite selections, which called forth a most hearty encore. Mr. and Mrs. Price sang several pieces, which were well received, being, in connection with the performance of Messrs. Dean and Knoch on the flute and violin, added much to the interest of the occasion. A recitation and reading were given by Mr. Blair, which received much applause. After a vote of thanks to Mr. Blair, who had given the use of the Hall without fee or reward, the meeting broke up. Every one seemed well pleased with the first sittings of the season. The amount realized was handsome.

THE BILLIARD MATCH.—Contrary to general expectation McDewitt won the match last night. The game was one of 1,500 points, (arrows) on a full sized table. American game, for the championship of America and a purse of \$1000. The first telegram received here of the game gave Dion, 55; McDewitt, 195. At 9:15 the lights were out, Dion, 320; McDewitt, 188. Dion having made a run of 290. At half-past ten the score stood, Dion, 743; McDewitt, 456. At eleven McDewitt had picked up wonderfully, the figure standing, Dion, 758; McDewitt, 734. At 12:30 Dion was 10 ahead, and at 1:30 this morning the game closed with McDewitt the victor by 12 points.

Gold News.

We have received an interesting letter from our Madoc correspondent, giving an account of the progress at the mines for the past month, but too late for to-day's issue. It will appear to-morrow.

We are requested to state that the report in a contemporary that Turley & Gilbert's Crusher had stopped work, is not correct. The mill has been steadily at work, and the results are highly satisfactory. From all the rock crushed gold has been obtained, averaging from \$1 to \$30, and as high as \$60 a ton. Some improvements are being made in the mill, which will lessen the amount of manual labor, and render it more efficient.

Crown Lands Report.

The report of the Commissioner of Crown Lands of Canada, for the year ending December, 1886, which has just been published, contains a large amount of information, from which we gather some interesting facts. In Upper Canada, at the commencement of 1886, there were 3,318,510 acres of surveyed Crown Lands on hand, in addition thereto, 345,869 acres were surveyed during the year, making a total of 3,664,379 acres, of which 170,827 acres were sold, and 2,990 acres located as free grants in the colonization lands, leaving a balance of 3,286,551 acres disposable at the end of the year. The amount obtained from lands sold was \$120,777; amount collected \$196,836.

In Lower Canada the sales of Crown Lands during the year amounted to 161,428 acres; the purchase money to \$65,369; the receipts to \$69,726. On the colonization lands 10,850 acres were located as free grants to actual settlers. To the 6,142,669 acres disposable at the commencement of the year, 305,826 acres were added by surveys, making a total of 6,448,495 acres, from which, deducting the sales and free grants, 173,278 acres, a balance of 6,377,215 acres remain for future disposal.

Of Clergy Lands in Upper Canada, there were 63,670 acres sold during the year, the purchase money of which amounted to \$78,993. The gross amount of collections was \$198,292; the disbursements were \$897.

In Lower Canada there were sold in 1886, 12,597 acres of Clergy Lands, which deducted from the quantity remaining unsold at the commencement of the year, 270,305 acres, leaves a balance of 337,708 acres still disposable. The purchase money of the lands sold was \$6,785; collections, \$25,655.

In Upper Canada, of Grammar School Lands, there were sold only 800 acres, leaving a balance of 45,993 acres still disposable. These lands sold realized \$1,548; collections, \$8,067. The sales during the year of Common School Lands, set apart for creating a Common School Fund, amounted to \$2,948 acres, chiefly lots which had formerly been sold, but resumed for the non-performance of the conditions of sale. Amount of sales \$3,360; collections, \$128,070; disbursements, \$490. The total amount realized from Common School Lands up to the 31st December, 1886, was \$1,820,883.

Of mineral lands in Upper Canada, 12,777 on the North shores of Lakes Huron and Superior, were patented for mining purposes during the year. The revenue from these lands was \$9,645.

In Lower Canada there were 10,504 acres of mineral lands sold during the year at \$1 an acre—4,951 in the township of Watford, and the balance on the North shore of the St. Lawrence, in the County of Saguenay.

For ordinance lands in all Canada, the revenue for 1886 being the growing result of the operations of preceding years, amounted to the sum of \$39,001, exceeding the income of 1885 by a sum of \$9,797. The expenses of this branch were \$7,169.

In the Indian Department, the returns of which embrace the whole of Canada, the receipts for lands and timber for the year 1886 were \$92,455; interest on investment for the same period \$14,628; annuities and grants, \$35,420, making a total of \$249,503. The payments made, comprising annuity and interest money to Indians, and salaries, surveys and incidental expenses, amounted for the same period to \$140,466. On the

1st of January, 1886, the total sum at the credit of the various Indian bands was \$1,830,839. At the termination of the year, from payments of instalments on lands, from new sales, timber, etc., the amount, after defraying salaries and all other charges was \$1,739,867, showing an increase of \$109,032.

In the Woods and Forests Department we find that the amount collected during 1886 for timber dues and ground rents was \$338,303, and from slide dues \$63,483, making the total \$401,786; in addition to which the sum of \$908 was collected for other services, viz.: Clergy, School and Indian, and \$7,995 value of settlers' timber; total, \$410,685. The charges of management for collecting timber dues, ground rents and slide dues were \$31,767. These charges do not include the salaries of Woods and Forests Branch at headquarters, nor \$6,861 refunds, etc.

We have not space to continue our summary from this report to-day, but in a future issue will give a further digest of the interesting document.

FROM OUR OTTAWA CORRESPONDENT.

OTTAWA, Dec. 11th 1887.
The House was occupied until about two o'clock this morning, discussing the motion of want of confidence, for such it was declared to be by Mr. Blake, for it not only condemned the Ministry in general terms, but the Financial Minister in particular though he had occupied a seat in the Cabinet for a few days only. It was evident as soon as the motion was proposed that there was a row in the Grit camp, which was intensified when Mr. Cartier pointed out the position of parties who attempted to lead the opposition in the House. Mr. McKenzie who deserved better things, had been entirely ignored in this strategic movement of Mr. Dorian, you could see the brows knit, and the fire flash from the small grey eyes of the member for Lambton, as the little Frenchman informed the House, that he had, though of long experience and undoubted talent, been set aside, and the member for West Durham installed in his shoes. The slight was more than the blood of a McKenzie could brook, and he might have been seen "sloping" from the House, and soon after the Grit seats were empty. A caucus was held in one of the rooms, where the member for Lambton poured out his grief in pathetic terms, at the treatment he had received by the assumption of leadership on the part of Mr. Blake, and told his followers that the motion was made without his knowledge or consent, and it was extremely unfair to place the party in such a position without their consent. Setting aside all feeling of men, every one must come to the conclusion that Mr. McKenzie had good ground of complaint. Here was a leading man of the party for a number of years, completely set aside by a man who had just entered Parliament, with an assumption not often equalled, even in political maneuvering. In establishing, or rather, in endeavoring to establish his position, Mr. Blake told his thrice told tale over again. He denounced the Government in unmeasured terms, and went over in detail, his first speech on the Address, with a good deal more fire and vigor. The result was, that four Upper Canadians, in addition to himself, voted for the amendment. Mr. McKenzie did not vote, having left the House and did not return until the vote was taken, or what is termed in Parliamentary phrase, "absented the vote." So much for the first attempt of the great Chancery lawyer.

The House went into Committee of Supply, and after some discussion the House adjourned.

To-day the House has been occupied by the preliminary business, after which the supply was passed up to the 30th of March next, when the Ministry promises to bring down a detailed statement of the expenditure. One important fact was brought out by Mr. Anglin, at least as far as I could catch the remarks, that the Bank of Montreal had been deceiving the country out of about 13 per cent. upon its transactions with the country, and the sooner the scheme was changed, the better—at least such was the impression left upon those in the gallery.

The House is again discussing the Nor' West question, which may end to-night or it may not.

Town Council.

At a special meeting of the Town Council held last evening, a By-Law was introduced by Mr. Sutherland for the appointment of Returning Officers, to provide for holding the ensuing Municipal Elections, &c. The By-Law was read respectively a first, second, and third time, and passed.

The By-Law enacts that the new Engine House shall be the Town Hall, and selects the place for holding the elections, and appoints Returning Officers as follows:
KIRKPATRICK WARD.—At the Town Hall, J. T. Bell, Returning Officer.
JAMTOWN WARD.—In the room adjoining the Police Office, R. M. Roy, Returning Officer.

COLUMBIA WARD.—At the same building where last held, John Thomas, Returning Officer.
BALDWIN WARD.—At G. & J. Brown's sale rooms, John Wonnacott, Returning Officer.

On motion of Mr. Sutherland, seconded by Mr. Anglin, the time for returning the Collectors' Rolls, was extended to the 1st of January, 1888.

The Clerk was directed to advertise that all claims against the town must be sent to the Chairman of the Finance Committee on or before the 18th inst.

County Court and Quarter Sessions.

SECOND DAY.
(CONTINUED.)

The following case was tried after the Court opened at 3 o'clock yesterday afternoon.

QUEEN VS. SAMUEL WINTERS.—Assault upon one Joseph Whiteman. Both parties live in Londale, in Tyndinaga. Meeting at a tavern they commenced "cracking too" a liquor. A quarrel ensued, prosecutor left the tavern. Defendant followed him up, and dared him out to fight. Whiteman came out of his house. Defendant, after threatening some time, seized hold of him, and in the struggle his coat was torn, and he thought the injury was sufficient to warrant him bringing his ledger to selected several customers and requested him to reduce them into notes, and I would take them; he said he would do so; repeatedly, before and after the note came due, the promise to pay it; about a month after the note matured he refused to pay it, as he had advised not to have any conservation with me alone; do not recollect defendant telling me in presence of Wood that he would not speak to me, except in the presence of Whiteman. Defendant called several witnesses and endeavored to impeach the evidence of Silke, which failed. Verdict for plaintiff, \$399. N. B. Falkner and R. P. Jellett for plaintiff; L. Wallbridge, Q. C. for defendant.

THIRD DAY.

DEC. 12.
Judge Sheppard presiding.

STEVENSON et al. vs. T. H. CASE.—Action against defendant as signer of a promissory note made by one Schuyler Case. Defence: Did not endorse, and want of notice of dishonor. Evidence for the plaintiff: Defendant admitted to me that plaintiff had a notice with his name on, and wished he could get it up; that it might not be against him as evidence in this case. I selected several customers and requested him to reduce them into notes, and I would take them; he said he would do so; repeatedly, before and after the note came due, the promise to pay it; about a month after the note matured he refused to pay it, as he had advised not to have any conservation with me alone; do not recollect defendant telling me in presence of Wood that he would not speak to me, except in the presence of Whiteman. Defendant called several witnesses and endeavored to impeach the evidence of Silke, which failed. Verdict for plaintiff, \$399. N. B. Falkner and R. P. Jellett for plaintiff; L. Wallbridge, Q. C. for defendant.

To the Editor of the Daily Intelligencer.

DEAR SIR,—The "rowdiness" of the Chronicle, to use its own expression, is again "rampant," and in this case, as in the former, the paragraph contains a most unmitigated falsehood, to use no lighter expression. Every respectable person in the room on last Thursday night can testify to the fact that during the first and third readings, which were short and pleasing, not a particle of interruption occurred, except that of approbation at the close. But the large crowd were very properly annoyed at the second reading, which first consisted of Aytoun's long poem of "Charles Edward," and then nine closely printed pages of "The Battle of Culloden." For a long hour and a half the people were listening quietly to an uninteresting subject, but "the force of patience could no further go," and they stamped it down, well knowing that the treat they expected from Mr. Tilley was worth all the battle accounts that ever were written for unimpaired ears.

None of the Police were there, except the Chief, and he was not biased, though he endeavored to induce—not the rowdies, for there were none present, but the respectable persons in the lower end of the Hall, to bear with the monotonous chant a few minutes longer, but to no purpose, and as neither the editor nor sub-editor of the Chronicle were present, statements void of truth ought not to be received and given to the public per fas et nefas.

If the ladies of the choir of the "Temple" refuse to sing at the Penny Readings, it is because they really have not time, from the improper and verbose selections made by readers who, in a great majority of instances during the present season, seem to wish for no better amusement than inflicting long and prosy articles unsuited to a mixed audience, and only tending to disgust a large number of townspeople, which, under other management, might be a source of amusement and literary recreation to the public.

Does not strike the most unimpaired reader that it is a very ludicrous and nonsensical affair to talk of a few public officials in the manner indulged in by idle fellows at the close of taverns and clubs, and now, if a half-drunken idler knocks his head against a lamp post, he cries out "where are the Police?" If a sailor staggers to his vessel and reels against a post, he says "where are the night-watchmen?" and now, if a number of talented and respectable people cry out, "hold, enough!" to an insipid reader, the war, whom of whom are our two Policemen," is heard resounding through the columns of the Press.

Be gorra, there's a power of the army about," said an old woman in Ireland in 1848, when she saw a young soldier late at night. The two Powers of Belleville would have caused an equal sensation if they could be present at every thing that occurred in their midst during the twenty-four hours. Yours faithfully,

Some predict an unusually mild winter from the thawing of the corn sheaves. On the other hand, the goose bone shows that we are to have an exceedingly cold and dry December, January, and February, but a very wet March.

Telegraphic News.

BY ATLANTIC CABLE.

LIVERPOOL, Dec. 11.—The demonstration proposed by the Fenians on Sunday next in this city, has been peremptorily forbidden by the authorities, who are fearful of the consequences of so violent an ill-feeling towards the Government.

LONDON, Dec. 11.—Late despatches from Shanghai, make mention of new and more serious outbreaks in the Province of hill, near Peking. At the last accounts the rebels were marching on the capital.

LONDON, Dec. 11, noon.—The Times of this morning has another edition on American matters, and particularly on the recent message of President Johnson. So far as the Times is able to unravel the President from the message received by the cable, it has no hesitancy in counselling the acceptance by the American people of Mr. Johnson's views on the question of citizenship.

It is now said that the French Government has no desire to negotiate a loan as was some time since reported.

It is reported that Prince Gortschakoff has resigned the Chancellery of the Russian Empire.

FLORENCE, Dec. 11.—The sittings of the Italian Parliament are quite stormy. The debates recently have been very violent, and the Liberal members have assailed the Ministers mercilessly.

LONDON, Dec. 12.—Some British soldiers are to be tried by court-martial for participating in the Fenian funeral ceremonies at Dublin. These ceremonies and like demonstrations are taking place throughout Ireland.

SOUTHAMPTON, Dec. 12, noon.—The steamers "Saxonia" and "City of Washington" have arrived.

LONDON, Dec. 12, noon.—Consols \$3.

LIVERPOOL, Dec. 12, noon.—Cotton quiet, and prices unchanged.

LONDON, Dec. 12, 2 p. m.—Consols declined to 89½; American securities steady and unchanged.

PARIS, Dec. 12, 1:30 p. m.—Bourse strong; Rentes advanced.

LIVERPOOL, Dec. 12, 3 p. m.—Cotton more active, but dull. Brazilian quiet, and advanced to 50s; Tallow declined to 44s. Linned Oil declined to 43s. Sugar quiet.

American Despatches.

MONTPELIER, Vermont, Dec. 11.—One of the most fearful accidents known in the annals of Vermont transpired to-day at what is known as Harmon Bridge, near Northfield, on the Vermont Central Railway. The bridge was burned on Sunday last, and about 100 men have been engaged in repairing the work for temporary use. Most of the employees were returning to work in a passenger car, which was being backed up to the works. By some forgetfulness the engineer proceeded with them at a rapid rate, and did not check the speed until too late, and the whole car, with from 70 to 100 men, was backed into the river below, a distance of 60 feet. Fifteen men were killed instantly, and three or four others have since died. Many others were seriously injured. Deceased were among the most useful men in Vermont. It is believed that when the engineer wished to stop the train the engine was beyond his control.

NEW YORK, Dec. 12.—The Herald's Havana special says: News from the capital of Mexico, by steamer "Georgia," is to the effect that the people are satisfied with the loans negotiated in the United States by Minister Romero. All loans of the Emperor are repudiated. Congress is annulling the election of certain members of that body who served under the late Empire. The revolution at Durango turns out to be a canard. Folders of bonds who were forced to advance to the Liberal Government, on that security during the war against the intervention, shall allow the Treasury four per cent for the cash payment of such advances.

NEW YORK, Dec. 12.—A furious snow storm has prevailed here since 3 o'clock this morning.

Dr. Livingstone.

The cable report of the discovery of Dr. Livingstone alive and well seemed based on rather slight foundation—in point of fact, neither more nor less than the following letter to the London Times from Sir R. Marchmont.

"To the Editor of the Times:
"Sir,—I have this day received a letter from Dr. Kirk of Kaniabur, dated the 28th of September, stating that he had seen a native trader who had just returned from the western side of Lake Tanganyika, and who gave him a detailed account of having seen a white man travelling in that very remote region."

"The letter is long and will not bear abridgment, and as I wish to have the subject thoroughly discussed by those most competent to judge of the value of the information now given by Dr. Kirk, I have merely to announce that the letter will be read on Monday next at the meeting of the Royal Geographical Society."

"I remain, Sir, your obedient servant,
"Roderick J. Macgregor."

The sanguine nature of Sir J. Roderick has never allowed him to believe in the report of Dr. Livingstone's death, and it is probable that the news dimly shadowed in his letter will give very small reason for hope of this traveller's safety.

—It is reported that the Hon. George Brown will return to Canada on or about the 15th of next month.

—Manufacturers of chewing tobacco use large quantities of glycerine to give the tobacco soft, and to give it a sweet taste.

Sad Case.

A LADY IN "HIGH LIFE" A VICTIM OF INTOXICATION.

A lady, handsome in form and face, the young wife of a once happy husband, a former leader of society in "high life," and still wealthy, entered the drug store on the corner of Bight and Vine streets recently, stood by the counter and called for a piece of writing paper and pen and ink. The clerk brought the desired articles to her, and she commenced to write a note. As she did so the clerk noticed that she was dressed elegantly, and that hundreds of dollars glinted through diamonds on her fingers. He noticed also that her face was handsome; but there was an expression upon it then that rendered it repulsive, despite its beauty. The cheeks were flushed, as if with strong fever, the lips worked uneasily, and the eyes rolled like those of a maniac. While he was studying the strange expressions of her face he noticed that the pen wandered irregularly over the paper, and very soon he saw it drop from her nerveless fingers as the face paled suddenly, and the form, with its robes of velvet and silks, dropped to the floor in a lump, shapeless heap. Several physicians were on hand immediately, and they in their efforts to restore the woman to her senses, discovered that she was simply dead drunk. On this occasion she was taken by kind hands to a safe place, where she was gradually sobered. Her absence, however, greatly alarmed her relatives.—*Cincinnati Commercial.*

"Johnny" said to a mother to a son nine years old, "go and wash your face. I am ashamed to see you coming to dinner with so dirty a mouth." "I did wash it, mama," and I think it must be a moustache coming."

Sheridan, inquiring of his son what side of politics he should espouse on his getting into "the House," the son replied that he intended to vote for those who offered best, and that in consequence he should wear on his forehead a label, "to let" to which the wit rejoined—"Oh I see, unfurnished!"

A Chicago paper says the latest thing in matches is a snecing match for five hundred dollars a side, to take place at the Open House in that city at a time not yet specified, but, probably, within the next thirty days. The match is for the championship of America.

PROSPECTUS OF THE ROSE MINING COMPANY OF MADOC

Capital Stock, - - - \$25,000.
Divided into - - - 5,000 Shares.
5,000 Shares - - - \$5.00 Each.

Deposit on Subscription Twenty-five per Cent.

CARL RITCHIE, A. L. McLELLAN, JAS. A. BURNHAM, JR., J. E. O'REILLY, E. H. HALE, and HUGH FAIRBROTHER, are the owners of the property hereinafter mentioned, and are desirous of forming a Stock Company, with the capital of \$25,000, and are desirous to take in payment for the said property \$1,250 in cash, and 2,250 shares of paid up stock of the said company. The said parties are now taking proceedings for its incorporation, under cap. 23, 27-28 Vic., and have much pleasure in calling the attention of the public to the following Prospectus:

This Company is being formed for the purpose of developing the Mineral Resources of five acres of land, being part of Lot No. 10 in the 8th Concession of the Township of Madoc, in the County of Hastings, situated on the main road, between three and four miles from the village of Madoc, upon which Gold and Silver have been found in paying quantities, several assays having been made by Professor Wyckoff, who selected with great care this locality as being not only rich in minerals, but possessing facilities for mining which gives this company peculiar advantages over many others, there being on the property a high ridge or mountain of rock, in which numerous veins of gold-bearing quartz crop out, and instead of sinking shafts, (a most expensive and tedious operation), drifts can be run from the base of the ridge, cross-cutting the different veins, and giving eighty feet of back to work upon, which will furnish as much ore as could be taken out for the next twenty years, and at a cost comparatively small, no machinery being required to free the mine from water.

This Company intend, as soon as a charter is granted, to erect a mill house, with suitable machinery for reducing and separating the precious metal, thereby saving the cost of cartage to other mills, and the great expense and inconvenience incurred in having the ore reduced and the metal extracted by custom mills.

Adjoining this property is a lake from which an abundant supply of water can be obtained for all purposes. Another great advantage in this property is, that immediately the work is commenced ore can be taken out in quantities more than sufficient to pay the working expenses and in that respect alone it will equal if not surpass any of the mines in that district, taking into consideration the richness and abundance of the ore, and the many advantages described above, it cannot but prove remunerative to those who may become interested in this Company.

DIRECTORS, PRO TEM.
Geo. D. Wyckoff, ARA A. BURNHAM, JR., F. E. KILPATRICK, A. L. McLELLAN, JAS. CARL RITCHIE, JAS. EDWIN O'REILLY, E. H. HALE.

PROV. PRESIDENT—Geo. D. Wyckoff.
PROV. ASST. & TREAS.—JAS. C. RITCHIE.
SOLICITORS—THOMSON & KILPATRICK.
Stock Book opened at J. W. Martin's Exchange Office, Hamilton. Application for Stock and other communications may be addressed to any of the Directors, or to JAMES C. RITCHIE, Prov. Sec. & Treas., Hamilton, December 30, 1887. D183-M

PROSPECTUS OF THE EL DORADO MINING COMPANY OF MADOC. (LIMITED).

CAPITAL STOCK \$72,000.
Divided into 2,400 Shares of \$30 Each.
Deposit on Subscription, \$15 Per Share.

THIS COMPANY is formed, and proceedings taken for its Incorporation, under Chapter 23, 27, and 28 Vic., for the purpose of developing the mineral resources of three acres of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 17, in the 6th Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present, there are two shafts sunk on the property about 200 feet apart, one 40 feet deep, and the other 35 feet deep. There is at the present time about 500 tons of ore already mined. The owners of the property have had one ton of this quartz crushed and amalgamated by Scott & Taylor's Mill, which returned \$58.80 in Gold, which specimen can be seen at J. E. Ellis, on King Street.

There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore. The projectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 825 shares of the value of \$30 each, payable one-half, or \$15, as above, on subscription, and the remaining \$15 on the 1st of January, 1888. Out of the above sales, \$10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be excessively remunerative.

The Provisional Directors are as follows:
A. F. WOOD, late Warden of the County of Hastings.
RICHARD SPAILLING, Managing Director and Superintendent.
T. S. McLELLAN, of Madoc.
MAHLON BURWELL, McGREGOR, of Madoc.
T. A. MITCHELL, of Madoc.
ALDERMAN VICKERS, of Toronto.
J. E. ELLIS, of Toronto.

McLELLAN & McCLELLAN, Solicitors. A. F. WOOD, President.
BANK OF MONTREAL, Bankers. T. A. MITCHELL, Secretary and Treasurer.

Applications for Shares received by Alderman Vicker, Yonge Street, Toronto; J. E. Ellis, King Street, Toronto, and at the office of

American Invoices—Discounts.

FINANCE DEPARTMENT, CUSTOMS.

Quebec, 18th March, 1888.

IT is directed by the Hon. The Finance Minister, that hereafter Weekly Notices be published and furnished to Collectors of Customs, as to the rate of discount to be allowed on American Invoices, which is to be in accordance with the price of gold as represented by Exchange, at a rate equal thereto. Such notices to appear every Saturday in the *Canada Gazette*.

R. S. M. BOUCHETTE.

FINANCE DEPARTMENT, CUSTOMS.

In accordance with the above Order, Notice is hereby given that the authorized discount is declared to be this day 27 per cent, which percentage of deduction is to be continued until next Weekly Notice, and to apply to all purchases made in the United States during that week.

THOMAS WORTHINGTON, 3D Chief, Assistant Commissioner of Customs.

Important to Miners and MINING MEN.

American Watches.

THE true value of Machinery applied to Watchmaking is that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement of the minute, the size or shape of the pieces of which it is composed, nothing wanting in their properties, and no error in their positions. These points are thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished piece. The method established in every department is the reduplication of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of \$5 a year if paid in advance, \$6 otherwise. Mail subscribers \$5 a year. \$3 for 6 months. \$1.50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marston and other points, who will furnish us with early and full information respecting the Gold Regions, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged for as follows:

Cards, not exceeding six lines, 50 cts per month. Half Square, 6 months, \$10.00. One Square, 6 months, \$20.00. Two Squares, 6 months, \$40.00. Four Squares, 6 months, \$80.00. Notices of Births, 50 cts. Do of Marriages, 50 cts. Do of Deaths, 50 cts.

"Business Notices"—All matter under this heading, headed or sold, 10 cents per line, measured by a scale of solid minion.

Advertisements contracting for any space not less than half a square, have the privilege of changing their advertisements every two weeks. Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each subsequent insertion.

The Weekly Intelligencer

Is published every Friday Morning at 22 per annum if called for at the Office, or sent by mail; and \$35 if delivered by the Carrier, payable in all cases in advance. When not called until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is over 1,400. With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING.

Six lines and under, first insertion, 10 cts. Each subsequent insertion, 5 cts. Above six lines, first insertion 10 cts. Each subsequent insertion per line, 5 cts. "Business Notices"—10 cents per line insertion, measured by solid minion.

A liberal discount is made to those who advertise by the year. Advertisements for insertion must be delivered before 13 o'clock, noon, on Thursday to insure their appearance. All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Hand Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the County.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

QUEEN
INSURANCE COMPANY
CAPITAL - \$10,000,000
FIRE AND LIFE.

LIFE DEPARTMENT.
THE principles on which this Company is
founded contain all the elements required
to develop the benefits of Life Assurance, and
afford every facility to intending assured.

One of the advantages secured by those who
insure their lives with this Company is that
the outside expenditure for Management is
absolutely restricted by the Dead of Bottle
system. This most important restriction
shows that the interests of participating policy
holders are closely watched and carefully at-
tended by the Company. Attention is es-
pecially called to this point, as the proportion
of premiums expended for Management
Must Largely Influence Profits
and Bonuses.

The next division of profits takes place in
1908, and all those who wish to participate in
the profits should insure at once.

The World Beyond.

How fair the earth, and life how sweet
When pleasure leads the dancing feet;
When birds atone the rosy morn,
And smiling crowns the golden years;
When fragrant odors fill the air,
And music charms the soul's desire;
When friends are true and love is fond;
But—there's a better World beyond!

How dark the earth, and life how sore,
When pleasure leads the dancing feet;
When sorrow saps and pain consumes;
And twilight fades, and twilight glooms;
When o'er our joy the willow weeps,
And gardens we forsake for graves;
When love and friendship break the bond;
But—there's a happier World beyond!

How and the earth, when late and gulls
Like love allure, like honor smile,
When falsehood wears the mask of truth,
And jealous lightning blight our trust,
And fairy trails our ways in dust,
Till faith departs, and hope despond,
But—there's a truer World beyond!

Blessed be God! No fading glory
Of earth's content can win or lose;
No joys to prize, if joys I share;
My woes, when woes are mine, I bear;
But looking up with patient glance,
I read, in starlight's pure expanse,
The lesson sweet that saints have learned;
There's a better World beyond!

The Execution of Ethan Allen.
From the Kingston Whig.

Yesterday morning Ethan Allen suffered
the death penalty for the murder of Our
petrus O'Driscoll on the 22nd of September
last.

With that feeling of sympathy which
has characterized the case of this unfor-
tunate man since his trial, disinterested
parties and friends made their way to the
moment to secure his remains. Since he
received the first intimation, a week ago,
in answer to the petition that his sentence
would not be commuted, influence has been
brought to bear on his behalf, but without
avail. A deputation, which had the assis-
tance of the officers of the Kingston Dis-
tillery, where the murder was committed,
proceeded, it is said, on Monday to plead
mercy for Allen, but was unsuccessful in
securing Executive clemency. During the
past week he has been visited daily by his
priest, and the sisters of charity, as well as
other ladies, one of whom in particular,
spent hours with him in offering religious
consolation. He enjoyed the services of
received very kindly, offering the most
intimate of the number, as souvenirs, any
small trinkets he possessed, and some of
these held out toward him some ray of
hope that the sentence might be car-
ried out. Allen employed his time with
spiritual matters, when not otherwise
engaged, and that sure hope beyond the
grave, which buoyed him up so wonder-
fully, did not forsake him to the last.

His last night on earth was calm and
restful. He enjoyed a good sleep as usual,
and when he awoke in the morning appear-
ed refreshed. At about five o'clock Father
Dolland, V. G., one of his spiritual advisers,
arrived in the goal, and in the company of
two of the soldiers, he joined in prayer
with the doomed man, who uttered the
responses in the services loudly and
earnestly. The announcement to the
public was that the execution should take
place at noon, but for some reason it was
postponed till five o'clock. The scene was
morbid feeling to witness the fearful sight
to take place, was not without hope till the
last, and before the hour of death drew
nigh supplicated the Sheriff to telegraph
once more to his Excellency the Governor
General for a reprieve. The Sheriff could
not refuse the dying wish, and granted the
request. The execution was therefore
postponed until an answer came from the
Governor, about ten o'clock, stating that
no interference with the sentence must
take place; that his Excellency has given
the case the utmost consideration. When
Allen heard the words of the telegram, he
threw up his arms, and shewed by his
expression that he had once lost his self-
possession. But he soon regained his
composure, and joined more fervently in the
prayers, which had been going on for more
than four hours. The last rites of the
Church had been administered to the
doomed man, when he was taken to another
room to be pinioned and began the
preparations for the scaffold.

From early morning, hither cold as it was,
crowds arrived from the country to
witness the execution. The scene was
very curious to see, and some of the
we are sorry to say, numbers of the
Before ten o'clock crowds had surrounded
the goal wall, which, however, was found
not high to the sight of that ghastly
window. Therefore, the men, horse-tops,
and roofs of sheds, in fact, any position
which could give even a poor glimpse of
the gallows, were occupied. Men were con-
stantly coming and going, and some de-
parted, tired out of patience in waiting. Two
thirds of those present were from the
country. Kant street was crowded with
people, as well as all the surrounding, but
not one-fourth of the people witnessed the
execution, and few went home satisfied.

The scene inside the goal was gloomy
and sorrowful, and made an impression

never to be forgotten. The deep and fervent prayers for the dead were in great contrast to the bustling, shouting and excited crowd outside. Before the walk to the scaffold began, Allen shook hands with all those around him whom he knew. To the turnkey he remarked that he was about to die as he said he would, with a smile on his face. His manner was very affable. At eleven o'clock precisely, he walked firmly up to the scaffold, accompanied by the Sheriff, Father Dollard, and members of the County Council. His appearance on the scaffold raised a commotion in the crowd, and a few of those on the elevated piers waved their handkerchiefs. Allen who stood on the drop at the time, took his handkerchief from his pocket and waved it in reply, replacing it. When he approached the drop, he tested it with his feet, and stepped on it firmly. He wore a gown, appearing in a black suit, and a white shirt. He also refused to allow the cap to be put on him. After the hangman had adjusted the noose about his neck, he folded his arms across his body as well as his pained arms would admit, and stood stiffly without a single sign of trembling. He uttered the responses at first loudly, but had ceased when the drop fell, and the unfortunate man was launched into eternity. His death was instantaneous, as he never moved a muscle, or showed the least possible sign of pain or struggle. His hands retained the same position, and the crowd forebore to disperse, many refusing to believe that the execution had taken place, not having seen it. When the hangman appeared to close the iron doors he was hooded.

Allen replied to an enquiry of the Sheriff at the last hour, that his name was Allen, and he had never been known by any other. It was thought previously that he had concealed his real name, to keep his only sister who lives in Canada, as he said, in ignorance of his crime and fate. By the name of "Satie" Allen he was known years ago in Kingston, and in other places also. Mr. Reynolds, of the Police Department at Buffalo, visited him here a couple of days ago in goal, seeking to find through him a clue to the guilty party in a murder at Buffalo, but Allen knew nothing regarding it. He recognized Mr. Reynolds immediately after he saw him. Mr. Reynolds says he was wild when in Buffalo, but not desperate. Allen has left no record of his life, and what is known of his character is from mere report. He admitted he was addicted to gambling, but is believed to have spent his money occasionally in useful ways—though always regardless of his own downward career. He attributed his own fate to the indiscretions of his youth, and warns young men against crowding on the path that leads to ruin like his. His first and last offence were, he says, committed in Kingston.

Allen was 36 years of age. Before the execution he asked the Sheriff if he had procured a hangman who was an adept, and was answered in the affirmative. When the knot was being adjusted he told the hangman to do it properly, so that he would not suffer pain. The last execution in Kingston, that of Francis, for the York murder, occurred in Kingston on December 7th, 1863.

In his case the law has been satisfied, but not to the minds of the public, who feel that adequate justice has not been meted out to the remaining actors of the great tragedy, the last scene of which closed yesterday.

Daily Intelligencer.

BELLEVILLE, FRIDAY, DEC. 12.

ONTARIO SEATING RENE.—The prices of tickets have been reduced since the first advertisement, as will be seen by our advertising column. We are sure no skating rink in Canada, has anything like so low a tariff of prices as the Ontario, and consequently deserves to be patronized. A splendid sheet of ice has been obtained, and we understand it will be opened for the season on Monday evening next, without fail.

SOMETHING NEW.—We beg to call attention to the advertisement of "Something New," to be found at Holden's Drug Store. Having had the pleasure of seeing and admiring Messrs. Holden's large stock of beautiful Parian Vase Lamps, we can say with safety that they surpass anything that have ever been brought to Belleville. They are not only a most complete Lamp, but can be changed in a moment to the most perfect flower vase imaginable. Now that the holidays are approaching, and every one is thinking about the description of present they intend giving to their friends, we would advise them to inspect this stock of Lamps before making their selection. No more suitable or elegant Christmas present to a lady friend could be furnished. The design of the lamp is novel and beautiful, the workman-

ship and painting are equal in artistic finish to the most handsome vase ever imported, and altogether it is a cheap, elegant, and useful article for the household. As the demand for this article is very great, those who wish to obtain one of these beautiful lamps should make immediate application. Messrs. Holden have, in addition, one of the largest stocks of lamps and trimmings ever brought to Belleville, comprising the latest styles and improvements.

Crown Lands Report.

We continue our summary of Statistics from the Crown Lands Report for 1866. We find in the Fishery Department that the expenses in Lower Canada in 1866, were \$34,777. In Upper Canada the expenses were \$4,190. The collections made up to the close of the year, which consisted chiefly of rents collected at the Department as payments in advance. The number of United States vessels licensed in Canadian waters, under special arrangement last season, between the British and American Governments, was ten, from which a fee of \$396 was received. To show the importance and value of the Fisheries to the Dominion, we condense some statistics from the tabular statements. The Fisheries are divided into three divisions, the first by which is called the Magdalen Islands, and comprises 104 miles of sea coast. In this division the products of the Fisheries were not so valuable as the year previous, owing to storms, loss of nets, and want of men. There were 22 schooners and 230 men engaged in seal hunting on the ice. Owing to bad weather and the impossibility of many vessels to penetrate among the field of ice, the expeditions did not prove so successful as the year previous. The number of seals caught was 2434 seals, valued at \$15,831. The spring herring fishery was abundant, yielding 10,893 barrels of fish, 7,577 barrels were taken by foreign fishermen. The spring mackerel fishery was better than the year previous, the product being 1334 barrels, of which 274 were taken by foreign fishermen. The products of the summer and fall Cod fishery amounted to 12,860 quintals, and of summer Mackerel fishery, 1760 barrels. Of Haddock there were 370 quintals; Halibut 78 barrels; Eel—15 barrels; Stickleback, 400 barrels, which was employed as manure. There was produced 6028 gallons of Cod Liver Oil, and of Whale Oil 840 gallons. The total value of the products by the different Fisheries of this division was \$103,067.

The second division comprises the counties of Bonaventure, Gaspé, and part of the county of Rimouski, the extent of the sea coast being 354 marine miles. The herring fishery, which was not quite so good as the year previous, yielded 19,316 barrels. In addition to this, 2,800 quintals of smoked herring were prepared in the county of Bonaventure. The cod fishery, the most important of our shores was no so successful as the year previous. The number of boats engaged in this fishery was 2,364, and the product of the summer and fall fishery was 97,468 quintals, the value of which was \$391,872. The Haddock fishery yielded 1,728 quintals; Hake, 213 quintals; Halibut, 480 barrels; Mackerel, 181 barrels; Tunney, 10 barrels; Eel, 98 barrels; Trout, 57 barrels; Tongues and Sounds, 200 barrels. In the Whale fishery there were six schooners engaged, but owing to the scarcity of whales in the Gulf the yield was only 12,830 gallons of oil. The catch of Sardines was larger than for a long time previous, it being estimated at 2,552 barrels. The Salmon fishery has yielded handsomely, being an increase of one-fourth over the year previous. The number of barrels in 1865 was 533; in 1866 it was 717. A large quantity of fish is every year used as manure, and in this division not less than 1,500 barrels of Capelin, Herring, Plaice, Smelt, and Sardines were used for that purpose. The product of Cod Liver Oil was 62,264 gallons, valued at \$49,827. The total value of the fishery products in this division was \$549,830.

The Third Division comprises the north shore of the St. Lawrence, the north coast of the Gulf of St. Lawrence, from Bonaventure to the Eastern frontier of Canada, at l'Anse aux Blancs Sablons, and the Island of Anticosti; extent of coast 570 marine miles. The Seal fishery in this division is more extensive than in the others, and is divided into spring Seal fishery, which yielded 2,782 quintals, and the fall Seal fishery, which produced 178 quintals. In addition to this there were 300 seals taken in shoal nets during the summer; 1,200 killed with guns by the Indians; 400 killed by the inhabitants; and 346 killed at Anticosti Island. The Cod fishery was not so good as the year previous, the yield was 23,410 quintals. The cause of the comparative failure was bad weather, and the small number of fishermen engaged. Of Herring the yield was 2,333 barrels; Halibut, 218 barrels; Salmon 270 barrels; Trout, 75 barrels; Cod Liver Oil, 14,075

gallons; Whale Oil, 990 gallons; Porpoise Oil, 400 gallons. The total value of the products of the third division was \$180,100.

The total value of the products of the Fisheries on all the coasts of Canada, in the Gulf and Lower part of the River St. Lawrence, was \$885,918. The value of the "Deep Sea or Great Fisheries on the coasts of the Gulf and Lower St. Lawrence, was \$500,990. The value of the produce of the River or Small Fisheries, was \$34,027. Number of fishing boats engaged in the Canadian fisheries, 8,395; flat bottomed boats, 2,999; number of fishermen, 6,919; schooners, 4,407; sailors, 547; number of nets, 54,800; number of seines, 751.

The Weather.

The Indians predicted that we were to have a very severe winter, and judging from the cold snaps we have had already, their predictions are likely to prove correct. Yesterday and Wednesday were bitter cold days, as will be seen by the following statement, which Mr. Burdon has kindly handed in:

The lowest temperature during Wednesday night, 12th December, was—14.4 (below zero), and on Thursday night, 13th, —14.5.

The temperature at 7 a. m. on Thursday, 12th, was—13.4; at 1 p. m., —6.8; and at 6 p. m., —9.3.

The temperature at 7 a. m. on Friday, 13th, was—11.0; and at 1 p. m., 3.1.

FROM MADOC.

From our own Correspondent.

MADOC, Dec. 11th, 1867.

I did not intend when I wrote you last to have so long a space of time elapse before I wrote again, but "times and tides" effect "gratitude" rock as well as quartz rock. However, in the meantime, I have kept an eye and an ear open, to see and hear what has been passing around me, and must say that within the last few weeks much greater changes have taken place in the gold regions than in as many months before; not that miners had not been pushing on the shafts and tunnels, and were in hot pursuit of leads and lodes, but by the way, in some instances, seemed to be getting out of their way as fast as they could, dodging here and there as though to escape the relentless miners powder and steel; but that mining matters were just in that state in which something more effective had to be done in order to satisfy the cool calculating capitalists that there was something in it. Shows, colors, and assays, to use a Yankee expression, were "played out," and miners, mine owners, and gold speculators were looking at each other and asking what is to be done next? and the almost unanimous answer was "wait and see the result of the crushers." Well, we have had the crushers, and the general result has become known to the public, and any man with half an eye can see the general effect; but it is only the careful observer and the close enquirer that has the matter in its true light, and can tell the important results that have followed as the effects of the results from the crushing mills. And before I begin to note down these effects, great extent, confidence has been restored with reference to assays of rock as made by reliable men. A short time since a party with a certificate of assay—no matter how good, or rather, the larger the yield, the worse—could hardly get people to glance at it; but now, that so many assays have been confirmed by the results of the crushers, value is being attached to them.

In noting down the progress of mining matters in this section for the last month, I intend to commence at the village of Madoc, which, by the way, is the centre of mining operations and mining information, and extend the survey east, west, north, and south, from time to time endeavoring to take in all the mines, showing their prospects, location, etc.

The mine of the most importance here just now is the Empire Mine, situated almost in the centre of the village. Here in the first place a shaft was sunk some 50 feet, out of which a variety of gold bearing rock was not unlike in some respects, the class of rock taken from the Richardson Mine. Assays were repeatedly made, and most always with large results, but no distinct lead or lode was found. The services of a Mining Engineer, Mr. W. C. Smith, were secured, and by his advice, a tunnel has been commenced at the base of the ledge, opening through the hill for the purpose of striking the defined lead which was not unlike in some respects, the class of rock taken from the Richardson Mine. The tunnel is now over fifty feet in length, and I am informed the prospects are of the most cheering kind. In the meantime a ton of the rock has been crushed and yields between \$80 and \$40. The proprietors, among whom are the Messrs. Jones, Pierce, Croude, and Smith, are shipping tons to the crusher, for the purpose of obtaining the result. The proprietorship of this mine is confined to a few persons, and there is no intention of going beyond them by the sale of stock.

Just across Division Street and along the same ridge about fifty rods distant from the Empire, is the Champion mine, owned by Messrs. McKay & Holland,

a year of this place. They have commenced tunnelling the hill something after the manner of the "Empire," and are now in about fifteen feet. The surface shows several veins of quartz running lengthwise, and the tunnel is intended to cross these at right angles. Their prospects appear to be good. Crossing to the southwest side of the village, within sight of Durham street, is the "Honolui" mine, owned by Messrs. McCullough & Fuller. This mine is down thirty feet. The character of the quartz is somewhat different from the Empire and Champion, but has assayed, as reported by Mr. Smith, assayer, \$45 of gold to the ton. The owners have commenced a new shaft on the same property intending to work them both this winter, with three shifts of men in each. I consider this a very promising property, the arrangements have been made by which the necessary funds are on hand, I expect to hear of more than ordinary results from this mine before long.

North from the "Honolui" and almost within a stone's throw of the Episcopal Methodist church, is the "Caladonia" mine, owned by Messrs. Wood & Ross. The shaft of this mine is down about twenty-eight feet. Here the character of the quartz is again different, being described by Mr. Smith as a "C." The lode here is about fifteen feet wide, a narrow vein of white quartz running down with it. At four feet from the surface the result of an assay was 7 1/2; at twelve feet the grey quartz yielded \$1 in gold, and the white quartz \$14 in silver; at twenty-six feet the assay yielded \$34.36 per ton from the grey quartz, the white has not been tested at this depth. Mr. Smith speaks in very high terms of this mine.

At the "Empire" the quartz resembles the "Richardson"; the "Champion" has white quartz and grey; the "Honolui" has a pinkish grey and white quartz; the "Caladonia" distinct grey and white quartz. All these mines are being worked and the intention of the proprietors is to continue through the winter. At the "Empire" arrangements have been made to erect a crusher at an early date, and all are anxious to get opportunities to have rock crushed for the mill. From appearance of things, these mines are but a commencement of what will be done. There is mining country enough within a radius of two miles of this village for a hundred miles, and I would not be surprised if half that number were commenced within a year.

County Court and Quarter Sessions.

(CONTINUED.)

QUEEN VS. WM. WEST AND JOHN McGOWAN.—Larceny. Stealing cigars, figs and money from the store of Mr. Miller, in Trenton. Prisoners are boys of about 12 or 14 years of age, of a class too numerous in our towns and villages. The Crown called two witnesses, and it appeared that, as usual in this County, the party prosecuted called no witnesses, but that the prisoners, who confessed or shewed where the property was, they would get off. The Judge held that the promise was sufficient to compel him to rule out the evidence of guilt obtained under such circumstances, and directed an acquittal. C. A. Coleman for Crown; R. P. Jellott for McGowan; Chas. Francis for West. The Judge remarked upon the practice of prosecutors and constables in this County of making such promises to parties suspected or accused of crimes.

QUEEN VS. JAMES SCALLION.—Larceny. Stealing \$40 from Patrick O'Brien. Prisoner is a boy about 15 years of age. He had been employed by the Rev. M. Brennan to do some glazing in the bedroom occupied by said O'Brien. The money was kept in a box, which was kept in a chest in the bedroom. After doing his work he was seen climbing over the fence, instead of passing out of the gate, but suspicion did not then attach to him. Afterwards he was known to have money, and spent it freely with his companions about his own age, drinking in taverns and saloons. Verdict, not guilty. C. L. Coleman for Crown; S. B. Burdett for prisoner. This case brought to light some of the evil done by our saloons and taverns, the proprietors allowing small boys to drink and spend money at their bars in amounts they must know could not be honestly obtained.

QUEEN VS. DAVID JOHNSTON.—Indicted for shooting a bull, the property of one Amott of Elzevir. Verdict, not guilty. C. L. Coleman for Crown; R. P. Jellott for prisoner.

H. DRAPER VS. BENJ. ROW.—Action of trover, to recover the value of a yoke of steers. Plaintiff is a widow, and owned a yoke of steers, which she was anxious to keep her son, who was a young lad. She gave her father permission to let Emery Weaver have the steers to break and return after three years. Weaver got the steers in December, 1864, and kept them until March, 1867, when he sold them to defendant. Defence: Defendant had permission to sell or trade, as plaintiff wanted to save the steers, or their value, for her son. The jury did not believe the defence, and gave a verdict for the plaintiff of \$78. R. P. Jellott for plaintiff; C. L. Coleman for defendant.

Frightful relations have been recently made about the cruelties practised in the Illinois State Lunatic Asylum. For the past five or six years, as far back as any evidence goes, the most horrible cruelties—such as the gag, bludgeon, whip, and shower bath—have been practised on the patients, and the most severe forms of punishment—such as deprivation of food, and confinement in heavy irons and in dark dungeons—have been daily practised. This falls far beyond any adequate idea of the horrors disclosed by the report.

Telegraphic News.

BY ATLANTIC CABLE.

LONDON, Dec. 12.—The London Times in an editorial on prospective abolition of the tax on cotton by the American Congress, says the extreme difficulties of the United States are extreme, and expects that the country will be obliged to resort to increased taxation and a higher tariff, but believes that the people will "dissolve" any plan which has for its object the payment of the bonds of the United States, and the interest thereon in paper.

The weekly returns of the Bank of England show that the amount of bullion in its vaults has decreased £23,000 since Dec. 6th.

FOUNTSVILLE, Dec. 12.—Jean Paulin, the veteran operatic composer, died yesterday. He was born at Catania, Sicily, in 1796.

DUBLIN, Dec. 12, evening.—The Lord Lieutenant of Ireland has issued a proclamation declaring that the holding of public funerals for the Fenians executed for treason at Manchester is sedition, and prohibiting such demonstrations of sympathy in future.

BREMEN, Dec. 12.—The Federal Congress of the North German Confederation closed its session to day.

American Despatches.

NEW YORK, Dec. 12, midnight.—The snow storm which commenced last night continued all day with unabated violence. About 16 inches of snow has fallen. The street cars in this city and Brooklyn have ceased running, and the ferry boats run very irregularly. A strong gale is blowing, and it is feared much damage will be done to shipping. Some of the streets are completely blocked up by snow drifts. Trains from all sections are far behind time, and probably all the roads will be snowed up before morning. Despatches from different points show that the storm is general, and raging with equal severity in all directions.

WASHINGTON, Dec. 12.—The President sent to the Senate to-day a message giving his reasons for the suspension of Mr. Stanton as Secretary of War.

The weekly convention, after a session of three days, adjourned to-day to meet on Jan. 3. The capital represented was over one hundred million dollars.

PHILADELPHIA, Dec. 12.—William Mercer, proprietor of the Sunday Mercury, has been convicted of a libel on Col. W. D. Manners, the District Attorney. Sentence deferred.

SAFETY, Dec. 12.—The rain storm extended throughout the day, doing considerable damage, washing away bridges and interrupting stage travel in the interior.

The steamship "America," from San Juan del Sur, arrived to-day with New York passengers.

NEW YORK, Dec. 12.—The Herald's Havana special says: It is rumored that negotiations for the sale of Samana, St. Domingo, have been renewed. President Obaldia officially denied any intention of the Government to part with any portion of Dominican territory. Partisans of ex-President Diaz report that he is willing to enter into negotiations with any power that will lend efficient aid to his cause.

It has been arranged that St. Thomas will be delivered to the United States on the 1st prox. It is reported that the Seladilla Key, in the Gulf of Mexico, has disappeared, and all the inhabitants were drowned.

Latest advices from Mexico state that the Ministry were desirous of resigning, but were holding their places until such time as Congress was fully organized for business.

It is expected that President Juarez will re-nominate the same Cabinet that accompanied him to Paezo del Norte during the trying days of the intervention.

Some anxiety is created by the move depriving the Imperialists of their seats in Congress after they had been admitted.

NEW YORK, Dec. 12.—The storm abated early this morning. Most of the railroads were delayed.

A fire occurred in Singer's sewing machine manufactory last night. Loss \$5,000.

In the Canadian wool case yesterday, wherein 86 bales of wool seized by Government for alleged undervaluation, are involved, a verdict for the Government was returned.

NEW YORK, Dec. 12.—Mayor Hoffman sent an important communication to the Board of Aldermen this afternoon, urging the Board to take such action as would result in protecting the rights of American citizens abroad in connection with the Fenian executions at Manchester.

—Mrs. Telford's residence at New York are highly spoken of.

—The latest affecting marriage notice is an Ontario contemporary is "Mr. B. to Mary Jane, the fair and blooming daughter of."

—The kid-gloves dealers of Boston are said to have sold \$10,000 worth of "kids" to the audiences of Mr. Dickens.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - \$10,000,000
FIRE AND LIFE.

LIFE DEPARTMENT.

THE principles on which this Company is
founded contain all the elements required
to develop the benefits of Life Assurance, and
afford every facility to intending assurers.

One of the advantages secured by those who
insure their lives with this Company is that
the outside expenditure for Management is
absolutely restricted by the Deed of Settlement
to Ten per cent of the Net Life
Income. This most important restriction
shows that the interests of participating policy
holders are closely watched and carefully at-
tended to by the Company. Attention is es-
pecially called to this point, as the proportion
of premiums expended for Management
Must Largely Influence Profits
and Bonuses.

The next division of profits takes place in
1868, and all those who participate in the
profits should insure at once.

The Beggar Baby.

Pale and weary, angrily old,
Was with hunger, pined and cold.
Clothed in rags around it rolled,
Was the poor beggar baby.

Careless travellers going by
Walked around, lest coming high,
They might hear the hungry cry
Of this poor beggar baby.

Rich men passed, and thought within,
"There well if life had never been."
As though millions were a sin
For a poor beggar baby.

Only the pauper mother smiled,
Only the mother kissed the child,
And murmured low in accents mild
To that poor beggar baby.

But by and by that baby died,
And they buried it (on the pauper's side
Of the yard)—only the mother cried
For that poor beggar baby.

Who used to cling to her lonely breast,
And kiss her cheek ere it sank to rest,
Like a little bird in a happy nest—
For that poor beggar baby.

But lo! beyond the pauper tomb,
And voices sang "In Heaven there's room
For that poor beggar baby."

And then in garments white and new,
Upward the rank of angels thrush,
The radiant ransomed spirit flew
Of that poor beggar baby.

SINGULAR DISCOVERY OF THE SOUTH WALL
OF SOLOMON'S TEMPLE.—THE DIS-
COVERIES ESTIMATED AT ONE THOUSAND
FEET LONG, AND ONE HUNDRED AND
FIFTY FEET HIGH.

Lieutenant Warren, an officer of the
Royal Engineers, has for a long time past
been engaged, at the expense of an En-
glish society, in making extensive explo-
rations on the site of the Temple of Solomon,
in Jerusalem, and has already made some
startling discoveries. He has, it is stated,
established by actual demonstration that
the south wall of the sacred enclosure
which contained the Temple is buried for
more than half its depth beneath an ac-
cumulation of rubbish—probably the ruins
of the successive buildings which once
crowned it, and that if buried to its full
height the wall would present an unbroken
face of solid masonry of nearly 1,000 feet
long, and for a large portion of that
distance more than 150 feet in height; in
other words, nearly the length of the Cris-
tal Palace, and the height of the trans-
cript.

The wall as it stands, with less than half
that height, extends from the east to the
west, and is a large portion of it, has
always been regarded as a marvel. Lieut.
Warren, in a letter to the London Times,
dated Jerusalem, Oct. 23, says:—

Having arrived at a depth of 79 feet, the
men were breaking up a stone at the bot-
tom of the shaft. Suddenly the ground
gave way, down went the stone and the
hammer, the men barely saving themselves.
They at once rushed up and told the ser-
geant they had found the bottomless pit. I
went down to the spot and examined it,
and, in order that you may have an idea of
the extent of our work, I will give you a
description of our descent.

The shaft is on the south side of the
Haram Wall, near the south-east angle,
among the prickly pears; beside it, to the
east, lying against the Haram Wall, is a
large mass of rubbish that has been brought
up, while over the mouth itself is a trian-
gular pit, with iron wheels at the sides, with
guy for running up the excavated soil.

Looking down the shaft, one sees that it
is lined for the first twenty feet with frames
4 ft. 6 in. in the clear. Further down the
Haram Wall, with iron wheels at the sides, and
a man standing in what appears to be the
bottom. An order is given to this man,
who repeats it, and then faintly is heard a
supplicatory voice answering, as it were from
another world. Reaching down to the
man who is visible is a 54 foot rope
ladder, and on descending by it, one finds
he is standing on a ledge which the ladder
does not touch by four feet. This ledge is
on the edge of a well running saw blade
south, and abutting on the Haram Wall;
its east face just touches the centre of the shaft,
which has to be centred off about two feet
towards the east, just where some large,
limestone stones (but out in the most unusu-
al manner. Here five more frames have
been fixed to keep these stones steady. On
peering down from this ledge one sees the
Haram Wall with its projecting courses
until they are lost in the darkness below,
clearing, also, at the same time, that two
sides of the shaft are cutting through the
soil, and are self-supporting. Now, to
descend the second drop, the ladder is
again reeled; accordingly, having told
the man at the bottom to get under cover,
it is lowered to the ledge, whence it is found
that it does not reach to the bottom by
several feet. It is therefore lowered still
further, and one has to reach it
by climbing down hand over hand for about
twelve feet. On passing along one notes
the marvellous joints of the Haram Wall
stones, and also the great thickness below,
on skul and knuckles from falling bodies
Just on reaching the bottom, one re-
coils that there is still a pit of unknown
depth to be explored, and one that is
straddling across it. Thus can be seen that

ward" went ashore on Burlington Beach, at the head of Lake Ontario. She was laden with wheat.

Something New

AT
Holden's Drug Store.

BOHEMIAN VASE LAMPS,

Answering a Double Purpose,
A most Neat, Elegant, Useful, and Ornamental

CHRISTMAS PRESENT,

JUST RECEIVED DIRECT FROM EUROPE.

ALSO, THE NEW

SUN AND ELSOLITO BURNER,

A GREAT IMPROVEMENT on the old burners, saving Oil and Chimneys, and making lamps perfectly non-explosive.

Not to be outdone by any one, we are now selling the

Very best,

Double Refined,

Perfectly Clear,

Non-explosive,

standard

COAL OIL

FOR

20 cts. per Gallon,

And are ready to put it DOWN to TEN CENTS A GALLON as soon as the Trade desire it.

R. HOLDEN & CO.

Belleville, Dec. 13, 1867.

"To Be or Not to Be!"
TRIUSLY:

Explosive, Bad Smelling, Straw Coloured Oil for 80 cents per gallon.

OR

Perfectly Clear, Non-Explosive, Standard Oil for 95 cents per gallon.

"You Ichabod, come here." "Yes mother."

"Where did you buy that nasty oil?" "I bought it at one of the 100 cent stores." "And pray what did you do with the 5 cents?" "I bought some O.K. candy."

"Oh! you young rascal, get out of my sight; pitch that nasty oil out doors, and go straight off to the 'APOTHECARIAN HALL,' and get a gallon of their 25 cent oil, which—is—"

Beautiful and as limpid

As ever was seen,

Colorless and inodorous,

And free from gasolene.

QUEEN

INSURANCE COMPANY

CAPITAL, - - - \$10,000,000

FIRE and LIFE.

LIFE DEPARTMENT.

THE principles on which this Company is
founded contain all the elements required
to develop the benefits of Life Assurance, and
afford every facility to intending assureds.—
One of the advantages secured to those who
insure their lives with this Company is that
the outside expenditure for Management is
absolutely restricted by the Bond of Settlement
to Ten per Cent on the Net Life
Income. This most important restriction
shows that the interests of participating policy
holders are closely watched and carefully at-
tended to by the Company. Attention is es-
pecially called to this point, as the proportion
of premiums expended for Management
Must Largely Influence Profits
and Bonuses.

The next division of profits takes place in
1868, and all those who wish to participate in
the profits should insure at once.

M. BOWELL,
Dr. CANNIFF,
Medical Referee
May, 1867.

Intelligence Office,
40-40d.

R. HOLDEN & CO.
Belleville, Dec. 18, 1887. 192

To the Electors of BALDWIN WARD

GENTLEMEN,—Feeling that during the time I have had the honor of representing you in the Council I have faithfully discharged my duty as a Councillor, I beg leave to announce that at the ensuing election I shall offer myself for re-election.
Before the election I shall consider it my duty to give to you an account of my past term of office, to explain to you the position of the Town affairs, and also to explain the cause of the determination of certain Councilors and other individuals to drive me out of the Council.
I am,
Your obedient servant,
THOMAS HOLDEN.

Miscellaneous Items.

Scotch papers announce the reappearance of the cattle plague. Already numbers of sheep and other animals have died.

Glycerine is very extensively used for the hands, face and ears, on account of the intense cold. It will not freeze at any temperature.

Mr. E. C. Woolson drove across a part of the falls of Niagara, low water and a high wind assisting, last week. The trip was from Goat Island to one of the Three Sisters.

Waltham, an Englishman, wrote an article about 1750 which ran through nearly 200 editions - but it is now so rare that even the twentieth edition is a curiosity.

In the Louisiana Convention the spirit of discord is so rampant that it is quite probable several duels will be the result. The creole duellists are not hot tempered and do not take to their white colleagues very much.

The Oswego Times is out in favor of the Iron and Ontario Ship Canal. It advances that the canal when completed, would place Oswego, by water communication, some four or five hundred miles nearer Chicago, than Buffalo now is.

Not liking the play of the "Lady of Lyons," as performed at Salt Lake, an aged Mormon arose, and went out on his twenty-four wheels, and said that he "wouldn't sit and see a play where a man made such a cursed fuss over one woman."

Mr. John Quill makes the following offer: I will walk with any good looking fellow who has a fortune in his own right, upon any given moonlight night, both parties to go as slow as they please, and neither to hurry back to the starting point, until the word, walk in to her affections, and walk off with her fortune.

THE ATLANTIC CABLE.—NEW TARIFF OF CHARGES.—INCREASED FACILITIES.—The New York Herald says: "On Sunday next, the 1st of December, the new tariff of the Atlantic Cable Company goes into effect. The new cable, via the island of St. Pierre and along the coast of Newfoundland, is now in operation, as well as the new line connecting the cable at Heart's Content with the telegraph system of the United States. As a consequence of these improvements, we shall probably have greater promptness and less interruptions in cable messages than heretofore. Telegrams sent from London on the 20th inst., were received in this city at twenty-eight minutes past eleven o'clock on the night of the 28th, thus arriving apparently in advance of their own dates."

PROSPECTUS

ROSE MINING COMPANY OF MADOC.

Capital Stock, \$25,000.
Divided into 5,000 Shares.
5,000 Shares \$5.00 Each.

Deposit on Subscription Twenty-five per cent.

Geo. D. Wyckoff, A. L. McLELLAN, Jas. A. BURTHAM, JR., F. E. KILVERT, A. A. BURTHAM, JR., J. E. REILLY, E. H. HALL, and HUGH F. HARRISON, are the owners of the property hereinafter mentioned, and are desirous of forming a Stock Company with the capital of \$25,000, and are to receive and take in payment for the said property \$1,250 in cash, and 2,350 shares of paid up Stock of the said company. The said parties are now taking proceedings for its incorporation, under cap. 22, 27-28 Vic, and have much pleasure in calling the attention of the public to the following Prospectus:

This Company is being formed for the purpose of developing the Mineral Resources of the 8th concession of the Township of Madoc, in the County of Hastings, situated on the main road, between three and four miles from the village of Madoc, upon which Gold and Silver have been found in paying quantities, several assays having been made by Professor Wyckoff, who selected, with great care this locality as being not only rich in minerals, but possessing facilities for mining which gives this company peculiar advantages over many others, there being on the property a high ridge or mountain, of rock, in which numerous veins of gold-bearing quartz crop out; instead of sinking shafts, (a most expensive and tedious operation), drifts can be run from the base of the ridge, cross-cutting the different veins, and giving eight feet of backs to work upon, which will furnish as much ore as could be taken out for the next twenty years, and at a cost comparatively small, no machinery being required to free the mine from water.

This Company intend, as soon as a charter is granted, to erect a mill house, with suitable machinery for reducing and separating the precious metal, thereby saving the cost of cartage to other mills, and the great expense and inconvenience incurred in having the ore reduced and the metal extracted by custom mills.

Adjoining this property is a lake from which an abundant supply of water can be obtained for all purposes.

Another great advantage in this property is, that immediately the work is commenced ore can be taken out in quantities more than sufficient to pay the working expenses and in that respect nearly all the districts taking into consideration the richness and abundance of the ore, and the many advantages described above, it cannot be proved remunerative to those who may become interested in this Company.

DIRECTORS, PRO TEM.
Geo. D. Wyckoff, A. A. BURTHAM, JR., F. E. KILVERT, A. L. McLELLAN, JAS. CARL RITCHIE, JAS. EDWIN REILLY, E. H. HALL.

PROV. PRESIDENT—Geo. D. Wyckoff.
PROV. SECY & TREAS.—JAS. C. RITCHIE.
Solicitors—T. J. WILSON & KILVERT.

Stock Book opened at J. W. Munro's Exchange Office, Hamilton. Application for Stock and other Communications may be addressed to any of the Directors, or to JAMES C. RITCHIE, Prov. Sec. & Treas., Hamilton.

December 8th, 1897. D183-11

PROSPECTUS OF THE EL DORADO MINING COMPANY OF MADOC. (LIMITED).

CAPITAL STOCK \$72,000.
Divided into 2,400 Shares of \$30 Each.

Deposit on Subscription, \$15 Per Share.

THIS COMPANY is formed, and proceedings taken for its Incorporation, under Chapter 28, 27, and 28 Vic, for the purpose of developing the mineral resources of three acres of land, being part of the Moore Farm, and a portion of the Northeast quarter of Lot 17, in the 6th Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present, there are two shafts sunk on the property about 200 feet apart, one 40 feet deep, and the other 35 feet deep. There is at the present time about 500 tons of ore already mined. The owners of the property have had one of this quartz crushed and amalgamated by Scott & Taylor's Mill, which returned \$28.50 in gold, which specimen can be seen at J. E. Ellis', on King Street.

There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore.

The projectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 523 shares of the value of \$30 each, payable one-half, or \$15, as above, on subscription, and the remaining \$15 on the 1st of January, 1898. Out of the above sales, \$10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be excessively remunerative.

The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.
RICHARD SPARKLING, Managing Director and Superintendent.
T. S. McGLASHAN, of Madoc.
MAILTON BURWELL McGREGOR, of Madoc.
T. A. MITCHELL, of Madoc.
ALDEMAN VICKERS, of Toronto.
J. E. ELLIS, of Toronto.

McLELLAN & McLELLAN, Solicitors. A. F. WOOD, President.
BANK OF MONTREAL, Bankers. T. A. MITCHELL, Secretary and Treasurer.

Applications for Shares received by Alderman Vicker, Yonge Street, Toronto; J. E. Ellis, King Street, Toronto, and at the office of

American Watches.

THE true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon valves than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the sizes or shapes of the pieces, and in the composition, nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished pieces. The method established in every department is the reduction of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

By means of multiplying gauges and microscopes, tests and inspection for the detection of wear in cutting tools, and for faults and flaws in stock, no stone is left unturned to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together a finished machine. Every part is found to fit properly in its place. Every pin may be pushed into its pinches, and every screw turned home—instead of sluggish and feeble action, the balance, over upon the pressure of the slightest mainspring, vibrates with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce Watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform to the minutest details, not easily damaged, easily repaired, and when repaired always as good as new.

There are different grades of finish in the different varieties of Watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

EVERY WATCH FULLY WARRANTED.

For sale by all first class dealers in the United States and British Provinces.

ROBBINS & APPLETON,
No 183, Broadway, N.Y.
ROBERT WILKES,
TORONTO AND MONTREAL.

Toronto, Nov. 2, 1897. 168-3m 40-3m

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of \$5 a year if paid in advance, \$6 otherwise. Mail subscribers \$5 a year. \$2.50 for 6 months; \$1.50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable dispatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE Correspondents in Madoc, Bridgewater, Marston and other points, who will furnish with early and full information respecting the Gold Regions, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., and in short, neither pains nor expense will be spared to render the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 50 cts.
Half Square, 6 months, \$10.00
One Square, 6 months, \$20.00
Two Squares, 6 months, \$30.00
Four Squares, 6 months, \$50.00
Notices of Births, 50 cts.
Do of Marriages, 50 cts.
Do of Deaths, 50 cts.

"Business Notices"—All matter under this heading, headed or solid, 10 cents per line, measured by a scale of 10 lines.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks. Transient advertisements inserted at 7 cents per line for first insertion, and 5 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at \$3 per annum if called for at the Office, or sent by mail; and \$3.50 if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is over 1,400. With such a large and growing circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:
Six lines and under, first insertion, 50 cts.
Each subsequent insertion, 25 cts.
Above six lines (per line) 10 cts. per line.
Each subsequent insertion per line, 7 cts.

"Business Notices"—10 cents per line each insertion, measured as solid matter. A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and economical execution of every description of plan and fancy printing, at prices as low as any other establishment in the County.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Madoc, and at E. J. Dorado, Wilson's Drug Store, and at Belleville.

All orders by mail promptly attended to.

July 27, 1867.

QUEEN

INSURANCE COMPANY

CAPITAL, - - - \$10,000,000.

FIRE and LIFE.

LIFE DEPARTMENT.

THE principles on which this Company is
founded contain all the elements required
to develop the benefits of a life assurance,
and afford every facility for intending assureds.
One of the advantages secured by those who
insure their lives with this Company is that
the outside expenditure for Management is
absolutely restricted by the Board of Settle-
ment to Ten per Cent of the Net Life
Income. This most important restriction
shows that the interests of participating policy
holders are closely watched, and carefully at-
tended to by the Company. Attention is es-
pecially called to this point, as the proportion
of premium expended for Management is
Must Largely Influence Profits
and Bonuses.

The next division of profits takes place in
1868, and all those who wish to participate in
the profits should insure at once.

M. BOWELL,

Medical Officer.

Dr. CANNIE,

Daily Intelligencer.

BELLEVILLE, TUESDAY, DEC. 17.

BANK OF HASTINGS.—The Bill to incorporate the Bank of Hastings was read a second time yesterday and referred to the Committee on Banking and Commerce.

OTTAWA CITIZEN ALMANAC.—The Ottawa Citizen Almanac, for 1893, has been received. It is neatly got up and is a credit to its enterprising publisher.

IN AID OF THE POOR.—We are requested to state that there will be a meeting of Ladies tomorrow afternoon, at the Marble Hall, to devise means for the relief of the poor. We hope there will be a large attendance.

CANTON'S ZOLOGY TROUPE.—This troupe performed last night to full house in Ontario Hall. The performance, as a whole, was very good. They will appear again to-night for the last time, with an entire change of programme. Go and see them.

BALDWIN WARD.—A requisition was presented to this afternoon to Thomas Kelso, Esq., soliciting him to come forward as a candidate for Baldwin Ward at the approaching municipal election, which he accepted. Mr. Kelso is a practical, thorough business man, and will be a great acquisition to the Council.

REVENUE AND EXPENDITURE.—The following statement of the revenue and expenditure of the Dominion of Canada for the month ending the 30th of November, 1892, is published:—Revenue Customs, \$904,419.52; Excise, \$875,353.74; Bill Stamps duty, \$12,918.11; Post-office, \$51,725.37; Public Works, including Railways, \$282,191.77; miscellaneous, \$93,957.08; total, \$1,430,473.74. Expenditure, \$617,078.77.

PROVINCIAL NOTES.—The following is a statement of Provincial notes in circulation on Wednesday, the 4th of December, and of specie held against them at Montreal and Toronto:—Provincial notes in circulation, payable at Montreal, \$3,700,761; payable at Toronto, \$1,947,511. Total, \$5,648,272. Specie held at Montreal, \$430,000; at Toronto, \$400,000. Total, \$830,000. Debentures held by the Receiver General under the Provincial note act \$300,000.

CRUELTY.—At a meeting held at the Ontario skating rink, on the 16th inst., a Curling Club was organized under the name of the "Belleville Curling Club." The following officers were appointed for the ensuing season: President, James Brown, Esq., M. P.; Vice-President, J. Macdonald, Esq., Geo. Nelson, Esq.; Secretary and Treasurer, Walter J. Hayward, Esq.; Managing Committee, Andrew Thomson, Esq., James Blacklock, Esq., D. B. Robertson, Esq., Thomas Macdonald, Esq., Alex. Robertson, Esq.; Chaplains, Rev. Dr. Fox, Rev. A. Walker. Gentlemen desirous of becoming members will please attend a meeting to be held at the office of Alex. Robertson, Esq., on Thursday next at 8 o'clock p.m.

American Silver.

By reference to a debate in the House of Commons, which will be found in another column, it will be seen that the question of American Silver has been before the House, and that the Ministry propose to impose a duty of 15 per cent. upon all silver imported into Canada, and that they propose dealing with the subject still further at the meeting of the adjourned Parliament. How has not been indicated by the Finance Minister, but from what we can learn, it will be by Exchequer bills, bearing a certain interest, but what the Government will do with it is not known. It is hoped that it will be sent to the mint to be re-coined into Canadian coin, thus creating for ourselves a currency sufficient to meet the wants of trade. The proposed duty is the best scheme that could be adopted at the present time, as it will stop the bringing of large quantities into the country, and thus increase the value of that already in the country. The reduction of a 25 per cent. to the value of 38 cents would, as pointed out by Mr. Bowell, cause much loss to those who have their hard earnings laid away in silver.

An editor in Florida was assaulted by a rowdy last week. The rowdy threw the editor's liver into the air. The editor threw the rowdy after it. Tabular.

The N. Y. Tribune of Thursday reports two murders on the street the day previous. One of the victims was Tom Sharpley, leader of the Sharpley minstrels.

A sheep-shearing machine is on exhibition in New York. The sheep furnishes the motive power and shears himself in one minute. We presume a spinning wheel and a frying-pan attachment will be added.

Gold News.

From a friend who recently paid a visit to Matoc and El Dorado, we gather some interesting items of gold news. The favor able results from the crushing mills have induced a large number of persons to visit the Gold District within the last few weeks, and mining property has consequently been more actively acquired. The stream of travel is going east from Matoc into Elzevir, in the direction of the Barry Mine, where rumor has it that something very valuable has lately been discovered, and the general opinion of practical men points to Elzevir as a very rich gold district.

In the Richardson Mine on Monday, a blast threw out richer specimens of gold in the quartz than had been previously obtained from this mine, and on Tuesday evening another blast developed very rich ore. Gold was plainly visible to the naked eye, and found scattered abundantly through the rock. The work of erecting the crushing mill is being proceeded with as rapidly as the weather and circumstances will admit, and it is confidently expected to be in operation by the first of the New Year.

In the El Dorado Mine a depth of 45 feet has been reached, and as they get lower the appearance of the rock looks more promising. A ton of quartz from this mine was crushed on Friday at the works of Messrs. Scott & Taylor, which yielded \$41 to the ton. The repeated tests made from this mine and the large yield of gold, show that the El Dorado is one of the richest mines in the gold region.

In the Bay State Mine they are down to a depth of 35 feet. A ton of the ore from this mine was crushed at the mill of Turley & Gilbert on Tuesday last, which yielded \$19 to the ton. We understand an offer has been received by the Directors of this Company from responsible parties, to erect a crushing machine and take half their pay in stock at par, and that negotiations have been opened with a view to the immediate erection of a mill. The shaft at this place is well made, and is one of the few which have a good shaft and a blacksmith's shop erected.

The proprietors of the crushing mills are rapidly gaining experience and making improvements, so that the quantity of gold obtained per ton from the quartz may be very materially increased in a few weeks by the mere improvement in the crushing machinery.

A few days ago a fine specimen of quartz with the gold plainly visible, was shown us by Mr. Daniel Powell, of Marmora, who obtained it from Lot 17, in the 11th Concession of that township, from a lead of quartz very near the surface.

To-day we have been shown a certificate from Messrs. Turley & Gilbert, representing that they had crushed one ton of ore from the Kootany Mine, which yielded \$15 to the ton. During the operation, the certificate states, that "over half the quicksilver was lost, being flowered from the presence of sulphurates in the rock, and had not the accident occurred, they consider that a much larger yield would have been given."

Mr. J. I. Shayer had on exhibition yesterday a bar of gold, the product of a ton of quartz from the Deunigh Mine. The certificate of Messrs. Daniels, Scott & Taylor shows that a ton of quartz was crushed on the 14th inst., and yielded 1 oz. 17 dwts. 10 grs. or \$37.38 in gold. The fact that this mine is some forty miles from Matoc, shows that gold is widely distributed over the back country.

The Strike at Quebec.

The ship carpenters' strike at Quebec continues, and there is no prospect of its coming to an end. A telegram to the Montreal Gazette says: "The Ship Carpenters' Union, to the number of several hundred, congregated from the cove and other places this morning, and proceeded to stop work at the ship yards of the Hon. Elie Giguere, Messrs. Baldwin, Valin & Dugal, P. V. Valin, and McKay & Warner. It was understood that from ten men in some yards, to fifty men in others, not belonging to the Union, had accepted the offers of the builders, and were occupied in proceeding with those vessels already on the stocks. This conduct so enraged the Union Society that, emboldened by the impunity with which their recent illegal displays have so far been met, they drove the men from their work, brutally beating all who did not abandon their positions on being told to do so. The men marched in procession, preceded by a man bearing a calf's head on a pole. They carried axes, hammers and bludgeons to strike down the men who dared to oppose them. Happily, innocent workmen threw down their tools and left off work without showing resistance. Several cases of violence are reported. An attack upon the flour stores is talked of, as a means of support. The pro-Mayor summoned the Police Board, but they refused to take any steps in the matter."

—Discount on American invoices for this week is 25 per cent.

Telegraphic News.

BY ATLANTIC CABLE.

COPENHAGEN, Dec. 16.—The negotiations between the Cabinets of Copenhagen and Berlin in regard to Behnisch, which for some time, as had been intimated, have been resumed with increased activity, and important notes have been exchanged, the tenor of which, however, is as yet unknown.

MUNICH, Dec. 16.—Prince Hohenlohe, the chief Minister of the King, strongly urges the re-organization of the military establishment of Bavaria.

LONDON, Dec. 16, evening.—Last night an apparently organized attempt was made to set fire to several warehouses in the city, but was unsuccessful. The incendiaries are generally supposed to have been the work of Fenians, though none of the parties engaged in the plot were caught. These attempts cause much alarm throughout the metropolis. The magistrates are swearing in policemen by the hundreds.

A man has been arrested at St. Albans, on suspicion of having engineered the explosion at the Clerkenwell prison. It is said that he is the person who lit the fuse. His examination will take place to-morrow. Casey was again brought from his prison to-day, and examined, but no evidence in regard to the explosion was elicited, and he was remanded.

The excitement concerning the Fenians is unabated, and the press strongly denounce them.

Second Despatch.

DUBLIN, Dec. 16.—Legal proceedings have been commenced against John Martin, president of the Irish National League, Alexander Sullivan, editor of the Dublin *Freeman*, and others who took a prominent part in the Fenian obsequies on Sunday, the 8th inst., and to-day the accused were brought before the Police Magistrate for examination. They did not deny their participation in the funeral service, and those who made speeches freely acknowledged the language charged against them.

FLORENCE, Dec. 15.—In the Italian Parliament the Liberal members have made a violent attack upon the Government. Prime Minister Mancini will reply to-morrow.

LONDON, Dec. 17, noon.—The steamer "Moravian" has arrived.

QUEENSTOWN, Dec. 17.—The steamer "City of Paris" has arrived.

LONDON, Dec. 17, noon.—Consols 92½; American securities inactive; Bonds 71½; 1 C 93½.

LIVERPOOL, Dec. 17, noon.—Cotton quiet and steady; sales 10,000 bales. Broadstuffs quiet. Wheat firm.

LONDON, Dec. 15, 2 p.m.—Consols 92½; Bonds firm at 71; 11 C 89½; Erie 50½.

LIVERPOOL, Dec. 17, 3 p.m.—Cotton, more done. Corn declined to 46s 3d.

American Despatches.

NEW YORK, Dec. 16.—The frigate "Susquehanna" has arrived. She lost three of her crew by yellow fever. Admiral Plumer died at St. Thomas on the 7th inst., of the same disease.

HANANA, Dec. 16.—The steamer "Cacique" has arrived at Santiago de Cuba, with news from Hayti to the 7th. She brings confirmation of the murder of Gen. Monte at Cap-Haitien.

War has been declared against Hayti by the Republic of St. Domingo, on account of the aid and countenance lent by that Government to the partisans of Bea, who recently invaded Dominican territory at Monte Chery.

Gen. Valverde, the Dominican Minister to Hayti, on his arrival home after his recall by President Cabral, made a report as to the complexity of Bea's.

Gen. Cabral's forces were already on the march, and it was stated that the Haytiens had left the capital to meet the Dominicans.

A terrific fire had occurred at Demerara.

The reports of earthquakes at Martinique and Guadaloupe are contradicted.

The steamer "Blasco," Gary, sailed from Havana to-day for the island of Porto Rico, with money and provisions to relieve the suffering inhabitants.

Violent shocks of earthquake were experienced on the island of St. Kitt's on the 13th and 30th of November, the sea rising several feet on each occasion.

An earthquake at Antigua on the 18th Nov., caused great loss of life and property.

Reports from St. Thomas are more cheerful.

The revolution in Hayti was interesting. President Cabral was marching against Hayti with an army, to gain possession of the whole island.

The American wife of Senor Hernandez, and her child, were burned to death at Guatimala.

The commercial feeling in Havana is very insecure, and failures may be expected.

NEW YORK, Dec. 16.—A Washington special says:—Severe distress among the whites and negroes of the South is anticipated during the winter. Freedmen are being discharged in large numbers, owing to the scarcity of food and means, and starvation in many instances is actually at the door of both whites and blacks.

The Times' special says:—Secretary Sharp will soon furnish additional "Alabama" correspondence, and take no further step to the matter until he has an expression from Congress on the subject.

It is expected the Senate will pass a Bill to repeal the tax on raw cotton, with but five or six dissenting votes.

—Miss Damon, a pretty Universalist preacher, has been called to occupy a pulpit in Cavendish, Vermont. All the young men are being converted.

cent for his money, and as money was not like any other commodity, the Legislature should interfere to protect poor people.

Hon. Mr. DONOHUE said that we had been left altogether in the dark in this matter, and were now asked to accept the Government's intentions on a point which was a novelty without precedent. We were in need of circulating facilities, and the effect of this measure might be to leave the question left open. He regretted that we without any at all. He introduced in this manner, and had not formed the subject of special legislation.

Mr. ROSS (Prince Edward) was glad that the Government had taken up the matter. At present farmers and traders were made to suffer for the benefit of brokers, and he knew mercantile houses in Upper Canada which were in this way losing \$5,000 yearly. He had known a farmer who refused to sell unless a part of it was taken in silver. He would accord his cheerful support to the measure—the best introduced this session.

Mr. WALSH referred to a previous proposal made by himself to fix a legal value of 80 cents for the dollar which he explained would not occasion loss for the holders, who could always opt to New York for par value. A similar arrangement had been found to work in the case of Brunswick.

Mr. MERCER took up the proposition as the most extraordinary that had ever been heard of. It would certainly be a nuisance and an injustice to be compelled to take any article for a value greater than its due, but such transactions were altogether voluntary and optional, and if it were true that any bankers constrained their customers to take a portion of their discounts in silver, it could only have reference to the conduct of the managers of the great shavings establishment of Montreal.

Mr. MCCORMACK said he desired to see the matter postponed until the Banks and Boards of Trade were able to express an opinion, and thought that the Government should fix some determinate legal tender value. He also thought it would prevent Americans from coming into the country and buying our surplus articles.

Mr. GIBBS regarded eight per cent. as a rate more advisable than fifteen, and thought the quarter of a million of advantage to be made worth twenty-three cents. The effect of this discussion going abroad would be to prepare the country for the change which was to come. It was nonsense to talk of silver being forced upon the community—in his neighborhood at least, where the farmers possessed sufficient intelligence to understand perfectly what they were about.

Mr. BOWELL was pleased to hear the remarks of the Hon. Minister of Militia in reference to the influence of the law affecting the flow of money towards the poor laborer, being the best possible argument which could be advanced in favor of a restricted rate of interest in all transactions, whether of Banks or private individuals, and trusted when he came to discuss the Bill for that purpose, which he said he intended to do during the session, that he would have the powerful influence of that Hon. Minister in carrying it through the House. He could not agree with the hon. member for Northumberland, Mr. McCORMACK, that at Arden would not come into the country and buy our surplus cattle, horses, &c., if this law was passed. He believed that the people from the United States came into this country to buy, not for our advantage, but because they required what we had to sell, and just so long as they required these articles, just so long would they bring their money and buy. He did not deny that it was to our mutual advantage to create and maintain this trade, but one thing they might depend on, that if the Americans required anything we had to sell they would furnish such money as could be brought in to pay for them. He thought the proposition to reduce the value of an American twenty-five cent piece to twenty-three cents, would cause great loss to those who had, when the Bank crisis took place in Ontario, changed their Bank Bills into silver. This was the case, to a great extent, among the farmers, and any scheme which would raise the value of silver would be the most beneficial to the country, and create the least disturbance in trade. He asked whether the action of the Government had been hastened by recent losses from municipal receipts of silver in Lower Canada, and wanted to know from the Finance Minister, whether silver was taken at par from all municipalities in payment of their municipal indebtedness. He could not understand why municipalities of Ontario should not also be permitted to make their payments in silver if such a power had, as the public accounts told him to believe, been extended to Quebec.

Mr. DONOHUE—What is the amount lost on the discount of silver received from Lower Canada?

Mr. BOWELL—True, the amount is not large, \$84; but it did not matter whether it was one cent or ten cents and dollars; it was the principle involved. If the municipalities in the Province of Quebec were permitted to pay in silver, and the Government should lose the silver, the same rights and privileges should be accorded to those of Ontario. (Hear, hear.) Until the question was more fully dealt with, he believed that that could be proposed, as it would cause compel foreigners to bring gold into the country, instead of silver, to pay for their purchases.

Mr. CUTHBERT was amazed at the proposition, not being able to see why, upon the same principle, an eight per cent duty should not be placed upon gold. We had actually too small an amount of circulation.

Mr. ROSS (Dundas) said that it was impossible to settle the question by any such imposition of duty, as silver could be brought in, in any quantity, over the frontier in defiance of the Government prohibition.

hibition. He hoped that if Ministers were determined to press the measure they would amend it by a reduction of two rate four or five per cent, in which way the intrinsic value of the coin would be reached.

Hon. Mr. DONOHUE could not understand how it mattered what rate of duty was imposed, the object being not revenue, but exclusion.

Mr. BOWELL thought the subject should be postponed, believing that the best way of dealing with it was to make such silver a legal tender at fixed value. The present proposal of exclusion would, if carried, be magnified across the border into an attempt at annoyance to the people of the United States. He could not agree with the remarks of the member for North Hastings, that the advantages were all on the side of the purchaser.

Mr. BOWELL said the hon. member for Centre Wellington had misunderstood him; he said that while he admitted the advantages arising from trade were mutually advantageous to both buyer and seller, he had said that unless buyers wanted what we had to sell, they would not for our advantage come to buy. He would also take this opportunity to express the opinion that the sooner we cease to legislate for the benefit of the United States in legislation for our own advantage the better. (Hear, hear.) We had heard so much of this sort of talk lately, that the Americans would begin to imagine that we could not get on without them, and the sooner such an idea was dissipated the better. (Hear, hear.)

Hon. Mr. ANGLIN thought that no legislation was called for. The example of New England had proved that the establishment of a commercial agreement to take the half dollar only for 100 cents would completely meet the requirements of the country.

Mr. OLIVER having briefly supported the measure.

Hon. J. ROSS said that the information given by the gentleman who had spoken conveyed many valuable hints to the Government for their consideration during the recess. He repeated that there were insuperable difficulties arising from the varying intrinsic values of the different coins in the way of imposing a specific duty which would establish a par value, and thought that the Government might be trusted to take proper means for the effectual prevention of smuggling this article as well as watches, diamonds, or other jewellery.

Hon. J. H. CAMERON having spoken in favor of the measure, the remaining resolutions were put and concurred in, with the exception of the eleventh, imposing an export duty on lumber from the Western Province, which was to be struck out by the consent of the Government.

The Vermont Disaster.

We have further particulars of the railway disaster in Vermont, by the New York Tribune. From an account in that paper we learn that about seventy workmen, mostly educated mechanics, after dinner, proceeded by a train composed of an engine and one passenger car to Harlow Bridge, up a heavy grade, the train moving backwards. As they approached the bridge the engine could not shut off the steam readily, and only succeeded in checking the speed of the train in time to save the engine from going over the embankment. As the engine struck the trestle, the trestle of the precipice broke into three places, the rock sliding forward, and half of the body falling 70 feet to the river bed. About 25 men were spilled out in a pile on a shelving rock, 25 feet below the track, the rear half of the car falling upon them, and the tender under the top of that. It was there that most of the fatalities occurred. The tender remained on the shelf. About ten persons saved themselves by jumping from the car before reaching the brink; fifteen were instantly killed; and four more died soon after, and there are others that cannot survive. Scarcely any escaped serious injury. Those falling with half of the car that first went off the entire 70 feet are mostly all living. The deceased were among the most useful men in Vermont, and will be sadly missed by the State at large.

—A Milwaukee tobacco firm offers a \$20 box of cigars for the best piece of advertising poetry.

—The Newfoundland Legislature is summoned to meet on the 30th of January.

—A severe winter is predicted in England because woodcocks are very plentiful.

—The ice-bergs has formed at Quebec, from the Island of Orleans to the North shore.

—The Ottawa Times says that Mr. McDevitt's health is so far improved that he will shortly be able to take his place in the Commons.

—A fire broke out in a house occupied by a family named Coulson, living near Lowellville, Nelson Township, Halton County, on Saturday night, by which both wife and babe were burned to death, himself barely escaped, and was very much burned.

"The French Government," the *Toulon* states, has just ordered 60,000 sabre bayonets from the metal works of K. K. K. in Sweden, and which are to be delivered by the end of March, 1887.

Hankow, China, has had an extraordinary flood. The Yangtze-kiang, having fallen 4 feet 6 inches, suddenly rose in 48 hours 5 feet 6 inches. The Chinese say that in the province of Shensi, a column of water suddenly springing from the earth, deluged the whole city and drowning the inhabitants.

The New York Journal of Commerce does not think much of Mr. Seward's purchase of the Danish Antilles, and hopes it will not furnish the money. The Journal says: "It was a very clever idea of Mr. Seward's—that *phibetide* dodge, if we may be allowed the expression—quite after the manner of Napoleon the Third—and it is very pleasant to know that the St. Thomas is as much toward us. But we do not wish to see it in return. It is painful to see it, but their offer will not reciprocate here. We pity their sufferings, we will send them corn, wine and oil, we would like reciprocity treaties with them to any extent, but we don't want to catch their contagious fever, or their earthquakes. Let us be friends—the more distant the better—but nothing more."

THE AYSYINIAN EXPEDITION.—The *Pull Mall Gazette* publishes extracts from a letter dated Cairo, 16th Nov., referring to the all-Abyssinian expedition.

It would appear that Colonel Kennedy, who was instructed to obtain 8,000 mules, had succeeded in doing so, and they were arriving from Gibraltor and Valencia, Brindisi and Syria, and some had been bought in Egypt. The losses were very severe, owing to the preposterous way in which the vessels were fitted up in England, and partly owing to the gale which blew at Alexandria from the 8th to the 11th inst. Many mules died outside the harbour, the vessels being unable to cross the bar; out of a hundred live animals from Brindisi, more than half were lost. There are also a great many so wounded and chafed that they are unfit for use. The hospital for the reception of the sick and wounded of the expedition, which has been commenced at Suez, is at a standstill, the Home Government having in their wisdom sent out some essential part in a slow sailing vessel. With difference existing between the War and India offices, the prospects of this Abyssinian affair are certainly not very cheering.

PROSPECTUS OF THE ROSE MINING COMPANY OF MADOC.

Capital Stock, - - - \$25,000.
Divided into - - - 5,000 Shares.
5,000 Shares - - - \$5.00 Each.

Deposit on Subscription Twenty-five per cent.

GEO. D. WYCKOFF, A. L. McLELLAN, JAR. CARR RITCHIE, F. E. KILVERT, ASA A. BURNHAM, JR., E. O'REILLY, E. H. HALE, and HUGH FAIRBANKS, are the owners of the property hereinafter described, and are desirous of forming a Stock Company, with the capital of \$25,000, and are to receive and take in payment for the said property \$1,250 in cash, and 2,500 shares of said property of the said Company. The said parties are now taking proceedings for its incorporation, under cap. 23, 27-38 Vic., and have much pleasure in calling the attention of the public to the following Prospectus.

This Company is being formed for the purpose of developing the Mineral Resources of five acres of land, being part of Lot No. 10 in the 5th concession of the Township of Madoc, in the County of Hastings, situated on the main road, between three and four miles from the village of Madoc, upon which Gold and Silver have been found in paying quantities, several assays having been made by Professor Wyckoff, who selected with great care this locality as being not only rich in minerals, but possessing facilities for mining which gives this company peculiar advantages over many others, there being on the property a high ridge or mountain of rock, in which numerous veins of gold-bearing quartz crop out; and instead of sinking shafts, (a most expensive and tedious operation), drifts can be run from the base of the ridge, cross-cutting the different veins, and giving eighty feet of backs to work upon, which will furnish as much ore as could be taken out for the next twenty years, and at a cost comparatively small, no machinery being required to free the mine from water.

This Company intend, as soon as a charter is granted, to erect a mill house, with suitable machinery for reducing and separating the precious metal, thereby saving the cost of cartage to other mills, and the great expense and inconvenience incurred in having the ore reduced and the metal extracted by custom mills.

Another great advantage in this property is, that immediately the work is commenced ore can be taken out in quantities more than sufficient to pay the working expenses, and in that respect alone it will equal if not surpass any of the mines in that district, taking into consideration the richness and abundance of ore, and the many advantages described above, it cannot but prove remunerative to those who may become interested in this Company.

DIRECTORS, PRO TEM.
GEO. D. WYCKOFF, ASA A. BURNHAM, JR., F. E. KILVERT, A. L. McLELLAN, JAR. CARR RITCHIE, JAR. EDWIN O'REILLY, E. H. HALE.
PROV. PRESIDENT—GEO. D. WYCKOFF.
PROV. SECY & TREAS.—JAR. C. RITCHIE.
SOLICITORS—THOMSON & KILVERT.

A Stock Book opened at J. W. Minton's Exchange Office, in the City of Toronto, for Stock and other Communications may be addressed to any of the Directors, or to JAMES C. RITCHIE, Prov. Secy & Treas., Belleville, December 3d, 1887. D188-1

PROSPECTUS OF THE EL DORADO MINING COMPANY OF MADOC.

(LIMITED.)

CAPITAL STOCK \$72,000.

Divided into 2,400 Shares of \$30 Each.

Deposit on Subscription, \$15 Per Share.

THIS COMPANY is formed, and proceedings taken for its incorporation, under Chapter 23, 27, and 38 Vic. for the purpose of developing the mineral resources of three acres of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 17, in the 5th Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present, there are two shafts sunk on the property about 200 feet apart, one 40 feet deep, and the other 35 feet deep. There is at the present time about 500 tons of ore already mined. The owners of the property have had the ore of this quartz crushed and assayed by Scott & Taylor's Mill, which returned \$38.50 in gold, which specimen can be seen at J. E. Ellis, on King Street.

There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore.

The projectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 253 shares of the value of \$30 each, payable one-half, or \$15, as above, on subscription, and the remaining \$15 on the 1st of January, 1888. Out of the above sales, \$10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be excessively remunerative.

The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.
RICHARD SPARLING, Managing Director and Superintendent.
T. S. McGLASHAN, of Madoc.
MAHLON BURWELL McGREGOR, of Madoc.
T. A. MITCHELL, of Madoc.
ALDERMAN VICKERS, of Toronto.
J. E. ELLIS, of Toronto.

McLELLAN & McLELLAN, Solicitors. A. F. WOOD, President.
BANK OF MONTREAL, Bankers. T. A. MITCHELL, Secretary and Treasurer.

Applications for Shares received by Alderman Vicker, Yonge Street, Toronto; J. E. Ellis, King Street, Toronto, and at the office of WILLIAM KERSTEMAN, 63 Church Street, Toronto. 173H

American Watches.

THE true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, in Waltham the Watch is not made by a machine, it is constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not upon watches, but upon machinery to make watches with. If machinery is good, it is because the faults and flaws in metal or stone are made to defect in the principle of plan or the movement, no mistake in the size or shape of the pieces of which is composed, nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite division of form and function, expressly for the purpose, to produce the finished piece. The method established in every department is the reproduction of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

By means of multiplying gauges and microscopes, tests and inspection for the detection of flaws in cutting tools, and for faults and flaws in metal or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together as a finished machine. Every part is bound to fit properly in its place. Every pin may be pushed till it places, and every screw turned home—instead of slugging and forcing the nut, the balance, even under the pressure of the lightest misapprehension, vibrates with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a true keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce Watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform to the minutest details, not easily damaged, easily repaired, and when repaired always as good as new.

There are different grades of finish in the different varieties of Watches made by the Waltham Company, as the Watches are of different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

EVERY WATCH FULLY WARRANTED. For sale at all first-class dealers in the United States and Canada. ROBBINS & APPLETON, No 152, Broadway, N.Y. ROBERT WILKES, Toronto and Montreal. General Agents.

Toronto, Nov. 2, 1887 168-3m 40-3m

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of \$2 a year if paid in advance, \$6 otherwise. Mail subscribers \$5 a year. \$2.50 for 6 months; \$1.50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable dispatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Mexico, Central America, and other points, who will furnish us with early and full information respecting the Gold Regions, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, etc., and, in short, nothing will be omitted which may be expected to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 5 months, \$1.00.
Half Square, 6 months, \$1.00.
One Square, 6 months, \$2.00.
Two Squares, 6 months, \$3.00.
Four Squares, 6 months, \$4.00.
Notices of Births, \$1.00.
Do of Marriages, \$1.00.
Do of Deaths, \$1.00.

"Business Notices"—All matter under this heading, headed or solid, 10 cents per line, measured by a scale of 10 lines.

Advertisers contracting for any space not less than half a column can have the privilege of changing their advertisements every two weeks. Transient advertisements inserted at 7 cents per line for first insertion, and 5 cents for each additional insertion.

The Weekly Intelligencer

is published every Friday Morning at 25 cents annum if called for at the Office, or sent by mail; and \$5.00 if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is over 1,400. With such a large and growing circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING.

Six lines and under, first insertion, 50 cts.
Each subsequent insertion, 25 cts.
Above six lines (per line) first insertion 60 cts.
Each subsequent insertion per line, 30 cts.

"Business Notices"—10 cents per line first insertion, measured by a scale of 10 lines. A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until notified and charged accordingly.

The Intelligencer Job Office

is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plan and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Store, Belleville, and at E. J. Durand, Wilson's Drug Store, Madoc, and at E. J. Durand, all orders by mail promptly attended to.

SPECIAL NOTICES.

TYPHOID FEVER.

This disease is not only cured by Dr. Radway's Relief and Pills, but prevented. If exposed to it, put one tea spoonful of Relief in a tumbler of water. Drink this before going out in the morning, and several times during the day. Take one of Radway's Pills one hour before dinner, and one on going to bed.
Frenzied with Fever, take 4 or 6 of the Pills every six hours, until copious discharges from the bowels take place; also drink the Relief diluted with water, and laube the entire surface of the body with Relief. Soon a powerful perspiration will take place, and you will feel a pleasant heat throughout the system. Keep on taking Relief immediately, even after the fever has subsided. A cure will be sure to follow. The Relief is strengthening, stimulating, soothing, and purgative; it is sure to break up the fever and neutralize the poison. Let this treatment be followed, and thousands will be saved. The same treatment in Fever and Ague, Yellow Fever, Ship Fever, Bilious Fever, will effect a cure in 24 hours. When the patient feels the Relief irritating or heating the skin, a cure is positive. In all cases where pain is felt, the Relief should be used.
Relief 50 cts., Pills 50 cts. Sold by all Druggists.
See Dr. Radway's Almanac for 1868. 179-24-41-2w

Dr. P. Meredith, Dentist, office No. 132 West Third Street, states as follows:

CINCINNATI, October 1, 1868.
Messrs. J. N. Harris & Co.—Gentlemen:—About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expected large quantities of Phlegm and mucus. During the last winter I became so much reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhoea set in. My friends thought I was in the last stage of Consumption, and could not possibly get well. I was recommended Allen's Lung Balm.

The formula was shown to me, which induced me to give it a trial, and I will add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully,
P. MEREDITH

JOHN LOVELL, Printer and Publisher.

Foreign Miscellany.

Dresden, which was once a famous place of resort for English families and travellers from other countries, is rapidly declining in prosperity.

Russia owes a funded debt of 1,319,442,734 roubles, or \$705,000,000, and has in circulation about 800,000,000 roubles in paper currency.

The telegraphic alphabet used on the Atlantic cable is the only one used in any part of Europe or Asia. It is suited to all known languages.

It is reported by a western paper that an agent of a famous club in England is negotiating for 10,000 acres of land in Illinois on which 200 European families will immediately settle, including many celebrated grape-growers from the Rhine.

There is a report that the Emperor of the French has discovered in the person of a surgeon of a regiment, a rival to Mr. Beke himself in knowledge of Abyssinia, and that he has placed the services of the French doctor at the disposal of the Government through the British Ambassador at Paris.

A letter from Trieste, in the *Wanderer* of Vienna, says: "The experiments made in December last at Pola with the new artillery has shown the superiority of the projectiles manufactured in the Austrian arsenals, as the English shells burst at the moment they touched the armour plating, while those made in Austria penetrated it intact. These results have recently received a striking confirmation. Experiments were being made on the practising ground with an Armstrong gun, when two of the English shells burst in the tube and damaged it. Such a thing has never occurred with an Austrian shot."

It is stated in an article by M. Bonneau in the *opinion Nationale* that the Bay of Aboulis, or Annuley, in the Red Sea, which the English have selected as the place of disembarkation for the army sent against Abyssinia, was, with the adjacent territory, ceded in 1859 to France, and a captain of the National Navy, M. Russell, was sent to the Red Sea to regularize this important cession. By whom the cession was made M. Bonneau does not state, and he adds: "It is a curious French Government may since then have renounced the possession of the Bay of Aboulis, as it formerly abandoned all the rights of France to the great island of Madagascar."

PROSPECTUS OF THE ROSE MINING COMPANY OF MADOC

Capital Stock, - - - \$25,000.
Divided into - - - 5,000 Shares.
5,000 Shares - - - \$5.00 Each.
Deposit on Subscription Twenty-five per cent.

C. D. WYCKOFF, A. L. McLELLAN, JAS. CARR, JR., A. E. KILVERT, ASA A. BURNHAM, JR., J. E. O'REILLY, E. H. HALE, and HUGH FAIRBRIER, are the owners of the property hereinafter mentioned, and are desirous of forming a Stock Company, with the capital of \$25,000, and are to receive and take in payment for the said property \$1,250 in cash, and \$2,250 shares of paid up stock of the said company. The said parties are now taking proceedings for its incorporation, under cap. 23, 2728 Vic., and have much pleasure in calling the attention of the public to the following Prospectus:

This Company is being formed for the purpose of developing the Mineral Resources of five acres of land, being part of Lot No. 10 in the 5th concession of the Township of Madoc, in the County of Hastings, and adjacent to the main road, between three and four miles from the village of Madoc, upon which Gold and Silver have been found in paying quantities, several assays having been made by Professor Wyckoff, who selected with great care this locality as being not only rich in minerals, but possessing facilities for mining which gives this property a peculiar advantage over many others, there being on the property a high ridge or mountain of rock, in which numerous veins of gold-bearing quartz crop out, instead of sinking shafts, as in other localities, and on the ridge, drifts can be run from the base of the ridge, cross-cutting the different veins, and giving eighty feet of ledge to work upon, which will furnish as much ore as could be taken out for the next twenty years, and at a cost comparatively small, no machinery being required to free the mine from water.

This Company intend, as soon as a charter is granted, to erect a mill house, with suit able machinery for reducing and separating the precious metals, thereby saving the cost of cartage to other mills, and the great expense and inconvenience incurred in having the ore reduced and the metal extracted by custom mills.

Adjoining this property is a lake from which an abundant supply of water can be obtained for all purposes.

Another great advantage in this property is, that immediately the work is commenced ore can be taken out in quantities more than sufficient to pay the working expenses and at that respect alone it will equal if not surpass any of the mines in that district, taking into consideration the richness and abundance of the ore, and the many advantages described above, it cannot but prove remunerative to those who may become interested in this Company.

DIRECTORS, PRO TEM.
GEO. D. WYCKOFF, ASA A. BURNHAM, JR., P. E. KILVERT, A. L. McLELLAN, JAS. CARR, JR., E. H. O'REILLY, E. H. HALE.
PROV. PRESIDENT: GEO. D. WYCKOFF.
PROV. SECY & TREASURER: ASA A. BURNHAM, JR.
SOLICITORS: THOMPSON & KILVERT.
Stock Book opened at J. W. Merton's Exchange Office, Hamilton. Application for Stock and other communications may be addressed to any of the Directors or to JAMES C. RITCHIE, Prov. Sec. & Treas., Hamilton, December 24, 1867.

PROSPECTUS OF THE EL DORADO MINING COMPANY OF MADOC (LIMITED)

CAPITAL STOCK - - - \$72,000.
Divided into 2,400 Shares of \$30 Each.
Deposit on Subscription, \$15 Per Share.

THIS COMPANY is formed, and proceedings taken for its incorporation, under Chapter 23, 27, and 38 Vic. for the purpose of developing the mineral resources of three acres of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 17, in the 5th Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present, there are two shafts sunk on the property about 200 feet apart, one 40 feet deep, and the other 30 feet deep. There is at the present time about 500 tons of ore already mined. The owners of the property have had one ton of this quartz crushed and amalgamated by Scott & Taylor's Mill, which returned \$53.80 in gold, which specimen can be seen at J. E. Ellis, on King Street.

There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore.

The projectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 823 shares of the value of \$30 each, payable one-half, or \$15, as above, on subscription, and the remaining \$15 on the 1st of January, 1868. Out of the above sales, \$10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the return on so small a capital will be excessively remunerative.

The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.
RICHARD SPAILING, Managing Director and Superintendent.
P. S. McLELLAN, of Madoc.
MAHLON BURWELL McCREGOR, of Madoc.
T. A. MITCHELL, of Madoc.
ALDERMAN VICKERS, of Toronto.
J. E. ELLIS, of Toronto.

McLELLAN & McLELLAN, Solicitors. A. F. WOOD, President.
BANK OF MONTREAL, Bankers. T. A. MITCHELL, Secretary and Treasurer.

Applications for Shares received by Alderman Vicker, Yonge Street, Toronto; J. E. Ellis, King Street, Toronto, and at the office of

American Watches.

THE true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the sizes or shapes of the pieces of which it is composed, nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished piece. The method established in every department is the reduction of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

By means of multiplying gauges and microscopes, tests and inspection for the detection of wear in the machinery, for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together as a finished machine. Every part is found to fit properly in its place. Every pin may be pushed into its place, and every screw turned home - without slugging and feeble motions, the balance, even under the pressure of the lightest misapprehension, vibrates with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce Watches that cannot be equalled in every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is so good, that the slightest details, not easily damaged, easily repaired, and when repaired always as good as new. There are different grades of finish in the different varieties of Watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means, but every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

EVERY WATCH FULLY WARRANTED.

For sale by all first class dealers in the United States and Canada.

The Daily Intelligencer

Will appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of \$5 a year if paid in advance, \$6 otherwise. Mail subscribers \$5 a year. \$2 50 for 6 months; \$1 00 for 3 months.
It will contain the latest telegraphic news up to the hour of going to press, including cable despatches and the New York and Montreal Markets.

Arrangements have been made with BELLEVILLE COMMISSIONERS in Music, Bridgework, Marmon and other points, who will furnish us with early and full information respecting the 4th Regions, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., in short, we believe, please our expenses will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 5 cts per line.
Monthly, 50 cts.
Half Square, 6 months, \$1.00
One Square, 6 months, \$2.00
Two Squares, 6 months, \$3.00
Four Squares, 6 months, \$5.00
Notices of Births, 50 cts
Do of Marriages, 50 cts
Do of Deaths, 50 cts

"BUSINESS NOTICES" - All matter under this heading, loaded or solid, 10 cents per line, measured by a scale of solid matter.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks. Transient advertisements inserted at 7 cents per line for first insertion, and 3 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at \$2 per annum if called for at the Office, or sent by mail; and \$2.50, if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months, its circulation has rapidly increased, and the number now on our Subscription books is over 1,400. With such a large and general circulation, the throughout this and adjoining Counties, the DAILY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING.
Six lines and under, first insertion, 10 cts. Above six lines, first insertion 10 cts. Each subsequent insertion per line, 5 cts. "BUSINESS NOTICES" - 10 cents per line. A liberal discount made to those who advertise by the year.
Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the county.
The DAILY and WEEKLY INTELLIGENCER can be had at the Book Store in Belleville, and at E. D. Wilson's Drug Store, Madoc, and at E. D. Wilson's. All orders by mail promptly attended to.

(For the Intelligence.)

Garibaldi.

Garibaldi, pattern parrot of the world,
See Italy's brave conquering hero come
To free a nation from the tyrant's yoke.
He comes with loyal bands of conquerors true
"Liberty! Liberty!" the gallant sons of Italy
about.
A nation long oppressed:
Her freedom she shall gain,
And how to no tyrant's tooth heaven's high
fence.
Shall not the world rejoice when
They of Italy shall be freed?
Noble, brave Garibaldi, thou art true:
Noble, brave Garibaldi, thou hast the sympathy
in thy glorious cause that hast the sympathy
of all.
All who the sweets of freedom know,
Then let thy willing self and mind be strong,
For he who rules on high will bless thy
of love.
Though thy humble efforts by critics are dis-
counted,
As well who know not freedom's boon,
Yet by such efforts to the world thou hast shown
That within the walls of the ancient city Rome
There lives one whose power shall uphold
And those who his power shall uphold
Will learn that man is mortal,
And cannot rule like unto our God.
W. MEREDITH.

Daily Intelligence.

BELLEVILLE, THURSDAY, DEC. 19.

CHRISTMAS PRESENTS.—It will be seen by advertisement that Messrs. Geo. Ritchie & Co., have a lot of handsome Christmas Presents, which is worthy of inspection by intending purchasers.

IN AID OF THE POOR.—The meeting of ladies in aid of the poor, was held at the Marble Hall yesterday afternoon, and after taking some preliminary steps towards carrying out the object of the meeting, adjourned until to-morrow—Friday—afternoon, at three o'clock, at the same place. Ladies of all denominations are con- sidered with the meeting, and it is to be hoped that there will be a large attendance at the meeting to-morrow.

THE HASTINGS.—The *Owego Times* says, "there seems now to be no question of the loss of the schooner Hastings, with all her crew." Mr. Henry Crouch, who has sailed on her, and whose father is among the lost, has been to the point where her boat was reported to be ashore, about 8 miles up the lake. He found the boat there, with her stern crushed out, and a piece of the Hastings' binnacle attached. Her foremast scuttle was found near the same place.

Maritime Provinces.

The newspapers of the Maritime Provinces are not satisfied with the postage law as amended. Having experienced the advantages of a free circulation of newspapers, they don't fancy the idea of going back to the old system. The *St. John's New Brunswickist* in speaking of the concession made to make payment of postage optional with the publisher or subscribers says: "So far good. But this is not enough. Newspaper postage should have been wiped out altogether. The arguments for its abolishment cannot be successfully assailed. The only pretext that is offered for its retention at a low figure and free from compulsory prepayment, is that the system has been in vogue in old Canada; and this we hold to be valueless."

Some of the extreme Howe men are still unappeased. The *Halifax Chronicle* says: "The sooner we cry quits with this humbug Dominion the better. We want Responsible Government, our own revenue to dispose of, and let such Provinces as choose to keep their tails together, and be ridden over by John A. Macdonald and his friends, do so."

The Provincial Secretary for Nova Scotia has been returned by 400 majority over the Union candidate.

Thirteen thousand bushels of potatoes were exported on Friday and Saturday week from Prince Edward Island.

The *Halifax Colonist*, of the 7th says: "The nomination of candidates for the vacant seats in the Local Legislature, caused by the acceptance of the offices of Attorney General, Provincial Secretary, and Commissioner of Mines and Works, took place on Thursday last. The Hon. M. I. Wilkins Attorney General, and the Hon. Robert Robertson, Commissioner of Mines, &c., were severally returned without opposition. The former for Pictou and the latter for Shelburne. The Hon. W. B. Vall, Provincial Secretary, happened in the County of Digby by J. C. Wade, Esq. The election will take place on Thursday the 19th.

The House Yesterday.

Yesterday the Bank of Upper Canada Bill was read a third time in the Senate. The Inland Revenue Bill was somewhat amended and passed. A gratuitous medical scale is made for male, female, clerical, not exceeding \$300; second, not exceeding \$100; third, not exceeding \$100.

Mr. Cartier moved the second reading of a bill to prevent unlawful training in the use of arms, etc., which extends to all parts of the Dominion, in act already in force in Ontario and Quebec.

Mr. McKenzie objected to the powers which the bill gave to magistrates, but he did not press the objection upon Mr. Cartier, stating that the Government considered it necessary that the bill should pass.

Mr. Anglin, with more earnestness than, under the circumstances, became any member of the House, attacked the bill from every side.

Sir John A. Macdonald clearly showed the illogical character of the speeches in opposition.

Mr. McFee followed, remarking that, in his opinion, the next six months would be a very critical time for Canada. The bill was then read.

The Public Works' bill was read a third time. The adjourned debate on the Intercolonial Railway Bill and the amendment of M. Dorion was resumed. Several speeches were made in favor of having the choice of route left to the House; which were replied to by members of the Government.

Finally, the New Brunswick members manifesting a desire to fight out the battle of the routes at this stage, the House grew impatient, and a division being taken on M. Dorion's amendment it was lost by a vote of 85 to 83. A few Government bills were advanced a stage, and the House adjourned at 1:40.

Town Council.

WEDNESDAY, DEC. 18, 1897.

PRESENT.—His Worship the Mayor, and Messrs. Sutherland, Diamond, Foster, Holden, Tannahill, Waters, McIntosh, Kennedy, Jones, Henderson, and Robertson.

Several petitions asking for remission of taxes were referred to the Court of Revision.

A petition from Mr. Rankin, keeper of the Fire Engine, asking leave of absence for three days, was referred to the Fire and Water Committee.

A letter from N. G. Reynolds, Esq., respecting some property near the Railway Station, was referred to the Town Solicitor.

The Clerk read a certificate from the Police Magistrate and Henry Corby, Esq., Justices of the Peace, that George Stevens and John Fee had three sheep killed by dogs, and after diligent search they could not discover the owners of the dogs, and they had therefore adjudged that the Town, which was liable under a new law, should pay the value of the animals, amounting to twelve dollars. Some discussion took place afterwards respecting this matter, when it was laid over.

A petition from J. K. Granger, butcher, representing that the space allotted to one stall in the market is not sufficiently large for his business, that if he was to be deprived of the use of the stall as it now is, his trade would be destroyed, and praying for permission to use both stalls as usual. Referred to the Market Committee.

The Committee on Ferry submitted the following report:

"To the Mayor and Town Council of the Town of Belleville, the Council assembled:—
"Your Committee on the Ferry beg leave to report that in accordance with the contract entered into between the Corporation and A. L. Bopart, Esq., they requested the Corporation of the Township of Ameliasburgh to grant to the Town of Belleville, the use of land on the adjacent shore for the purpose of a landing for the ferry. To this request the said Corporation of the Township of Ameliasburgh have made no reply.

"Your Committee have also had before them certain offers with reference to such landing from Mr. John Redner, herewith submitted, and feeling that they cannot take the responsibility of accepting either of Mr. Redner's propositions, they beg to submit the same to the Council for immediate action.
J. SUTHERLAND, Chairman."

December 18th, 1897.

"I hereby offer to the Town of Belleville the following property owned by me, on the Ameliasburgh shore, consisting of one half acre of land, with tavern stand, wood house, stable, and ferry landing for the sum of \$1,500; or I will lease the tavern, wood house and stable at \$175 per annum; or I will lease the ferry landing and wood house, together with as much land as the lessee of the ferry may require, on which to pile a sufficient quantity of wood for ferry purposes at \$75 per annum.

"If this last offer should not meet the views of the Council, I am willing to leave the same to arbitration.
The above offer stands good for three weeks from date.
JOHN REDNER."

The Committee on Poor and Sanitary reported that they had examined the petitions of persons applying for relief, and recommended an allowance of two dollars a month to certain parties during the winter season, and that Thomas Ashford be allowed \$5 for taking care of a child.

The Committee on Finance reported, recommending the payment of a large number of accounts, monthly and quarterly salaries, also that the sum of \$200, being balance of appropriation of 1896 due the Beloit Trustees, be paid; that collectors receive \$10 in silver

do taxes up to 1st January. The report stated that the collectors had been remarkably successful during the present year in collecting the taxes, that there was a large balance in the Treasury not required for immediate use, and recommending the payment of \$5000 to the Trust and Loan Company, being for a debenture past due. Council went into Committee subsequently. Mr. Holden in the chair, and passed the accounts, &c., and the report was adopted.

Mr. Holden gave notice that at the next meeting of the Council he would move that the office of Street Surveyor be abolished on and after the 1st of January, 1898, and that the Street Committee be empowered to report on the best method of providing for the superintendence of work connected with streets and sidewalks.

Mr. Tannahill said as the chairman of Streets and Sidewalks was absent, it would be better to appoint another chairman.

The Mayor said that Parliament would break up this week, and Mr. Brown would be here.

Mr. Waters enquired if any steps had been taken to procure the lot adjoining the hospital.

The Mayor was not aware that any instructions had been given to the Solicitor.

Mr. Diamond—Perhaps Mr. Tannahill, chairman of the Streets and Town Property Committee, can answer.

Mr. Tannahill thought indistinctly heard, was understood to say that he did not know.

Mr. Waters to Mr. Tannahill—(Jocularly) you don't pay attention to this town, but Mr. Tannahill said something else which was inaudible to the reporter.

Mr. Sutherland believed there were some maps of the town being prepared by Messrs. Haslett and Innes, and if these were accepted by the Council we could easily see every lot belonging to the Town.

Mr. Diamond—As it is, it is difficult to tell which property belonged to the Town. Under a new law we were obliged to have a map, and when this map was complete and registered the difficulty would be obviated.

Mr. Diamond called attention to the fact that the Small Pox was prevalent in the town, and it was well known in one case, where a servant girl in attendance upon a person sick with that disease, went directly from the bedside into shops, into neighbors' houses, and took children up in her arms as she was going along the sidewalk. She may have done this thoughtlessly, but it was a serious matter as then she was endangering the lives and health of others. The Board of Health was defunct at this time, but he presumed if His Worship would call the attention of Capt. James to this fact, the evil might be remedied.

The Mayor said he would do so.

Mr. Holden—What would you do with a medical man who comes to our houses where contagious diseases prevail?

Mr. Diamond—A medical man always takes proper precautions to prevent the spread of contagion.

Mr. Holden agreed with Mr. Diamond that some steps should be taken to prevent contagion, and he thought if the Mayor would call the attention of the officers of the Board of Health to the matter, the object desired would be attained.

The Report of the Ferry Committee was next considered.

Mr. Diamond said it was evident the Ameliasburgh Council was not disposed to take any action in relation to the Ferry. He would counsel himself to Mr. Bopart to find a landing for him, and if we had to purchase a landing and build a wharf, it would cost not less than \$500. If we take Redner's property, either by purchase or lease, we have a wharf and landing already made. It was a question whether the Council could acquire property outside the Corporation, but that difficulty could be got over by deeding it to a Trustee. He would prefer purchasing the property out and out.

Mr. Robertson—Would it not be well to obtain something definite from the Ameliasburgh Council before taking action?

Mr. Waters objected to acquiring tavern stands for speculative purposes. He saw no reason why it could not be left over for a week. Mr. Henderson would prefer to get possession of the old cove, where a ferry had been carried for thirty years. It was an advantage of road and a public highway, and no one could prevent the occupation of it by us. It was the natural ferry, and as it would not cost anything to acquire, it would be preferable. The necessary pier and landing could be built for \$150. He was opposed to purchasing Redner's property or having anything to do with tavern stands. Is there any necessity for hurrying this matter through to-night?

Mr. Diamond—Yes, Mr. Redner wants to know, because he can lease the property to other parties.

Mr. Henderson—Well, let Mr. Redner lease it. We can get other property which would be cheaper and suit our purpose better.

Mr. Diamond had no idea of the Council leasing the building for a Tavern. It might be used for any other purpose. If we leased the property for 17 years we would have paid the sum of \$1,325, and at the end of the 17 years not have a foot of land. He understood that the Ameliasburgh Council intended purchasing Redner's Ferry Boat and starting an opposition line to us.

Mr. Kennedy thought there would be no harm in leaving it over until next meeting, and probably better terms would be made.

Mr. McIntosh had spent a great deal of time in connection with this matter, and was not disposed to leave it over. He thought it was too bad to throw cold water on their efforts in this way.

Mr. Diamond had spent all the time he intended to do respecting the question. The Mayor would be very sorry to see the Town purchase the property. Suppose the Council lease it for 5 years; during that time probably better arrangements could be made for some other locality. If leased, he hoped the Committee would see that the landing was put in proper repair by Mr. Redner before accepting it.

Mr. Henderson had no objection to lease it for 5 or 10 years.

The Mayor knew a good deal about building piers, and he thought one could be erected for \$100.

Mr. Sutherland said if we do anything with this property of Redner's, either by

purchase or lease, it was absolutely necessary something should be done at once.

Mr. Henderson—What can Mr. Redner do with it?

Mr. Sutherland—He says he can rent it for the same sum, to other parties. He was in favor of leasing it for a term of five years, and during that period we could look about us, and make other arrangements if we were not suited.

Mr. Henderson—Is the present landing wide enough for the new boat?

Mr. Sutherland thought it was.

The Mayor—The new boat is ten feet wider than the old one. However that matter could be left with the Committee.

Mr. Diamond moved, seconded by Mr. Sutherland, that the Committee on Ferry be instructed to close with Mr. Redner, and lease the ferry landing for five years, on the terms proposed by him at \$75 a year. Mr. Redner leaving the wharf in a good condition with a right of way to the public highway—Carried.

Mr. Sutherland said something must be done to provide a landing at this side. Capt. McIntosh, Mr. Bopart, and others, had spent a great deal of time in making examinations and devising either by a land plan which he would submit to the Council, fixing the landing where it was now. The work required would cost from \$500 to \$750.

At the suggestion of some of the members, the further consideration of this question was left to the next meeting, and the Council adjourned.

Frightful Railway Accident.

FORTY-FIVE PERSONS KILLED AND THIRTY-FIVE WOUNDED.

The following particulars of a frightful railway accident on the Buffalo and Lake Shore Railroad came over the wires last evening:

BUFFALO, Dec. 18.—The New York express train from Cleveland, on the Lake Shore Railroad, due here at 12:45 p.m., being behind time, when two miles this side of Buffalo, struck a freight rail or frog, met with a serious accident about 5 p.m., two rear passenger cars were thrown off the track and rolled over an embankment of 20 feet.

LATER.

The accident on the Lake Shore Railroad is more serious than at first reported. The rear car went over the embankment of fifty feet, and was set on fire by a stove, and out of fifty passengers only two escaped; the rest were burned to death. All that is left is a mass of blackened and charred remains, without any means of ascertaining their names. The accident occurred at the Big Sister Bridge, a quarter of a mile east of Angola. One train has arrived with the unhurt passengers and a few of the wounded. The balance of the wounded will be here about midnight. Every preparation will be made to care for their wants by the citizens of Buffalo. A large number of physicians left Buffalo on the four o'clock special train to assist the wounded. Among the killed the name of Mrs. Hubbard, of St. Catharines, is reported.

THE LATEST.

BUFFALO, Dec. 19, a.m.—In the railroad accident near Angola, as far as can now be ascertained, about 45 were killed and 35 wounded.

FURTHER PARTICULARS.

The following additional particulars of this frightful railway accident were received by telegram from Buffalo this afternoon:

BUFFALO, Dec. 19.—By the railroad accident at Angola over fifty persons were wounded and forty killed, among whom twenty-three were burned to death. On the remains of one of the passengers in the burned car were found some cards bearing the name of Chas. E. Fink, C. E. One man who was removed from the burned car after his feet had been burned off, was taken to the hotel of Mr. Montgomery, where he died in a short time. He did not seem conscious, but frequently mentioned St. Catharines. Among the burned the body of Mr. Stephen Stewart, President of the Oil Creek Railroad, was recognized.

To the Editor of the Daily Intelligence.

I happened to be one of those who were fortunate enough to attend the lecture of John Macoun, Esq., at Albert College on Monday evening last. I am entitled to say fortunate, when we take into consideration the abilities of the lecturer, his intimate acquaintance with his favorite subject, "Canadian Geology," and the interest which naturally attaches itself to whatever promotes a knowledge of our home and its subterranean resources. In treating his subject the lecturer spoke first of the Laurentian system; 2nd of the Silurian system; and 3rd of the Devonian system. His description of the gold fields at Madoc, and the formation in the vicinity of Belleville, of the coal oil basin of Canada, of the gradual transition of vegetable cells to petroleum, of the action of ice in changing and disfiguring continents, were all given in his own peculiar, yet clear and forcible style. Some of his "theoretical facts" savored, perhaps, a little of the wild. The agency of man in producing the metals, his pre-Adamite history of creation, his basin of ice borne in the eddy of the Gulf Stream, his account of our lakes by means of ice bergs, his future foundation of Belleville by the rising of the waters of the Bay of Quinte, showed a philosophy whose architecture did not altogether rest on the firm basis of the common sense of mankind. I am sorry that so few of the citizens of Belleville were present; they have missed an intellectual treat such as they seldom have an opportunity to enjoy. We would congratulate Mr. Macoun on his success as a lecturer, and would hope that this may be but the preface to a whole volume of similar attempts.

LAKENBER.

Belleville, Dec. 18, 1897.

Telegraphic News.

BY ATLANTIC CABLE.

PARIS, Dec. 18.—The *Moniteur* publishes a circular by the Prefect of Police, placing the press under a more rigorous censorship.

DUBLIN, Dec. 18.—The examination of John Martin and others connected with the funeral demonstration on the 8th inst., was concluded yesterday; decision reserved. This morning the accused were brought before the magistrate, and Martin and Labor were committed for trial on a charge of misdemeanor; they immediately furnished the requisite bail, and were discharged from custody.

FLORENCE, Dec. 17.—Prime Minister Measura replied yesterday to the attacks made upon the government by the Liberal party in parliament. In the course of his speech he said that Italy would sooner or later possess Rome; but that end would be accomplished not by arms but by moral force. Baron Rattazzi followed in a speech in opposition to the Chief Minister, saying that the popular vote in Naples and other cities of Italy showed that the nation demanded different policy.

LONDON, Dec. 18.—Arms and ammunition secreted by Fenians have been discovered and seized by the police at several places in England.

ST. PETERSBURG, Dec. 18.—The *Invalide Russes* says that the policy agreed upon between France and Austria on the Eastern Question if persisted in will imperil the tranquility of Europe.

LONDON, Dec. 18.—A despatch from Mas savah says a report from the interior had reached the British expedition that King Theodore had set fire to and destroyed Debra Tabor.

LONDON, Dec. 18.—An attempt was made today to blow up one of the walls of the Mill Bank Jail, in which a number of Fenians are confined. The preparations were all completed and the fuse had been lighted by the conspirators without attracting attention, but owing to some defect in the arrangement of materials the powder did not explode, and the plot was discovered before an attempt to carry it out could be renewed. No arrests have been made, and no clue has been obtained to the guilty parties.

QUEENSTOWN, Dec. 19.—The steamer "Peninsular" has arrived.

LONDON, Dec. 19, 11:15 a.m.—Consols 92½; Bonds 74½; 111 C 90; Erie 50.

LIVERPOOL, Dec. 19, 11:15 a.m.—Cotton quiet, quotations unchanged. Broadstuffs dull. Other articles unchanged.

LONDON, Dec. 19, 1:30 p.m.—Bonds 73½; 111 C 90½; Erie 49½. American securities quiet.

LIVERPOOL, Dec. 19, 1:30 p.m.—More doing in cotton; sales 10,000 bales.

American Despatches.

BINGHAMPTON, N. Y., 18.—The safe of the County Treasurer was broken open last night and robbed of \$8,000 county bonds and other securities.

HAYANA, Dec. 18.—Dates from the city of Mexico to the 11th have been received.

The National Congress was opened on the 8th inst. The hall was crowded with members and spectators. President Juarez delivered the opening speech. He thanked the United States for the friendly feeling shown and moral support given to Mexico, and justified the executions at Queretaro as necessary acts of justice. He returned into the hands of Congress the extraordinary powers he had assumed, before they had expired, and promised protection to foreigners. The President of the Congress replied, thanking the people of Mexico for their conduct during the war, declaring the United States their only ally, denying that prisoners of war had been ill treated, pronounced the recognition of the Republic by foreign Governments unnecessary, and concluded with a declaration that Mexico was fully able to defend herself.

Mexican papers propose Señor Romero as Minister of Foreign Affairs.

An envoy from Peru was on the road for Mexico to effect an alliance between the two countries.

The Cabinet remained unchanged.

Neither Minister Plumb nor any other diplomat now in Mexico was present at the opening of Congress.

The British gunboat "Jason" arrived at Vera Cruz on the 7th, with orders from the British Government to bring home Mr. Robert T. C. Middleton, first secretary, now in charge of the British legation, with the consuls and archbishops. All the English residents were in a high state of excitement over this announcement. Later advice states that Mr. Middleton will sail for England on the 28th inst.

The proceedings in Congress were as yet unimportant.

It was rumored that Gen. Quiroga had been murdered on the frontier by his pursuers. For some time the national authorities had kept a body of scouts hunting him, but owing to his knowledge of the mountains he had managed to elude capture.

Earthquakes continued at St. Thomas, though not violent.

At the billiard match at Boston, yesterday, between Cyrille Dion, of Montreal, and Edward Danahill, the former won by a majority of 380. The match was for \$500 a side, 1000 points up.

Yesterday an American, ignorant of the heavy duty on silver, was prevented from landing at Prescott with a large quantity of silver; he was openly carrying in a satchel. It is said he returned to Ogdenburg.

QUAKERS AT HOME.—The Friends present a model of interior home-life. They cultivate the amenities, the consideration, the cheer and the abundance which make a home happy. They speak to one and another with surprising gentleness; they smile upon one and another with a sweet benignity; they welcome the visitor to an unhesitating hospitality. Their religion consists in creating happiness in the household. They are gentle, loving and attentive to the children. They seek to promote the rising generation. They are equally attentive to old age, with a chastened respectfulness of manner, which exalts the self-respect of declining years. Whatever can be done to make a home comfortable and cheery, is first to be done. Other Christians deny to themselves home comforts for the sake of preaching the Gospel to the heathen; but the Society of Friends believe that charity begins at home. Their Gospel is one of home and peace. Their heaven on earth is to win some for the people of God. They exemplify what the Christian heritage ought to be, without without least, cheerful without excitement, bright without dazzle. Long live the Quaker home!—*New York Commercial.*

The last Fenian raid is to the effect that the Fenians intended to seize Queen Victoria when visiting the Conson's tomb, and ship her to Abyssinia, where she was to be married to King Theodore by force. What next?

Dissolution of Partnership.

THE PARTNERSHIP heretofore existing between Messrs. WALLACE & FORDYCE as Photographers, in the Town of Belleville, is this day dissolved by mutual consent.

(Signed.) D. J. WALLACE,
ED. FORDYCE.

Belleville, December 4th, 1887.

THE undersigned having purchased Mr. Fordyce's interest in the Gallery, will hereafter conduct the business on his own account. His long experience and thorough knowledge of the business will enable him to satisfy all who give him a call.

ROOMS—Over Grahaue and Grahaue's Store.

ENTRANCE—Two doors South of Holde's Drug Store.

D. J. WALLACE,
Belleville, Dec. 4th, 1887. 185-728T

PROSPECTUS OF THE ROSE MINING COMPANY OF MADOC.

Capital Stock, - - - \$25,000.
Divided into - - - 5,000 Shares.
5,000 Shares - - - \$5.00 Each.

Deposit on Subscription Twenty-five per cent.

GEO. D. WYCKOFF, A. L. McLELLAN, JAS. CAMP RITCHIE, E. S. EVERETT, A. BURNHAM, JR., E. O'REILLY, H. H. HALE, and HUGH FARROW, are the owners of the property hereinafter mentioned, and are desirous of forming a Stock Company, with a capital of \$25,000, and are now taking subscriptions for its incorporation, under cap. 23, 27-28 Vic, and have much pleasure in calling the attention of the public to the following Prospectus:

This Company is being formed for the purpose of developing the Mineral Resources of five acres of land, being part of Lot No. 10 in the 8th concession of the Township of Madoc, in the County of Hastings, situated on the main road, between three and four miles from the village of Madoc, upon which Gold and Silver have been found in paying quantities, several assays having been made by Professor Wyckoff, who selected with great care this locality as being not only rich in minerals, but possessing facilities for mining which gives this company a peculiar advantage over many others, there being on the property a high ridge or mountain of rock, in which numerous veins of gold-bearing quartz crop out, and instead of sinking shafts, (a most expensive and tedious operation), drills can be run from the base of the ridge, cross-cutting the different veins, and giving eighty feet of ledge to work upon, which will furnish as much ore as could be taken out for the next twenty years, and at a cost comparatively small, no machinery being required to free the mine from water.

This Company intend, as soon as a charter is granted, to erect a mill house, with suitable machinery for reducing and separating the precious metal, thereby saving the cost of cartage to other mills, and the great expense and inconvenience incurred in having the ore reduced and the metal extracted by custom mills.

Adjoining this property is a lake from which an abundant supply of water can be obtained for all purposes.

Another great advantage in this property is, that immediately the work is commenced ore can be taken out in quantities more than sufficient to pay the working expenses and in that respect alone it will equal if not surpass any of the mines in that district, taking into consideration the richness and abundance of the ore, and the many advantages described above, it cannot but prove remunerative to those who may become interested in this Company.

DIRECTORS, PRO TEM.

JAMES C. RITCHIE,
Provis. Secy. & Treas., Hamilton.
December 24, 1887. 1188-1f

PROSPECTUS OF THE EL DORADO MINING COMPANY OF MADOC. (LIMITED.)

CAPITAL STOCK \$72,000.

Divided into 2,400 Shares of \$30 Each.

Deposit on Subscription, \$15 Per Share.

THIS COMPANY is formed, and proceedings taken for its incorporation, under Chapter 23, 27, and 28 Vic, for the purpose of developing the mineral resources of three acres of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 17, in the 10th Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present, there are two shafts sunk on the property about 200 feet apart, one 40 feet deep, and the other 35 feet deep. There is at the present time about 500 tons of ore already mined. The owners of the property have had one ton of this quartz crushed and amalgamated by Scott & Taylor's Mill, which returned \$38.80 in gold, which specimen can be seen at J. E. Ellis, on King Street.

There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore.

The projectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 823 shares of the value of \$30 each, payable one-half, or \$15, as above, on subscription, and the remaining \$15 on the 1st of January, 1888. Out of the above sale, \$10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be excessively remunerative.

The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.

RICHARD SPARLING, Managing Director and Superintendent.

T. S. McGLASHAN, of Madoc.

MAHLON BURWELL McCREGG, of Madoc.

T. A. MITCHELL, of Madoc.

ALDERMAN VICKERS, of Toronto.

J. E. ELLIS, of Toronto.

McLELLAN & McLELLAN, Solicitors. A. F. WOOD, President.

BANK OF MONTREAL, Bankers. T. A. MITCHELL, Secretary and Treasurer.

Applications for Shares received by Alderman Vicker, Yonge Street, Toronto; J. E. Ellis, King Street, Toronto, and at the office of

WILLIAM KERSTEMAN, 82 Church Street, Toronto. 173f

Toronto, November 30th, 1887.

BUY YOUR TEA DIRECT FROM THE IMPORTERS!

Tea, Tea, Tea!

THE MONTREAL TEA COMPANY, 6 Hospital Street, Montreal, having just imported a large quantity of Choice Black and Green Teas, beg to call the attention of the Trade, Hotel Proprietors, and large establishments generally to their list of prices. Buyers of Chests and Boxes of Tea will save money by getting it direct through the Importers.

All orders for 25 lb. boxes and upwards carriage free to any Railway Station in Canada.

Buyers living beyond Railway Stations, will please send Post Office order, or enclose notes. The carriage will be paid to the nearest station, where there are express offices. Tea will be forwarded immediately on receipt of the order by mail containing money, or the money can be collected on delivery by express mail. Cash forwarded for the same. Nothing less than 25 lb. boxes sold. Original packages Black Tea weigh ½ cts about 50 lb. Chests do 10 to 100 lbs. Green Tea from 80 to 90 lbs. Tea not mentioned in advertisement can be had to take a stand in the Montreal market, every order will therefore be depended on as to quality and weight.

American Watches.

THE true value of Machinery applied

Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the sizes or shapes of the pieces of which it is composed, nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite dexterity of form and function, expressly for the purpose, to produce the finished piece. The method established in every department is the reproduction of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

By means of multiplying gauges and microscopes, tests and inspection for the detection of wear in cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together a finished machine. Every part is found to fit properly in its place. Every pin may be pushed till it pinches, and every screw turned home—without a shudder and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce Watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform to the minutest detail, not easily managed, easily repaired, and when repaired always as good as new.

There are different grades of finish in the different varieties of Watches made by the Waltham Company, and there are different sizes and shapes to suit all tastes and means, but every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

EVERY WATCH FULLY WARRANTED.

For sale by all first-class dealers in the United States and British Provinces.

ROBERT WILKES,

TORONTO AND MONTREAL.

Toronto, Nov. 2, 1887. 163-3m-40-3m

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of \$1 per year in advance. \$5 otherwise. Mail subscribers \$5 a year. \$3 50 for 6 months; \$1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable dispatches and the New York and Montreal Markets.

Arrangements have been made with RESPECTABLE Correspondents in Madoc, Bridgewater, Marston and other points, who will furnish with early and full information respecting the Gold Regions, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., and, in short, neither pains nor expense will be spared to make the Daily Intelligencer worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 8 months, \$5 00

Half Square, 6 months, \$10 00

One Square, 6 months, \$20 00

Two Squares, 6 months, \$30 00

Four Squares, 6 months, \$50 00

Notices of Births, 50

Do of Deaths, 50

Do of Marriages, 50

Do of Deaths, 50

"BUSINESS NOTICES"—All matter under this heading, headed or solid, 10 cents per line, measured by a scale of solid minims.

Advertisements contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 5 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at \$2 per annum if called for at the Office, or sent by mail; and \$2 50 if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is over 1,400.

With such large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion, . . . 50

Each subsequent insertion, . . . 15%

Above six lines (per line) first insertion 0.07

Each subsequent insertion per line, . . . 0.02

"BUSINESS NOTICES"—10 cents per line counted, measured as solid minims.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 10 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forth, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and exact execution of every description of plain and fancy printing, at prices as low as any other establishment in the county.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Store, Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

SPECIAL NOTICES.**R. R. R. PILLS.**

Composed of vegetable extracts (prepared in vacuo),
they purify the blood, regulate the liver, and purge all
corrupt and secretions from the system.
One of Dr. Radway's Pills contains more of the active
principles of cure, and will set quicker on the Liver,
Bowel, Stomach, Kidney, bladder, blood, etc., than
four or six of the ordinary common purgative or Cathar-
tic Pills sold under various names, or than ten grains
of Blue Mass.
True comfort for the aged and others afflicted with
Constipation and Paralysis of the Bowels.
One to Three of Radway's Pills—taken in 24 hours,
will secure regular evacuations from the bowels. Per-
sons who have 30 years have not enjoyed a natural stool,
and have been compelled to use opium, have been
cured by a few doses of Radway's Pills.
Use Radway's Pills CURE ALL DYSPEPSIA
of the Stomach, Liver, Bowels, Kidney, Bladder, Nerve,
and diseases, Headache, Constipation, Colic, Vomiting,
Indigestion, Urinary, Biliousness, Bileous Fever, In-
flammation of the Bowels, Piles, and all derangements
of the Internal System. One to six boxes warranted to
effect a positive Cure. Purely vegetable, contains no
mercury, minerals, or deleterious drugs.
Dr. Radway's Pills sold by all Druggists and Country
Merchants. Price 25 cents.
See Dr. Radway's Almanac for 1888. 64-2w

Dr. P. Meredith, Dentist, office No. 142 West Sixth
Street, states as follows: CHICAGO, October 1, 1888.
Messrs. J. N. Harris & Co.—Gentle—About one year
ago I took a cold which settled on my lungs. A violent
cough was the consequence, which increased with severe
cough. I expectorated large quantities of phlegm and mucus.
During the last winter I became so much reduced
that I was confined to my bed. The disease was accom-
panied with cold chills and night sweats. A diet was not in
my friends thought I was in the last stages of Consump-
tion, and could not possibly recover. I was recommended
Allen's Lung Balsam.
The formula was shown to me, which induced me to
give it a trial, and I will only add that my cough is no
longer violent, and I am now able to attend to my business
as usual. Yours respectfully, P. MEREDITH
Sold by all Family Medicine dealers.

BELLEVILLE, SATURDAY, DEC. 21.

FAILURE.—The Kingston *Why* says the lance Piano-Forte Manufacturing firm of John Fox & Co., of that city, has gone up. It is said for \$25,000.

LEGISLATIVE HOUR. For December has been received by Overall. It contains no less than twenty-one interesting papers, besides the "varieties," and is handsomely illustrated. It is one of the best of English monthlies.

BAY STATE MINING COMPANY.—In our advertising columns will be found the prospectus of this company. It commences operations with excellent prospects, having had large yields of gold on several different occasions and being controlled by men whose reputation will at once give standing and character to the company. Reference has frequently been made in these columns to the successful operations at this mine, and as the prospectus fully describes the locality and the yield of gold obtained from assays, we need only call to the attention of the reader.

The House Yesterday.

In the Commons yesterday, the Government proposed to drop all their measures as yet not complete, except the postal bill and the bill relating to banks.

The postal bill was taken up. Mr. Holden made a sort of general attack upon the bill, pleading for delay, to which Sir John A. Macdonald replied.

Mr. Tupper spoke against newspaper postage.

Mr. Mackenzie favored the same view, but thought religious periodicals ought to be excepted, and also pleaded for further time for consideration.

Mr. Beatty protested against the idea that religious publications should receive any special favors in the matter of postage.

Mr. Chamberlain spoke of the press as an educator of the people, and intimated his intention of moving to have the seventh resolution struck out.

Several other speakers followed, and, after recess, when concurrence was moved in the report of the committee, Mr. Chamberlain made his promised motion.

Sir John A. Macdonald replied, pointing out that the resolutions proposed a relief to all the provinces; to Ontario and Quebec in newspaper postage, and to the Maritime provinces in letter postage.

Mr. Mackenzie moved a postponement of the consideration of the 7th resolution to the 21st of March, to which Mr. Tupper replied that the Government had decided in case of the defeat of the resolution, to abandon the whole bill.

Mr. Savary strongly opposed the bill, saying that in Nova Scotia newspaper postage was considered inconsistent with advanced civilization.

The amendment was ultimately negatived, on a division.

Mr. Bowell resumed the attack by moving an amendment to the effect that newspapers published in Canada be mailed free to regular subscribers, but this amendment was likewise defeated, and the remainder of the resolutions were concurred in without a division.

The bill for the regulation of the postal service was read a second time, and on motion of Mr. Dunkin the time for receiving petitions was extended to the 24th of April, when the House adjourned at 11:25 to meet at 10:30 this morning.

—They are to have a new Chinese theatre in San Francisco. It is to cost \$40,000 in gold, and a star company from Peking, by about the first of February.

—The strenuous efforts used to keep the Erie Canal clear of ice have failed, and about 300 grain and provision laden boats are consequently frozen in between Syracuse and Troy. The effect of this will soon be observable in the New York market, and must naturally tend, in view of the short crop in Europe, as well as the difficulties and cost of transporting the ice-bound grain to tide-water, to enhance present prices.

Municipal Elections.

The nomination for the Mayoralty takes place on Monday next, at the Town Hall, at 10 o'clock, a.m. We do not apprehend any opposition to the present incumbent who has filled the office during the past year with general satisfaction, and in all probability Henry Corby Esq., will be re-elected by acclamation.

The nomination of Councillors takes place at 12 o'clock noon, at the various Ward polling places. In Ketcheson Ward there will not so far as we can understand be any opposition to the re-election of Mr. Sutherland.

In Coleman Ward there will evidently be a lively contest, as an active canvass is going in by the retiring member Mr. Watrous, and Mr. Samuel J. Bull, who has received promises of considerable support. One or two other names are mentioned in connection with this Ward, among whom we may mention those of Dr. Coleman, Mr. J. H. Simpson and Mr. Vandusen.

For Baldwin Ward, the retiring member Mr. Thos. Holden will be a candidate. Several gentlemen are spoken of as likely to contest the election with him, among whom are mentioned the names of Messrs. R. P. Jellett, Neil McArthur and A. G. Northrup.

In Samson Ward, the retiring candidate, Mr. Geo. E. Henderson will be nominated, and among those who are mentioned as probable opponents are the names of Mr. Francis Clarke, Chas. H. Coleman, and Arthur Fletcher.

Quartz Crushing.

In our issue two weeks since, we gave to our readers an interesting article on "our mineral resources," copied from the *Toronto Leader*. It contained the remark which we believe to be true, that "in all countries celebrated for their production of gold, quartz mining is now the main and almost the only reliance."

This being the case, and our own future being also so intimately wrought up with it, it may be interesting to glance a little at the results of quartz mining in different countries. The article referred to showed that in Nevada in 1880, the six most productive mines on one particular lode, called the "Comstock" lode, averaged \$42.50 worth of gold to the ton, while their average gross yield was upwards of \$1,100,000, the total yield from the six being nearly \$7,000,000. Now, our six best mines will certainly average more gold to the ton. Why should they not also average more than \$1,100,000 for their gross returns? We may even leave out the Richardson mine, and say that the results of crushing so far give every reason to believe that the average yield per ton will still exceed the above and it seems quite probable that the gross yield will also be greater. What will then be the value of shares in such mines as the Eldorado, Empire, Donbigh, Ros, Bay State, and Harry, with many others, now selling at such trifling sums?

Again the average yield of gold per ton in Australia is only \$7; in Nova Scotia \$9 to \$10; and we believe in California from \$7 to \$10. In Australia it is calculated that the crushing can be done at a cost of 6s. sterling, or \$1.50 per ton. The *Clusoe Gazette*, of July 16th of the present year, gives a return for the half year ending June 30th, of the operations of the Port Phillip (Australia) Gold Mining Co., during that period. The quantity of quartz raised and crushed by them in that time was 28,700 tons, and it yielded 9 dwts. 6 grs. of gold, equal to \$9.25 per ton, say about \$250,000 for the total value. Their expenses were heavy—for not only are wages and the cost of living there, very much higher than with us, but there is also the important fact, that they are working at a great depth, their principal shaft being now 583 feet deep, and the ore being chiefly raised from "reefs," or levels, varying in depth from 150 to 444 feet. The cost of working the mine for the half year was nearly \$100,000, and that of crushing the ore over \$60,000, leaving still a clear profit for the half year of nearly \$90,000. This company have an entry among their receipts of \$3,500 obtained from "alluvial tailings," generally up to this time, we believe, wasted here; and about another of \$1,000, extracted from "pyrites" of which we have so much in Madoc. This was obtained from an experimental lot of 22 tons, the first treated in this way; and they were then about to operate upon a second quantity of 60 tons. It may be added that the cost of mining and raising the quartz to surface was about \$3.25 per ton, and that of "reduction" or crushing, &c., at the mill was \$2.25. This last item was large on account of the great expense of their water supply—water works having just been erected at a cost of nearly \$20,000.

Two other mines are referred to in the same Australian paper as in successful operation in the neighborhood, each of them having given an average yield of about \$5 to the ton. This fact should encourage any of our mining companies that have hitherto met with moderate results, and let it be borne in mind that we are now working what may almost be called our surface ore, none of our mines being yet deep enough to reach the really valuable mineral lodes; and yet that some of the specimens of ore from our gold-field, appear to equal in richness almost anything previously discovered. We remember a remark made the other day by an observing intelligent man who was also an old miner, and who has spent years in mining in Idaho, Montana and Cariboo. He was referring to a rich specimen of quartz (taken from a mine near Madoc) which he had seen a day or two before, which weighed from 1 to 2 lbs., and which we knew to have been sent by Mr. Wood our late Warden at "fully \$1000." He remarked that he "had never" in all his wanderings "seen a richer specimen than that." This has reference to one out of two or three starting lodes recently made, which will not doubt soon be communicated to the public.

Present indications, indeed, point to the following conclusions: first, that the whole district around Madoc, and extending to Elvigor and other townships, is almost one out gold quarry; second, that this part of Canada will be totally revolutionized in a short period by the immense influx of inhabitants that must and will take place; third, that mining property will wonderfully increase in value within the next six months; and fourth, that a light railway to Madoc and Bridgewater, such as is now being discussed so much in Toronto and the neighborhood, is imperatively called for, and would be a most profitable undertaking if judiciously managed.

We shall return to the subject of the railway at an early date.

Stock Market.

The Montreal *Globe* of yesterday has the following report of the stock market. With a good demand for investment stocks have steadily advanced, closing from one to two per cent above last week's quotations. The following banks have declared dividends payable on the 21st of January: Merchants' Union, Ontario, Royal Canadian, Bank of Toronto, Bank of Commerce, Eastern Townships, at the rate of eight per cent; and Gore, at the rate of seven per cent per annum. Bank of Montreal. There has been very little stock offering during the week, and it is now held for an advance of one per cent. Bank of British North America—Buyers, but no sellers at 107 to 108. City Bank—No stock offering under par, with buyers at 98 to 99. La Banque du Peuple—Has been sold to some extent at 104 to 107; an advance of half per cent. Ontario Bank—There has been a large demand throughout the week, and prices have improved fully two per cent—99 to 101. Commercial Bank of Canada—Bated rather heavy throughout the week, with limited sales at 29; buyers to day at 27, with sellers at 30. Montreal's Bank—Is asked for at 104 to 110. No stock in market. Merchants' Bank—Latest sales were at 104 to 108, previous to closing of the books. La Bank Jacques Cartier—Transactions reported at 107; it is now held for 104. Gore Bank—Nothing doing. Quebec Bank—Nominal at 98 to 99. La Banque Nationale—Buyers but no sellers at 106 to 107. Eastern Townships' Bank—Dividend of 4 per cent declared the 20th proximo. Union Bank—26 Lower Canada—Buyers at 100 and sellers at 101. Ex. Div. Mechanics Bank—Buyers at 95 and sellers at 97. Royal Canadian Bank—The last sales previous to closing of the books were at 97 for 70 per cent paid, and 98 for all paid stock. Railway Stocks and Bonds—All descriptions, with the exception of Champlain, ordinary stock are very heavy at quotations, and to effect sales, lower prices would require to be accepted.

Montreal Telegraph Company—Sales at 138 1/2 and 139. There are to-day buyers at 138 1/2 no sellers. Richelieu Navigation Company—Is heavy at a decline of 1/2 per cent. Sellers at 106 and no buyers over 104. Canada Debentures—Have also advanced with sales at 88 and 88 1/2 for sterling five. No sales in market.

The custom of reading speeches from manuscript or printed slips obtains in Congress. A Belfast driver colored a pigeon net and let it go as an advertisement.

A best sugar factory, with a millstone and a half capital, is projected in California.

An exhibition is to be held in Ottawa next year, of the productions of the Ottawa valley.

Mr. Beecher's novel "Norwood" has been burlesqued by the negro minstrels.

Oil wells are being worked at Assam, in British India.

Tr. Tr. says Billings, is spent the same in Ingon as in England.

Charles Dickens is paying midnight visits to the New York police stations, and "taking notes."

A manufacturing company is being organized in Sherbrooke, with a capital of \$300,000, in 2,000 shares at \$150 each.

—The Smith, Skynamish, and Skagnum are some of the pretty and poetic names of streams in Washington territory.

Telegraphic News.

BY ATLANTIC CABLE.

LONDON, Dec. 20, evening.—Four men, who gave their names as English, Mulvaney, O'Keefe, and W. Desmond, were arrested in this city, last night, on suspicion of having been connected with the recent Fenian outrages. The alarm caused by the outrages here continues. The magistrates are still swearing special policemen. The guards around the prisons have been strengthened, and the warehouses in the city are carefully watched during the night. Troops were suddenly ordered to Portsmouth, and left on a special train. The coroner's inquest on the bodies of those killed by the explosion at Clerkenwell prison, was concluded this evening. The jury rendered a verdict, charging Timothy Desmond and Jerry Allen, who were arrested on the 18th, with the crime of murder, in having caused the explosion which resulted in the deaths of the deceased. The prisoners, English, Mulvaney, O'Keefe, and W. Desmond, who were arrested last night, were brought before the justice for examination to-day. The testimony so far elicited goes to show that they had something to do with the Clerkenwell explosion. They were remanded to goal for further examination.

LONDON, Dec. 20, 9 p.m.—A great fire is raging in Newcastle-on-Tyne.

In view of the recent outrages committed or attempted by the Fenians in this country, and to prevent, by summary measures, their repetition, the Cabinet has determined to ask Parliament to suspend the privilege of the writ of Habeas Corpus in England.

The Times of this morning has a leading editorial article on American matters. It is mainly devoted to decrying the business of the United States, and the plan of the Secretary of the Treasury.

PARIS, Dec. 20, noon.—The *Moniteur* of this city publishes this morning later details of the recent battle on the Frons. It seems, according to the *Moniteur*, that Lopez, the Paraguayan General, by neglect and inactivity, not only lost the results of his real victory but was turned on by his vanquished enemies and badly beaten. The loss of the Paraguayans in this second engagement was very heavy.

LONDON, Dec. 21, noon.—Consols 92 1/2; Bonds 73 1/2; 111 C 89 1/2; Erie 49 1/2.

—Terrible distress, amounting to starvation in some cases, prevails in Louisiana.

—Virginia, in presenting indentments to immigrants, offers ten acres of land and a house.

—Mr. Hows and several other members from Nova Scotia, left Ottawa for Boston, to take the Cunard steamer for Halifax.

—A son of wealthy parents, in Chicago, was arrested recently in the heart of a Wisconsin forest, with his young wife, with whom he had eloped.

—Some solicitor person expresses the wish that none of the little boys who skate on the sidewalks might get drowned. Such a mishap might abate the nuisance.

THE CASE OF COL. LITCHEL.—The Milwaukee *Sentinel* says some time since the sister of Col. Robt. Lynch, of this city, who has been more than a year imprisoned in the Canadian prisons for participation in the Fenian raid, wrote to General Rufus King, to induce him to use his influence in favour of her brother's release. Her request was promptly complied with, and the General wrote to Secretary Seward, inquiring as to the situation of the negotiations in his behalf. Within a few days a letter was received from Mr. Seward in response to these inquiries, stating that his release had been discussed and partially arranged for with Sir Frederick Bruce, but the latter's untimely death suspended the negotiations. Mr. Seward promises that the matter shall have all the attention possible.

Your rent you will not;
But the man—
And the wife—
The boy—
The girl—
The wife—
You'll be in the "Gazette."

THE EARTHQUAKE—CURIOUS BELIEF OF THE FRENCH CANADIANS.—The Montreal Gazette says: The shock yesterday morning vividly recalled an old prophecy, and almost scared many French Canadian families out of their senses. Several years ago, a nun, belonging to the Hotel Dieu, if we remember the story rightly, predicted, while on her death-bed, that an earthquake would overwhelm this city, and engulf it in the St. Lawrence. This belief is very current among the lower classes, who believe that the earth underneath the city is hollow, and liable to "cave in" at any moment. Strange as it may seem, it is very generally entertained in the city of Montreal, and recently led to such a popular agitation that the authorities were obliged to institute a series of borings in order to prove that the city did not rest on the roof of a cavern, as was generally supposed.

Some time ago the Rev. Mr. Spurgeon preached a sermon on the text—"And Mary wept." In the midst of a stream of earnest eloquence, that drew tears from many present, describing the character of tears shed by Mary over the feet of Jesus, he broke suddenly off, and, turning to his congregation: "The tears that Mary shed were not such tears as many of you pour out when you come to this altar. They came from the heart—they were tears of grief—and not the poor stuff that you present to an offended God." Then, leaning over the pulpit, and looking earnestly in the sea of upturned faces he exclaimed: "There are some of you for whose tears I would not give a farthing a quart."

A new leader for the Democracy has been seen in Kansas. He sends the following letter to the editor of a Leavenworth paper:

"KIRKPATRICK, Nov. 24, 1867.
"DEAR SIR: Will you please inform me whether signor suprago was correct in the late lecture. If such ignorant people be to vote I want to leave this God forsaken State, and go back to Southern Illinois."

PROSPECTUS

ROSE MINING COMPANY OF MADOC.

Capital Stock, - - - \$25,000.
Divided into - - - 5,000 Shares.
5,000 Shares - - - \$5.00 Each.

Deposit on Subscription Twenty-five per cent.

GEO. D. WYCKOFF, A. L. MCLELLAN, JAS. CARR, F. E. KILVERT, ASA A. BURNHAM, JR., E. O'BRIEN, E. H. HALE, and EDWIN FAIRBROTHER, are the owners of the property hereinafter mentioned, and are desirous of forming a Stock Company, with the capital of \$25,000, and are to receive and take in payment for the said property \$1,250 in cash, and 2,350 shares of paid up Stock of the said company. The said parties are now taking proceedings for its incorporation, under cap. 28, 29 & 30, and have much pleasure in calling the attention of the public to the following Prospectus.

This Company is being formed for the purpose of developing the Mineral Resources to the main road, between three and four miles from the village of Madoc, upon which Gold and Silver have been found in paying quantities, several assays having been made by Professor Wyckoff, who has detected with great care this locality as being not only rich in minerals, but possessing facilities for mining which gives this company peculiar advantages over many others. The property is a high ridge or mountain of rock, in which numerous veins of gold-bearing quartz crop out; and instead of sinking shafts, (a most expensive and tedious operation), drifts can be run from the base of the ridge, cross-cutting the different veins, and giving eighty feet of backs to work upon, which will furnish much ore as could be taken out for the next twenty years, and at a cost comparatively small, no machinery being required to free the mine from water.

This Company intend, as soon as a charter is granted, to erect a mill house, with suitable machinery for reducing and separating the precious metal, thereby saving the cost of cartage to other mills, and the great expense and inconvenience incurred in having the ore reduced and the metal extracted by custom mills.

Adding this property is a lake from which an abundant supply of water can be obtained for all purposes.

Another great advantage in this property is, that immediately the work is commenced ore can be taken out in quantities more than sufficient to pay the working expenses and in that respect alone it will equal if not surpass any of the mines in that district, taking into consideration the richness and abundance of the ore, and the many advantages described above, it cannot but prove remunerative to those who may become interested in this Company.

DIRECTORS, PRO TEM.

PROSPECTUS OF THE
EL DORADO MINING COMPANY
OF MADOC.
(LIMITED.)

CAPITAL STOCK \$72,000.

Divided into 2,400 Shares of \$30 Each.

Deposit on Subscription, \$15 Per Share.

THIS COMPANY is formed, and proceedings taken for its Incorporation, under Chapter 28, 27, and 28 Vite for the purpose of developing the mineral resources of three acres of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 17, in the 5th Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present, there are two shafts sunk on the property about 200 feet apart, one 45 feet deep, and the other 35 feet deep. There is at the present time about 300 tons of ore already mined. The owners of the property have had one ton of this quartz crushed and amalgamated by Scott & Taylor's Mill, which returned \$63.80 in Gold, which specimen can be seen at J. E. Ellis, on King Street.

There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore. The prospectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 833 shares of the value of \$30 each, payable one-half, or \$15, as above, on subscription, and the remaining \$15 on the last of January, 1868. Out of the above sales, \$10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be excessively remunerative.

The Provisional Directors are as follows:
A. F. WOOD, late Warden of the County of Hastings.
RICHARD SPARLING, Managing Director and Superintendent.
T. S. MCGILGASHAN, of Madoc.
MAHLON BURWELL MCGREGOR, of Madoc.
T. A. MITCHELL, of Madoc.
ALDERMAN VICKERS, of Toronto.
J. E. ELLIS, of Toronto.

McCLELLAN & McCLELLAN, Solicitors. A. F. WOOD, President.
BANK OF MONTREAL, Bankers. T. A. MITCHELL, Secretary and Treasurer.

Applications for Shares received by Alderman Vicker, Yonge Street, Toronto; J. E. Ellis, King Street, Toronto, and at the office of
WILLIAM KERSTEMAN,
62 Church Street, Toronto. 1737

Toronto, November 20th, 1867.

American Watches.

THE true value of Machinery applied to Watchmaking is not known by its use.

Watches are made rapidly, but that by its use made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the sizes or shape of the pieces of which it is composed, nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it costs wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished pieces. The method established in every department, the reproduction of parts by mechanical means, and the carrying out on the system of the most thorough subdivision.

By means of multiplying gauges and microscopes, tests and inspection for the detection of wear in cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage, from beginning to end. As a necessary result, the Watch goes through a finished machine. Every part is found to fit properly in its place. Every steel and stone part is pinched, and every screw turned home—instead of sluggish and feeble action, the balance, even under the pressure of the heaviest mansuering vibration, is a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it it produces watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform to the minutest details, not easily damaged, easily repaired, and when repaired always as good as new.

There are different varieties of watches in the different varieties of Watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

EVERY WATCH FULLY WARRANTED.

For sale by all first class dealers in the United States and British Provinces.

Toronto, Nov. 2, 1867. 105ddm 405m

The Daily Intelligencer

Will appear about eight o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of \$5 a year if paid in advance, \$6 in advance. Mail subscribers \$5 a year, \$2 50 for 6 months; \$1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable dispatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marston and other points, who will furnish us with Public Meeting notices, &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING:

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 5 00
Half Square, 6 months, 8 00
One Square, 6 months, 12 00
Two Squares, 6 months, 18 00
Four Squares, 6 months, 24 00
Notice, 5 lines, 10 00
Do of Marriages, 50
Do of Deaths, 50

"BUSINESS NOTICES"—An advertisement under this heading inserted on a solid, 10 cents per line, measured by a scale of solid minims.

Advertisements continuing for any space not less than a square, may have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 5 cents for each subsequent insertion.

The Weekly Intelligencer

Is published every Friday Morning at \$2 per annum if called for at the Office, or sent by mail; and \$2 50 if delivered by the Carrier, payable in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months the circulation has rapidly increased, and the number now on our Subscription Books is over 1,400. With such a large and general circulation, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:
Six lines and under, first insertion, 10 00
Each subsequent insertion, 5 00
Above six lines (per line) first insertion, 15 00
Each subsequent insertion, 10 00
"BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minims.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 2 o'clock on the day preceding the day of insertion, and be accompanied by a note to insure their appearance.

All advertisements without written directions inserted until forth, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and best execution of every description of plain and fancy printing, at prices as low as any other establishment in the Dominion.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado. All orders by mail promptly attended to.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - \$10,000,000

FIRE and LIFE.
LIFE DEPARTMENT.

The principles on which this Company is
founded contain all the elements required
to develop the benefits of Life Insurance, and
afford every facility to intending assureds—
One of the advantages secured by those who
insure their lives with this Company is that
the outside expenditure for Management is
absolutely restricted by the Board of Directors
to Ten per Cent. of the Net Life
Income. This most important restriction
shows that the interests of participating policy
holders are closely watched and carefully
attended to by the Company. Attention is
especially called to this point, as the proportion
of premiums expended for Management
Must Largely Influence Profits
and Dividends.

The next division of profits takes place in
1868, and all those who wish to participate in
the profits should insure at once.

"The Wife's Christmas."

How can you speak to me so, Charlie?
It isn't kind, nor right;
You wouldn't have talked a year ago
you have done to-night.

You are sorry to see me sit and cry,
Like a baby weep, you say;
When you didn't know I wanted a gift.
Nor think about the day!

But I'm not like a baby, Charlie,
Crying for something else;
Only a loving woman pained,
Could such such tears as mine.

For every Christmas-time till now—
And that is why I grieve—
It was you that wanted to give, Charlie,
More than I to receive.

And all I ever had from you
Have carefully laid away;
From the first June rose you pulled for me,
To the fall I wore as a bride.

And I wouldn't have cared to slight, Charlie,
How poor the gift, or small;
If you only brought me something to show
That you thought of me at all.

The merest trifle of any kind,
That I could keep or wear;
A sliver bit of lace for my neck,
Or a ribbon for my hair.

Some pretty story of lovers true,
Or a book of pleasant time;
A flower, or a holly branch to mark
The blessed Christmas-time.

But to be forgotten, Charlie!
The true thing that brings the tear;
And just to think that I haven't been
Your wife but a single year!

Naughting as a Fine Art.

HOW IT IS PRACTICED IN NEW YORK—SOME
INTERESTING INCIDENTS.

The New York Tribune publishes an ex-
tended report of frauds on the customs at
that port, and specifies some instances
which have occurred within a few weeks.

When a foreign steamer arrives and the
baggage of the passengers is all on the
wharf, the following scenes usually take
place:

The inspectors detailed for the vessel
while in port take charge, and seal the
batches. The passengers descend to the
pier, and the inspection begins. Each
passenger, before the examination, fills out
a blank form, in which he enumerates the
contents of his baggage. If there is nothing
but his own wearing apparel, he certifies
that there are no new or dutiable articles
within. Then commences the ludicrous
scenes. They are requested to unlock their
trunks.

Ready, easy manner with which
many open them; without being called upon,
produces a good effect, convincing the
officer that they have travelled, and there-
fore understand the form. He gently passes
his hand down the inner side, and under a
few articles of clothing, shuts the lid, and
challenges it. O. K. But you must not fancy
yourself safe. Keen gray eyes are watching
you from a distance, and noting if there is
any expression of evasion. If one is
nervous or irritable, he goes through another
order. He is suspected. His trunk is
measured inside and out, the sides and
the top sounded, and a general manipula-
tion takes place. If anything dutiable or
new is found, it is immediately confiscated,
and becomes the property of Uncle Samuel.

In the meantime the Deputy Surveyor and
his aids are taking a general survey of the
scene of operations.

One of the men has his eye on a large,
heavy looking man, who is wrapped up in
a great coat. He walks like an invalid,
and is attended by a friend who has met him
on the pier. The aid thinks his
garments fit him too much. He takes
the inspector aside and informs him that
after he (the officer) has examined his
baggage he will stumble over his valise or
bag. Of course the large man with so
much clothing on will stop to pick up his
baggage, which has been so suddenly and
clumsily displaced, at which time the
Inspector must watch his back.

The ruse succeeds; the back of his coat
appears as if it covered a pan full of
biscuits. Trembling with fear the passen-
ger is taken inside the small office and from
under his coat is drawn a well padded vest
containing fifty gold watches. He is now
subject to a thorough examination; his
boots legs and heels do not escape their
scrutiny. The heel of one boot is found
to be hollow—off it goes and inside is
found snugly encoined in cotton two
brilliant worth \$3,000. When entirely
stripped of his superfluous garments he
appears like a second "Calvin Edison."

Another victim has been selected, and
he is called aside and corporal examina-
tion. He is very portly, and tries to be
jolly. He laughs boisterously, and informs
the officer that he supposes he must do his
duty. Underneath his shirt are hundreds
of yards of costly lace duff would around
his waist. After the officers have counted
him out his secret garments he looks
more like a plucked fowl than a human
being. Another man has passed the
inspection, and his trunks are strapped to
much elated, and with a great hurly. On
his arm he carries a rug, of which he
seems to be very careful.

As he is about to step into the carriage,
the aid taps him on the shoulder and

Dr. P. Newbitt, Dentist, office No. 127 West Sixth Street, states as follows:

CHICAGO, October 1, 1887.
Messrs J. N. Harris & Co.—Gentlemen:—About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expected large quantities of phlegm and mucus. During the last winter I became so much afflicted that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhoea set in. My friends thought I was in the last stages of Consumption, and could not possibly get well. I was recommended to try

ALLEN'S LUNG BALSAM.
The remedy was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully,
P. NEWBITT

Belleville, Dec. 20, 1887. 1993d

PROSPECTUS OF THE BAY STATE MINING COMPANY, (LIMITED.)

Capital Stock \$120,000, divided into 1,200 Shares of \$100 each.

WORKING CAPITAL, - - \$24,000.

THIS COMPANY is duly incorporated under Cap. 23 Cons. Statutes of Canada, and is formed for the particular purpose of developing the mineral resources of part of Lot 12 in the eighth concession of the Township of Madoc, containing the Bay State Mine and 24 acres of land secured to the Company, and generally for carrying on such other mining operations as may from time to time be determined upon.

A shaft has already been sunk to the depth of 37 feet, each successive foot disclosing rich and new materials. The lode is fully five feet wide, and, in the opinion of Dr. Otway, one of the best defined lodes yet discovered in the district. Indeed, he believes it to be a continuation of the same lode as that at the Richardson Mine, and that it may probably equal it in ultimate results.

Various assays have been made from rocks taken from the mine at different depths. One by Mr. Wyckoff, from 41 lbs. ore, taken from a depth of 30 feet, yielded:

Gold, 44 grains—value per ton, \$80.00

Silver, 4.17

Total value per ton, \$84.17

Another by Dr. Otway, made with ore from a depth of 35 feet, yielded \$300 to the ton, including \$30 of silver. Another still from a chemist in Boston employed by A. F. Days of that city, made with rock from a depth of 27 feet, gave a yield of \$327 to the ton.

The average result of three other assays at depths varying from 30 to 38 feet—two of them by Dr. Otway and one by Mr. J. McFEE—was \$516 to the ton.

An offer has been received from a highly respectable firm of machinists to erect a crushing mill and take half their pay in the Company's stock, their agent having been to Eldorado and satisfied himself of the richness of the mine. Negotiations are now in progress for the erection of a mill, which it is hoped will be in operation within three months; so that dividends may be looked for at an early date.

There can be no doubt now of the probable success of most of our Mining Companies, if managed with tolerable prudence. It is well known that in Australia immense profits are realized from their mines, though their average yield of gold per ton of ore is only \$7, while in Nova Scotia it is only \$3 to \$10, and in California nearly the same. The return of \$10 to the ton from the Bay State quartz in Turkey & Gilbert's mill is therefore a sound basis to work upon, and will undoubtedly yield large returns; and yet, as it was taken from near the surface, it may be regarded as a mere indication of the richer deposits below. As a sample of what may be looked for, even with a moderate amount of gold to the ton, it may be stated that the Port Phillip Gold Mining Company, in Australia, obtained from their mine—which gives an average of only \$6 to \$8 gold per ton (equal to \$9.25)—the very large amount of \$200,000 for the first half only of the present year. Again, the Empire Mine, in Nevada, which has only a claim 20 ft. in length upon the Comstock lode, and whose quartz yielded only \$24.90 to the ton, realized last year the enormous sum of \$488,000. Other examples might be given from Nova Scotia and other gold countries; but every intelligent man can make these inquiries for himself.

This Company propose to issue at present only a very limited amount of stock, just so much as is needful to proceed vigorously in the development of the mine, as they feel confident that the stock must speedily rise in value; and if more funds should afterwards be needed, an advanced price can be obtained.

The following are the Directors for the first year:

E. H. HOLTON, Belleville.

F. H. ROUS, Belleville.

JOHN McFEE, Belleville.

R. E. LUND, Manager and Overseer of the Mine.

T. McQUARRIE, Eldorado.

J. B. LAZIER, Eldorado.

A. HURD, Port Perry.

A Cool Husband.

There is one sensible married man in this country. He is a soldier, and was recently has having been killed, but was only a prisoner. He returned home to find that his wife had turned over a new leaf in the marriage service, and that another man occupied his seat in the chimney corner. Did he go to work slaughtering the false wife and new husband? Not much. He walked in and said: "Well, old gal, how do things go? Pretty good, Bill," said the double married woman, not taken back greatly. "Which do you prefer, the old or the new love?" She hesitated for an instant, and said: "I don't like to hurt your feelings, but—'Oh, spit it right out. Don't mind my feelings or the other chap's! I won't be angry if you come down a little rough on my vanity. Count on my being humble, I won't cut up rusty if you should go back on me.' 'I am glad you're so thoughtful, Bill; and I acknowledge that I do like my present husband best—but if anything should happen to him, I know nobody else I would so soon join fortunes with again as you.' That's the way to talk. I'll now bid you a good bye, hoping that no accident will happen to the other fellow, and that he will live long to enjoy your delightful society. Good day." And the careless husband travelled off, with his knapsack on his back, whistling in a cheery clear tone. "The girl's left behind me."

Many astronomers will visit India next year to observe a total eclipse of the sun that will be "visible" there only.

Commodore Bissell has officially notified the Navy Department of the loss of the "Monongahela." She was lifted by the waves over the warehouses in the town of Fredericstadt, St. Croix, during the late terrible earthquake, and landed in the streets.

MORAL FORCE—The iron of the iron, the fire of the fire, the ether and source of all elements, is more force. We delight to trace these powers. Method, justice, self-trust, perseverance, knowledge of knowledge, power of persistence, of acquiring defeat, of gaining victory by defeat, these are forces which never lose their charm. Even in war—which is organized brute force—moral power is eminent. Good ammunition and good muskets we must have; but these do not gain the battle. You may have a mountain of iron, every pebble a sing—it will in vain without the brave hands to use, the cool head to command, the good cause which flows every brain in the service. —Emerson.

PROSPECTUS OF THE ROSE MINING COMPANY OF MADOC.

Capital Stock, - - - \$25,000.

Divided into - - - 5,000 Shares.

3,000 Shares - - - \$5.00 Each.

Deposit on Subscription Twenty-five per cent.

Geo. D. Wyckoff, A. L. McEllan, Jas. Carr Ritchie, F. E. Kilbride, A. Burnham, Jr., J. E. O'Reilly, E. H. Hall, and John Fairgrave, are the owners of the property hereinafter mentioned, and are desirous of forming a Stock Company, with the capital of \$25,000, and are to receive and take in payment for the said property \$1,250 in cash, and 2,500 shares of paid up stock of the said company. The said parties are now taking proceedings for the incorporation, under cap. 23, 27-38 Vic, and have much pleasure in calling the attention of the public to the following Prospectus:

[This Company is being formed for the purpose of developing the Mineral Resources of five acres of land, being part of Lot No. 10 in the 5th concession of the Township of Madoc, in the County of Hastings, situated on the main road, between three and four miles from the village of Madoc, upon which Gold and Silver have been found in paying quantities, several assays having been made by Professor Wyckoff, who selected with great care this locality as being not only rich in minerals, but possessing facilities for mining which gives this company peculiar advantages over many others, there being on the property a high ridge or mountain of rock, in which numerous veins of gold-bearing quartz crop out; and instead of sinking shafts, (a most expensive and tedious operation), drifts can be run from the base of the ridge, cross-cutting the different veins, and giving eighty feet of back to work upon, which will furnish as much ore as could be taken out for the next twenty years, and at a cost comparatively small, no machinery being required to free the mine from water.]

This Company intend, as soon as a charter is granted, to erect a mill house, with suitable machinery for reducing and separating the precious metal, thereby saving the cost of cartage to other mills, and the great expense and inconvenience incurred in having the ore reduced and the metal extracted by custom mills.

Adjoining this property is a lake from which an abundant supply of water can be obtained for all purposes.

Another great advantage in this property is, that immediately the work is commenced one can be taken out in quantities more than sufficient to pay the working expenses and in that respect alone it will equal if not surpass any of the mines in that district, taking into consideration the richness and abundance of the ore, and the many advantages described above, it cannot but prove remunerative to those who may become interested in this Company.

Nov. 22, 1867.

PROSPECTUS OF THE EL DORADO MINING COMPANY OF MADOC. (LIMITED).

CAPITAL STOCK - - - \$72,000.

Divided into 2,400 Shares of \$30 Each.

Deposit on Subscription, \$15 Per Share.

THIS COMPANY is formed, and proceedings taken for its Incorporation, under Chapter 23, 27, and 28 Vic, for the purpose of developing the mineral resources of three acres of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 12, in the 5th Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present, there are two shafts sunk on the property about 200 feet apart, one 40 feet deep, and the other 35 feet deep. There is at the present time about 500 tons of ore already mined. The owners of the property have had one ton of this quartz crushed and assayed by Scott & Taylor's Mill, which returned \$33.80 in Gold, which specimen can be seen at J. E. Ellis, on King Street.

There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore.

The proprietors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 833 shares of the value of \$30 each, payable one-half, or \$15, as above, on subscription, and the remaining \$15 on the 1st of January, 1868. Out of the above sales, \$10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be exceedingly remunerative.

The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.
RICHARD SPARKLING, Managing Director and Superintendent.
T. B. McGLASHAN, of Madoc.
MAILOR BURWELL, MCGREGOR, of Madoc.
T. A. MITCHELL, of Madoc.

American Invoices—Discounts.

FINANCE DEPARTMENT, CUSTOMS.
Quebec, 6th March, 1863.

It is directed by the Hon. The Finance Minister, that hereafter Weekly Notices be published and furnished to Collectors of Customs, as to the rate of discount to be allowed on American Invoices, which is to be in accordance with the price of gold as represented by Exchange, at a rate equal thereto. Such notices to appear every Saturday in the Canada Gazette.

R. S. M. BOUCHETTE.
FINANCE DEPARTMENT, CUSTOMS.
OTTAWA, June 8, 1867.

In accordance with the above Order, Notice is hereby given that the authorized discount is declared to be this day 25 per cent, which percentage of deduction is to be continued until next Weekly Notice, and to apply to all purchases made in the United States during that week.

THOMAS WORTHINGTON,
3d Lt. Asst. Com. Collector of Customs.

American Watches.

THE true value of Machinery applied to Watchmaking is not that by its use Watches may be made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to the Watch in the first place, at Waltham. It is not only a machine, but it is constructed like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the size or shape of the pieces of which it is composed, nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished piece. The method established in every department is the reduction of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

By means of multiplying gauges and microscopes, tests and inspection for the detection of error in every tool, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together a finished machine. Every part is found to fit properly in its place. Every pin may be pushed into its place, and every screw turned home—instead of sluggish and tedious action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the least has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by its produce Watches that cannot be equalled in quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is superior to the minutest details, not easily damaged, easily repaired, and when repaired always as good as new.

There are different grades of finish in the different varieties of Watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade mark of Waltham is guaranteed to be a good one, and nobody need be afraid to buy it.

EVERY WATCH FULLY WARRANTED.
For sale by all first class dealers in the United States and British Provinces.

The Daily Intelligencer

Will appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of \$5 a year if paid in advance, \$6 otherwise. Mail subscribers \$5 a year; \$2 50 6 months; \$1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, and the daily news of the New York and Montreal Markets.

Arrangements have been made with REARER Correspondents in Madoc, Kingston, Montreal, and other points, who will furnish us with early and full information respecting the Gold Regions, and matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., and no short notice, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.
A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 5 cents a month; 10 lines, \$1.00; 15 lines, \$1.50; 20 lines, \$2.00; 25 lines, \$2.50; 30 lines, \$3.00; 35 lines, \$3.50; 40 lines, \$4.00; 45 lines, \$4.50; 50 lines, \$5.00; 55 lines, \$5.50; 60 lines, \$6.00; 65 lines, \$6.50; 70 lines, \$7.00; 75 lines, \$7.50; 80 lines, \$8.00; 85 lines, \$8.50; 90 lines, \$9.00; 95 lines, \$9.50; 100 lines, \$10.00.

Business Notices—All matter under this heading, headed, or sold, at 10 cents per line, measured by a scale of solid minims.

Advertisements for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 3 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at 43 per annum if called for at the Office, or sent by mail; and \$5, if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number of our subscription books is over 1,400. With such a large and general circulation throughout this and adjoining Counties, the Weekly Intelligencer is sought unhesitatingly by advertisers.

RATES OF ADVERTISING.
Six lines and under, first insertion, 10 cts; each subsequent insertion, 5 cts; 10 lines, 15 cts; 15 lines, 20 cts; 20 lines, 25 cts; 25 lines, 30 cts; 30 lines, 35 cts; 35 lines, 40 cts; 40 lines, 45 cts; 45 lines, 50 cts; 50 lines, 55 cts; 55 lines, 60 cts; 60 lines, 65 cts; 65 lines, 70 cts; 70 lines, 75 cts; 75 lines, 80 cts; 80 lines, 85 cts; 85 lines, 90 cts; 90 lines, 95 cts; 95 lines, 1.00; 100 lines, 1.05.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and exact execution of every kind of printing at prices as low as any other establishment in the country.

The Daily and Weekly Intelligencer can be had at all the Book Stores, Madoc, and at El Dorado.

All orders by mail promptly attended to.

SPECIAL NOTICES.

R. R. R. PILLS.

Composed of vegetable extracts (prepared to vacuum, they purify the blood, cleanse the system, and remove all corrupt and poisonous humors from the system.)
 One of Dr. Radway's Pills contains more of the active principle of cure, and will not injure the Liver, Bowels, Stomach, Kidneys, Bladder, Blood, etc., than four or six of the ordinary common Purgative or Cathartic Pills sold under various names, or than ten grains of Blue Mass.

True comfort for the aged and others afflicted with Constipation and Irritation of the Bowels.

One of Three of Radway's Pills—once in 24 hours, will secure regular evacuations from the bowels. For one who for 20 years have not enjoyed a natural stool, and have been compelled to use opium, have been cured by a few doses of Radway's Pills.

Dr. Radway's PILLS CURE ALL DISEASES OF THE Stomach, Liver, Bowels, Kidneys, Bladder, Nervous System, Headache, Constipation, Catarrhs, Indigestion, Dyspepsia, Biliousness, Bilious Fever, Irritation of the Bowels, Piles, and all derangements of the Internal Viscera. One to six boxes warranted to effect a positive cure. Purely vegetable, contains no mercury, minerals, or deleterious drugs.

Dr. Radway's Pills sold by all Druggists and Country Merchants. Price 25 cents.

See Dr. Radway's Almanac for 1888.

Dr. P. Meredith, Dentist, office No. 139 West Sixth Street, states as follows:

CHICAGO, October 1, 1883.

Messrs. J. N. Harris & Co.—Gents:—About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expected large quantities of phlegm and mucus. During the last winter I became so much reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A physician set me my friends thought I was in the last stages of Consumption, and could not possibly get well. I was recommended to try

ALLEN'S LUNG BALM.

The formula was shown to me, which induced me to give it a trial, and I will only say that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully,

P. MEREDITH.

Sold by all Family Medicine Dealers.

 Belleville, Dec. 10, 1887. 180d-3w

HUFFMAN HOUSE,
 MADOC, ONTARIO.

HUFFMAN & SON, Proprietors,
 (LATE OF PETERBOROUGH.)
 (Great attention paid to travellers. House and furniture entirely new.)
 148-11 1884

A little boy having asked his mother what 'blood relations' meant, and being told it meant near relations, said, 'I'm the bloodiest relation I've got.'

A sailor in the pit of a theatre, looking over his play-bill, read, 'an interval of twenty-five years occurs between the first and second acts.' At the end of the first act he put on the old tarpaulin and left the house, saying, 'few of those folks will see the end on't.'

'Devil, indeed!' said a primitive country schoolmistress to one of her pupils, as she heard a little girl designate his Satanic Majesty 'devil.' 'Devil, indeed!' set him up with such fine names—'on' him, 'devil, indeed!' its good enough for him.'

Sir William Davenport, the poet, had no nose, and going along the Mersey one day, a beggar woman followed him crying, 'Ah! don't preserve your eyesight, sir, the Lord preserve your eyesight.' 'Why, good woman,' said he, 'do you pray to me for my eyesight?' 'Ah! I don't say,' answered the woman, 'if you should grow dim-sighted you have no place to hang your spectacles on.'

When Dr. Johnson asked the widow Porter to be his wife, he told her candidly that he was of the extraction, that he had no money, and that he had an uncle hanging. The widow replied that she had no money herself, and also cared nothing for his parentage, and though she had not a relative hanging, she had fifty who deserved hanging. So they made a match of it.

A man once having fallen into a slough, his friend called loudly to another for assistance. The latter, who was busily engaged cutting a log, and without the procrastinate inquired, 'How deep is the gentleman in?' 'Up to his ankles,' was the reply. Then there is plenty of time,' said the other. 'No, there's not,' rejoined the first, 'for he's in head first!'

On the tombstone over the graves of a husband and wife are the following lines:

Within this grave do lie,
Back to back, my wife and I,
When the last trump the air shall fill,
If she gets up I'll still be still.

The following quaint epitaph on husband and wife is to be seen in one of the Parisian cemeteries:

"I am anxiously expecting you.—A. D. 1827."
"Here I am.—A. D. 1867."

So the good woman was forty years making up her mind to follow her husband.

Deposit on Subscription Twenty-five per cent.

By Geo. D. Wyckoff, A. L. McKellan, Jas. F. C. Kitchie, F. E. Kitchie, A. Burnham, Jr., J. E. O'Reilly, E. H. Hale, and Hugh Fairbairn, are the owners of the property hereinafter mentioned, and are desirous of forming a Stock Company, with the capital of \$25,000, and are to receive and take in payment for the said property \$1,250 in cash, and 2,500 shares of paid up stock of the said company. The said parties are now taking proceedings for its incorporation, under cap. 28, 2738 Vic, and have much pleasure in calling the attention of the public to the following Prospectus.

This Company is being formed for the purpose of developing the Mineral Resources of five acres of land, being part of Lot No. 10 in the 8th concession of the Township of Madoc, in the County of Hastings, situated on the main road, between three and four miles from the village of Madoc, upon which Gold and Silver have been found in paying quantities, several assays having been made by Professor Wyckoff, who selected with great care this locality as being not only rich in minerals, but possessing facilities for mining which gives this company peculiar advantages over many others, there being on the property a high ridge or mountain of rock, in which numerous veins of gold-bearing quartz crop out, and instead of sinking shafts, (a most expensive and tedious operation), drifts can be run from the base of the ridge, commencing the different veins, and giving a light foot back to work upon, which will furnish as much ore as could be taken out for the next twenty years, and at a cost comparatively small, no machinery being required to free the mine from water.

This Company intend, as soon as a charter is granted, to erect a mill house, with suitable machinery for reducing and separating the precious metal thereby saving the cost of cartage to other mills, and the great expense and inconvenience incurred in having the ore reduced and the metal extracted by custom mills.

Adjoining this property is a lake from which an abundant supply of water can be obtained for all purposes.

Another great advantage in this property is, that immediately the work is commenced ore can be taken out in quantities more than sufficient to pay the working expenses and in that respect alone it will equal if not surpass any of the mines in that district, taking into consideration the richness and abundance of the ore, and the many advantages described above, it cannot but prove remunerative to those who may become interested in this Company.

DIRECTORS, PRO TEM.

Geo. D. Wyckoff, A. A. Burnham, Jr., F. E. Kitchie, A. L. McKellan, Jas. F. C. Kitchie, Jas. E. O'Reilly, E. H. Hale.

Stock Book opened at J. W. Munro's Exchange Office, Hamilton. Application for Stock and other particulars may be addressed to any of the Directors, or to

JAMES C. RITCHIE, Prov. Sec. & Treas. Hamilton.

PROSPECTUS OF THE EL DORADO MINING COMPANY OF MADOC.

CAPITAL STOCK \$72,000.

Divided into 2,400 Shares of \$30 Each.

Deposit on Subscription, \$15 Per Share.

THIS COMPANY is formed, and proceedings taken for its incorporation, under Chapter 23, 27, and 28 Vic, for the purpose of developing the mineral resources of three acres of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 17 in the 8th Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present, there are two shafts sunk on the property about 200 feet apart, one 40 feet deep, and the other 30 feet deep. There is at the present time about 500 tons of ore already mined. The owners of the property have had one ton of this quartz crushed and amalgamated by Scott & Taylor's Mill, which returned \$53.80 in gold, which specimen can be seen at J. E. Ellis, on King Street.

There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore.

The projectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 828 shares of the value of \$30 each, payable on call, or \$15, as above, on subscription, and the remaining \$10 on the 1st of January, 1868. Out of the above sales, \$10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be exceedingly remunerative.

The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings, RICHARD SPARLING, Managing Director and Superintendent, T. S. MCGILLASH, of Madoc, MAILLON BURWELL MCGREGOR, of Madoc, T. A. MITCHELL, of Madoc, ALDERMAN VICKERS, of Toronto, J. E. ELLIS, of Toronto.

MCCLELLAN & MCCLELLAN, Solicitors. A. F. WOOD, President. T. A. MITCHELL, Secretary and Treasurer.

BANK OF MONTREAL, Bankers.

American Watches.

THE true value of Machinery applied to Watches is not that by its use

Watches are made more correctly. Very few people know why

a Watchman Watch should be superior to any other. In the first place, at Watchman

the Watch is regarded as one machine, to be constructed, like any other machine, on

mechanical principles. The factory is, indeed, little else than a machine shop, the principal

work in which is not more upon watches than upon machinery to make watches with. If

the watches are good, it is because the machinery is good. Of course, there must be

no defect in the principle of plan or the movement, no mistake in the size or shape

of the pieces of which it is composed, nothing wanting in their properties, and no error in

their positions. These points once thoroughly settled in regard to each part of every

watch, it rests wholly with the machinery constructed with infinite diversity of form and

function, expressly for the purpose, to produce the finish of pieces. The method established

in every department is the reciprocation of parts by mechanical means, and this is carried

out on the system of the most thorough subdivision.

By means of multiplying gauges and microscopes, tests and inspection for the

detection of wear in cutting tools, and for faults and flaws in steel or stone made to

accuracy, the work in every stage from beginning to end. As a necessary result, the

Watch goes together a finished machine. Every part is found in its proper place

Every pin may be pushed into its place, and every screw turned home—

instead of sluggish and feeble action, the balance, even under the pressure of the

lightest maladjusting, vibrates with a wide and free motion, and the beat has the clear

ringing sound always characteristic of the Watchman Watch. The machine is a time

keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original

with the Watchman Company, and is claimed that by it they produce Watches that

cannot be equalled for every quality which makes a watch valuable. Simple in plan,

and correct in principle, the movement is not only beautifully finished, substantial, accurate

Daily Intelligence.

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERTY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

QUEEN
INSURANCE COMPANY

CAPITAL, \$10,000,000
FIRE AND LIFE.

LIFE DEPARTMENT.

THE principles on which this Company is
founded contain all the elements required
to develop the benefits of Life Insurance, and
afford every facility to intending assureds—
One of the advantages secured by those who
insure their lives with this Company is that
the outside expenditure for Management is
absolutely restricted by the Deed of Settlement
to Ten per Cent. of the Net Life In-
come. This most important restriction
policy that the interests of the assureds
are closely watched and carefully at-
tended to by the Company. Attention is es-
pecially called to this point, as the proportion
of premiums expended for Management
Must Largely Influence Profits
and Bonuses.

The next division of profits takes place in
1888, and all those who wish to participate in
the profits should insure as soon as possible.

The Abyssinian Expedition.

The following is an extract from a letter
from Colonel Mowbray, just received by
Sir Stafford Northcote:

"We have just returned from a most
interesting and important reconnaissance
up the pass from Koomogole to within five
miles by road, by Senafes, a distance of 41
miles. There were some very bad places
in one part; but the road has been made
now by the Sappers after for passage of
cavalry, infantry, mules, and camels; and
it will, I think, prove the chief line of
route, as leading at once to a good position
on the highlands of Abyssinia in the
direction we have to go, and to a spot
within easy reach.

"To-morrow we start up the Haddie to
examine that, as near as we can get to
Telokoda without actually entering it, or
compromising the inhabitants by opening
communications with them.

"Sir R. Napier's excellent proclamation
was sent out on the 8th inst., and I hope
for the best results from it. Directly the
ruler of Tigre, now Prince Kasai, a rebel
against Theodoros, shows he intends acting
in a friendly manner towards us, there will
be no impediment in visiting both Tekonda
and Senafes; but until that does it would
not be just to the people of those places to
make them run the risk of encountering
his displeasure before we were in a position
to protect them.

"I have been very vexed not to find a
suitable plateau south of the Abyssinian
highlands, but I was misled by the richness
of the Agametta plateau, west of Massowah,
only now learnt, what no one seemed to
have been able to tell me before, that as
you go south of the latitude of Massowah
the lower hills become more purely volcanic,
indeed, in some places entirely, so that
vegetation diminishes *pari passu*.

"The troops that have landed are, I am
happy to say, in excellent health and spirits.
The 3rd Light Cavalry had been losing
horses from fever, but to-day on my arrival
here I was glad to find the disease disap-
pearing. It was clearly owing to the effects
of the sea voyage from India, and being
cooped up on board ship.

"It is some strange that the date of this
despatch is not given.—Times, Dec. 24th.

Exportation of Cattle.

The Secretary of the United States
Treasury has addressed the following circu-
lar to the Collector of Customs on the
Canadian frontier:

"It being represented to the department
that a difference in practice exists at some
of the frontier posts bordering on Canada
in relation to the assessment, and collection
of exemption from duty, on the importation
of cattle, and other live animals from
Canada, which had previously been ex-
ported from the United States, and in view
of the great loss of revenue, on being
brought back to the United States, on being
permitted to enter free of duty when they
are returned in the same condition as
when exported, and when the proof of
domestic origin, of exportation from the
United States, and the other proofs
required for the free entry of goods, wares
and merchandise of domestic origin and
production, are duly produced to the col-
lector at the port of importation.

The collector, therefore, on the exportation
of cattle, or other animals, should take
file among the records of the Custom
House a careful description of the same,
so that they can be readily identified in
case of their being returned to the United
States. When it is found, on the importation
of such cattle, that their condition is
changed by fattening, or other causes, duty
will be assessed and collected thereon in
the manner prescribed for original impor-
tations.

The saw-mills of St. Anthony, Minn.,
have stopped, and hundreds of men are
consequently thrown out of employment,
and unsuccessfully offer to work in the
pines, at ten cents a month. But the
timbermen of that vicinity cut one hun-
dred million feet of logs last winter, over-
stocked the market, and consequently do
not need the services of the men this season.

Horace Greeley, in a recent article on
"newspaper power," says:—"While jour-
nalism is becoming a profession more pow-
erful and respected than any other—indeed,
indeed, embraces and fashions all others—
its news facilities are marvellous. Steam
and the telegraph have brought us, greatly to
the undoing of the press, few, but those
in the profession, know the almost endless
ramifications of a great newspaper. The
editor who sits over the midnight oil,
his lamp quivering, and his brain glowing,
servants in every corner of the world, his
orders are obeyed in the dominions of the
Tycoon and the Sultan, in the remotest
countries of North America, and on the dreary
himal shores, the rainiest. His ministers
may be found cloaked with Hamarok, or
riding on the trail of the merciless Indian.
And so through every branch of business
and in every relation of life."

**PROSPECTUS
 OF THE
 BAY STATE MINING COMPANY,
 (LIMITED.)
 Capital Stock \$120,000, divided into 1,200 Shares of \$100 each.
 WORKING CAPITAL, - - - \$24,000.**

THIS COMPANY is duly incorporated under Cap. 28 Cons. Statutes of Canada, and is
 formed for the particular purpose of developing the mineral resources of part of Lot
 13 in the eighth concession of the Township of Madoc, containing the Bay State Mine and
 operations as may from time to time be determined upon.
 A shaft has already been sunk to the depth of 37 feet, each successive foot
 disclosing rich and new materials. The lode is fully five feet wide, and, in the opinion of
 Dr. Otway, one of the best defined lodes yet discovered in the district. Indeed, he believes
 it to be a continuation of the same lode as that at the Richardson Mine, and that it may
 probably equal it in ultimate results.
 Various assays have been made from rocks taken from the mine at different depths. One
 by Mr. Wyckoff, from 4 1/2 lbs. ore, taken from a depth of 30 feet, yielded:
 Gold, 44 grains—value per ton, \$40 00
 Silver, 4 1/2 grains—value per ton, \$4 17

Another by Dr. Otway, made with ore from a depth of 35 feet, yielded \$30 to the ton,
 including \$30 of silver. Another still from a depth of 37 feet, yielded \$30 to the ton,
 that city, made with rock from a depth of 27 feet, are a yield of \$37 to the ton.
 The average result of three other assays at depths varying from 80 to 33 feet—two of
 them by Dr. Otway and one by Mr. J. McFee—was \$514 to the ton.
 An offer has been received from a highly respectable firm of machinists to erect a crushing
 mill and take full time in the Company's stock, their agent having been to Kildorado
 and satisfied himself of the character of the mine. Negotiations are now in progress for
 the erection of a mill, which is hoped will be in operation within three months; so that
 dividends may be looked for at an early date.

There can be no doubt now of the probable success of most of our Mining Companies, if
 managed with tolerable prudence. It is well known that in Australia immense profits are
 realized from their mines, though their average yield of gold per ton of ore is only \$7, while
 in Nova Scotia it is only \$9 to \$10, and in California nearly the same. The return of \$19 to the
 ton from the Bay State quartz in Turley & Gilbert's mill is therefore a sound basis to work upon.
 It may be regarded as a more moderate estimate of the value of the mine—which gives
 an average of only \$19, 1/2 grs. of gold per ton (equal to \$9.25)—the very large amount of
 \$350,000 for the first lot, of the present year. As a sample of what the mine will give
 which has only a claim 30 ft. in length upon the Comstock lode, and whose quartz yielded
 only \$34.50 to the ton, realized last year the enormous sum of \$486,000. Other examples
 might be given from Nova Scotia and other gold countries; but every intelligent man can
 make these inquiries for himself.

This Company propose to issue at present only a very limited amount of stock, just so
 much as is needful to proceed vigorously in the development of the mine, as they feel
 confident that the stock must speedily rise in value; and if more funds should afterwards
 be needed, an advanced price can be obtained.

The following are the Directors for the first year:

E. H. HOLTON, Belleville.
 F. H. ROUS, Belleville.
 JOHN MCFEE, Belleville.
 R. E. LUND, Manager and Overseer of the Mine.
 L. MCQUARIE, Kildorado.
 B. LAZIER, Kildorado.
 A. HURD, Port Perry.
 DIAMOND & DICKSON, Solicitors,
 BANK OF MONTREAL, Bankers.
 E. W. HOLTON, President.
 F. H. ROUS, Secretary and Treasurer.
 Applications for shares may be made to the Secretary, to JOHN MCFEE, Front Street,
 Belleville, or to WILLIAM KIRSTEMAN, 62 Church Street, Toronto.

The Cheese Market.

[From the Utica Herald, December 17th.]

There were about 400 boxes of cheese from family dairies at Little Falls market on Monday, Dec. 9. Prices were no better than the week previous, and we noticed fewer dealers on the ground. This was to be expected, as the weather was extremely cold and near the close of the cheese making.

Sales were made at from 12c to 14c, only a few reaching the last figure. We have no report of factories this week. We think there can be but little, comparatively, of factory cheese now back, most of it being sold or sent forward to New York to be held for better times.

We have advices from abroad down to Nov. 23, R. Macdonald, of Liverpool, says, at that date, that the imports for the week have been only 7,646 boxes. He remarks that there is a good demand for fine factories at 52s to 54s, and some very extra quality has been sold at 54s to 56s; medium to good parcels sell but slowly at 45s to 48s.

Our London correspondent reports that two hundred tons of English cheese was put on the Salisbury market on the week ending Nov. 23, and one hundred and eighty tons sold at from 40s to 60s. The supply of English cheese will carry the dealers along some two months, when a brisk demand for American is anticipated. We can scarcely hope, then, to have much better prices until late in January.

The fact that the English dairymen are putting their cheese into the market so early must show that the demand for American will be considerable in the spring and we shall hope that our stocks, which will not exceed 250,000 to 300,000 boxes, will go out at fair rates.

'There's our grandmother,' says a contemporary, 'a striking instance why women should vote. She's paid taxes for a dog the last ten years, and now declares she won't stand it any longer—she'll either vote or kill the dog!'

A Connecticut landlady, having been freed out of a week's board, followed her debtor some 30 miles, and seizing the value of the delinquent, returned home, telling the fellow he could have it when he paid up arrearages. Arriving home, and the quest not appearing to pay charges and take it away, 'the landlady opened the value to examine his security, and found—his own overcoat!

PROSPECTUS
OF THE
ROSE MINING COMPANY
OF MADOC.

Capital Stock, - - - \$25,000.

Divided into - - - 5,000 Shares.

5,000 Shares - - - \$5.00 Each.

Deposit on Subscription Twenty-five per cent.

GEO. D. WYCKOFF, A. L. MCLELLAN, JAS. E. CARL RITCHIE, J. E. KILVERT, ASA A. BURNHAM, JR., J. E. O'REILLY, E. H. HALE, and HUGH FAIRBRIER, are the owners of the property hereinafter mentioned, and are desirous of forming a Stock Company, with the capital of \$25,000, and are to receive and take in payment for the said property \$1,250 in cash, and 2,250 shares of paid up Stock of the said company. The said parties are now taking proceedings for its incorporation, under cap. 23, 27-29, Vols. 1 and 2, of the Revised Statutes of the Province of Ontario, and have much pleasure in calling the attention of the public to the following Prospectus:

This Company is being formed for the purpose of developing the Mineral Resources of five acres of land, being part of Lot No. 10 in the 8th concession of the Township of Madoc, in the County of Hastings, situated on the main road, between three and four miles from the village of Madoc, upon which Gold and Silver have been found in paying quantities, several assays having been made by Professor Wyckoff, who selected with great care this locality as being not only rich in minerals, but possessing facilities for mining which give this company peculiar advantages over many others, there being on the property a high ridge or mountain of rock, in which numerous veins of gold-bearing quartz crop out, and instead of sinking shafts, (a most expensive and tedious operation), drifts can be run from the base of the ridge, cross-cutting the different veins, and giving eighty feet of back to work upon, which will furnish as much ore as can be taken out for the next twenty years, and at a cost comparatively small, no machinery being required to free the mine from water.

This Company intend, as soon as a charter is granted, to erect a mill house, with suitable machinery for reducing and separating the precious metal, thereby saving the cost of cartage to other mills, and the great expense and inconvenience incurred in having the ore reduced and the metal extracted by custom mills.

Another great advantage in this property is, that immediately the work is commenced it can be taken out in quantities more than sufficient to pay the working expenses and in that respect alone it will equal if not surpass any of the mines in that district, taking into consideration the richness and abundance of the ore, and the many advantages described above, it cannot but prove remunerative to those who may become interested in this Company.

LAMP GOODS & TRIMMINGS.

Goods sent promptly to customers in
any part of the town.

Belleville, Dec. 9, 1897. 188 43-1

TO RENT,

THE BRICK HOUSE in West Belleville,
formerly occupied by FRANCIS PAPE,
Ward, Esq. Rent \$100 a year. For further
particulars apply to Charles Papineau, or to
Hess, Bell & Holden, Belleville,
Nov. 22, 1897. 174-1f

PROSPECTUS OF THE
EL DORADO MINING COMPANY
OF MADOC.
(LIMITED.)

CAPITAL STOCK - - - \$72,000.
Divided into 2,400 Shares of \$30 Each.

Deposit on Subscription, \$15 Per Share.

THIS COMPANY is formed, and proceedings taken for its incorporation, under Chapter 23, 27, and 28 Vic., for the purpose of developing the mineral resources of three acres of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 17, in the 6th Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present, there are two shafts sunk on the property about 200 feet apart, one 40 feet deep, and the other 35 feet deep. There is at the present time about 500 tons of ore already mined. The owners of the property have had one ton of this quartz crushed and assayed by Scott & Taylor's Mill, which returned \$38.80 in Gold, which specimen can be seen at J. E. Ellis, on King Street.

There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore. The projectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 222 shares of the value of \$30 each, payable one-half, or \$15, as above, on subscription, and the remaining \$15 on the 1st of January, 1898. Out of the above moneys, \$10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be excessively remunerative.

The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.
RICHARD SPARKING, Managing Director and Superintendent.
T. S. MCGLASTAN, of Madoc.
MAYLON BURELL, MCGREGOR, of Madoc.
T. A. MITCHELL, of Madoc.
ALDERMAN VICKERS, of Toronto.
J. E. ELLIS, of Toronto.

MCLELLAN & MCLELLAN, Solicitors.
BANK OF MONTREAL, Bankers.
A. F. WOOD, President.
T. A. MITCHELL, Secretary and Treasurer.

Applications for Shares received by Alderman Vicker, Yonge Street, Toronto; J. E. Ellis, King Street, Toronto, and at the office of

WILLIAM KERSTEMAN,
82 Church Street, Toronto. 173-1

Toronto, November 20th, 1897.

American Watches.

THE true value of Machinery applied to Watchmaking is not that it makes the Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the size or shape of the pieces of which it is composed, no error in their proportions. These points once thoroughly secured in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished piece. The method established in every department is the reproduction of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

By means of multiplying gauges and microscopes, tests and inspection for the detection of wear in cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together a finished machine. Every part is found to fit properly in its place. Every pin may be pushed into its place, and every screw screwed home—instead of sluggish and weak action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce Watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and clean, but is uniform to the minutest detail, not easily damaged, easily repaired, and when repaired always as good as new.

There are different grades of finish in the different varieties of Watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

EVERY WATCH FULLY WARRANTED.

For sale by all first-class dealers in the United States and Canada. Sole Agents, ROBBINS & APPLETON, No 182, Broadway, N.Y.

ROBERT WILKES, Toronto and Montreal, General Agents.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished by mail at the rate of \$5 a year if paid in advance, \$6 otherwise. Mail subscribers \$5 a year. \$3.50 for 6 months; \$1.50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS at OTTAWA, ALBANY, and other points, who will furnish us with early and full information respecting the Gold Regions, and the progress of the mining industry.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., and, in short, nothing that is of interest to the community will be omitted. The Daily Intelligencer worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months, \$1.00
Half Square, 6 months, \$1.00
One Square, 6 months, \$1.00
Two Squares, 6 months, \$1.00
Four Squares, 6 months, \$1.00

Notices of Births, 50
Deaths, 50
Do of Deaths, 50
"BUSINESS NOTICES"—All matter under this heading, headed or solid, 10 cents per line, measured by a scale of solid matter.

Advertisers contracting for any space not less than a square can have the privilege of changing the matter at any time without cost.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

is published every Friday Morning at 10 per annum if called for at the Office, or sent by mail; and 83¢ if delivered by the Carrier, payable in advance. When not paid until the close of the year, 90 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our subscription list is 1,000.

With such a large and general circulation throughout this and adjoining Counties, the Weekly Intelligencer presents unsurpassed advantages to advertisers.

NATURE OF ADVERTISING.

Six lines for first insertion, 0 50
Each subsequent insertion, 0 25
Above six lines (under first line) first insertion 0 50
Each subsequent insertion per line, 0 25
"BUSINESS NOTICES"—10 cents per line each insertion, measured as solid matter.

A liberal discount made to those who advertise by the American Watch.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and successful execution of every description of fancy printing, at prices as low as any other establishment in the city.

The Daily and Weekly Intelligencer can be had at the Book Store in Belleville and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

INTelligencer BUILDING,
Front Street, Belleville.

...at the good things. Accept of it as a man does a piece of good, and begin to get out the rocks and to deepen and mellow the soil, to enrich and perfect. There is something in the most trifling thing around which a man may find pleasant things, out of which develop an honest pride.—*Irish Emancipator*

Forgiveness.

Imagine that you saw some mauler led to the place of execution, waiting and waiting for his instant time, for his bloody death for his heinous crimes; and that his squalid and wretched face, as if he were unable to force tears from others, and make all eyes about and water that did not look upon him. But then, if this man, in this case, should suddenly see his king, kneeling and riding toward him with a pardon in his hand, what a sight would this be! Surely, none like it. Thus it was with man, suffering and repenting for sin, whilst he is weeping over the sadness of his condition, and confessing what a little step this is to twist him and damn him as if he were even dropping into hell. In a moment he looks up into Christ, whom he sees with a spear in his side, with thorns in his head, with nails in his feet, and a pardon in his hands. This was a sight indeed—a most pleasant, ravishing, heavenly sight—such as not all the rich and glorious sights on earth, nor all the glittering spectacles in Heaven, could afford the like.—*Ignis Ambrosius*

The Fenians.

(From the N. Y. World, Dec. 24.)

During the past six weeks there has been unusual activity in Fenian circles looking to be a union of the organizations presided over by Messrs. Roberts and Savage. Under one tried and reliable chief, the committee appointed by the Senate to negotiate with Mr. Savage, brought his labors to a close in a most creditable manner, the utmost good feeling being manifested on both sides after the first "broadside" was fired and returned. Congress and Conventions were proposed, and rejected on the grounds of being too expensive. Finally it was decided that Col. Roberts should have the power to appoint seven gentlemen, and Mr. Savage should have the power to appoint four, to act as a council, the fourteen to appoint an additional number, after which they should at once proceed to elect a President of the United Brotherhood, provided the office was refused by John Mitchell, Messrs. Roberts and Savage, in accordance with the agreement for union, tendered the office of chief to Mr. Mitchell, who, after mature consideration, sent the following letter to those gentlemen:—

"IRISH CITIZENS' OFFICE, No. 31, Barclay Street, New York, Dec. 19, 1867.
To Col. WILLIAM ROBERTS AND JOHN SAVAGE ESQs:—

GENTLEMEN—The tender you have made to me of the Presidency of the re-united Fenian Brotherhood, though it has embarrassed me, could not fail to be gratifying on three counts:—first, that it proves confidence in me personally—and next, that it marks the moment of a reconciliation between two bodies of patriotic Irishmen having the same object in view. On this reconciliation, brought about by your efforts, gentlemen allow me to congratulate you.

But, after sufficient time taken for consideration; after reading the constitution, and holding some conversation with some of the leading members of these organizations, I must beg leave respectfully to decline the honor tendered, and the responsibility which they would pay me the complement of imposing upon me. And I have the less regret in coming to this conclusion as it cannot be said I throw any obstacle in the way of a reunion of our countrymen. That reunion is already effected, with a provision for electing a President in case of my refusing.

It is useless to me to enter into any account of the various reasons (some of a public, some of a private nature) which compel me to decline. My countrymen know very well that I have the fullest sympathy with the objects of Fenianism; that in the destruction of British dominion in Ireland; and, therefore, I expect they will give me credit for valid reasons without my entering into detail.

With thanks for your courtesy, gentlemen, in the execution of your mission, and assurances of respect for you personally, I have the honor to be

Your obedient servant,

JOHN MITCHELL.

The Council will meet some time between now and the first of the new year for the election of a President. Colonel Roberts, it is understood, is not anxious for any further executive honors, and the probabilities are that Mr. Savage will be chosen chief of the re-united Brotherhood. When he accepted the leadership of the almost defunct Stephens organization, he did so for the purpose of bringing about a union in spite of all opposition, and he has faithfully carried out his object.

—Steam power is successfully used in London in pulling down old houses, where the contractor carries little about preserving the material.

—One of the Illinois railroads carried more than 30,000 hogs during the month of November, besides nearly 12,000 head of other kinds of live stock.

—The skating costume of a Parisian consists of black velvet, lined with violet silk, and trimmed with chinchilla. This is covered with an elegant polka-dot, color Bismarck, also with violet silk.

—An American panther, or cougar, measuring three feet six inches in height and five feet in length, has been shot in Wisconsin. Twelve dollars bounty was paid for this, the largest animal of the kind ever seen in that region.

—The trip of Dickens to the country will be expected, make \$200,000 for him. He is expected, make \$200,000 at Boston. He is at present engaged upon three new stories, one of which is to be published in the Atlantic Monthly.

Daily Intelligencer.

BELLEVILLE, SATURDAY, DEC. 28.

QUEBEC LEGISLATURE.—The Quebec Legislature assembled yesterday afternoon, and elected M. J. G. Blanchet, member for Lewis, Speaker.

SUICIDE.—The Leader records the death by suicide of Mr. Greer, who was for a number of years manager of the Bank of Montreal in that city, and more lately cashier of the Bank of Commerce. Some time ago, through falling health, he was obliged to resign his situation. A short time ago his removal to a private asylum in New York was rendered necessary, and on Thursday night last he committed suicide.

PROHIBITION LAW.—Our neighbors across the Bay are advancing. The Pictou Times says for several years the Township of Athol had a prohibitory liquor law known as the "Dunkin Act," and during the past year the Township of Hallowell has tried the experiment, and it has given such general satisfaction that the idea was conceived of extending the blessing to the whole County. At the meeting of the County Council on Friday a petition signed by 5,000 persons was presented, asking the Council to pass a By-Law prohibiting the issuing of licenses and sale of intoxicating liquors. The Council complied with the prayer of the petition, and the By-Law was passed and will be submitted to the people in about a month. The Times has no doubt the people will approve of it. Happy County! No debt, no toll-gates, bad roads and light taxes, and no whiskey!

Madoc Gold Mines.

The encouraging news daily received from the mining region should be a cause for profound satisfaction to our citizens, and more especially to those of Madoc and adjoining townships, from the fact that our mineral resources are now being tested in a manner worthy of their great importance and magnitude. Heretofore mining operations have been greatly retarded, owing to the necessary delays in erecting crushers for the practical reduction of the ore. Meantime companies have been organizing and perfecting their arrangements for the rigorous prosecution of mining operations, prospectuses have been circulated throughout the country, soliciting the aid of capitalists. This appeal has not been made in vain—many of our most substantial business men are now in mining harness, each sanguine of success in the final issue of their investments, which have been made with a degree of caution and good judgment.

Of the numerous mining companies now at work, one, the Empire Mining Company of Madoc village is giving strong proofs of sincerity and practical wisdom; the promoters of the enterprise—few in number—have vigorously prosecuted the development of their mineral property in a manner deserving of praise for their energy and perseverance; and we are glad to learn that their labors have been rewarded with most gratifying results.

The first ton of ore from the Empire, crushed by Messrs. Daniels, Scott & Taylor, yielded \$24.76. A more thorough test was deemed advisable by the owners, and fourteen tons of ore, varying from the surface to a depth of eighteen feet, was reduced at the same crusher and yielded \$21.40 per ton. This practical result from the general average of the ore, places the "Empire" in the front rank of Madoc mines. The owners of this mine have entered into a contract with Messrs. Daniels, Scott & Taylor for the immediate construction of a crusher, with capacity for ten tons per day. An exception so marked among so many companies, is deserving of this special notice, and we trust the most sanguine expectations of the proprietors may be fully realized.

Ontario Legislature.

Yesterday afternoon the first meeting of the Legislature of Ontario took place at Toronto. Mr. Stevenson, of Napanee, was chosen unanimously Speaker of the Assembly. He was nominated by Hon. John S. Macdonald, and seconded by Hon. John Carling, who both briefly addressed the House on the occasion. Mr. McKellar, Sir Henry Smith, Mr. T. R. Ferguson, and Mr. J. Boyd made short speeches. Mr. McKellar, leader of the Opposition, was evidently chagrined at the nomination, although he accepted it because as he said Mr. Stevenson was a member of the same party as

himself. Sir Henry Smith for the very opposite reason assigned by Mr. McKellar, supported the nomination of the Government. Mr. Stevenson had opposed the extreme Grits, and because he had done so he should receive his support.

The only business done was the election of Speaker. From some observations which fell from Hon. John S. Macdonald, it is likely a short adjournment of the Assembly will take place if a majority of the members should decline it. This afternoon the Governor General will deliver the opening speech.

St. John's Day.

The Masonic celebration on St. John's Day, notwithstanding the unfavorable weather, was one of the most successful ever gotten up in Belleville. Had the weather been fine and sleighing good, a larger number of the Brethren from a distance would doubtless have been present. As it was, the turn-out of the Masons in the afternoon was the largest seen in Belleville for many years, and the festival was one of the most successful ever held here.

At three o'clock the Brethren, headed by a portion of the Royal Canadian Rifle Band, marched from their Lodge Room to the Episcopal Methodist Church, where an impressive and eloquent discourse was preached by the Rev. Brother Wild.

In the evening there was a grand festival at Ontario Hall, which was very largely attended. The hall was tastefully decorated with banners, flags, evergreens, mottoes of various kinds, and devices and emblems of Masonry, the whole presenting a very pleasing effect, and reflecting credit upon the Committee to whom was entrusted the decoration of the room. The first part of the evening's entertainment consisted of a concert by the Philharmonic Society of Belleville, under the leadership of Mr. Crozier. The programme contained a number of excellent selections, which were admirably performed; indeed, some of the pieces were rendered in a manner which would have done credit to professionals.

The concert ended about half-past ten o'clock, when the floor was cleared and dancing commenced, which continued until an early hour this morning. The music was furnished by a quadrille band from the Royal Canadian Rifle Regimental Band, and it need hardly be said was all that could be desired. The best of feeling prevailed, and under the able direction of R. W. Hox. L. H. Henderson, the whole entertainment passed off in the most satisfactory manner.

The supper was got up by Mr. Cronyn, of the Club House, who distinguished himself as one of the best caterers in the country.

Albert College.

Canadian Bank of Commerce—Neither buyers nor sellers at dividend.

Montreal Telegraph Company in demand at 183. No stock in market.

Canada Debentures—Small sales of sterling Fives at 84, at which they are still procurable. No Sixes in market.

to buy land in Honduras, and export the products of these forests.

New York, Dec. 27.—The *Herald's* Charlotte County, Va., special, say, along and throughout several counties, a reign of terror prevails. The freedmen have become desperate at the distribution of the farms, and now seek revenge by house-burning, cattle-killing, and other acts of violence. Murder and arson are of nightly occurrence, and a war of necessities inevitable. The civil authorities are powerless to protect, and military posts are so remote that the whites have determined to defend themselves in their own way, but their resolution is "death before negro supremacy." The forty acres and two mules promised the negroes at Christmas, not being forthcoming, has caused this terrible state of affairs.

Telegraphic News.

BY ATLANTIC CABLE.

LONDON, Dec. 27 (A. M.).—Another of those dreadful out-goes which have characterized the operations of the F. & B. Brotherhood has just been per-trated at Dublin. Telegrams received from there today give the following particulars:—An unusually large number of letters have been recently received at the post office at Dublin directed to prominent officials. Each of these letters was loaded with explosive materials designed to kill the person addressed. Several of them exploded before their real nature was ascertained, but up to this time no person has been killed. One of the policemen of the city who received one of these letters was horribly mangled by the explosion which occurred when he opened it. It is not known how many of these dangerous missives have been dispatched. Considerable excitement prevails both in Dublin and elsewhere throughout the country on the discovery of this latest Fenian outrage. The authorities are actively investigating and will no doubt probe the matter to the bottom.

The London *Times* this morning has an editorial notice on the Fenian question. It says that no less than 30,000 special constables have been sworn in and are now serving in London. The writer calls attention to the grave public danger, and calls on the provincial cities and towns to emulate the precautionary measures of the metropolis.

LONDON, Dec. 27.—The *Times* to-day praise the Americans for their magnanimity in giving Mr. Dickens such a hearty reception.

A despatch from India announces the departure from Bombay of General Napier for Mesopotamia, to take immediate command of the British expedition now advancing into the interior of Abyssinia.

It is reported that the Sublime Porte has offered to the Ottomans an autonomous government, and has named Prince Christian as its head.

PARIS, Dec. 27.—The *Moniteur* to-day contains an official note to the effect that the coupons on the Italian bonds will be paid.

VIENNA, Dec. 27.—By the re-arrangement of the Austrian Cabinet, Baron Von Bues becomes president of the ministerial council, but retains the post of Minister of Foreign Affairs, which he has still held in connection with the former position.

BERLIN, Dec. 27, evening.—A general council of the Zollverein, in which all the states of North and South Germany are to be represented for the first time since the late war, will be held in this city next March.

Prussia to-day commenced withdrawing her troops from all parts of Saxony, except the fortress of Konigsstein.

FLORENCE, Dec. 27.—It is said that General Menabrea has declared his intention to dissolve the national Parliament now in session on the 15th proximo, and make an appeal to the country should another vote unfavorable to the ministry be adopted before that time.

PARIS, Dec. 27, evening.—The Pope has enjoined the Rothchilds against paying the coupons on the Italian bonds in this city.

American Despatches.

CHICAGO, Dec. 27.—A locomotive belonging to the Chicago and Rock Island Railroad Company exploded this morning, killing one man instantly and wounding two others.

SPRINGFIELD, Mass., Dec. 27.—Eras C. White, of Wilmington, Del., was shot this morning, shot Mrs. Maria L. French through the head, inflicting a fatal wound.

HOSTON, Dec. 27.—There was some excitement to-day in financial circles on account of a report that the cash of the Receiving Teller of the Shawmut Bank, Mr. Bryant T. Henry, fell short to the amount of \$40,000.

HATANA, Dec. 27.—Santa Anna denies any intention of going to Mexico. The Imperialists have concluded over the news from St. Domingo. Many engagements have taken place, in which victories are claimed by the government, but the Bas party is nevertheless gaining adherents and strength. The only portion of the island which has proclaimed for Bas, is the north, where lies his principal strength.

Ten of the murderers of Col. Sanchez have been shot. Sanchez was President of the Court Martial that tried Maximilian.

Senor Rigat, President of the Cabinet of the Dominican government, has arrived here on his way to Washington to close negotiations in relation to Samana. The resignation of part of Cabral's Cabinet had been accepted, and Valverde, Curriel, and Ferdonio appointed to fill the vacancies.

Advices from the capital of Mexico to the *NYB*, have been received.

The excitement among foreigners, consequent upon the withdrawal of British Legation, still continues. Correspondence from Europe states that it is impossible that any money could be raised in the old world for enterprises in Mexico.

There was a great deal of misery, and banks were quite active in all sections. The Imperialists in Camanche were fearing the aggressions of their republican neighbors for their acts of the late revolution at Merida.

The tendency of the late revolution as far as proclaimed, is in favor of Santa Anna.

Advices from Managuera of the 18th, state that stocks of earthquakes continue there.

Intelligence from Honduras contains that Mr. McRae found the forests there so dense and the timber so valuable, that he intends to return at once to Jamaica for the means and elements

Editorial Summary.

—Wolverines are plentiful in the Township of Brock.

—A small boy was buried up in a vat of a Chicago distillery recently.

—Fenian drilling is reported to be going on in different parts of Ireland, generally at midnight.

—There are in both hemispheres at the present time about 75,000 miles of railways at work.

—Further accounts of Dr. Livingston have been received which confirm the hopes entertained for his safety.

—Died at Preston, Halifax County, Saturday evening, 14th Dec, 1867, Mrs. Wm. Boyd (colored) aged 115 years.

—They fear at Amherstburg that the cattle will go mad from want of water, and the effects of locking snow to satisfy their thirst.

—A new monthly paper, the *Canadian United Service Gazette*, is to be issued at Ottawa. The field is already well filled by the *Volunteer Review*.

—"I have turned many a woman's head," boasted a young nobleman of France. "Yes," replied Talma, "away from you."

—A crusty old bachelor says that Adam's wife was called Eve because, when she appeared, man's day of happiness was drawing to a close.

—At a tavern in London last week the following notice was exhibited: "Dissection this evening—8 o'clock," to be followed by song and recitations."

—Two fishing schooners from Eastport, Me., were wrecked at the Bay of Islands last week. The fishermen in that vicinity are suffering much distress from the severity of the weather.

—An Illinois judge is under treatment for a disease which he says was caused by wearing paper collars, into the composition of which arsenic entered.

—The *Standard Herald* says a child of Mr. John Janis, oatmeal miller, drank some boiling water from a teakettle on the 19th inst., producing inflammation of the throat of a severe type. Hope of recovery was entertained.

SUNDAY SERVICES 11 A.M. and 7 P.M.
Holy Communion Third Sunday in every
month. This church is wholly supported by
the offertory collections. SEATS FREE.
November 28th, 1887. 41-17

SPECIAL NOTICES.

R. R. R. PILLS.

Composed of vegetable extracts (prepared in vacuo),
they purify the blood, regulate the liver and purge all
corrupt and superfluous humors from the system.
One of Dr. E. H. Rous's Pills contains more of the active
principles of cure, and will set quicker on the liver,
bowels, stomach, kidneys, bladder, blood, etc., than
four or six of the ordinary common Purgative or Cal-
sart Pills sold under various names, or than ten grains
of Blue Mass.
True comfort for the aged and others afflicted with
Constipation and Pains of the Bowels.
One to three of E. H. Rous's Pills—once in 24 hours,
will secure regular evacuations from the bowels. Per-
sons who for 50 years have not enjoyed a natural stool,
and have been compelled to use enemas, have been
cured by a few doses of E. H. Rous's Pills.
Dr. Rous's PILLS CURE ALL DISEASES
of the Stomach, Liver, Bowels, Kidneys, Bladder, Nerve-
ous System, Headache, Constipation, Catarrhs,
Indigestion, Dyspepsia, Bilemiasis, Bilious Fever, In-
flammation of the Bowels, Piles, and all derangements
of the Internal Viscera. One to six boxes warranted to
effect a positive cure. Purgative, vegetable, contains no
mercury, minerals, or dangerous drugs.
Dr. Rous's Pills sold by all Druggists and Country
Merchants. Price 25 cents a box.
See Dr. Rous's Almanac for 1888. 44-37

Dr. P. Meredith, Dentist, office No. 123 West Sixth
Street, states as follows: CHICAGO, October 1, 1888.
Messrs. J. N. Harris & Co.—Gentlemen:—About one year
ago I took a cold which ran into my lungs. A violent
cough was the consequence, which increased with sever-
ity. I expectorated large quantities of Phlegm and mat-
ter. During the last winter I became so much reduced
that I was confined to my bed. The disease was attend-
ed with cold chills and rigors, and I felt that my
friends thought I was in the last stages of Consump-
tion, and could not possibly get well. I was recom-
mended to use Dr. Rous's Lung Balm.
The formula was shown to me, which induced me to
give it a trial, and I will only add that my cough is en-
tirely cured, and I am now able to attend to my business
as usual. Yours respectfully,
P. MEREDITH.
Sold by all Family Medicine dealers.

PROSPECTUS

BAY STATE MINING COMPANY,
(LIMITED.)

Capital Stock \$120,000, divided into 1,200 Shares of \$100 each.

WORKING CAPITAL \$24,000.

THIS COMPANY is duly incorporated under Cap. 28 Cons. Statutes of Canada, and is
formed for the particular purpose of developing the mineral resources of part of Lot
84 acres of land secured to the Company, and generally for carrying on such other mining
operations as may from time to time be determined upon.

A shaft has already been sunk to the depth of 37 feet, each successive foot
discussing rich new material. The lode is fully five feet wide, and in the opinion of
Dr. Otway, one of the best defined lodes yet discovered in the district. Indeed, he believes
it to be a continuation of the same lode as that at the Richardson Mine, and that it may
probably equal it in value.

Various assays have been made from rocks taken from the mine at different depths. One
by Mr. Wyckoff, from 44 lbs. ore, taken from a depth of 20 feet, yielded:
Gold, 44 grains—value per ton \$80.00
Silver, 4.17

Total value per ton \$84.17
Another by Dr. Otway, made with ore from a depth of 35 feet, yielded \$880 to the ton,
including \$50 of silver. Another still from a chemist in Boston employed by A. P. Days
of that city, made with rock from a depth of 27 feet, gave a yield of \$537 to the ton.

The average result of three other assays at depths varying from 30 to 35 feet—two of
them by Dr. Otway and one by Mr. J. McFee—was \$514 to the ton.

An offer has been received from a highly respectable firm of machinists to erect a crushing
mill and take half their pay in the Company's stock, their agent having been to Eldorado
and satisfied himself of the character of the mine. Negotiations are now in progress for
the erection of a mill, which it is hoped will be in operation within three months; so that
dividends may be looked for at an early date.

There can be no doubt now of the probable success of most of our Mining Companies, if
managed with tolerable prudence. It is well known that in Australia immense profits are
realized from their mines, though their average yield of gold per ton of ore is only \$7, while
in Nova Scotia it is only \$9 to \$10, and in California nearly the same. The return of \$19 to the
ton from the Bay State quartz in Turkey & Gilbert is therefore a sound basis to work upon,
and will undoubtedly yield large returns; and yet, as it was taken from near the surface,
it may be regarded as a mere indication of the richer deposits below. As a sample of what
may be looked for, even with a moderate amount of gold to the ton, it may be stated that
the Port Phillip Gold Mining Company, in Australia, obtained from their mine—which gives
an average of only 10 dwts. 6 grs. of gold per ton (equal to \$9.25)—the very large amount of
\$250,000 for the first half only of the present year. Again, the Empire Mine, in Nevada,
which has only a claim 20 ft. in length upon the Comstock lode, and whose quartz yielded
only \$24.50 to the ton, realized last year the enormous sum of \$480,000. Other examples
might be given from Nova Scotia and other gold countries; but every intelligent man can
make these inquiries for himself.

This Company proposes to issue at present only a very limited amount of stock, just so
much as is needed to proceed vigorously in the development of the mine, as they feel
confident that the stock must speedily rise in value; and if more funds should afterwards
be needed, an advanced price can be obtained.

The following are the Directors for the first year:

E. H. HOLTON, Belleville.	E. W. HOLTON, President.
JOHN McFEE, Belleville.	F. H. ROUS, Secretary and Treasurer.
R. E. LUND, Manager and Overseer of the Mine.	
L. McQUARRIE, Eldorado.	
J. B. LAZIER, Eldorado.	
A. HURD, Port Perry.	
DIAMOND & DICKSON, Solicitors.	
BANK OF MONTREAL, Bankers.	

Applications for shares may be made to the Secretary, to JOHN McFEE, Front Street,
Belleville, or to WILLIAM KERSTEMAN, 62 Church Street, Toronto.

To the Electors of
BALDWIN WARD

GENTLEMEN.—Feeling that during the
term I have had the honor of represent-
ing you in the Council I have faithfully dis-
charged my duty as a Councilor, I beg leave
to announce that at the ensuing election I
shall offer myself for re-election.

Before the election I shall consider it my
duty to give to you an account of my past
term of office, to explain to you the position
of the Town Affairs, and also to explain the
cause of the determination of certain Coun-
cillors and other individuals to drive me out
of the Council.

I am,
Your obdt. servant,
THOMAS HOLDEN.

How to Keep Meat Fresh.—Simply immerse it in butter milk. This will keep it for several days, when the milk should be changed, and fresh milk substituted. In this way, beef, veal, &c., can be kept for several weeks and it will be as sweet and fresh at the end of that time as when first put in. Our whole neighborhood is the receipt. The whole neighborhood is the receipt. The whole neighborhood is the receipt.

Feed Economically.—For some years past hay and grain have been unusually high in this section of the country, so much so that many farmers have sold hay and kept less stock. The result of such a practice would be felt on the farm and in the loss of profits from the sale of animals and farm products. It becomes a question of small importance how the farmer shall manage under these circumstances. We meet the question at once with the response, "Feed economically." Fodder of various kinds is yearly wasted, sufficient to feed one-tenth more stock than is now kept, and in many instances the waste might be estimated at double that amount.

There is a loss first at harvest time. Grass is badly cut, and the fodder is allowed to remain in the field until its vitality is washed out by autumn storms. Straw is profusely spread about the barn yards, when it should be used for bedding. And then again, when farmers come to feed their animals, and in the amount they give their animals, and allow much to be wasted through heedlessness.

If those who keep stock will be regular in feeding, giving only at such time as is required, they will find that a much smaller quantity than is generally supposed will keep their animals in excellent condition. Use the cutter, and mix cut feed, be it straw, poor hay or corn, with a small quantity of some kind of grain; keep your cattle well sheltered; make use of racks in which to feed; give roots well cut, and whenever it is practicable steam the fodder and cook the vegetables fed to cattle.

Don't misanthropize of and stint your creatures—keep them in flesh, and you will see the benefit in the spring.—N. H. Farmer.

PROSPECTUS OF THE ROSE MINING COMPANY OF MADOC.

Capital Stock, - - - \$25,000.
Divided into - - - 5,000 Shares.
5,000 Shares - - - \$5.00 Each.

Deposit on Subscription Twenty-five per cent.

GEO. D. WYCKOFF, A. L. MCLELLAN, JAS. CARL RITCHIE, A. I. MCLELLAN, A. BENJAMIN, JR., J. E. O'NEILL, E. H. HALE, and HUGH FARROW, JR., are the owners of the property hereinafter mentioned, and are desirous of forming a Stock Company, with the capital of \$25,000, and are to receive and take in payment for the said property \$1,250 in cash, and 3,250 shares of paid up stock of the said company. This said property is now taking proceedings for its incorporation, under cap. 23, 27-31 Vic., and have much pleasure in calling the attention of the public to the following Prospectus.

This Company is being formed for the purpose of developing the Mineral Resources of five acres of land, being part of Lot No. 10 in the 8th concession of the Township of Madoc, in the County of Hastings, situated on the main road, between two and four miles from the village of Madoc, upon which Gold and Silver have been found in paying quantities, several days having been made by Professor Wyckoff, who selected with great care this locality being not only rich in minerals, but possessing facilities for mining which give this company peculiar advantages over many others, there being on the property a high ridge or mountain of rock, in which numerous veins of gold-bearing quartz crop out, and instead of sinking shafts, (a most expensive and tedious operation), drifts can be run from the base of the ridge, cross-cutting the different veins, and giving eighty feet of back to work upon, which will furnish as much ore as could be taken out for the next twenty years, and at a cost comparatively small, no machinery being required to free the mine from water.

This Company intend, as soon as a charter is granted, to erect a mill house, with suitable machinery for reducing and separating the precious metal, thereby saving the cost of cartage to other mills, and the great expense and inconvenience incurred in having the ore reduced and the metal extracted by custom mills.

Adjoining this property is a lake from which an abundant supply of water can be obtained for all purposes.

Another great advantage in this property is, that immediately the work is commenced ore can be taken out in quantities more than sufficient to pay the working expenses and to keep the mill in operation. It will equal if not surpass any of the mines in that district, taking into consideration the richness and abundance of the ore, and the great advantages described above, it cannot but prove remunerative to those who may become interested in this Company.

DIRECTORS, PRO TEM.
GEO. D. WYCKOFF, A. A. BENJAMIN, JR., F. E. KILVER, A. I. MCLELLAN, JAS. CARL RITCHIE, JAS. EDWIN O'NEILL, E. H. HALE.

PROSPECTUS OF THE EL DORADO MINING COMPANY OF MADOC. (LIMITED.)

CAPITAL STOCK \$72,000.

Divided into 2,400 Shares of \$30 Each.

Deposit on Subscription, \$15 Per Share.

THIS COMPANY is formed, and proceedings taken for its Incorporation, under Chapter 23, 27, and 28 Vic., for the purpose of developing the mineral resources of three acres of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 15, in the 5th Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present, there are two shafts sunk on the property about 300 feet apart, one 46 feet deep, and the other 35 feet deep. There is at the present time about 500 tons of ore already mined. The owners of the property have had one ton of this quartz crushed and assayed by Scott & Taylor's Mill, which returned \$30.50 in Gold, which specimen can be seen at J. E. Ellis, on King Street.

There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore.

The projectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 825 shares of the value of \$30 each, payable one-half or \$15, as above, on subscription, and the remaining \$10 on the 1st of January, 1888. Out of the above sales, \$10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be extremely remunerative.

The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.
RICHARD SPARLING, Managing Director and Superintendent.
T. S. MCGLASHAN, of Madoc.
MAHLON BURWELL MCGREGOR, of Madoc.
T. A. MITCHELL, of Madoc.
ALFRED VICKERS, of Toronto.
J. E. ELLIS, of Toronto.

McLELLAN & McLELLAN, Solicitors. A. F. WOOD, President.
BANK OF MONTREAL, Bankers. T. A. MITCHELL, Secretary and Treasurer.

Applications for Shares received by Alderman Vicker, Yonge Street, Toronto; J. E. Ellis, King Street, Toronto, and at the office of

American Watches.

THE true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch is superior to any other. In the first place, the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the size or shape of the pieces of which it is composed, nothing wanting in their proportion, and no error in their position. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished piece. The method established in every department is the reproduction of parts by mechanical means, and this is carried out in the system of the most thorough subdivision.

By means of multiplying gauges and micrometers, tests and inspection for the detection of wear in cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together as a finished machine. Every part is found to fit properly in its place. Every pin may be pushed till it pinches, and every screw turned home, instead of always being a forced action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat of the watch is a ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by this they produce Watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but it is also a time keeper, and when repaired always as good as new.

There are different grades of finish in the different varieties of watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade mark of the Waltham Watch is guaranteed to be a good one, and nobody need be afraid to buy it.

EVERY WATCH FULLY WARRANTED.

For sale by all first-class dealers in the United States and British Provinces.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) at the rate of \$5 a year in advance, \$6 otherwise. Mail subscribers \$5 a year, \$6 for 3 months, \$10 for 6 months.

It will contain the latest telegraphic news up to the hour of going to press, made by telegraph and the New York and Montreal Markets.

Arrangements have been made with **KEELER & CONNOR** in Madoc, Bridgewater, Marston and other points, who will furnish us with early and full information respecting the Gold Regions, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., and in short, nothing will be spared to make the **DAILY INTELLIGENCER** worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 2 00
month. 10 00
Half Square, 6 months, 10 00
One Square, 6 months, 20 00
Two Squares, 6 months, 30 00
Four Squares, 6 months, 40 00
Notices of Births, 50
Do of Deaths, 50
Do of Deaths, 50

"BUSINESS NOTICES"—All matter under this heading, headed or not, in short, or long, measured by the line of solid matter.

Advertisers contracting for any space not less than half a square can have the privilege of changing their notices at any time.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

is published every Friday, Morning at 83 per annum if called for at the Office, or sent by mail; and \$3.50 if delivered by the carrier, payable in all cases in advance. \$2.00 per copy paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number of subscribers is now over 400.

With such a large and general circulation throughout this and adjoining Counties, it is a valuable medium for transmitting unsolicited advantages to advertisers.

RATES OF ADVERTISING.

Six lines and under, first insertion, 10 00
Each subsequent insertion per line, 5 00
Above six lines (per line) first insertion 0 12
Each subsequent insertion per line, 5 00
Extra Express Notices—30 cents per line
Each insertion, measured as solid matter.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 10 o'clock, noon, on Thursday in to insure delivery.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

is supplied with Power Presses, Hand Presses, and possesses every facility for the execution of every description of plate and fancy printing, at prices as low as any other establishment in the County.

The Daily and Weekly INTELLIGENCER can be had at the Book Store in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly answered.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - \$10,000,000
FIRE AND LIFE.

LIFE DEPARTMENT.
The principles on which this Company is
founded contain all the elements required
to develop the benefits of Life Insurance, and
afford every facility to intending assureds—
One of the advantages secured by those who
insure their lives with this Company is that
the outside expenditure for Management is
absolutely restricted by the Deed of Settlement
to Ten per Cent of the Net Life
Income. This most important restriction
shows that the interests of participating policy-
holders are closely watched and carefully at-
tended to by the Company. Attention is es-
pecially called to this point, as the proportion
of premiums expended for Management
must largely influence Profits
and Bonuses.

The next division of profits takes place in
1888, and all those who wish to participate in
the profits should insure at once.

M. BOWELL,

Sleeping in Church.

"They would scarcely believe him when he
told them that when in Toronto some time ago,
on one occasion saw six hundred people
sleeping in church."—Speech of Dr. Gairdner, 24th
Oct.

O'er their devoted head
While the law thunder'd
Shout'd the six hundred.
Great was the preacher's theme;
Scraw'd on was all his aim.
Wither with about our scream
Could he disturb the dream
Of the six hundred.

Terrors to the right of them,
Terrors to the left of them,
Terrors in front of them—
Hell itself blunder'd.
Of the six hundred things,
Weak-minded preachers fling
At the dumb founder'd—
Bodily he spoke and well;
All on deaf ears it fell.

Vain was the loudest yell
Volley'd and thunder'd;
For, carrying the truth—
Neither for Heaven nor Hell,
Scor'd the six hundred.

Still, with redoubled zeal,
Still he spoke on and on;
Aiding with wide appeal,
Making the pulpit reel,
Shaken and under'd—
Through which the Church's foes,
Threaten'd with endless woes,
Finally the answer rose,
From the united host (repose)
Of the six hundred.

L'Esper.
Serious of year an hour,
Too much for human power;
Prayers, too, made to match
Extemporaneous, batch,
Mildly blunder'd.

With a service of music,
Fit to turn every poor sick-
Don't tell us a Queen or Duchess
Churches that will not move
Out of the ancient groove
Through which they've founder'd,
If they will lag behind,
Still must expect to find
Hearts of such a kind
As the six hundred.

Long Dresses.

Oliver Wendell Holmes uses the following
language in reference to one of fashion's
foolish fancies:

But confound the make-believe women
we have turned loose on our streets; where
do they come from. Not out of Boston
parlor's, I trust. Why, there isn't a least
or bird that would drag its tail through
the dirt in the way these creatures do their
dresses.

Each one a Queen or Duchess
wears long dresses on great occasions,
a maid of all work or a factory girl thinks
she must make herself a nuisance by trail-
ling through the streets, picking up and
carrying about with her—hat—that's what
I call getting vulgar in your bones and
marrow.

Show over dirt is the attitude of vulgar
people. If any man can walk behind one
of these women, and see what she takes up
as she goes, and not feel ashamed, he has
got a tough stomach. I would not let one
of them into my room without serving them
as David did Saul at the cave in the wil-
derness—cut off his skirts.

Don't tell us a Queen or Duchess
sacrifices the duty of keeping all about her
sweet and clean, to the wish of making a
vulgar show. I don't believe it of a lady.
There are some things that no fashion has
any right to touch, and cleanliness is one
of these things. It is an insult to a respect-
able laundress to carry such things into
a house for her to deal with.

General—General Inter-
national News.

STONEY, November 1-11 M 8 Galaten.
with his Royal Highness Prince Alfred on
board, arrived at Adelaide early on Wed-
nesday morning, October 30th. The Prince
handed privately, and proceeded to the
Government House. His official entry into
the city took place yesterday.

The difficulties between the two Houses
of the Victoria Legislature with reference
to the passing of the Appropriation Bill
still continue. The Legislative Council
have a second time rejected the bill, on
account of its containing a grant of £20,
000 to Lady Darling, wife of Sir C. Dar-
ling, late Governor of the colony. The
Council have, however, intimated their
willingness to give ear and serious
consideration to the grant, whenever the
Assembly choose to send it up in such a
manner as not to prejudice their giving
effect to their opinions upon it.

Among the news of news lately re-
ceived from Queensland, is one which gives
hope of the existence of Leichhardt, one
of his party. Captain Abell, while
exploring the Koper close to Leichhardt's
position, heard of a solitary white man
living with the blacks, who had a very
white beard down to waist. He was out
trotting, when the Eagle was there, so Cap-
tain Abell could not get to him, but he
is endeavouring to get to his track.

Within sixteen years the two colonies of
Victoria and New South Wales have pro-
duced a supply of gold amounting in value
to \$10,000,000,000, four-fifths of which
have been the produce of Victoria alone.

The approaching departure of Sir George
Grey from New Zealand seems to be viewed

with very general regret throughout the island. Addresses have been presented to him from both houses of parliament in a character very far from being merely formal.

The association established at Hobart Town for the purpose of securing the abolition of state aid to religion, he decided to publish a small monthly newspaper to circulate its views on the subject, and to circulate 10,000 copies throughout the colony.

The Cork correspondent of *Standard's* *New Letter* writes: "We have formed an unhappy winter in Ireland. The Fenians have within the past few days become more outspoken and daring than heretofore, and I am sorry to have to record, and meeting with encouragement from men building Her Majesty's commission of the peace. Parties are going openly about levying subscriptions for Fenian objects, and this day the names of Deputies J. J. and Justices of the Peace were unwisely mentioned as throwing in their nites to the Fenian treasury."

OPENING OF THE PROVINCIAL LEGISLATURE.

SPEECH OF THE LIEUT-GOVERNOR.

TORONTO, Dec. 28.—His Excellency the Lieutenant-Governor, at 3 o'clock, p.m., this day proceeded in state to the Chamber of the Legislative Assembly, and having taken seat upon the throne, and the members of the Legislative Assembly being present, the Honourable John Stevenson then informed His Excellency that he had chosen of the Legislative Assembly had fallen upon him to be their Speaker, and he prayed for the members thereof the customary Parliamentary privileges. After which His Excellency was pleased to deliver the following

SPEECH.

Gentlemen of the Legislative Assembly:

In accordance with the provision of a statute of the Imperial Parliament for the federal union of the British North American Provinces, and for the erection of separate Local Governments in the Provinces of Ontario and Quebec, I have been deputed, in the name of Her Majesty the Queen, to open the first session of the Legislature of Ontario.

I rejoice at the opportunity which has been thus afforded to me of welcoming the representatives of the people in this city so long known as the capital of Upper Canada.

This day is the commencement of a new and important era in our political annals. We are met together under the authority of the British Crown to enter upon a more extended application of the principle of local self-government.

For years past it has been the aim and effort of Upper Canada to secure a more direct and unlimited control over our local affairs than was attainable while in Legislative alliance with another province.

Sensible of the many advantages which have accrued to both sections from this Union since its accomplishment in the year 1841, the people of Western Canada have nevertheless desired a wider and more elastic government system, which while it should strengthen and consolidate British dominion on this continent, should also afford larger opportunities for their own particular growth and expansion.

This object we have now obtained through the beneficent interposition of the mother country.

The provision for the future government of the Province is in one respect peculiar and exceptional. It confers upon you, gentlemen, the exclusive privilege of framing laws in relation to matters within your jurisdiction unaided and unchecked by the supervisory control of another chamber. It remains for you to justify by your wisdom, moderation and foresight the confidence so freely reposed in you by the Imperial Government.

You begin your legislative labours with resources at your disposal large enough to justify the hope that they will prove adequate, not only for the actual requirements of Government but also to satisfy the wants of this rapidly improving country. It will devolve upon you to consider the best and most appropriate means of husbanding the resources and of augmenting as far as possible the public wealth.

I would earnestly press upon your attention to the expediency of encouraging immigration and the occupation of our public lands, by affording to the working classes of Europe and to the young men of our own province additional inducements to settle and remain amongst us.

The enactment of a liberal homestead law with a free grant of land to bona fide settlers would, I apprehend, prove of incalculable advantage in adding to the number and quality of our resident population.

I am authorized to inform you that arrangements are being made for the speedy appointment of Arbitrators for the division and the adjustment of the debts, credits, liabilities, properties and assets of the late Provinces of Upper and Lower Canada, under the 142nd section of the British North American Act. When these gentlemen shall have completed their labours, a copy of their report shall be laid before you.

The expenses hitherto attending the establishment of a local government in this Province have been necessarily incurred upon the sole responsibility of the several heads of Public Departments appointed therein, but I have directed detailed accounts of all such expenditure to be submitted to you for your approval and sanction.

I have also caused estimates of the anticipated Revenue and Expenditure for the ensuing year to be prepared, which I commend to your careful attention, relying upon your readiness to make suitable

provision for the exigencies of the Public service within that period.

In carrying out the special objects for which you have been constituted as a Legislative body, you will also be required to bestow your most serious consideration upon such applications as may be made to you for the incorporation of companies for Provincial purposes, or for the promotion of local works and undertakings.

And it must be your endeavor whilst discharging these duties, to protect the interests of the public at large from the consequences of rash or ill-considered speculations.

In the fulfilment of these anxious and responsible duties, I have the utmost confidence in your zeal and fidelity to the trust committed to you by the Constitution, and in your loyalty and attachment to the person and government of our gracious Sovereign; but I would also beseech you always to remember that whilst your immediate functions are limited to matters of local concern, you form the most prominent and popular portion of a new born Dominion, which, I venture to hope, will ere long extend from the Atlantic to the Pacific, and be the home of a vast multitude of thriving and contented subjects of the British Crown. Your own position in this new Confederacy, weighty and influential as it now is, will hereafter become relatively of increasing magnitude, according to the degree of prudence, sagacity and foresight you may use in the management of the important interests intrusted to your care.

May the blessing of Almighty God accompany your deliberations, and make them conducive to the public welfare and to the lasting happiness of the people of Ontario.

The Condition of the South.

COTTON CULTURE—THE NEGROES.

The following extract is from a private letter from Madison Station, Mississippi:

MADISON STATION, Dec. 17, 1867.

Tell us how times are with you. Down this way money is very tight. Dulness reigns at New Orleans. Cotton is on the decline. The British have us foul on cotton. They have built up their own cotton fields and ruined ours.

They are no longer dependent on us for that staple and never will be again. They are smart, but what fools we, to be hoodwinked by them. People through this region are broke generally.

The negroes are stealing cattle, sheep, hogs, and killing them to get something to eat. The planters are all broke, and the negroes can find no employment. When turned off, their rations stop, and, having nothing to buy provisions with, they take to stealing.

But as that can't last, the negroes break from the plantations to the towns and cities. Thousands of them are without adequate shelter from the weather, and don't know where their next meal will come from.

In the towns and cities they huddle together like pigs, where, of course, morals and shame are unknown. It is estimated that the negro district from 30,000 to 50,000 will perish from hunger, exposure and destitution this winter.

And next year, what of it? Tax or no tax, there will be little cotton raised. It will no longer pay to raise cotton. I doubt if even a bounty of two and a half cents a pound, instead of a tax of that amount, would stimulate production.

It is too late. The goose that laid the golden egg has been strangled by British cunning, and the day of American cotton is past, never to return.

Many white families have left this State for Illinois and other North-western States, where there are no negroes to steal all the farm produce. Other families will follow.

A Ghastly Account.

It would appear that the full inquiry of the New Orleans massacre has not been fully disclosed. The following ghastly account has been found among the records in the office of ex-Mayor Monroe.

CITY OF NEW ORLEANS.

To T. E. Adams, Chief of Police, July 31, '68

Cash paid for hauling forty-six loads of dead and wounded from around Mechanics' Institute to the Station House at \$3 per load \$158 00

Cash paid for carrying dead from Station House to Work House Yard, eight loads at \$3 24 00

Cash paid for hauling fifteen loads of wounded from Station House to Freedmen's Hospital at \$4 60 00

Cash paid for carriage hire for self and aide during the riot 75 00

\$297 00

I certify that the above was made necessary by the unfortunate difficulty of the 30th of July at the Mechanics' Institute.

(Signed) THOMAS E. ADAMS, Chief of Police.

Ann-Maria Story was married to Bob Short—a very pleasant way of making a "story short."

PATRICK AND PATRICK.—An English paper has this story: "A very curious incident occurred yesterday in the House of Lords during the progress of the Breadalbane Peerage case. Mr. Anderson, Q. C., in alluding to one of the persons whose name had been mentioned, called him Captain Patrick Campbell. The Lord Chancellor and the Captain's name was not Patrick, but Peter. Mr. Anderson said they were convertible terms. The Lord Chancellor: 'What are St. Patrick and St. Peter the same?' Mr. Anderson: 'Yes, the names are the same.' Lord Colonsay informed the Lord Chancellor that the learned counsel was right—in Scotland Patrick was Peter, and Peter was Patrick. The Lord Chancellor said it certainly was information to him."

Montreal Time.

BELLEVILLE, MONDAY, DEC. 30.

Ontario Legislature.

The House on Saturday, after the speech was delivered, at once proceeded to business. A Bill was introduced providing for administration of oaths of office to persons appointed thereto and to Justices of the Peace. Petitions to incorporate the Toronto, Grey and Bruce Railway Company, the Toronto and Nipissing Railway Company, and Ontario College, were read. Hon. J. S. Macdonald moved that the select Standing Committee of the House for the present session be for the following purposes: 1st, On Privileges and Elections; 2d, Railways; 3d, Miscellaneous Private Bills; 4th, Standing Orders. The omission of the Committee on Contingencies created considerable discussion. Mr. Macdonald said the Government had resolved to abolish that Committee. His experience led him to believe that that Committee had no responsibility whatever—that it only led to expense and embarrassment in the appointments—that the principle was to make the Speaker and the Government responsible for all the expenses of the Legislature. Mr. McKellar, Mr. Blake, Mr. T. Ferguson and Mr. McMurich supported the appointment of a Contingent Committee. After considerable discussion the motion of Hon. John S. Macdonald was put and carried. Some resolutions respecting bribery were adopted. It was decided to consider the Address to-day. The rules of the House of Commons, so far as applicable, were made the rules of the Legislature. Respecting the franking privilege, Hon. John S. Macdonald said that members putting their names on the corners of their letters and sending them to the post office in the Parliament Building there got them stamped, and they went free. Letters and papers coming to members were also free. Some reference was made to the printing, and the House adjourned.

Quebec Legislature.

The speech of His Excellency Sir N. F. Belleau, Lieut-Governor of Quebec, was delivered to the Legislature on Saturday last. It commences by welcoming the members to the ancient city of Quebec, refers to the important interests and grave duties entrusted to them; such as the administration of justice, of public education, of the machinery of the civil and municipal government, of our public charities, of the improvement of our public domain, the development generally of our resources, of immigration, colonization, police, &c. He recommends, until after the arbitration relative to the finances of the late Provinces of Upper and Lower Canada, that no measure involving considerable expenditure should be introduced. Measures for the organization of the departments of administration, interpretation of the Statutes, &c., would be submitted. Reference is made to the importance of developing colonization, to the improvement of agriculture, the more systematic and prudent management of the funds and monies, the advancement of public education, and the encouragement of science, letters and the arts. Reference is made to the geographical position, of the Province of Quebec, and the speech closes with the following paragraph:

"Canadian by birth, having borne part in the deliberations and labours of former Legislatures and Governments, I do not need to say to you how entirely I am committed to you by my commands my respect and sympathy. I pray that Divine Providence may deign to bless your labors and to pour upon you and yours all its favors for the new year which is about to open, and during which we are to lay the foundations of the greatness and prosperity of this our Province of Quebec, so dear to all of us."

Got their Eyes Open.

The *London Times* has at length got its eyes open as to the true character of the Fenians. So long as those ruffians confined their operations to Canada it was a matter of small consequence. The affair at Ridgewood was but a Donnybrook row on a small scale, and in its estimation, Canadians were making fools of themselves by creating a fuss about such a trifling scrape. It was well enough to arrest a few of the leaders and confine them a few months in goal, but we were solemnly admonished not to hurt

a hair of their head. "Treat them with the utmost leniency," was the request of the British Government and the press of England. What mattered it if they did shoot down in cold blood twenty or thirty of Canada's noblest sons, it was simply a slight abatement of feeling, and was a matter of no great concern. Chickens sometimes come home to roost, and England is experiencing now something of the same trouble, annoyance, and outrage which Canada suffered in the year 1866. How would it look if the Canadian Parliament were to send a request to the Imperial Government to "deal leniently with those misguided men." What would the *London Times* say! And yet it would only be doing what the British Government and press did to Canada when her soil was invaded, and her young men murdered in cold blood. However, it is well that the people of Great Britain have at length got their eyes open, and it is to be hoped they will treat the leaders of the recent outrages in the same manner the Manchester murderers were served. The *London Times* of the 14th, in an editorial on the Clerkenwell outrage says:

"The time is past for clemency and forbearance. The Fenians have filled to the full the cup of wrath. In dealing with these public opinion will need rather to be restrained than incited. Ireland has suffered much at the hands of her self-constituted representatives, and never more than when she is made to appear before this world as a mother of assassins. It may be that this great crime will cause many to take the infection of Fenianism. At least, let England show that, whatever may have to be done, she will allow neither fear nor anger to sway the balance of justice."

The *Telegraph* observes that "even before the outrage of last night, there could not be two opinions as to the propriety of the step taken by the Irish Government, of prohibiting the Fenian processions." The papers generally concur in this view.

SHOOTING MATCH.—An elegant prize has been procured by the officers of the Grand Trunk and the Belleville Rifle Companies, which will be given to the best shot in the three Companies. The match will take place on New Year's Day. The prize is on exhibition at Mr. McFee's Jewellery shop.

DENTRICAL.—It will be observed by an advertisement that Mr. Relyea is determined to keep pace with every improvement in his profession. One of the latest methods of extracting teeth is by using nitrous oxide gas, under the influence of which the operation is performed without pain, and there is no danger attending its application. The machinery for generating and administering the gas is in the operating room, and is very conveniently arranged.

The testimonials of our medical gentlemen show that it is perfectly harmless. Dr. Relyea has opened a Dispensary in connection with his profession, where every article used in Dentistry is kept on hand. His laboratory is fitted up with suitable machinery, his rooms are elegantly furnished, and everything conveniently arranged for prosecuting his profession.

Telegraphic News.

BY ATLANTIC CABLE.

LONDON, Dec. 28, noon.—The Fenians seem to be unusually active all over the country. Nearly every hour in the day despatches are received by the authorities announcing either a contemplated movement by the brotherhood, or a local outbreak.

Telegrams of quite a serious nature have been received to-day from Cork, giving the details of another Fenian *coup-de-main*. Last night, about midnight, a large body of men with blackened faces, stormed the Martello tower near Cork. The guard of the tower was overcome and scattered, and the victors hastily collected together a considerable quantity of arms and ammunition and escaped with it without molestation.

The late operations of the Fenians have had the effect of rekindling the public excitement, which had nearly died out. Many improbable rumors are afloat, including one that a Fenian cruiser had been seen off the Irish coast, and was chased away by British war vessels.

A man was arrested in this city last evening on the charge of having fired the fuse which caused the recent explosion at Clerkenwell. From information in the hands of the authorities it is believed that the true culprit has at last been captured.

Commercial advices from Shanghai relative to the tea trade give the total exports of the new crop up to the 1st December at ninety millions of pounds. Green tea at Shanghai was active and firmer.

MADRID, Dec. 28.—The steamer in command of Admiral Topozoff of the Austrian navy, having on board the remains of the late Archduke Maximilian, arrived at Cadix yesterday p.m.

The Session of the Cortes commenced yesterday. In the usual speech from the Throne, Queen Isabella pledged the support of the nation to his Holiness the Pope, for the preservation of the temporal power.

PARIS, Dec. 28, evening.—In the Corps Legislatif to-day, the Bill for the re-organization of the army was passed after several amendments. M. Rouher proposed nine years' service instead of eight, which after a sharp contest was carried. There was eighty-one opposing votes.

In his speech on the proposed amendment, he called attention to the armament of the neighboring powers, and supported his plan as the only one now practicable.

The Bill is certain to become law. The Paris *Continental* to-day denounces the repudiation of Italy.

LONDON, Dec. 28, evening.—Another Fenian outrage was perpetrated to-day at Dublin. An effort was made to fire the Gasworks. The attempt was happily frustrated. Beyond the destruction of a few letters no great damage was done.

A large powder mill at Faversham, about fifty miles from London, was blown up, and utterly destroyed this afternoon. Ten persons were killed outright and a large number injured.—Cause of explosion unknown.

Second Despatch.

SOUTHAMPTON, Dec. 29, 67.—The steamer "Borussia," from New York on the 14th, has arrived.

LONDON, Dec. 29.—The steamer "Adelphi," from New York on the 14th, has arrived.

PARIS, Dec. 29.—Bourse heavy. Investments of all kinds weak, and Rentes declining.

The Papal Government offers to pay the interest of those Italian bonds which represent the old debt of the Pontifical States annexed to the Kingdom of Italy. The Italian Parliament recently refused by a decisive vote to pay the coupons on those bonds.

ANTWERP, Dec. 29.—Petroleum weak; standard 44 francs 50 centimes.

LONDON, Dec. 29.—The *London Observer* says no new extraordinary power will now be asked of Parliament by the Government for the repression of Fenian plots or disturbances.

It is expected that, owing to the prostration of commerce and trade during the last part of the year, the January returns will show a serious decrease in the amount of the receipts from revenue in the United Kingdom.

A number of Russian statesmen and diplomats have met in St. Petersburg, and are holding a conference on the Eastern question.

Despatches from Italy report that there is much political agitation in northern and southern Italy. In Naples and in the cities of Piedmont the excitement is dangerous, and fears are entertained that it may culminate in risings against the authority of the Government.

LONDON, Dec. 30, 11:15 a.m.—Consols 92½; 92½ for money; 91½ to 92 for account; Bonds 72 to 73½; Ill C 88½; Erie 45½.

LIVERPOOL, Dec. 30, 11:15 a.m.—Cotton quiet; sales 10,000 bales; middling Uplands 7½d; Orleans 7½d; shipments from Bombay since August 1st, 78,000 bales; total stock at sea designed for this port estimated at 184,000 bales, of which 70,000 bales are American.

LONDON, Dec. 30, 1:30 p.m.—Consols, Bonds and Erie unchanged; Ill C 89; markets unchanged.

LIVERPOOL, Dec. 30, 1:30 p.m.—Cotton unchanged. Corn 4½; White California Wheat 15s 2d; prices of other articles unchanged. Sugar quiet.

American Despatches.

HARTFORD, Dec. 29.—The Russian Government has made a contract with the Colt Patent Firearms Company of this city for the manufacture of thirty thousand Berdan rifles, the contract to be filled in eighteen months. One hundred revolving cannon have also been ordered by the Russian Government, to be built by the Colt Company, and the Russians also are to have some built.

NEW YORK, Dec. 30.—The *Herald's* special telegrams by the Cuba Cable state that the Legislatures of Trinidad and Antigua were in session.

Four hundred coolies had arrived at Demerara. Seven died on the voyage.

Lord Lyttelton had been given a warm welcome by the people of Jamaica.

A tidal wave and volcanic eruption had visited Grenada, destroying several houses.

The term of Governor Walker, of Barbados, had expired.

ALBANY, Dec. 29.—Last night the ice in the Hudson River between Albany and Troy broke up and commenced moving down, but its progress was arrested by the piers of the railroad bridge at this point. Large masses of ice were driven into the basin, and serious damage was threatened to the canal boats and other craft, but they were finally made fast and without mishap.

NEW YORK, Dec. 30, 1867.—The *Tribune's* Washington special says: Notwithstanding the abrupt termination of the correspondence between Secretary Seward and Lord Stanley on the "Alabama" claims, it is understood that Mr. Thornton, the new British Minister comes empowered with full authority to resume the question, with a view of effecting, if possible, an easy and amicable adjustment of the difficulty.

NEW HAVEN, Conn., Dec. 29.—John R. Goss, a senator, who committed a murderous assault on Joseph Colton, committed suicide today by hanging himself to the door of his cell.

BOSTON, Dec. 29.—Some half-dozen prominent Republicans in the town of Waltham have had a verdict rendered against them for riding two men on a rail the day after the assassination of President Lincoln. They sought to defend their course on the ground that one said he was glad that the President was dead, and the other burned him in effigy. Several women were engaged in rail riding the parties, but no action has been brought against them.

The accounts of John T. Henry, the defaulting teller of the Farmers' Bank, Boston, are found to be short \$60,000.

SAF. FRANCISCO, Dec. 28.—The severest storm for years has prevailed for two days, doing much damage to the shipping and the city. Disaster effects have been suffered in the interior also.

The mining news from British Columbia is encouraging.

The Victoria schools have been closed for want of fuel.

NEW YORK, Dec. 30.—The steamer "Deutschland," from Southampton, has arrived.

SWYAK. "Well, my boy, do you know what syntax means?" said the schoolmaster to the child of a tectonator. "Is, Sir, the dooty on spirrite."

SPECIAL NOTICES.

R. R. R. PILLS.

Composed of vegetable extracts (prepared in vacuo), they purify the blood, regulate the liver, and purge all corrupt and scurvy humors from the system.

One of Dr. Radway's Pills contains more of the active principle of cure, and will act quicker on the liver, bowels, stomach, kidneys, bladder, blood, &c., than four or six of the ordinary common Purgative, or Cathartic Pills sold under various names, or than ten grains of Blue Mass.

True comfort for the aged and those afflicted with Constipation and Flatulency of the Bowels.

One to Three of Radway's Pills—taken in 24 hours, will secure regular evacuations from the bowels. Persons who for 20 years have not enjoyed a natural stool, and have been compelled to use opium, have been cured by a few doses of Radway's Pills.

Dr. Radway's PILLS CURE ALL DISEASES of the Stomach, Liver, Bowels, Kidneys, Bladder, Nervous diseases, Headache, Constipation, Colic, Indigestion, Dyspepsia, Biliousness, Bilious Fever, Inflammation of the Bowels, Piles, and all derangements of the Internal Viscera. One to six boxes warranted to effect a positive Cure. Family vegetable, contains no mercury, minerals, or deleterious drugs.

Dr. Radway's Pills sold by all Druggists and Country Merchants. Price 5c.

See Dr. Radway's Almanac for 1868.

Dr. P. Meredith, Dentist, office No. 121 West Sixth Street, states as follows:

UNION, October 1, 1883.

Messrs. J. N. Harris & Co.—Gentlemen:—About one year ago I took a cold which settled in my lungs. A violent cough was the consequence, which increased with severity. I expected a long cure, but became so much reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhoea set in. My friends thought I was in the last stages of Consumption, and could not possibly well. I was recommended to try

Allen's Lung Balsam.

The formula was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully,

P. MEREDITH.

Sold by all Family Medicine dealers.

For Perry Davis & Son, Agents for the Dominion of Canada.

RELYEA, DENTIST.

MR. RELYEA at the close of 1887, desires to express his thanks to all who have employed him for the last twenty years—gratified for the confidence placed in his professional ability for so long a period, it is his intention to avail himself of every modern improvement to please and benefit his patrons. Owing to the gradual increase in his business, and the demand on his constant personal services at the operating chair, he has found it necessary to engage a thoroughly competent mechanical dentist, who will now have the exclusive charge of that department.

A great deduction in the price of artificial teeth has taken place in consequence of the introduction of the rubber base, and thus the means of obtaining this very necessary addition to a pleasing personal appearance has come within the reach of all.

Mr. Relyea takes pleasure in assuring those who, through fear of pain, have been deterred; that by means of the Nitrous Oxide Gas, he is daily extracting without pain; and if desirable, inserting new teeth the same day.

Testimonials to the safety, as well as the pleasing effects of this gas, are given below from the leading medical gentlemen of the Town.

TESTIMONIALS.

We the undersigned medical practitioners of the Town, in view of our knowledge of the chemical properties of the Nitrous Oxide Gas, give it as our opinion that it is a perfectly safe Anæsthetic, and do not hesitate to recommend our patients to avail themselves of its benefits in the extracting of teeth.

ROBT. STEWART, M.D. RUFUS HOLDEN, M.D. D. E. BURDET, M.D. Wm. CANNIFF, M.D. Jas. LEXER, M.D. Wm. HORS, M.D.

For the further convenience of his patients, he has now for sale the safest, best, and most agreeable tooth powder (in fact, as the ladies say, the use of it is a perfect luxury), that can be made.

He has also a lotion for strengthening the gums and purifying the breath, and a cure forague in the face, and tooth ache caused by cold.

An assortment of excellent tooth brushes, &c.—indeed, every article required in the profession.

To the Electors of BALDWIN WARD

GENTLEMEN.—Feeling that during the time I have had the honor of representing you in the Council I have faithfully discharged my duty as a Councillor, I beg leave to announce that at the ensuing election I shall offer myself for re-election.

Before the election I shall consider it my duty to give to you an account of my past term of office, to explain to you the position of the Town affairs, and also to explain the cause of the determination of certain Councillors and other individuals to drive me out of the Council.

I am,

Your old servant,

THOMAS HOLDEN.

Belleville, Dec. 12, 1887. 191d-1f

ANOTHER LOT OF THE QUEEN'S BOOK

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

No. 206

The Cheerful Heart

hat though the world to us its joys
And riches do impart.

To what the world calls wealth;
 In the soul which ne'er complains
 In sickness or in health.
 Praise God that scattered here and there
 Upon this dreary earth,
 Are those within whose hearts are found
 The attributes of worth,
 Good, gentle, kind and noble souls,
 Whose like the moonlight fair,
 Shed forth their holy brilliance

Why should we tread on thorns,
While on this earth of ours;
We cultivate a cheerful heart,
And sow the seeds of love and peace,
That may be sown in every heart,
And yield a harvest of love and peace.

Why shroud your souls in sombre c
Of pain, and woe, and sadness,
When nature teaches every one
To sport in glee and gladness?

BY E. TAYLOR.

There is no help for us. If

torches. They had been tracked and discovered, and were at the mercy of six soldiers, who surrounded the oak.

"Shall we drag out the victim?" asked one. "They have made themselves a trap of their own making it seems."

"We could not guard them till morning," said another.

"No! no! Leave them as they are; they will be safe enough for the night. We will build a fire and take comfort, if possible, until daylight; then we can carry our prisoners safe back to Aries."

They made preparations for spending the night there. Warned out with the fatigues of the day, and accustomed to rough beds and a hardy, rough, wild life, they slept soundly, despite the storm, leaving one of their number as sentinel; but the drowsiness of him also, and the souls of the soldiers were lost in slumber, while the hearts of the Christians were anxious and thoughtful. The future loomed before them dark and terrible. The agony of horror, filled each breast with forebodings, as they strove to comfort, sustain, and strengthen one another for the worst that could come. The night did not order through with all who would not apostatize were called upon to endure.

Brave men and timid women, whose hearts might quail and faces become blanched at the mere recital of cruel tortures, through the grace of God, and for the glory of his name, had, in the hour of trial, found courage given them—"grace in the time of need."

The night was wearing away. There was silence in the heart of the great oak, and silence without, where the guard were sleeping heavily. The cripple raised himself on one arm on the hard couch where he was lying.

"Hark!" he said, "hark! They are coming! they are coming!"

They listened, and they heard in the distance a sound as from some solemn, gigantic instrument of music, swelling low and then louder through the grim forest, borne far away, and then caught up by the retreating wind, growing loud and loud, and turning into one terrific crash of furious sound, starting the soldiers from peaceful dreams of rest to an awful knowledge of present danger, as the howls of hundreds of wolves rang out upon the dark night, summoning their companions to a banquet of blood.

From their place of security, the Christians looked out upon the scene of bloodshed that had already begun.

"Will you let us in?" shouted a brave, undaunted Roman soldier. "Will you let us in?"

"Alas! it is impossible," was the answer. "We could not now, and would perish ourselves in the attempt." And the hearts of the Christians were filled with sorrow and pity for the men who had been hunting their own lives like the wild beasts that were now fastening upon them.

"Climb to the boughs and save your son—he is young, and my only son," cried the sentinel; and the young man, mounting upon his father's shoulders, sprang upon the lower branch, and receiving assistance, slid through an aperture above, and stood in the midst of the little band, pale bleeding, and trembling.

"My everlasting curse upon you," shouted the father, "if you betray our sons here!"

These words were the last. Faster, thicker came the ferocious wolves; thousands came hurrying on, and the forest seemed alive, and a faint struggle against an overpowering force, the dying moans and last agony, were quenched in the yells of the ravenous beasts. The slaughter was soon ended; and five souls who had never known or believed in the Saviour of men, the Lord of compassion and mercy, were summoned to their last account.

"Praise the Lord for this signal deliverance," said the Christian guide, "for he hath been our savior. Our soul is escaped, even as a bird out of the snare of the fowler." Blessed is he that hath the God of Israel for his help.

Hidden, indeed, as it were, in the hollow of God's hand, through that long, dreadful night, daylight brought them safe escape, and through the instrumentality of the young Roman soldier, who had been saved from the wolves in so wonderful a manner, the band of Christians received free permission to worship as best suited their conscience, unmolested and undisturbed by persecution, until the fury of the war was waged against their brethren in the reign of Decius subsided. They had another cause for thankfulness and rejoicing connected with that dark night; for the young Roman soldier stated his convictions of the True Light from that time, and the convert of the Cebenna forest proved, by his life and example, a worthy and sincere follower of the "despised Nazarene."

For the *Intelligencer*.

The Penny Readings will be held on Thursday evening next, and for the remainder of the present season in the *Marble Hall*. The Committee have been obliged to make this change on account of the increased and also the difficulty of obtaining music. However, we trust that the Readings will be worthy of a liberal public patronage.

Belleville, Dec. 31st 1887.

Rich deposits of gold have been found in Arkansas.

A Paris editor has paid \$10,000 in fines since 1852.

Somebody who professes to know, advises housekeepers to grind their tea as they do their coffee.

The Parliament of Nova Scotia is summoned to meet for the despatch of business on Thursday, 30th January, 1888.

Daily Intelligencer.

BELLEVILLE, TUESDAY, DEC. 31.

To-morrow being New Year's, no paper will be issued from this office.

THE MASONIC CONCERT.—We are happy to learn that the net proceeds of the Concert and Ball on St. John's Day will amount to the handsome sum of \$158.17, which is to be given to the Ladies' Aid Society for charitable purposes.

THE RIFLE MATCH.—The prize to be shot for to-morrow, by Capt. Nunn's and Capt. Hamblin's Rifle Companies, is not to be awarded to the best shot as mentioned in our yesterday's issue, but is to be retained by the company making the best score. The match will take place at 9 o'clock a.m., at the Butts, West Belleville.

INTERESTING STATEMENT.—An interesting statement has been prepared at the United States Treasury, showing the relative cash and credit transactions during the years 1886-87. During the former years the credit business of the country was 35 per cent., and the cash 65. During the present year it will be 20 per cent. credit, and 80 cash.

ENGLISH ILLUSTRATED PAPERS.—Mr. Van Norman, bookseller, Dominion Building, has handed us a bound copy of the "Band of Hope Review for 1887" and the "British Workman for 1887." Both are illustrated papers, and are elegantly bound. Their character is too well known to need any special editorial reference. Hundreds of thousands of copies of these papers are weekly sold, and the influence they exert is both great and powerful. They would make suitable New Year's gifts to children and adult members of the household.

ADVICE TO SKATERS.—As the skating season has begun, *Hall's Journal of Health* tells those who indulge in that amusement how they may do themselves and their skates no harm. It says: "Before starting for the ice, bathe your feet in cold water, dry them perfectly and give them a good rubbing with a crash towel; put on a pair of woolen or heavy cotton stockings, and your feet will remain comfortably warm for three or four hours in the coldest weather. This will apply to any other outdoor exercise as well as skating."

ST. THOMAS.—It seems that after all the bother about St. Thomas, it is doubtful whether the Islanders will consent to be bought. The New York *Tribune* says: "They do not want to pay taxes or customs duty, and so we are called upon not only to pay \$7,500,000 for their ridiculous little quaking Paradise, but to exempt them from the burdens of citizenship while insuring them all its rights. We had better let them alone, to be rocked in the cradle of the deep, to be roasted by volcanoes, and tumbled by hurricanes, at their own sweet will. At the bare purchase price they are much too dear."

Death of Mr. Ferguson Blair.

The death of Senator Blair, President of the Privy Council, is announced in to-day's papers as having occurred yesterday, at Ottawa. No previous intimation of the illness of Mr. Blair having been given, it is presumed his death was sudden and unexpected. Mr. Ferguson Blair was the eldest son of the Hon. Adam Ferguson, of Woodhill, and took the name of Blair in 1862, on falling heir to the estate of Balthayock, in Scotland. He was born about the year 1814, and having been called to the bar of Upper Canada, he was in the year 1849 appointed Judge of the district of Wellington. He retained the office until 1848, when he resigned it to contest the county of Waterloo with Mr. Webster. The latter was declared elected by the returning officer, but he was unsuccessful on petition, and Mr. Ferguson took his seat on the 8th February, 1849, and retained it till 1854, when he was elected for the new county of South Wellington, from which he retired in 1857. In 1860 he was elected to the Legislative Council for the Brock Division, and in March, 1863, was called to the Executive Council in the Macdonald-Dorion Cabinet. He resigned on 27th May, 1863, and resumed office on the 24th July, and resigned with the rest of the Cabinet on the 19th March, 1864. During the negotiations which followed, Mr. Blair was entrusted with the task of forming a Cabinet, but failed, and remained out of office until Mr. Brown's retirement from the Coalition

Ministry, in December, 1865. Since then he has been a member of the Macdonald Cabinet. Mr. Blair possessed an ample fortune, was a man of considerable talent, and was respected and esteemed by all with whom he came in contact.

The Old Year and the New.

We stand on the threshold of another year. In a few hours more the last sand in the hour-glass of 1887 will have run out, the last mile-post of this year's journey will have been reached, the last page in the year's record written up, and the volume with its blurred pages, its unfinished plots, its queer episodes, its many-colored and peculiar incidents written with indelible ink, will be laid away on the shelf of Eternity. Laid away in the great library, which shall not be disturbed until the angel with one foot upon the land and the other upon the sea, shall proclaim that Time shall be no more. Laid away until the great day of reckoning, with no chance to remove the blot on its many-stained pages, nor change one line of the record written there. Laid away, by some mournfully, for they have squandered the golden days of the year, and as the last day dies down into a requiem of bells, the sound of them falls upon hearts like unto the dropping of the clods on the coffin-lid—they have spent their money for that which is not bread, and their time and labor for that which satisfieth not, and as the church bells toll the old year past, every sound falls upon their ears as if it were chanting the knell of departed joys, of broken vows, of lavish hours and love mispent—the Past is to them as a blackened waste, the Future a great Sahara with not a star to point the way. Laid away by others, thoughtlessly, as if they were placing a well-thumbed volume on their library, little imagining that it is the last book they will contribute towards the curious Library which the Recording Angel is gathering. Laid away by a few, thankfully, the dark clouds have been silver-lined, that the crust of the heart has been removed, and away up in the chamber one corner was found where Virtue held imperious sway. Amidst the general desolation, the hollowness and emptiness of terrestrial things, they have accumulated a store of treasure where no thief approacheth, neither moth corrupteth, and through the darkness there glimmers the radiant star, hope resumes her wonted sway, and celestial spirits point the way to the golden city of the New Jerusalem.

"Perish! O dying year,
Pass on to the ill, oblivious rear;
Take this, this bitter tear:
To those gathering waves take one drop more,
And then old year, farewell for evermore!"

Farewell old year, the strife of love, and hope, and fear, is nearly ended.

"Slunk hands before you die,
Old year, we'll dearly rue for you,
What is it we can do for you?
Speak out before you die!"

Not much. We cannot, it we would, buy back its squandered hours. Gone, gone forever, as a tale that is told. Close up the Ledger Time!

"Hark! heavy across the frozen snow
The belfry's pealing bell;
O hark, toll of soft and slow,
It is his funeral knell:
Good-bye, Old Year, to memory dear,
God rest thy bier! with many a tear
We give thee our farewell."

The past has been an eventful year.—Europe has witnessed again a fearful carnage of blood, and the signs of the times are ominous. The struggle of Garibaldi and his noble band of patriots has been temporarily ended, and in the gloom of night, whose end mortal vision cannot see, his star has set. His hopes of Rome's deliverance have been crushed by the strong arm of one who should have assisted him in his dark hour, and the chains which have bound the Romans for long years and which were well nigh sundered, have again been riveted still more closely. But only for a time. The day of her deliverance draweth nigh. The energies which have been crushed for a time cannot be utterly destroyed, and it can't be long before Rome shall belong to Italy, and the Italians be once more free.

The past has been an eventful year.—Something has evidently gone wrong in the terrestrial firmament. The fires of Old Earth, which have long been smothered, have burst out afresh, great rocks are being vomited forth, and red-hot lava is streaming in torrents from a hundred volcanic eruptions. Earthquakes have levelled towns and cities and swallowed up whole communities. Hurricanes have swept over land and sea, and engulfed in general destruction thousands of valuable lives and millions of property. There has been a grand carnival of death by a thousand agencies. There are wars and rumors of wars, and it would seem as if there was to be a general break-up of all terrestrial things. However, after a storm there is a calm, and perchance the dark clouds which overhang us may break with the dawn of the New Year, and behind a

frowning Providence we may behold a smiling face.

As for ourselves there is little to discourage. The year that has past has witnessed the advent of a new nationality, which bids fair to rival in greatness and prosperity any on this continent. We have all the elements to constitute us a powerful people, and it will be our own fault if we do not work out our own salvation. Then let us learn from experience and the future may be better than the beginning. Let us welcome the New Year with songs of gladness and rejoicing, feeling assured that the future will develop good or evil just as we resolve and act.

"The world is not so bad a world as some would like to make it;
But whether good or whether bad, depends on how we take it."

"Hark to the bells, the sweet-vocal bells,
Which do across the solemn night
Hear what an anthem of delight
With every passing moment swell,
The rapturous anthem of the bells;
They welcome the glad New Year!"

He comes, his limbs with garlands bound,
And round him, like a halo round
The dawn of childhood, and his brow
With rapturous radiance crowned.
And in his eyes Hope's dawning light
Shines like a star upon the altar.

He comes with soft and noiseless tread,
The young, the glad, the sweet New Year;
With gentle step he draweth near
To where the Old Year lieth dead.
And takes from out his lifeless hands
The glass which holds Time's shifting sands.

But thou, New Year, with greetings free
We hail thy advent—louder swell
The rapturous anthem of the bells;
With songs of joy we welcome thee
With hearts which glow with hope and cheer
We greet thy coming, glad New Year!

Ontario Legislature.

The session yesterday was chiefly occupied in discussing the Address, the reply to which was moved by Mr. Coyne, of Peel, and seconded by Mr. Greely, of Prince Edward, in speeches of considerable length. Some forty of the members wishing to define their position, had something to say upon the Address, reference to which we will make in another issue. The Address was carried and the House adjourned at two o'clock this morning until Wednesday the 8th of January.

Town Council.

MONDAY, Dec. 30, 1887.
PRESENT.—Messrs. Foster, Holden, Tannahill, Watters, McIntosh, Sutherland, and Kennedy.

In the absence of the Mayor, Mr. Brown was called to the chair.

A petition from John McIntosh, of Pickering, praying for compensation for injuries received by falling into the sliding walk into the river near Brown's Foundry, in November last, was laid over until next meeting.

Council went into Committee on Ways and Means. Capt. McIntosh in the chair. The Street Burveyor's pay list was passed. \$50 was placed to the credit of the chairman of the Poor and Sanitary Committee. The Treasurer was authorized to disburse of \$2,500 in silver at the bank possible advantage, in order to pay the indebtedness of the County.

Since the last meeting of the Council the sum of \$8000 had been paid to the Trust and Loan Company, and \$1000 to the Government.

The account for sheep killed within the town was ordered to be paid. The sum of \$100 was ordered to be paid Mr. Corby for services as Mayor during the year.

Committee rose and reported. Report adopted. On motion of Mr. Sutherland the time of returning the Collector's rolls was extended to the 15th of January.

On motion of Mr. Sutherland, seconded by Mr. Tannahill, the Town Hall was granted to the Ladies Aid Society, to be used to hold meetings for charitable purposes.

Council adjourned.

School Trustees.

MONDAY, Dec. 30, 1887.

PRESENT.—Mr. Bowell, Chairman, and Messrs. McAnnam, Thompson, Walton, Willis and Shepard.

The Chairman stated that as considerable misapprehension existed throughout the town as to the intention of the Board regarding the contemplated School, he thought it but justice to the Board and due to the town that the scheme be submitted and explained to the people. He had therefore called this meeting to consider the propriety of having a public meeting of the inhabitants for the purposes mentioned.

The members present concurred with the Chairman in the desirability of having the matter more fully understood by the people, and on motion of Mr. Willis, seconded by Mr. McAnnam, the Chairman was requested to call a public meeting in the new Town Hall School on Friday evening, January 3rd, 1888, for the purpose of explaining and discussing the Central School system.

Mr. Shepard was in favor of the Central system, but was of the opinion that by an amalgamation of the Common and Grammar School Boards, the Grammar School lot and building could be made available for the purposes of a Central School, the Grammar School to form the basis of a Central School.

If this could be accomplished it would do away with the necessity of keeping the lot lately purchased for a school, and the Grammar School building could be sold, and in order to furnish the additional accommodation required, which would materially lessen the expense.

Mr. McAnnam and Mr. Willis did not think this could be accomplished, however, desirable it would be, without some change in the law.

Mr. Shepard was anxious to find out whether it could be accomplished, and he would submit the following motion:

Moved by Mr. Shepard, That a Committee be appointed to enquire whether it would not be desirable to have an amalgamation of the Common and Grammar School Boards, with a view to making the Grammar School the basis of a Central or High School, the lot on which the Grammar School is situated being sufficiently large for the purposes of a Grammar, Central and Ward School.

Mr. McAnnam seconded the motion, which was put and carried.

The Chairman appointed as said Committee Messrs. Shepard, McAnnam, and Walton.

Some routine business was gone through with, and the Board adjourned.

To the Editor of the *Daily Intelligencer*.

SIR,—I have been looking through your Daily, and on the walls, fences and posts in Baldwin Ward, ever since the 18th day of December, 1887, expecting to see a notice signed by Thos. Holden, Esq., calling public meetings "to explain the position of town affairs, and also to explain the cause of the determination of certain Councillors and other individuals to drive him out of the Council." Why has this councillor, who is again seeking the support of the electors, and who promised to explain these things to us, not done so? I never saw him at the music publicly, and therefore confine his explanations to holes and corners in the Ward?

Another thing, Mr. Editor, is this. Have the accounts of the last few years of the town been published? I never saw them. Does the law not say the Clerk and Council shall publish the Auditor's report, and if so, why has it not been done for the last year, and I believe for the last two years? Will Mr. Holden call his meetings and explain, so that we may vote intelligently next Monday?

Your anxious, ENQUIRER.

Belleville, Dec. 31st, 1887.

Telegraphic News.

BY ATLANTIC CABLE.

LONDON, Dec. 30, 1:30 p.m.—It seems that the great powers of Europe have determined to ask of the Emperor Louis Napoleon the basis of the conference to which they have been invited by him, and through which France seeks to negotiate a treaty for the settlement of the troubles of Italy. It is stated that the liability of General Menabrea, the Prime Minister of Italy, to reconstruct his ministry is now the principal cause of the delay in perfecting the arrangements for the meeting of the conference.

PARIS, Dec. 30.—The *Figaro*, in an editorial this morning, earnestly beseeches those who assert that the conference to which the Government of France have invited the other European powers for the settlement of the Roman question has been abandoned.

CORK, Dec. 30.—Last night a gun-shop in this city was broken into by a party of eight men, and rifled of its contents. A considerable quantity of arms and ammunition was secured by the robbers, who are undoubtedly Fenians.

LONDON, Dec. 31, 11:15 a.m.—Consols 91½ to 92 for money; 92 for account; Bonds 75½; Ill C 89½; Erie 43½.

LIVERPOOL, Dec. 31, 11:15 a.m.—Cotton steady; Uplands 7½d; Orleans 7½d; stock in port 497,000 bales; other markets steady.

SOUTHAMPTON, Dec. 31, 11:15 a.m.—The steamship "New York" has arrived, en route for Bremen.

American Despatches.

NEW YORK, Dec. 30.—The steamship "Helvetia" from Liverpool on the 18th inst., Quebec town on the 19th, has arrived. News anticipated.

This evening a deputy collector and assistant attempted to seize an illicit distillery on the corner of Hudson Avenue and West Street, Brooklyn, but were assaulted by a mob, badly beaten and driven away.

John Savage, C. E. F. B., in a card says that the mischievous reports in this evening's papers relating to the selection of the new Council for a remitted Fort Brotherton, and the connection of my name, are in every particular untrue, and only calculated to throw obstacle in the way of the union so earnestly desired by all true lovers of human liberty.

VICKSBURG, TENN., Dec. 30.—Two more fires occurred here to-day. Loss \$25,000.

QUINCY, ILL., Dec. 30.—A fire on Saturday morning destroyed property valued at \$50,000.

NAUVELLE, DEC. 30.—One of the heaviest snowstorms ever known in this section is now raging.

HAVANA, DEC. 30.—Advice from Jamaica representing that a riot and speculation prevailed there in regard to the visit of the Dominican Commissioner to the United States, with the object, it was supposed, of offering the harbor of Samana for sale, but nothing definite was known as to the real intentions of the Dominican Government.

Lord Lytton continued to meet with the most cordial reception from the people.

A friend of Mr. Dickens having suggested to him a plan whereby speculation in tickets for his readings, to the disadvantage of the public, might be remedied, Mr. Dickens has decided, he hopes the difficulties will be overcome, but that the plan suggested had been tried in England and France and signally failed.

The *Tribune's* Washington special says: The statement of the public debt will be published on January 7th. It is expected there will be about \$8,000 in gold on hand at the beginning of the new year. Out of this the interest of the about \$30,000,000 of the bonds of 1867, public debt, due on the 1st proximo, the 24 years bonds of maturing on the 1st proximo, the 24 years bonds of 1867, the semi-annual interest on the bonds of 1861 and the semi-annual interest on \$500,000.

**To the Electors of
BALDWIN WARD**

GENTLEMEN,—Feeling that during the time I have had the honor of representing you in the Council I have faithfully discharged my duty as a Councillor, I beg leave to announce that at the ensuing election I shall offer myself for re-election.

Before the election I shall consider it my duty to give to you an account of my past term of office, to explain to you the

of the T. W. affairs, and also to explain the
cause of the determination of certain Con-
ciliators and other individuals to drive me out
of the Council.
I am,
Your obedt servant,
THOMAS HOLDEN.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor discoloration and a dark horizontal smudge near the bottom edge. A small dark speck is visible near the top center. The page is otherwise empty of text or illustrations.

Miscellaneous Items.

A BRAVE INDIAN.—One of our Indian regiments was fiercely attacked by a whole brigade in one of the late battles in Mississippi. The Indians, unable to withstand such great odds, were compelled to fall back about thirty or forty yards, losing to the utter mortification of the officers and men, their flag, which remained in the hands of the enemy. A brave tall Irishman, a private in the color company, rushed from the ranks across the vacant ground, attacked the squad of rebels who had possession of the conquered flag, with his musket, felled several, and returned safely back to his regiment. His bold fellow was of course immediately and gallantly praised for his gallantry. His captain appointed him to a serjeanty on the spot; but the hero cut everything short by saying: "Oh, never, never, captain!—say no more about it. I dropped my whiskey-bask among the rebels and fetched that back, and I thought I might just as well bring the flag along!"

GOT WHAT HE WANTED AFTER.—A young gent is discovered surrounded by his friends who are jesting with him regarding his attentions to a certain young lady. Young Gent.—"Boys, I'll tell you how it is. You see I care nothing for the girl; she is the only madly pocket book in the room. 'Chorus of friends.—'Ha! ha!' Second scene.—A parlor.—Time, 11 p. m. Young lady seated. Young gent rises to depart, hesitates as if doubtful, and slowly remarks:—'Miss Madam, excuse me, but you must be aware that my frequent visits, my attentions cannot be without an object.' Young lady.—'Ah yes, so I have heard, and shall only be too happy to grant what you desire.' (Takes from the table a paper parcel, and unfolding it, displays a large, old fashioned and empty money pocket book.) 'There, I have been informed, is that object. Permit me to present it to you and consider me grateful that you will have no further occasion to renew those visits and attentions.'

A correspondent, writing from St. Paul, says: "Veneration plenty. Wagon loads of slaughtered deer stand in the streets waiting for purchasers at four cents a pound. Cranberries, large and luscious, are abundant and cheap. Potatoes of enormous size and wonderful farinaceous richness are a drug in the market."

PROSPECTUS OF THE ROSE MINING COMPANY OF MADOC.

Capital Stock - - - \$25,000.
Divided into - - - 5,000 Shares.
5,000 Shares - - - \$5.00 Each.

Deposit on Subscription Twenty-five per cent.

GEO. D. WYCKOFF, A. L. McLELLAN, J. A. CARR, RITCHIE, F. E. RILEY, J. E. HALE, and HUGH FAIRGRIEVE, are the owners of the property hereafter mentioned, and are desirous of forming a Stock Company, with the capital of \$25,000, and are to receive and take in payment for the said property \$1,250 in cash, and 2,250 shares of paid up stock of the company. The said parties are now taking proceedings for its incorporation, under cap. 23, 27-28 Vic, and have much pleasure in calling the attention of the public to the above Prospectus.

This Company is being formed for the purpose of developing the Mineral Resources of five acres of land, being part of Lot No. 10 in the 8th concession of the Township of Madoc, in the County of Hastings, situated on the main road, between three and four miles from the village of Madoc, upon which Gold and Silver have been found in paying quantities, several assays having been made by Professor Wyckoff, who selected with great care this locality as being not only rich in minerals, but possessing facilities for mining which gives this company peculiar advantages over many others; there being on the property a high ridge or mountain of rock, in which numerous veins of copper-bearing quartz crop out; and instead of sinking shafts, (a most expensive and tedious operation), drifts can be run from the foot of the ridge, cross-cutting the different veins, and giving fifty feet of backs to work upon, which will furnish as much ore as could be taken out for the next twenty years, and at a cost comparatively small, no machinery being required to free the mine from water.

This Company intend, as soon as a charter is granted, to erect a mill house, with suitable machinery for reducing and separating the precious metal, thereby saving the cost of cartage to other mills, and the great expense and inconvenience incurred in having the ore reduced and the metal extracted by custom mills.

Adjoining this property is a lake from which an abundant supply of water can be obtained for all purposes.

Another great advantage in this property is, that immediately the work is commenced ore can be taken out in quantities more than sufficient to pay the working expenses, and in that respect alone it will equal if not surpass any of the mines in that district, taking into consideration the richness and abundance of the ore, and the many advantages described above; it cannot but prove remunerative to those who may become interested in this Company.

BOARDING.
MRS. MCKENZIE can accommodate a few permanent boarders; also, some daily boarders.
RESIDENCE—Pinnacle Street, opposite the market.
Belleville, Nov. 18, 1897. 1704f

PROSPECTUS OF THE BAY STATE MINING COMPANY, (LIMITED). Capital Stock \$120,000, divided into 1,200 Shares of \$100 each. WORKING CAPITAL, - - - \$24,000.

THIS COMPANY is duly incorporated under Cap. 23 Cons. Statutes of Canada, and is formed for the particular purpose of developing the mineral resources of part of Lot 12 in the eighth concession of the Township of Madoc, containing the Bay State Mine and 83 acres of land secured to the Company, and generally for carrying on such other mining operations as may from time to time be determined upon.

A shaft, has already been sunk to the depth of 37 feet, each successive foot disclosing rich and novel assays at depths varying from 30 to 35 feet—two of them by Dr. Otway and one by Mr. J. McFee—was \$514 to the ton.

An offer has been received from a highly respectable firm of machinists to erect a crushing mill and take half their pay in the Company's stock, their agent having been to El Dorado and satisfied himself of the value of the mine. Negotiations are now in progress for the erection of a mill, which it is hoped will be in operation within three months; so that dividends may be looked for at an early date.

There can be no doubt now of the probable success of most of our Mining Companies, if managed with tolerable prudence. It is well known that in Australia immense profits are realized from their mines, though their average yield of gold per ton of ore is only \$7, while in Nova Scotia it is only \$8 to \$10, and in California nearly the same. The return of \$19 to the ton from the Bay State Mine in Turkey & Gilbert's Mill is therefore a sound basis to work upon, and will undoubtedly yield large returns; and yet, as it was taken from near the surface, it may be regarded as a mere indication of the richer deposits below. As a sample of what may be looked for, even with a moderate amount of gold to the ton, it may be stated that the Port Phillip Gold Mining Company, in Australia, obtained from their mine—which gives an average of only three or four ounces per ton (equal to \$9.25)—the very large amount of \$230,000, for the first half only of the present year. Again, the Empire Mine, in Nevada, which has only a claim 30 ft. in length upon the Comstock lode, and whose quartz yielded only \$24.50 to the ton, realized last year the enormous sum of \$485,000. Other examples might be given from Nova Scotia and other gold countries; but every intelligent man can make these inquiries for himself.

This Company propose to issue at present only a very limited amount of stock, just so much as is needed to proceed vigorously in the development of the mine, as they feel confident that the stock must speedily rise in value; and if more funds should afterwards be needed, an advanced price can be obtained.

The following are the Directors for the first year:

E. H. HOLTON, Belleville.
F. H. ROUS, Belleville.
JOHN McFEE, Belleville.
R. E. LUND, Manager and Overseer of the Mine.
L. McQUARIE, El Dorado.
J. B. LAZIER, El Dorado.
A. HURD, Port Perry.

DIAMOND & DICKSON, Solicitors.
BANK OF MONTREAL, Bankers.
E. H. HOLTON, President.
F. H. ROUS, Secretary and Treasurer.

Applications for shares may be made to the Secretary to JOHN McFEE, Front Street, Belleville, or to WYCKOFF & McLELLAN, 83 Church Street, Toronto.
BELLEVILLE, December 31, 1897. 109-3m

PROSPECTUS OF THE
EL DORADO MINING COMPANY
OF MADOC.
(LIMITED).
CAPITAL STOCK - - - \$72,000.
Divided into 2,400 Shares of \$30 Each.
Deposit on Subscription, \$15 Per Share.

THIS COMPANY is formed, and proceedings taken for its incorporation, under Chapter 23, 27, and 28 Vic, for the purpose of developing the mineral resources of three acres of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 17, in the fifth Concession of the Township of Madoc, containing the celebrated Richardson Mine. At present there are two shafts sunk on the property about 200 feet apart, one 40 feet deep, and the other 35 feet deep. There is at the present time about 500 tons of ore already mined. The owners of the property have had one ton of this quartz crushed and assayed by Scott & Taylor's Mill, which returned \$35.50 in Gold, which specimen can be seen at J. E. Ellis, on King Street.

There is, no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore. The prospectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 833 shares of the value of \$30 each, payable on cash, or \$15, as above, on subscription, and the remaining \$15 on the 1st of January, 1898. Out of the above sales, \$10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be provisionally remunerative.

The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.
RICHARD MCGILL, Managing Director and Superintendent.
T. S. MCGILLASH, of Madoc.
MAILOR BURWELL MCGREGOR, of Madoc.
T. A. MITCHELL, of Madoc.
ALDERMAN VICKERS, of Toronto.
J. E. ELLIS, of Toronto.

McLELLAN & McLELLAN, Solicitors. A. F. WOOD, President.
BANK OF MONTREAL, Bankers. T. A. MITCHELL, Secretary and Treasurer.

Applications for Shares received by Alderman Vicker, Yonge Street, Toronto; J. E. Ellis, King Street, Toronto, and at the office of
WILLIAM KERSTEMAN,
83 Church Street, Toronto.
Toronto, November 20th, 1897. 7247f

CAUTION.

THE following and cheapest of the AMERICAN WATCHES (WALTHAM) have been given such a wide circulation that unscrupulous dealers years ago have been induced to imitate the same, and by selling them at a low price, to induce the public to purchase upon the popularity of the name of the genuine article. It is hereby declared that the genuine watches are made in the United States, and are of the finest quality, and are of the most reliable construction. The watches which are made in the United States, and are of the most reliable construction, are of the finest quality, and are of the most reliable construction. The watches which are made in the United States, and are of the most reliable construction, are of the finest quality, and are of the most reliable construction.

The following are the "Waltham" watches on the several grades of our manufacture:

AMERICAN WATCH CO.
APPLETON, TRACY & CO.
WALTHAM WATCH CO.
W. S. BARTLETT.
P. M. ELLERY.

HOME WATCH CO.
PENNSYLVANIA RAILROAD COMPANY.
Office of the General Superintendent,
Altoona, Pa., Feb. 1898.

GENTLEMEN:—The watches manufactured by the American Watch Co. have been in use on the Railroad for several years by our engineers, to whom the watches are of great value. There are now some three hundred of them in use on our line, and we consider them good and reliable time-keepers. Indeed, we have great satisfaction in saying your watches give us as little trouble and have worn as well as any other watches we have used. As you are well acquainted with the watches of the American Watch Co.—are guaranteed by special order, and are of acknowledged good reputation, but as a rule they never keep time as correctly, nor have they done as good service as yours.

In these statements I am sustained by my predecessor, Mr. W. H. Williams, whose experience extended over a series of years.

Respectfully,
EDWARD H. WILLIAMS,
General Superintendent,
American Watch Co., Waltham.

NEW YORK CENTRAL RAILROAD.
Locomotive Dept. W. Western Division.
GENTLEMEN:—I have no hesitation in saying that I believe the great majority of locomotive engineers have found by experience that Waltham watches are the most satisfactory of any for their use. They run with the least trouble, and are of great value in the locomotive department, and are of great value in the locomotive department, and are of great value in the locomotive department.

Yours respectfully,
CHARLES WILSON,
Chief Engineer,
Brotherhood of Locomotive Engineers,
American Watch Co., Waltham.

For sale by all first-class dealers in the United States and British Provinces.
ROBBINS & APPLETON,
New York.
ROBERT WILKES,
Toronto & Montreal.
GENERAL AGENTS.
